**ACADEMIC CALENDAR 2025/26**

# Welcome to Mount Royal University

As you plan for the academic year ahead, you're eager to make your studies a success. At Mount Royal University, we know that the definition of "success" is highly personal - it can mean different things to different students at different times in their studies.

Whether you are a new student or in your final year, our priority is to help you succeed.

Mount Royal is dedicated to creating a different kind of undergraduate education experience that emphasizes teaching and learning as much as research. One that offers a diverse scholarly community where you can thrive. One that sets the stage for your success in future studies, in the workplace and in life itself.

You'll experience personalized learning from dedicated professors who are experts in their field of study. You'll enjoy a high-quality, broad-based education that gives you a fusion of knowledge and hands-on experience. You'll learn in exceptional academic programs that meet community, industry and graduate or professional school needs. You'll gain critical thinking and citizenship skills to help make a difference in your field, in your community and in your world.

## A world of possibilities

Founded in 1910, Mount Royal is renowned for our faculty and staff's focus on student success and satisfaction. In the 2013 Canadian University Report, our students ranked Mount Royal first among mid-sized universities in the instructors' teaching style and class size categories.

## Expect support from every corner

Ask us for advice, support or tools to help you meet your academic goals.

- Student services: advising, tutoring, financial awards, career planning and more - all give you the support and resources to do well in whatever path you choose.
- Small class sizes: 99% of Mount Royal classes have 50 or fewer students, and 60% have 30 or fewer students.
- Inspiring faculty: You'll get to know your professors, and they'll get to know you. They're equally passionate about their field of expertise and about sharing their knowledge with you.
- Hands-on learning: many programs offer you hands-on and real-world experience through internships, co-op programs, directed field studies, practicums and opportunities to work alongside faculty members as they conduct research.
- Great campus life: from residences to the recreation centre, from clubs to concerts, from wellness services to intramural and varsity sports, this is an environment dedicated to making your postsecondary experience second to none, both in the classroom and beyond.

## Getting started at Mount Royal

You'll find detailed information on Mount Royal University and its programs in this calendar. Congratulations on your choice to attend Mount Royal. We look forward to helping you make your aspirations a reality.

**4825 Mount Royal Gate SW, Calgary, Alberta T3E 6K6**

# Vision

Opening minds and changing lives.

# Mission

To provide meaningful and engaged learning opportunities that create individual transformation and societal benefit.

## The Mount Royal University Calendar

This calendar will help you learn more about Mount Royal and its programs and courses. Once you have read the material in the calendar, we encourage you to visit [mtroyal.ca](http://mtroyal.ca) for further information about our academic programs, admission requirements, student services and student life at Mount Royal.

As you gather the information you need to make decisions, please keep in mind:

- As a student, you are personally responsible for keeping your individual academic records complete and accurate, and ensuring that you meet the graduation requirements of any program in which you enrol.
- Particular attention should be paid to the sections which provide detailed information about admission and registration procedures, examination policy, academic disqualification policy, general graduation requirements and grading practices.
- By applying for admission to Mount Royal, you will be agreeing to comply with the rules and regulations of Mount Royal, both as they exist and are modified or amended from time to time by the Board of Governors of Mount Royal or other persons with the authority to do so.
- Not all courses listed in this calendar will be offered in the 2025-2026 academic year. Be sure to consult the online Schedule of Classes before registering.
- Students should also refer to the Academic Schedule in the calendar which outlines significant dates and timelines, such as registration and Add/Drop deadlines, examination dates, holidays and deadline dates for fee refunds. This is also available for download as the MRUAcademic Schedule on Google.

This calendar is published once a year by the Office of the Registrar at Mount Royal. It presents a list of academic programs, courses, policies and regulations about admissions, examinations, and fees, as well as general information about Mount Royal.

THIS CALENDAR SETS FORTH AT THE TIME OF ITS PUBLICATION THE INTENTION OF MOUNT ROYAL CONCERNING ALL MATTERS CONTAINED THEREIN. MOUNT ROYAL RESERVES THE RIGHT WITHOUT PRIOR NOTICE TO DEVIATE FROM WHAT APPEARS IN THE CALENDAR, EITHER TO SERVE THE BEST INTERESTS OF THE UNIVERSITY OR BECAUSE OF CIRCUMSTANCES OR OCCURRENCES BEYOND MOUNT ROYAL'S REASONABLE CONTROL. MOUNT ROYAL EXPRESSLY DENIES RESPONSIBILITY OR LIABILITY TO ANY PERSON WHO MAY SUFFER LOSS OR WHO MAY BE OTHERWISE ADVERSELY AFFECTED BY SUCH CHANGE.

# Information for Students

## Freedom of Information and Protection of Privacy Act

Mount Royal is committed to the protection of privacy and confidentiality of staff and students. The purpose of data collection is directly related to the need for Mount Royal to administer the institution/student relationship.

The personal information that students provide when applying for Mount Royal programs and courses is collected under the *Post-Secondary Learning Act* (s. 65) and the *Freedom of Information and Protection of Privacy Act* (s. 33 a & c). Personal information is protected by Alberta's *Freedom of Information and Protection of Privacy Act* and can be reviewed on request. If you have any questions about the collection or use of this information, please contact the **Office of the Registrar** at 403.440.3435.

Only a student's name, whether or not s/he is registered and the credential awarded (i.e., degree, applied degree, diploma, certificate, etc.) are defined as the student's public record. The public record can be kept confidential by submitting that request in writing to [studentrecords@mtroyal.ca](mailto:studentrecords@mtroyal.ca). All other information is considered confidential and will be used and disclosed in accordance with privacy legislation.

Mount Royal may also receive personal information from other relevant sources including, without limitation, secondary schools, other colleges, universities and other institutions previously attended and third-party services and test score providers where the items collected form a part of the admission process to a Mount Royal program.

Data collected by Mount Royal is used for a variety of purposes such as those detailed below. Individuals' information will only be collected, used and disclosed in accordance with privacy legislation.

## Academic Administration

Aggregate information (i.e., information that does not identify an individual student) on admission, registration, other activities related to attending courses of instruction, academic standing and graduation will be used for statistical, program evaluation and institutional research purposes by

Mount Royal. Aggregate information may also be disclosed to other post-secondary educational institutions as well as the provincial and federal governments for similar purposes. Admission information will form part of the student record which will be used to record academic standing, administer awards and financial aid, authorize Library access and produce graduation lists.

## Administration of Mount Royal Academic Support Services

An individual's information on admission, registration, academic standing and graduation may be disclosed and used for the routine administration of Mount Royal academic support services including but not restricted to Student Affairs, Career Services, Student Community Standards, Student Learning Services, Access and Inclusion Services, Student Counseling, Iniskim Centre, Academic Advising and Financial Services.

## Administration of Mount Royal Non-Academic Support Services

An individual's information on admission, registration, academic standing and graduation may be disclosed and used for the routine administration of Mount Royal services including but not restricted to Student Community Standards, the Residence Life Program, Recreation, Security Services, Parking Services and Alumni Relations.

## Scholarship and Financial Aid

Personal information submitted on scholarship and bursary applications will be used to determine an individual's eligibility for an award and for contact purposes. Mount Royal also uses student personal information already collected, including but not limited to grades, to evaluate and nominate students to receive financial awards. Limited personal information is disclosed to the Government of Alberta (Student Aid Alberta) to verify eligibility concerning scholarships and other funding opportunities on behalf of students in accordance with grant funding agreements. In the event an award is given, personal information will be used for taxation purposes.

## **Marketing and Recruitment**

Aggregate information on admission, registration, activities related to attending courses of instruction, academic standing and graduation may be used for promotional or recruitment activities.

## **Cooperation with Students' Association (SAMRU)**

Mount Royal also collects information on behalf of the Students' Association of Mount Royal (SAMRU) for the purpose of membership administration, elections and the administration of student benefit plans. Students should contact the SAMRU office for additional information.

## **UPass Program - Calgary Transit**

Information Mount Royal collects is shared with The City of Calgary in accordance with information-sharing agreements to administer the UPass Program on behalf of students in collaboration with Calgary Transit.

## **Disposal of Information**

All documents submitted to support admission become the property of Mount Royal and will not be returned.

## **Status of Minors**

In the absence of specific provincial legislation and consistent with current practice in other post-secondary institutions in Alberta, information pertaining to a minor who is registered at Mount Royal will only be used and disclosed in accordance with privacy legislation.

# Academic Schedule

## Fall 2025 Semester

Apply for Early Admission (applications are accepted ongoing until August 31 or until the program is declared full)	October 1, 2024 - February 1, 2025
Fall registration access dates posted - check MyMRU	March 3, 2025
Continuing student Fall registration open - check MyMRU	March 10, 2025
New student Fall registration open	April 7, 2025
All transcripts/official documents for admitted students due	August 1, 2025
Last day to add name to Fall course Waitlist	August 13, 2025
Full fees for Fall semester due (registered students only)	August 18, 2025
First day of Fall semester	September 2, 2025
New Student Orientation	September 2-3, 2025
First day of classes	September 4, 2025
Last day to adjust registration (Add/Drop) with full refund (less deposit/cancellation fee)	September 12, 2025
Full fees for Fall semester due	September 12, 2025
Last day to be re-instated for Fall semester	September 29, 2025
The National Day of Truth and Reconciliation	September 30, 2025
Fall reading break	October 14-17, 2025
Final examination schedule posted	October 27, 2025
Awards Application Opens for 2026-2027 academic year	November 1, 2025
25% Formal evaluation feedback deadline	November 6, 2025
Last day to withdraw from a course or program with an award of "W" grade(s)	November 21, 2025
50% Formal evaluation feedback deadline	December 9, 2025
Last day of Fall semester classes	December 9, 2025
Fall semester final examination period*	December 11-22, 2025
Fall semester ends	December 22, 2025
Fall 2025 final grade entry deadline	January 5, 2026

## Winter 2026 Semester

Apply for Early Admission (applications are accepted ongoing until December 20 or until the program is declared full)	October 1, 2025 - November 1, 2025
Fall/Winter Registration Access Dates become available	March 3, 2025
Continuing student Winter registration open - check MyMRU	March 10, 2025
New student Winter registration open	November 1, 2025
All transcripts/official documents for admitted students due	December 1, 2025
Last day to add name to Waitlist	December 15, 2025

First day of Winter semester	January 5, 2026
New Student Orientation	January 5, 2026
First day of classes	January 6, 2026
Last day to adjust registration (Add/Drop) with full refund (less deposit)	January 14, 2026
Full fees for Winter semester due	January 14, 2026
Last day to be re-instated for Winter semester	January 30, 2026
Winter reading break	February 17-20, 2026
Last day to apply to graduate for Spring Convocation	February 28, 2026
Awards Application Closes for the 2026-2027 academic year	March 1, 2026
Final examination schedule posted	March 2, 2026
25% Formal evaluation feedback deadline	March 9, 2026
Last day to withdraw from a course or program with an award of "W" grade(s)	March 20, 2026
50% Formal evaluation feedback deadline	April 13, 2026
Last day of Winter semester classes	April 13, 2026
Winter semester final examination period*	April 15-25, 2026
Winter semester ends	April 25, 2026
Winter final grade entry deadline	April 29, 2026

## Spring 2026 Semester

First day to apply for new students	October 1, 2025
Spring registration access dates posted - check MyMRU	March 2, 2026
Continuing student Spring registration open - check MyMRU	March 9, 2026
New student Spring registration open	March 23, 2026
Last day to add name to Waitlist	April 15, 2026
All transcripts/official documents for admitted students due	April 15, 2026
Last day to apply to attend Spring Convocation	May 1, 2026
First day of classes	May 4, 2026
Last day to adjust registration (Add/Drop) with a full refund (less deposit)	May 7, 2026
Full fees for Spring semester due	May 7, 2026
Last day to be re-instated for Spring semester	May 19, 2026
Final examination schedule posted	May 27, 2026
25% Formal evaluation feedback deadline	June 1, 2026
Last day to withdraw from a course or program with an award of "W" grade(s)	June 5, 2026
Indigenous Honouring Ceremony	June 9, 2026
Spring Convocation	June 10-12, 2026
50% Formal evaluation feedback deadline	June 15, 2026
Last day of Spring semester classes	June 15, 2026

Spring semester final examination period*	June 17-19, 2026
Spring semester ends	June 19, 2026
Spring 2026 final grade entry deadline	June 24, 2026

## Summer 2026 Semester

Summer registration access dates posted - check MyMRU	March 2, 2026
Continuing student Summer Registration open - check MyMRU	March 9, 2026
Last day to add name to Waitlist	June 15, 2026
First day of classes	July 6, 2026
Last day to adjust registration (Add/Drop) with a full refund (less deposit)	July 9, 2026
Full fees for Summer semester due	July 9, 2026
Last day to be re-instated for Summer semester	July 20, 2026
Final examination schedule posted	July 22, 2026
25% Formal evaluation feedback deadline	July 31, 2026
Last day to withdraw from a course or program with an award of "W" grade(s)	August 7, 2026
50% Formal evaluation feedback deadline	August 17, 2026
Last day of classes	August 17, 2026
Summer semester final examination period*	August 19-21, 2026
Summer semester ends	August 21, 2026
Summer final grade entry deadline	August 26, 2026

## Holidays

Labour Day	September 1, 2025
The National Day of Truth and Reconciliation	September 30, 2025
Thanksgiving Day	October 13, 2025
Remembrance Day	November 11, 2025
Christmas and New Year's closure (Refer to the Recreation Center website for hours and closures.)	December 25, 2025 - January 1, 2026
Family Day	February 16, 2026
Good Friday	April 3, 2026
Easter Monday	April 6, 2026
Victoria Day	May 18, 2026
Canada Day	July 1, 2026
Calgary Stampede Parade morning	July 3, 2026
Heritage Day	August 3, 2026

\*Students must be available for final examinations up to the last day of the examination period as specified in the Academic Schedule.

*The University reserves the right to adjust the calendar, as required.*

# Admission

## General Admission Requirements

### General Information

The Admission Requirements in this section apply to admission for ministerially-approved programs, however, standards and criteria for admission to a certificate, occupational, academic upgrading and ministerially-approved non-credit options may be established at the program level and can vary from the University standards and criteria for admission stated in this section.

The University has both a General Admission Policy as well as specific admission requirements for each undergraduate program. General Admission Requirements can be found in this section. In addition, all applicants must demonstrate English Language Proficiency for the purpose of admission if their First Language is not English (meaning primary language learned, used as a child and still understood). Program-specific admission requirements can be found in the program section of this calendar. See Academic Faculties & Programs.

Admission to Mount Royal University is competitive and as such, admission will be granted to those applicants who have the highest Competitive Admission Average based on the Conditional Admission criteria for each Admission Category indicated below.

Final and official transcripts are required from all high school and post-secondary institutions regardless of the level attained for all Admission Categories.

For some programs, applicants may be required to participate in Non-Academic Criteria. See Admission Requirements for each program found in the Academic Faculties & Programs section.

## Admission Categories

There are three Admission Categories for admission to the University:

- High School Admission Category
- Post-secondary Admission Category
- Mature Admission Category

The Admission Category that the applicant will be considered under will be determined by the University on the following basis:

### 1) High School Admission Category

Applicants will be considered in the High School Admission Category, if the applicant is currently in high school or has left or completed high school, but has not completed sufficient post-secondary courses to be considered in the Post-secondary Admission Category. Applicants must present five appropriate Grade 12 Subjects (or their equivalents) with no grade below 50%. Reporting of high school courses is required to ensure successful completion of the specific high school course requirements for the applicant's program of study as indicated in the Admission Requirements for each program found in the Academic Faculties & Programs section of this calendar and to provide grade information required for consideration for Conditional Admission - see below.

### Conditional Admission

The Competitive Admission Average for Conditional Admission will be calculated on the two highest self-reported or final grades (as determined by the University) from the list of Grade 12 Subjects in Group A. Verification of self-reported grades (where permitted) may be required. Equivalent post-secondary courses may be substituted for required high school Subjects. Post-secondary courses used for admission to a program may also be applied to program graduation requirements, depending on the applicability of the course to the curriculum, the standard of performance achieved and the time limits of the program.

For some programs, applicants may be required to participate in Non-Academic Criteria. See Admission Requirements for each program found in the Academic Faculties & Programs section of this calendar.

### Final Admission

Final admission is based on verification of admissibility once all final, official transcripts, including all previous high school and post-secondary coursework, have been received and reviewed and all conditions of the applicant's admission have been met. Unless a specific (higher) admission average is

required as indicated in the Admission Requirements for each program found in the Academic Faculties section of this calendar, high school applicants are required to have an overall admission average of 65% for degree programs and 60% for diploma programs and appropriate non-credential offerings on five appropriate Grade 12 Subjects and remain in good academic standing if currently enrolled in any post-secondary coursework. Official transcripts must include final grades for all Subjects required by the program as indicated in the General Admission Requirements and the Admission Requirements for each program and be received by **Aug. 1** for admission to the Fall Semester or by **Dec. 1** for admission to the Winter Semester.

## 2) Post-secondary Admission Category

Courses presented for admission must be from a recognized post-secondary institution and must be transferable courses as determined by the University. Applicants will be considered in the Post-secondary Admission Category, if they have completed four post-secondary courses (minimum 12 credit hours) by **Dec. 31** and will have completed eight post-secondary courses (minimum 24 credit hours) by **June 30** for admission to the Fall Semester or will have completed eight post-secondary courses (minimum 24 credit hours) by **Aug. 31** for admission to the Winter Semester.

### Conditional Admission

The Competitive Admission Average for Conditional Admission will be calculated based on the four most recently completed courses (minimum 12 credit hours) by **Dec. 31** for the Fall Semester or the eight most recently completed courses (minimum of 24 credit hours) by **Aug. 31** for the Winter Semester. Official transcripts showing all post-secondary courses completed by these dates are required to be considered for Conditional Admission. Post-secondary courses used for admission to a program may also be applied to program graduation requirements, depending on the applicability of the course to the curriculum, the standard of performance achieved and the time limits of the program.

All final, official high school transcripts are also required by Mount Royal University. Reporting of high school grades is required to ensure successful completion of the specific high school course

requirements for the applicant's program of study as indicated in the Admission Requirements for each program found in the Academic Faculties section of this calendar. Equivalent post-secondary courses may be substituted for required high school subjects.

For some programs, applicants may be required to participate in Non-academic Criteria. See Admission Requirements for each program found in the Academic Faculties & Programs section of this calendar.

**Note: Students who have been Required to Withdraw from another Post-secondary institution for academic reasons should refer to (Re)-Admission to the University following a Requirement to Withdraw.**

### Final Admission

Final admission is based on verification of admissibility once all final, official transcripts, including all previous high school and post-secondary coursework, have been received and reviewed and all conditions of the applicant's admission have been met. Unless a specific (higher) admission average is required as indicated in the Admission Requirements for each program found in the Academic Faculties section of this calendar, post-secondary applicants are required to have a minimum of 2.00 Grade Point Average (GPA) on the eight most recently completed post-secondary courses (minimum 24 credit hours).

Official transcripts must include final grades for all Subjects required by the program as indicated in the General Admission Requirements and the Admission Requirements for each program and be received by **Aug. 1** for admission to the Fall Semester or by **Dec. 1** for admission to the Winter Semester.

## 3) Mature Admission Category

Applicants will be considered in the Mature Admission Category if they do not meet the requirements associated with the High School Admission Category and have not completed sufficient courses to be considered in the Post-secondary Admission Category, and are 21 years of age by **Sep. 1** for the Fall Semester or **Jan. 1** for the Winter Semester to which they are applying. All official high school and post-secondary transcripts are required regardless of the level attained. Reporting of high school courses is required to ensure successful completion of the

specific high school course requirements for the applicant's program as indicated in the Admission Requirements for each program found in the Academic Faculties & Programs section of this calendar and to provide grade information required for consideration for Conditional Admission.

### Conditional Admission

The Competitive Admission Average for Conditional Admission will be calculated on the two highest final grades from the list of Grade 12 Subjects in Group A. Equivalent post-secondary courses may be substituted for required high school subjects. Post-secondary courses used for admission to a program may also be applied to program graduation requirements, depending on the applicability of the course to the curriculum, the standard of performance achieved and the time limits of the program.

For some programs, applicants may be required to participate in Non-academic Criteria - see Admission Requirements for each program found in the Academic Faculties & Programs section of this calendar.

### Final Admission

Final admission is based on verification of admissibility once all final, official transcripts, including all previous high school and post-secondary coursework, have been received and reviewed and all conditions of the applicant's admission have been met. Mature applicants are required to remain in good standing if currently enrolled in any post-secondary coursework.

Official transcripts must include final grades for all Subjects required by the program as indicated in the General Admission Requirements and the Admission Requirements for each program and be received by **Aug. 1** for admission to the Fall Semester or by **Dec. 1** for admission to the Winter Semester.

### Repeated Courses

When an applicant presents the same course with more than one grade (i.e. the course has been repeated), the higher grade shall be used for evaluating admissibility in all Admission Categories.

## Admission to Non-Credential Offerings

### University Entrance Option

University Entrance Option is intended for students who wish to pursue a baccalaureate degree or diploma but do not currently meet the Admission Requirements and/or Competitive Admission Average for their intended program. Admission is competitive and applicants are required to meet specific course and grade requirements. Applicants will be considered in the High School or Mature Admission Categories only. Applicants who have completed four or more post-secondary courses by **Dec. 31** for the Fall Semester or by **Aug. 31** for the Winter Semester are not eligible to be considered for admission to the University Entrance Option.

A student is limited to a maximum of 30 credits (typically ten, three-credit courses) in the University Entrance Option and Open Studies combined. Any awarded grade (including 'F' grades) will count towards the limitation but withdrawals will not. Refer to the University Entrance Option section in this Calendar for more information on admission to the University Entrance Option and to a degree/diploma program following study in the University Entrance Option.

### Open Studies

Open Studies is intended to remove many of the significant barriers inherent in a competitive admission process by providing opportunities for a variety of students to pursue academic courses outside of degree, diploma or certificate programs. A student is limited to a maximum of 30 credits (typically ten, three-credit courses) in Open Studies and the University Entrance Option combined. Any awarded grade (including 'F' grades) will count towards the limitation but withdrawals will not. Refer to Open Studies section in this Calendar.

### Admission of Indigenous Applicants

Indigenous applicants may be admitted under two admission routes:

Indigenous applicants will qualify under the general

admission route if they meet all Admission Requirements and the Competitive Admission Average for the specific program.

Indigenous applicants may qualify under the special consideration for designated seats through a program-specific Indigenous admission target if they:

1. self-identify as an Indigenous applicant on the Application for Admission
2. meet the definition of an Indigenous applicant
3. meet the minimum Admission Requirements as indicated in the General Admission Requirements for the University, as well as any program-specific admission requirements

Designated seats, through program-specific Indigenous admission targets, will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during Early Admission **Oct. 1 - Feb. 1**. Designated seats will be held until July 15 for the Fall Semester, at which time they will become available for other applicants.

## Indigenous Applicant Definition

For the purpose of the application and admission process, an Indigenous applicant is defined as a Canadian who is a Status Indian/First Nations, Non-Status Indian/First Nations, Métis, or Inuit.

## Appropriate Grade 12 Subjects

Applicants must have the required Subjects for their intended program of study as specified within the Admission Requirements for each program found in the Academic Faculties & Programs section of this calendar. The additional courses that may be presented for evaluation of admissibility include the following courses from Groups A, B and C. Equivalent post-secondary courses as determined by the University may be substituted for required high school Subjects.

## High School Admission Category

### Degree programs

Specific courses required by the program must be included in the five subjects below.

1. English Language Arts 30-1
2. Group A course
3. Group A course
4. Group A or B course
5. Group A, B or C course

### Diploma programs

Specific courses required by the program must be included in the five subjects below.

1. English Language Arts 30-1
2. Group A course
3. Group A, B or C course
4. Group A, B or C course
5. Group A, B or C course

## Post-Secondary Admission Category

Specific courses required by the program must be presented for admission.

## Mature Admission Category

Specific courses required by the program must be presented for admission.

1. English Language Arts 30-1
2. Group A course

## University Entrance Option - Non-credential

1. Group A course
2. Group A course
3. Group A course
4. Group A or B course
5. Group A, B or C course

### Group A Courses:

- English Language Arts 30-1
- Mathematics 30-1 (or Mathematics 30-2 if accepted by the program)
- Mathematics 31
- Biology 30
- Chemistry 30
- Physics 30
- Science 30
- Aboriginal Studies 30\*
- Social Studies 30-1
- French 30, French 31, French Language Arts 30, Français 30

- All other Languages 30

\*Aboriginal Studies 30 (five credits) can be used in lieu of Social Studies 30 - 1 to meet a program-level Admission Requirement

#### Group B\*\* Courses:

- Art 30
- Art 31
- Computer Science 3 or 4 (CTS Advanced)\*
- Drama 30
- Music 30
- Physical Education 30
- Religious Studies 35
- Social Studies 30-2

\*\* Courses must be five credits.

#### Group C Courses:

- Other five-credit Grade 12 subjects or a combination of two three-credit Grade 12 subjects
- Five credits of Advanced Career and Technology (CTS) courses

#### Notes:

- Special Projects 30 cannot be used for admission.
- Applicants cannot use two courses from the same Subject area for the purpose of admission with the exception of Mathematics 30-1 or 30-2 and Mathematics 31.
- More than one language at the 30 level can be used to fulfill Group A requirements. (E.g. French 30-3Y and Spanish L&C 30-6Y).

## High School Matriculation Equivalents

Mount Royal University academic upgrading courses may be used in lieu of Alberta Grade 12 (30-level) Subjects for the purposes of admission to the University and many other post-secondary institutions in Alberta. It is important to check with the institution directly to confirm the use of any of these courses within the admission process at other post-secondary institutions in Alberta.

### Mount Royal University Upgrading Course Corresponding Alberta High School Course

\* Indicates course has a prerequisite.

## Notification of Admission Status

Significant decisions regarding the outcome of the admission evaluation will be communicated by email to the email address provided on the application for admission. The University will not be responsible for emails sent to incorrect email addresses or for missed deadlines due to an applicant's failure to report a change of email address or to have supporting admission documents delivered to the University by the dates required.

A printed letter of admission can be provided upon request by contacting the Admission and Recruitment office [aro@mtroyal.ca](mailto:aro@mtroyal.ca).

# Application Timelines

## Fall Semester

### Early Admission: October 1 - February 1

To be considered for Early Admission, the Application for Admission with self-reported courses and/or final, official high school transcripts and final, official post-secondary transcripts must be received at Mount Royal by **Feb. 1**.

### Ongoing Admission: February 2 - until the program is declared full

Applicants who submit their Application for Admission with self-reported courses and/or final, official high school transcripts and final, official post-secondary transcripts on or after **Feb. 2** will be considered on an ongoing basis until the program is declared full. Programs will be removed from the online application when they are declared full.

## Application Deadlines

For application deadlines for specific programs, refer to the Admission Requirements for each program found in the Academic Faculties & Programs section of this calendar. If no deadline is specified, applications will be processed until the program is declared full. Some programs may continue to accept applicants until **Aug. 31**.

For programs with a specific application deadline, all documents as specified under Early Admission and Ongoing Admission above, must be received by the application deadline for that program.

International Student Application Deadline: April 1\*

International Student Document Deadline: May 1\*

\*Exception: programs with an application deadline of February 1 - all applications and supporting documents must be received by this date from all applicants (domestic and international)

## Winter Semester

Check **Programs Offered** or the online Application for Admission to determine which programs are accepting applications for the Winter Semester as the list of programs is limited and may vary from year to year.

### Early Admission: October 1 - November 1

To be considered for Early Admission, the Application for Admission and final, official high school transcripts and final, official post-secondary transcripts must be received at Mount Royal by **Nov. 1**.

### Ongoing Admission: November 2 - until the program is declared full

Applicants who submit their Application for Admission and/or final, official high school transcripts and final, official post-secondary transcripts on or after **Nov. 2** will be considered on an ongoing basis until the program is declared full. Programs will be removed from the online application when they are declared full.

## Application Deadline

Applications will be processed until the program is declared full. Some programs may continue to accept applicants until **Dec. 20**.

## International Students (Study Permit Applicants)

There are two categories of international applicants:

1. Applicants residing and applying from outside Canada. This type of applicant may be considered for admission to the Fall Semester only.
2. Applicants presently living or studying in Canada at the University or another institution. This type of applicant may be considered for admission to the Fall Semester or the Winter Semester (depending on program availability).

For applicants applying from outside of Canada with the exception of citizens of the United States, the Application for Admission and all supporting documentation including all final, official high school, and post-secondary transcripts and evidence of meeting the English Language Proficiency (Institutional) requirements must be received at Mount Royal by **May 1** for admission to the Fall Semester. This is to allow time to process your application and to provide sufficient time to obtain a study permit. This does not include applications to programs with an application deadline of **Feb. 1**.

**Admitted international students are solely responsible for all arrangements relating to their immigration status and entry into Canada.**

## English Language Proficiency (Institutional) Requirement

The primary language of instruction and communication at Mount Royal is English and it is essential that all students have proficiency in the areas of reading, writing, listening and speaking in the English language to be successful in their studies. All applicants for whom English is not their First Language (meaning primary language learned, used as a child and still understood) must satisfy two separate and distinct English requirements for admission to the University:

1. Applicants must have successfully completed the English course required for admission to their intended program of study (or equivalent); and
2. Applicants must demonstrate proficiency in English in the areas of reading, writing, listening and speaking.

An applicant can demonstrate English Language Proficiency for the purposes of admission in one of the following ways:

1. Successful completion of the equivalent of two years of full-time study (minimum of three courses per semester excluding English as an additional language course) in an English-language secondary or post-secondary institution\* or a combination of the two. Study must have been in an English-speaking country\*\* as recognized by the University and include the successful

- completion of English Language Arts 30-1 (or equivalent).
2. Successful completion (with a grade of B- [80%] or better) of the highest level of Academic English (Level 3 Advanced) or LEAP 4 Low Advanced/Advanced taken at the University.
3. Presentation of the **Test of English as a Foreign Language (TOEFL iBT)**\*\*\* both home or paper versions with an overall minimum score of 86 and a minimum score of 20 in each of the four testing sections. 1.800.468.6335
4. Presentation of the **International English Language Test (Academic IELTS including Academic Online)**\*\*\* with an overall minimum score of 6.5 (with a minimum score of 5.5 in each band).
5. Presentation of the **Canadian Academic English Language Assessment (CAEL)**\*\*\* with an overall minimum score of 70 (with a minimum score of 60 in each band).
6. Presentation of the **Michigan English Test (MET, formerly MELAB)**\*\*\* with an overall minimum score of 85 (must include the oral component with a minimum score of 3).
7. Presentation of the **Pearson Test of English Academic (PTE Academic, including Academic Online)**\*\*\* with an overall minimum score of 58 (with a minimum score of 55 in each area).
8. Presentation of the **Cambridge Assessment English (CAE)**\*\*\* English B2 First, C1 Advanced, or C2 Proficiency with a minimum score of 176.
9. Presentation of the Can TEST with an overall minimum score of 4.5.

### Notes:

\* Courses must be from a recognized post-secondary institution and must be transferable courses as determined by the University.

\*\* List of English-speaking countries for the purpose of this ELP requirement.

\*\*\* All test results must be "official" meaning they must be issued by the institution/organization directly to Mount Royal University in either print or digital format. IELTS, PTE and CAEL test results can be electronically downloaded by Mount Royal University when applicable information required to download is provided by the applicant.

## Limitations on Enrolment

Enrolment in University programs and courses is limited to the number of students who can be accommodated within available resources while maintaining the quality of education. As a result, all programs have a fixed capacity. All students who have been issued a letter of acceptance will be required to pay a \$425 non-refundable Tuition Deposit by the specific date indicated in their (conditional) offer of admission. The deposit will apply toward tuition and fees for the semester to which the student is admitted. An offer of admission is valid only for the semester indicated on the offer letter. Failure to pay the Tuition Deposit by the required date will result in cancellation of acceptance and the vacancy created will be offered to another qualified applicant.

Program admission waitlists will be formed where required. Applicants whose name is placed on a waitlist may be notified at any point in the admission cycle if a space in the program becomes available. If the applicant does not gain admission by the first day of classes for the semester to which he or she has applied, the waitlist will not be carried forward to the next semester and the applicant must reapply to be considered in a subsequent semester.

Registration in specific courses is subject to the availability of those courses at the time the student registers. Delays in registering for a program may result in limited availability of some or all courses.

## Admission Deferral

Applicants offered admission into an undergraduate credit program may request a one-time deferral for up to one year. To be eligible for consideration for a deferral, the applicant must:

1. Accept the offer of admission and pay the Tuition Deposit.
2. Meet the Final Admission criteria for the initial admission offer.
3. Meet any Admission Requirements that may have been implemented for the new semester of admission.
4. Submit the Request for Admission Deferral Form by **Aug. 15** for the Fall Semester or by **Dec. 15** for the Winter Semester outlining the reasons for the request and including the

appropriate supporting documentation such as:

- a doctor's letter that explicitly states that a physical or psychological condition makes it impossible to attend the University for the specified time period;
- proof of intended participation in an exchange or volunteer program with clear required timelines; or
- Proof of study permit delay (but not denial) including proof of timely submission of a completed application for a study permit to study in Canada.

If the admission deferral is approved, the applicant may not attend any high school or post-secondary institution during the period of deferred admission. The University has the right to refuse any request and there is no appeal process.

## Re-Admission to the University

Students are permitted to interrupt their studies for a maximum of six consecutive semesters (including the Spring and Summer semesters) and return to the same program of study. Students who have interrupted their studies for a longer period of time must apply for admission to a semester that has an intake for their program (normally Fall Semester), complete the application procedures in accordance with the application timelines, pay the non-refundable application processing fee, and be admitted upon each return. To qualify for graduation status, re-admitted students must fulfill the graduation requirements in effect at the time of their re-admission.

## Re-Admission following an Interruption of Program of Studies

Students who have interrupted their program for longer than the allowable period and wish to return to the same program will be required to reapply for admission and meet the current admission requirements in place for that program but will not be

required to meet the competitive admission average if:

1. they apply during Early Admission;
2. there is space available in the program to which they are seeking re-admission; and
3. they have not taken courses outside of their program at the University or attended another post-secondary institution in the interim.

The student's application will be processed in the same timeframe using the standard admission processes. A student readmitted to the program is governed by the program requirements in effect at the time of the most recent admission.

## Re-admission to the University following a Requirement to Withdraw

A student who has been Required to Withdraw from the University or any other post-secondary institution, will not be admitted to the University until at least a 12-month period has elapsed since the student was Required to Withdraw.

Applicants who have been Required to Withdraw from the University, or another post-secondary institution, for academic reasons, may be considered for admission to their intended program through the High School Admission Category or Mature Admission Category, after a 12-month period has elapsed unless they have completed four or more additional post-secondary courses by **Dec. 31** for the following Fall Semester or by **Aug. 31** for the following Winter Semester, in which case they will be considered under the Post-secondary Admission Category.

A student may register in non-credit academic upgrading courses, during the 12-month waiting period. Students who have been Required to Withdraw must apply for re-admission in accordance with re-admission procedures.

## Re-admission to the University following a Requirement to Withdraw from a Specific Program

A student who has been Required to Withdraw from a specific program at the University, will not be re-admitted to that same program until at least a 12-month period has elapsed since the student was Required to Withdraw. A student will only be considered for re-admission to the same program where program requirements allow it.

A student who has been Required to Withdraw from a specific program at the University or another post-secondary institution may apply and be considered for an alternate program without serving the 12-month waiting period. A student applying for admission under these circumstances will be considered for admission under the same Admission Categories and timelines as all other applicants.

## Admission Appeals

Students who have not been offered admission can request that the Dean or designate consider an Exceptional Admission and there is no appeal to the decision. To request an Exceptional Admission, contact the Admissions & Recruitment office by emailing [aro@mtroyal.ca](mailto:aro@mtroyal.ca).

## Advanced Placement (AP)

Applicants who successfully complete Advanced Placement (AP) courses may use applicable AP courses for the purpose of admission and/or transfer credit. Applicants, who complete both Advanced Placement courses and high school courses, will be assessed on the grades that are most advantageous for the student within the High School Admission Category. Official transcripts must be ordered through the Advanced Placement program at **College Board**.

## International Baccalaureate (IB)

Applicants who successfully complete International Baccalaureate (IB) courses may use applicable IB courses for the purpose of admission and/or transfer credit. Applicants, who complete both IB courses and high school courses, will be assessed on the grades that are most advantageous for the student within the High School Admission Category. Official transcripts must be ordered through the International Baccalaureate Organization. Information on how to request official transcripts can be found [\*\*here\*\*](#).

## Home School

Home-schooled applicants who present recognized secondary credentials will be considered for admission to Mount Royal.

# Transfer Credit and PLAR

## Transfer Equivalency

Upon receipt of an application for admission and an official transcript from each current or previously attended post-secondary institution, transfer course equivalencies are assessed.

To be considered for transfer equivalency, each course must have been completed at a recognized accredited post-secondary institution with a minimum passing grade.

Regardless of when a course was completed, normally it may be considered for transfer equivalency. However, limitations do exist for some time-sensitive courses. Refer to Transfer Credit Assessment within individual program requirements.

## Unspecified Equivalency

Transfer equivalencies are either direct equivalents to specific Mount Royal University courses or unspecified courses at the appropriate post-secondary level. Courses granted unspecified equivalents are indicated as XXXX, 1XXX, 2XXX, 3XXX. An unspecified transfer equivalency may satisfy an elective but not a specific course requirement.

Courses completed in academic disciplines at the university level that are not offered by the University are considered unspecified transfer equivalency. If the transfer equivalency assigned by MRU is unspecified and you think it might transfer as a direct equivalent, you need to provide the detailed course outline for assessment.

Detailed course outlines will only be evaluated for applicants who have received a (conditional) offer of admission. A **detailed** course outline includes course outline, weekly structure, textbook(s), reading requirements, learning outcomes and instructor qualifications. Web or calendar descriptions are not accepted due to minimal content.

In order to have your detailed course outline evaluated for a direct equivalency, please fill out the "Detailed Course Outline Evaluation Request" form. You will need to include your MRU

email (@mtroyal.ca) and your student ID number.

### NOTE:

- 1. Detailed course outlines must be from the term and year the course was completed. Detailed course outlines from different academic years cannot be reviewed.**
- 2. Course outlines submitted for evaluation MUST be in English (the language of instruction at MRU).** If the outlines are in a language other than English, it is the student's responsibility to have the outlines translated and notarized by an accredited translation service. A copy of the original course outline and the translated copy MUST both be submitted for evaluation.

## Timelines for Transfer Equivalency Assessment

Semester	Deadline to submit detailed course outline(s) Transfer Credit Requests	Departmental decisions finalized by
Fall	April 15	June 15
Winter	October 15	December 15
Spring	February 15	April 15

Failure to submit the detailed course outline by the deadline may affect whether a course prerequisite has been met. Lack of course prerequisites would limit your choice of courses when registering and/or result in your removal from a class list. *Refer to Course Prerequisite Requirements.*

## Transfer Credit

Transfer Equivalencies become Transfer Credits when the course satisfies a graduation requirement. If a higher grade is required to satisfy either a prerequisite or a program continuance requirement, a transfer course with a minimum passing grade would not satisfy a direct equivalent.

A maximum of 50% of the program in which a student is officially enrolled may be completed as Transfer Credit.

Assessed Transfer Credit is viewable in a student's **MyMRU** account and mruGRADU8 program audit.

## Letter of Permission

Students who are registered in degree, diploma, or certificate programs at the University may be granted permission to take a limited number of courses at other recognized or accredited postsecondary institutions.

### A Letter of Permission (LOP):

- when approved, provides a guarantee that a course successfully completed at another institution will fulfill a current program requirement for graduation purposes.
- must be obtained prior to registering for the course(s) at another post-secondary institution.

It is the student's responsibility to review another post-secondary institution's information on admission, registration, course description and tuition fees, prior to requesting an LOP. Students may request a LOP by accessing **MyMRU**.

Semester	Deadline to submit Letter of Permission requests	Departmental decisions finalized by
Fall	July 15	July 31
Winter	November 15	November 30
Spring	April 15	April 30

### A LOP does not:

- Ensure admission to another post-secondary institution.
- Ensure prerequisites, required by another post-secondary institution, have been previously completed.

### LOP limitations:

- The number of courses that may be completed elsewhere is limited by the number of transfer credits permitted toward a current program. You must complete 50% of the program requirements at Mount Royal.

Upon completion of a course, it is the student's responsibility to request an official transcript indicating

the final results be sent by the issuing institution to Mount Royal University.

### Note: A student is not eligible to request a LOP if:

1. They have interrupted their program for longer than the allowable absence period;
2. They have not been admitted into a degree, diploma or certificate program;
3. They have already completed the requirements of their program whether or not they have applied to graduate;
4. They have exceeded the time limitation for completion of their program;
5. They have not met the prerequisites for the equivalent Mount Royal course;
6. They are not in Good Academic Standing or;
7. They are in their last semester before graduation.
8. They have two active LOP requests. Active request means being currently assessed. Students may submit additional requests once the two requests have been approved or denied.

**The Office of the Registrar reserves the right to refuse Letters of Permission if there is an available seat in the course scheduled at Mount Royal.**

## Prior Learning Assessment and Recognition (PLAR)

### Policy

Many students enter the University with work, academic and life experiences that may reflect sound knowledge of the subject matter covered in courses offered for credit by the University. Prior learning assessment is a method of recognizing and accrediting the demonstrated knowledge that has resulted from those experiences.

Mount Royal fully supports the following academic principles with respect to prior learning assessment and recognition.

1. Recognition of prior learning should be based on demonstrated learning.
2. Recognition of prior learning should be appropriate to the course or program in which it is accepted.

3. Recognition of prior learning should be consistent with the achievement levels required by the post-secondary program in which it is accepted.
4. Recognition of prior learning should be for learning that has a balance, appropriate to the subject, between theory and practical application.
5. Assessment of prior learning by post-secondary institutions should be made by content specialists, with external advice as necessary.

At Mount Royal, demonstrated prior learning resulting from work, life and academic experiences may be assessed by any one of the following evaluation methods or some combination of them:

1. Formal examinations (including challenge examinations and standardized external examinations);
2. Course equivalencies involving an evaluation of non-collegiate and/or noncredit programs, courses, certificates and designations; and
3. Documentation and demonstration of achievement through portfolio assessment and portfolio-assisted assessment (including product assessment [work samples], simulation/performance assessment, interviews and oral examinations, and practical and laboratory demonstrations).

The most appropriate evaluation method in any particular case is to be determined by the department Chair, acting on the advice of the content specialists for the subject and/or discipline area for which recognition or credit is requested. The relevant department Chair shall also have the responsibility to evaluate each student's application for prior learning assessment and determine which courses and/or subject areas or disciplines may be reviewed for possible recognition or accreditation, subject to the general academic regulations specified below. Each department shall also compile and maintain a list of courses for its area that will not be considered for credit or recognition through the prior learning assessment methods indicated above.

Application for recognition of prior learning must be made through the Office of the Registrar.

## Procedures

1. In order to obtain recognition of prior learning by the University, the individual requesting

the assessment of prior learning must be a registered student at the start of the semester and when the assessment is conducted. New and continuing students are strongly advised to explore and, as appropriate, to initiate the prior learning assessment and recognition process outlined here as early as possible after their acceptance into a program of studies offered by the University. Requests must be received by the end of the first week of classes in any semester. The final assessment of prior learning must be completed by the end of the fourth week of classes in any semester.

2. Students can complete the Application for Prior Learning Assessment and Recognition (PLAR) Form online. The request will be reviewed to ensure it meets policy requirements. If approved the student will be notified when they have been registered in the PLAR and fees have been assessed. Once the student has been registered and the tuition paid the request will be sent to the appropriate Discipline Chair.
3. The Chair will evaluate the student's request for assessment and recognition of prior learning and determine if credit for a specific course or courses may be obtained in this manner. Upon completion of the initial evaluation, the Chair's decision will be recorded on the Application for Prior Learning Assessment and Recognition (PLAR) Form.
4. The Chair shall return the form to the Office of the Registrar.
5. An assessment of prior learning will be conducted by the department, which will determine whether the student clearly shows above-average knowledge of the subject matter. The grading shall be either "CR" (credit awarded) or "NC" (credit not awarded). Under no circumstances will a letter grade be assigned. Courses for which credit is received in this manner will contribute to the student's total credits.
6. Students may confirm online the specific credits they have been awarded through the prior learning assessment process by accessing Student Web Services on the University website (mtroyal.ca). The Office of the Registrar shall make the appropriate notation on the student's permanent academic record.

7. A student may request a review of a particular assessment through the normal grade appeal process.

diplomas or certificates for courses recognized or accredited through the University's prior learning assessment process.

## Limitations

1. The purpose of prior learning assessment is to allow students to complete their studies at the University successfully. Prior learning assessment is not intended to be used to aid students in transferring to another institution. Any university transferable courses offered at the 1000 level or higher will not be granted credit by prior learning assessment.
2. Students may not apply for credit by prior learning assessment in any course in which they are currently or have previously been registered at any institution. However, courses taken over six years ago may be recognized for credit through prior learning assessment.
3. In cases where prerequisites exist, students may request assessment and recognition of prior learning only for those courses for which they have the stated prerequisites.
4. No student may receive credit by prior learning assessment in more than two courses within a given subject or discipline area, nor in more than a total of three courses at the University if registered in a diploma or certificate program or in more than a total of six courses if registered in a baccalaureate degree program.
5. This policy, procedures, and limitations are intended to govern the award of academic credit through the assessment and recognition of demonstrated learning resulting from prior life, work, educational and other extracurricular experiences. The assessment and recognition of work experience credit, based on prior work experience for purposes of satisfying the graduation requirements of the University's baccalaureate degree programs are covered under separate policy and procedures that apply specifically and exclusively to those degree programs.
6. Students should be aware that academic credit awarded through prior learning assessment at the University is guaranteed only toward the University's graduation requirements. Other institutions may or may not allow transfer credit towards degrees,

## Advanced Placement (AP)

Upon admission to a degree, diploma or certificate program, students who successfully complete Advanced Placement courses may be considered for transfer credit for approved courses. An official AP transcript must be sent directly from the issuing body to Admissions, Mount Royal University.

## International Baccalaureate (IB)

Upon admission to a degree, diploma or certificate program, students who successfully complete International Baccalaureate (IB) courses may be considered for transfer credit for approved courses. An official IB transcript must be sent directly from the issuing body to Admissions, Mount Royal University.

# Registration Information

## General Information

Registration is the process of formally recording the enrolment of a student in a course or courses. Students eligible to register in credit courses at Mount Royal are those who have been accepted into a baccalaureate degree, diploma or certificate program as well as students accepted into Open Studies or University Entrance Option. All students have the right to adjust their registration in courses without restriction provided the transaction occurs within institutional deadlines. Students must register in all components of a course to be considered officially registered.

Registration in specific courses is subject to the availability of those courses at the time the student registers. Students are not permitted to attend any classes in which they are not registered. The Office of the Registrar may adjust or cancel any course registration(s) that are in violation of Mount Royal's policy, including but not limited to those for which the stated prerequisites are not satisfied and/or for non-payment of fees/tuition.

## Student Responsibility

Students are expected to adhere to all critical dates and deadlines outlined in the Academic Schedule. It is the student's responsibility to ensure that the courses selected are appropriate and meet program/graduation requirements. Academic advisors are available to assist students in the selection of their courses.

## How to Register

Students register online by visiting MyMRU. Students requiring assistance may consult the Mount Royal University website for further instructions or the Office of the Registrar.

- Registration Help Line: 403.440.3303
- Toll-free: 1.877.676.0686.

## New Students

New students who have accepted an offer of final or conditional admission and who have paid the tuition deposit may begin course registration on or after the first day of registration for new students as outlined in the Academic Schedule. Academic advisors are available and may be consulted by students when planning a program prior to registering in courses.

Students in some undergraduate programs must consult with an Academic Advisor before they will be permitted to register in courses. Students who are not admitted to a defined program of study may consider Open Studies, University Entrance Option or Unclassified as alternatives.

## Continuing Students

Estimated registration access dates are available on MyMRU prior to the commencement of registration in March each year. Continuing students will be required to pay a non-refundable Registration deposit for each semester and may register on or after their specified registration access date. Students in some undergraduate programs must consult with an academic advisor before they will be permitted to register in courses.

## Full-Year Registration

Mount Royal University offers Full-Year Registration which allows students to register for the Fall, Winter, Spring and Summer Semesters simultaneously.

## Interruption of Study

Students are permitted to interrupt their studies for a maximum of six consecutive semesters (including the Spring and Summer semesters) and return to the same program of study. Students can return to the same program by contacting the Registrar's Office.

**Click [here](#)** to see if you are eligible to return.

Students who have interrupted their studies for longer periods or are changing programs are required to re-apply for admission.

## Course Prerequisite Requirements

Prerequisites for each course can be found in this Academic Calendar. Students must meet pre- and co-requisite requirements as stated in the Academic Calendar at the time of registration and for the semester the course is offered. For more information refer to the Registration website.

If a prerequisite has been completed in high school and/or at a previous post-secondary institution(s), it is the student's responsibility to submit an official transcript(s). Transcripts must be received in accordance with the deadlines outlined in the Academic Schedule. A student who presents a Letter of Permission from another institution is deemed to have satisfied all prerequisite requirements.

## Course Waitlists

If a class is full and there are no alternative sections available, students can place themselves on a waitlist for a class. Students will be emailed and given 24 hours to claim the available seat if space becomes available. There is no guarantee that a student will receive a seat in the desired course regardless of their position on the waitlist. Students may only waitlist for one section per course. Prior to the start of each semester, the option to waitlist will no longer be available and all pre-established waitlists will be terminated. Refer to the Academic Schedule for specific waitlist deadlines. After waitlists are terminated and up to the end of the registration adjustment (Add/Drop) period, students can only register in courses with available seats. For more information, refer to the Registration website.

Students who add themselves to a class from a waitlist but subsequently decide not to attend that particular course must drop it from their timetable by making a registration adjustment within the deadline dates specified in the Academic Schedule.

## Confirmation of Registration

During and after each registration session, students may confirm their course registration status by visiting MyMRU. It is the student's responsibility to adjust their registration within the academic schedule timelines each semester. If a student stops attending a course

for which they are officially registered and does not take the proper steps to drop or withdraw according to established deadlines, they will be awarded a grade appropriate to their performance in the course. The University does not automatically adjust the registration of students who cease to attend classes and fail to follow appropriate procedures.

## Audit Students

Auditors are students who have been granted permission in writing by a professor to attend lectures in a course on the understanding that they may not participate in assignments or examinations. Such permission will be contingent upon seats in the course being available. Auditors must present a signed registration form to the Office of the Registrar. Final permission to audit a course cannot be given until the day after the registration adjustment (Add/Drop) period when the space available in a course is known. Requests for permission to audit must be received by the end of the fourth week of classes in any semester. See the Fees and Deposits section for auditing fees.

A student is not permitted to change the status of a course after the Drop/Add deadline. That is, it is not permitted to change an audited course to a course taken for credit or vice versa. Audit courses will be reflected on the student's permanent record with the symbol "AU". The student may, in succeeding semesters, take any course for credit which has previously been audited.

## Unclassified Students

An unclassified student is one who elects to take a single course and has not been admitted to a degree, diploma, or certificate program; Open Studies; or University Entrance Option. A student who has accepted an offer to or is a current/continuing student in a degree, diploma or certificate program, Open Studies or University Entrance Option is not eligible to register as an unclassified student.

An unclassified student will be able to register in one class that has an available seat and does not have a registration restriction. Unclassified students pay an Unclassified Registration Fee. Unclassified 'status' is only valid for one term. Unclassified students are not eligible for scholarships, bursaries, or awards through MRU or any part-time government funding.

Unclassified registration opens the first business day of the month that classes begin in a given semester (September [for Fall], January [for Winter], May [for Spring] or July [for Summer]) and closes on the last day of the Add/Drop period. Students can register online or in person at the Office of the Registrar. Please refer to the Registration website for more information.

## Maximum Student Course Load

Students may carry up to five courses (to a maximum of 19 credits) per semester, depending on the program of study. Registration limitations apply at the beginning of the Registration cycle; students are initially limited to 17 credits, with the limit being increased to 19 as of August 1 for the Fall semester and December 1 for the Winter semester. Students who seek permission for course overload should review their academic records with their program chair or academic advisor prior to registration.

## Technology Enhanced Resources

Instructors may utilize Technology Enhanced Resources including but not limited to: web space, online simulations, software-based classroom response systems, and supplementary software assessment(s). When using Technology Enhanced Resources to assess student performance, the proportion of the course grade determined cannot exceed 35% of the final grade in the course. When using a Technology Enhanced Resource the following conditions apply:

- Technology Enhanced Resources may be bundled with an e-textbook or a physical book. When these resources are bundled together, to which students might have access to other means, an option must be provided to students to allow them to purchase the Technology Enhanced Resource separately.
- The maximum cost permitted per three-credit course for Technology Enhanced Resources is \$125. The cost limit will be reviewed and adjusted accordingly on an annual basis. Students must be made aware of the associated costs and technical requirements for the use of this technology prior to the first day of classes for each semester. This

information must also be provided in the course outline.

- Exceptions to the requirements listed above must be approved by the Dean.
- In the event the Dean approves the use of a Technology Enhanced Resource over the annual cost limit, students must have the option of a no-cost alternative for assessment. The no-cost option must be equivalent in weighting, difficulty and time to completion. This information must be available prior to the first day of classes at the time of registration and must be provided in the course outline.

## Change of Registration

### Course Cancellation by the University

The appearance of a course in the schedule of classes does not guarantee that it will be offered. If Mount Royal cancels a course, all students in that course will be de-registered and appropriate refunds will be applied.

### Adding/Dropping a Course

The courses for which a student is registered after the Add/Drop deadline constitute that student's official registration and semester load. Students can add or drop courses up until midnight on the day of the Add/Drop deadline specified in the Academic Schedule. Students who do not officially drop a course will be considered registered in that course and will be charged full fees for that course whether they subsequently attend classes or not. Students who drop a course will receive a tuition refund minus applicable fees. There is no notation on the transcript for a dropped course.

**Note: Students who add a course up to midnight on the day of the Add/Drop deadline are responsible for ensuring the difference in fees has been paid before the fee payment deadline.**

## Course Withdrawals

After the Add/Drop deadline and up until the Withdrawal deadline, a student can withdraw from any course online by visiting MyMRU or submitting a Withdrawal Form to the Office of the Registrar. Students who withdraw from a course(s) will see a "W" symbol on their transcript. No tuition refunds will be granted for withdrawals. Students are advised that if a withdrawal results in a semester course load of fewer than nine credits, they may be ineligible for financial assistance.

Unless students officially withdraw, they remain registered in all courses and, at the end of the semester, are assigned the grades they have earned in each course.

Any consideration for withdrawals after the withdrawal deadline must be supported by documentation from a physician or certified mental health professional. Students experiencing emotional distress are encouraged to contact Student Counseling before withdrawing from courses.

## Withdrawal With Cause

Students who wish to withdraw from courses due to extenuating circumstances may apply to do so at any point during the semester up to the last day of classes. Supporting documentation from a physician or Registered Health Professional must accompany a Withdrawal with Cause request form for the request to be reviewed. Please refer to the website for more information. Students will be informed of the outcome of the review by email, and those who are granted a Withdrawal with Cause will see a "WC" symbol on their transcript. No tuition refunds will be granted for withdrawals with cause. Students are not eligible for a Withdrawal With Cause if:

- The student has entered into an "I" (Incomplete) contract; or
- Scheduled classes for the semester have ended.

# Fees and Deposits

- Important Dates
- How to Pay Tuition and Mandatory Fees
- Additional Information

It is mandatory that all students pay applicable tuition, deposits, and fees each semester. The Board of Governors reserves the right to change fees and deposits when necessary and without notice. Any unpaid fees owing on the fee deadline dates included below will result in the cancellation of registration in all classes for the semester and a reinstatement fee will apply. For additional information, visit [mru.ca](http://mru.ca) or in-person at the Office of the Registrar (A101) unless specified below.

## Important Dates

<b>FALL 2025</b>
<b>August 18, 2025</b> - Full fees due (registered students only) <sup>1</sup>
<b>September 12, 2025</b> - Last day to adjust registration (Add/Drop) with full tuition refund (less tuition deposit/registration deposit) <sup>2</sup>  Students cancelling their registration in full after August 18, 2025, and on or before September 12, 2025, will receive a full-tuition credit less the \$125 nonrefundable registration deposit OR the \$425 nonrefundable tuition deposit, on their student account. No tuition credit of fees will be given after September 13, 2025.
<b>September 12, 2025</b> - Full fees due <sup>3</sup>
<b>September 29, 2025</b> - Last day to be re-instated <sup>4</sup>
<b>WINTER 2026</b>
<b>January 14, 2026</b> - Last day to adjust registration (Add/Drop) with full tuition refund (less tuition deposit) <sup>2</sup>
<b>January 14, 2026</b> - Full fees due <sup>3</sup>
<b>January 30, 2026</b> - Last day to be re-instated <sup>4</sup>
<b>SPRING 2026</b>
<b>May 7, 2026</b> - Last day to adjust registration (Add/Drop) with full tuition refund (less tuition deposit) <sup>2</sup>
<b>May 7, 2026</b> - Full fees due <sup>3</sup>
<b>May 19, 2026</b> - Last day to be re-instated <sup>4</sup>
<b>SUMMER 2026</b>

<b>July 9, 2026</b> - Last day to adjust registration (Add/Drop) with full tuition refund (less tuition deposit) <sup>2</sup>
<b>July 9, 2026</b> - Full fees due <sup>3</sup>
<b>July 20, 2026</b> - Last day to be re-instated <sup>4</sup>

<sup>1</sup> Applies to students who have registered in courses on or prior to this date. Non-payment or partial payment of fees results in de-registration from all classes.

<sup>2</sup> Students may no longer change their registration and are financially responsible for all classes on record at this time. No tuition credit of fees will be given after the Full Fee Deadline.

<sup>3</sup> Applies to all students. Non-payment or partial payment of fees results in de-registration from all classes.

<sup>4</sup> Students must reinstate into all courses that were on the registration record as of the Add/Drop deadline and all fees must be paid in full at the time of reinstatement. No exceptions will be permitted.

## How to Pay Tuition and Mandatory Fees

### Internet Banking

Pay your tuition online at any time through most major banks or credit unions. Add Mount Royal University as a payee through your online banking. Your student ID number is the account number required to make a payment.

### Credit Card Payments - Online

- Payable through **Plastiq.com**

### By Mail

- Money order

### Not Accepted

- Personal cheques
- Postdated cheques of any kind
- International money orders
- Credit cards cannot be used in person

For more information visit our website.

## Fee Payment Procedures for all Semesters

Any unpaid fees owing after any Fee Deadline will result in the cancellation of registration in all classes for the Semester. After the initial Fee Deadline is missed (applicable to fall semester only), students may register and are

automatically assessed a \$150 re-registration fee. After the Full Fee Deadline for any semester is missed, students may only re-register at the Office of the Registrar and are automatically assessed a \$150 re-registration fee.

All newly admitted students pay a \$425 non-refundable tuition deposit. The Tuition Deposit for new students confirms their acceptance of an offer of admission into a program. Although the deposit is non-refundable, it will be credited toward regular tuition fees.

All continuing students pay a \$125 per semester non-refundable Registration Deposit. The Registration Deposit for continuing students confirms their intent to register for the semester. Although the deposit is non-refundable, it will be credited toward regular tuition fees. The Registration Deposit is not required for the Spring and Summer semesters.

<b>MANDATORY FEES (M = mandatory for all students MFT = mandatory for all full-time students)</b>		
<b>FEE TYPE AND AMOUNT</b>	<b>TYPE</b>	<b>DESCRIPTION</b>
<b>Application - fee</b> \$100, non-refundable	<b>M</b>	Must accompany every admission or re-admission application in order to be processed. This amount is not credited toward tuition fees.
<b>Tuition - deposit</b> \$425, non-refundable	<b>M</b>	Applicable to all newly admitted students or continuing students applying to a new program. This deposit confirms acceptance of an offer of admission into a program. Upon registration, this amount is credited toward tuition fees.
<b>Registration - deposit</b> \$125, non-refundable	<b>M</b>	Applicable to all continuing students. This deposit confirms attendance in the applicable term. Upon registration, this amount is credited toward tuition fees. The Registration Deposit is not required for the Spring and Summer semesters.
<b>General</b> See online fee table	<b>M</b>	Covers recreation and athletics fees and accident insurance fees.
	<b>M</b>	<b>Recreation &amp; Athletics:</b> The Recreation and Athletics fee is used to support and develop varsity sport and recreation programs and services for the University community. See online fee table. For more information on Recreation and Athletics, visit their website.
	<b>M</b>	<b>Student services fee:</b> The Student Services fee is a mandatory fee, assessed on a per-term basis, that directly supports services vital to students' academic and personal success. It is a comprehensive fee that is applied to services and supports in Student Affairs, Enrolment Services and International Education. A report detailing how this fee supports the student experience is published annually. See online fee table.
	<b>MFT</b>	<b>UPass:</b> Provides unlimited use of Calgary Transit buses and LRT. For more info visit the Parking Office (Room EA1016) or <b>online</b> . See online fee table.

	<b>M</b>	<b>Insurance:</b> This fee is levied each semester and is intended to provide students with accident expense reimbursement, dental accident reimbursement and permanent total disability benefit. See online fee table.
<b>Other Fees - Instructional Equipment and Lab Fee</b>	<b>M</b>	The instructional equipment and lab fee provides supplementary funding for the purchase of supplies and equipment used for instructional support purposes by students and faculty. This fee is calculated as a part of your total tuition.
<b>Students' Association</b> Collected by MRU on behalf of SAMRU See online fee table	<b>M</b>	<b>Capital Campaign:</b> funds necessary to develop Wyckham House Student Centre to better accommodate student needs (including renovations and new program offerings).
	<b>M</b>	<b>General:</b> funds necessary to provide services and representation to students and to operate Wyckham House Student Centre. For a complete list of programs and services, visit <b>SAMRU</b>
	<b>MFT</b>	<b>Health and dental:</b> applicable to students taking nine credits or more in each semester of registration. Charged in both the Fall and Winter semesters. Insurance coverage extends from Sept. 1 to Aug. 31 of each year. For more information on how to opt out of your health and dental benefits, visit Z001 in Wyckham House.
	<b>M</b>	<b>Scholarship</b> provides scholarships and bursaries to Mount Royal students. All Students' Association fees are collected by Mount Royal University on behalf of the Students' Association (SAMRU). Any inquiries should be directed to SAMRU in Wyckham House Student Centre.
	<b>M</b>	<b>Reflector Fee:</b> The Reflector fee is collected by the Students' Association through an agreement with the Reflector - the autonomous student newspaper on campus.

<b>ACADEMIC FEES</b>	
<b>FEE TYPE AND AMOUNT</b>	<b>DESCRIPTION</b>
<b>Audit student</b> 50% of the normal course fee	See Registration Information.
<b>Degree program non-credit work experience and Co-</b>	Fees charged to students for non-credit work experience, Co-operative Education, professional development courses and program-specific fees may differ from the fees for full courses. For further details see the online fee table.

<b>operative Education</b> Subject to change	
<b>International/Non-resident student</b> See fee schedule	International Students defined as students who do not have Canadian Citizenship Status or Permanent Resident Status in Canada are required to pay fees based on the International Student Fee Schedule
<b>Unclassified Registration Fee</b> \$75, non-refundable	Applicable to all students who register as an "unclassified student". This amount is <u>not</u> credited toward tuition fees.
<b>Prior Learning Assessment and Recognition (PLAR)</b> 50% of course fee is assessed	Applicable to students requesting assessment and recognition of prior learning. See Transfer Credit and Evaluation of Prior Learning.
<b>Re-registration</b> \$150, non-refundable	Applicable to students whose registration is cancelled due to non-payment of tuition and/or other fees. Reinstatement is subject to course availability. This amount is not credited toward tuition fees.
<b>Special programs</b> applicable for fall/winter only	<p><b>Aviation:</b> Flight training fees are assigned to the flight training hours. Flight training fees are subject to change depending on operating costs for aircraft and related services and are due immediately upon registration. Contact the program directly for more information.</p> <p><b>Bachelor of Interior Design</b> has a unique tuition and fee structure due to the cost of delivery. This includes a program fee assessed by term based on the student's full-time or part-time status.</p> <p><b>Bachelor of Communications, Broadcast Media Studies</b> has a unique tuition and fee structure due to the cost of delivery. This includes a program fee assessed by term based on the student's full-time or part-time status.</p> <p><b>Bachelor of Social Work</b> has a unique tuition and fee structure due to the cost of delivery. This includes a program fee assessed by term based on the student's full-time or part-time status</p>
<b>Technology Enhanced Resource Fees</b>	<p>Instructors may utilize Technology Enhanced Resources including but not limited to: web space, online simulations, software-based classroom response systems, and supplementary software assessment(s).</p> <p>The maximum cost permitted per three-credit course for Technology Enhanced Resources is \$125. The cost limit will be reviewed and adjusted accordingly on an annual basis. Students must be made aware of the associated costs and technical requirements for use of this technology prior to the first day of classes for each semester. This information must also be provided in the course outline.</p>

#### ADMINISTRATIVE FEES

FEE TYPE AND AMOUNT	DESCRIPTION
<b>Convocation</b> \$75 - Before May 1	Applicable to students attending convocation (covers the cost of regalia and parchment).
<b>Late Convocation Fee</b> \$100 - After May 1	Applicable to students attending convocation who apply after the deadline.
<b>Duplicate document</b> \$10 per copy requested	Charged to replace T2202A forms. Tax forms from 2003 onwards are available free of charge through <b>MyMRU</b>
<b>Student Permit renewal letter</b> \$25 per request	Applicable to registered international students who require formal verification of enrolment status.
<b>Confirmation of graduation</b> \$10	Applicable to students requiring a letter confirming the status of their graduation application.
<b>Confirmation of enrolment</b> \$6	Applicable to registered students who require formal verification of enrolment status, excluding study permit renewal.
<b>Custom letters and forms</b> \$10	Applicable to students who require a customized form or letter.
<b>Late graduation application fee</b> \$50	Applicable to students who apply to graduate after the deadline.
<b>Parchment replacement</b> \$50	Charged per parchment replacement request. Email <b>studentrecords@mtroyal.ca</b> or visit the Office of the Registrar (Room A101).
<b>Transcript Request</b>  \$16, per official MyCreds share \$20, per official paper copy \$5, per unofficial copy	Official transcripts are normally issued to educational institutions, potential employers and students upon request. Unofficial transcripts are issued to students on demand. For more information visit <b>MyMRU</b> , the Office at the Registrar (A101) or email <b>studentrecords@mtroyal.ca</b>

Information on all financial assistance programs described below is available from the Office of the Registrar (A101).

For students applying for student loans through Alberta, applications must be received 30 days prior to the student's study period end date: however, students are advised to apply well before the beginning of the academic session for which assistance is required.

## Additional Information

### Deferrals for Government Student Loans

In order to have a deferral prior to the fee payment deadline, students must confirm with the Office of the Registrar (A101) that they will be receiving government funding. Once a loan is signed by the University, payment of fees for any courses that are then added (e.g. waitlist or program adjustment) is the student's responsibility. If any charges remain outstanding on the fee payment deadlines, the student will be deregistered from all classes. **More information.**

### Third-Party Sponsorship

Mount Royal will issue an invoice on behalf of a student who is sponsored by an outside organization (e.g., Workers Compensation Board or an Indigenous Band) as a service to students and sponsoring agencies. To be eligible for third-party billing, sponsoring agencies must complete and submit a sponsorship form prior to all applicable fee payment deadline dates. Acceptance of third-party billing is at the discretion of Mount Royal University. All sponsorship documents must be received prior to all applicable fee payment deadline dates. Any fees that remain outstanding on a student account must be paid prior to all fee payment deadlines or the student will be de-registered from all courses.  
**studentspons@mtroyal.ca**

### Administration Fee for Tuition Charge Backs

A student who cancels or charges back a payment that results in tuition owing will have a financial hold placed on their account for one year. Future payments must be made by cash, certified cheque, money order or through Internet banking. For credit card charge-backs and returned bank payments, a per-item fee of \$35 will be assessed.

### Domestic Students

Students who are assessed domestic fees may be required to provide valid proof of Canadian citizenship upon request.

### International/Non-Resident Students

International students whose immigration status changes will be required to provide proof of permanent status before a change in fee assessment is made. Appropriate documentation must be received prior to all applicable fee payment deadlines.

### Fee Refunds

Credits due to tuition/fee adjustments are only issued to students who follow formal cancellation procedures before the deadlines shown in the Academic Schedule. No tuition/fee adjustment credits will be issued after the end of the Add/Drop period for each semester.

Eligible students with credit balances due to overpayments, scholarships, government loans or grants are automatically refunded after the final fee deadline for each term. Mount Royal University now uses Interac e-Transfer (Email Money Transfer) for non-Plastiq student refunds. Interac e-transfer is fast and convenient. You will receive a notification to your MRU email asking you to choose where you wish to deposit your funds.

Students can request that the credit balance be carried forward to a future term. This request must be made to Student Fees via email ([studentfees@mtroyal.ca](mailto:studentfees@mtroyal.ca)) within one week after the last day to adjust registration. Students will need to provide their full name and student ID number when requesting the funds be transferred and will need to specify which term the funds are to be transferred to.

## Academic Regulations

Academic regulations will be found throughout this calendar and may not necessarily be contained only in this section.

## Academic Semesters

Mount Royal University operates on a 13-week semester system. The Fall Semester begins in September and ends in December. The Winter Semester begins in January and ends in April.

The University also offers a selection of compressed, 6.5-week courses in the Spring and Summer semesters. The Spring semester begins in May and ends in June. The Summer semester begins in July and ends in August. Credits earned are applied to a student's program in the same manner as credits acquired in other semesters.

## Credit Weight

Credit weight reflects student workload rather than classroom contact hours. Normally, students are expected to devote nine to twelve hours of academic time and effort per week for a three-credit course. Academic time and effort include class time (lectures, labs, tutorials, etc.) as well as any experiential or blended components. In addition, all independent study (assignments, readings, preparation, study, etc.) is included.

Courses are normally valued as three credits or multiples of three credits.

## Attendance Policy

Students are allowed to attend a course once they are officially registered and have paid the appropriate fees. It is the responsibility of the student to attend all classes. Professors have the authority to specify attendance requirements but these must be stated in the course outline. When circumstances prevent students from attending the first class, they are advised to contact their instructor.

## Graduation

Changes in regulations governing programs may be made from time to time. Students who have not interrupted their program will be given the option of graduating in accordance with the old regulations or completing their program under the new regulations governing their current registration. Such students must make their choice known to their academic advisor and the Office of the Registrar at the time of their application for graduation.

Where a required course for graduation is no longer offered, the department Chair may specify an alternative. In cases where it is not possible for students to complete their program under the old regulations, they will be phased into the new program without a disadvantage. Students who interrupt their studies for more than six consecutive semesters (including Spring and Summer semesters) will be required to comply with the new graduation requirements published in the calendar in effect at the time they are readmitted to the University.

## Examination Policy

All final examinations must be scheduled by the Office of the Registrar except those which are take-home examinations, oral examinations or term projects. **Students must be available for examinations up to the last day of the examination period as specified in the Academic Schedule.**

## Limitation on Examination Weighting

In the calculation of the final grade average, the following limitations apply:

- The final examination shall comprise not more than 50% of the final grade.
- Evaluation accounting for not less than 25% of the total final grade must be completed and the results communicated back to the student at the two-thirds point of the course (40 instructional days for a full semester course).
- Evaluation accounting for not less than 50% of the total final grade must be

communicated to the student no later than the last day of classes.

- Where the evaluation method does not permit the 25% and 50% feedback, such as experiential learning courses, students must be provided with substantive written feedback no later than the opening of business on the Monday preceding the withdrawal deadline.
- Any tests carried out during the last two weeks of lectures for the Fall and Winter semesters and the last week of lectures for the Spring and Summer semesters may not account, in total, for more than 10% of the final grade, except in the case of laboratory or oral exams, laboratory exams or final projects.

## Posting the Final Examination Timetable

The Final Examination Timetable will be made available on MyMRU by the Office of the Registrar approximately six weeks but no later than five weeks before the last day of classes in the Fall and Winter semesters.

The Spring exam schedule will be posted on the last Wednesday of May. The Summer exam schedule will be posted on the third Wednesday of July. See the Academic Schedule for complete dates.

## Determination of a Final Grade

On the first day of classes, professors will provide students with a written statement (either in hardcopy or online) of the method of grading and the weights assigned to the various components that are to be considered in determining the final grade (term papers, laboratory work, class participation, tests, final examination). This weighting may not be changed during the semester or at the time of final grade reporting. Final grades must be submitted no later than the end of the third business day after the last day of the exam period.

## Deferred Examination

A student who cannot write a final examination at the scheduled time may apply for a deferred examination as soon as possible before, and no later than the exam date. The authority to grant or deny a deferred final examination is vested with the Chair or Dean of the academic unit in which the course is offered. Under no circumstances is the deferred examination to be granted after a student has written the original examination.

The Chair or Dean may consider any compelling reasons outside of the student's control including but not restricted to personal illness, bereavement, personal injury, and unavoidable and unanticipated circumstances. Additional study time, travel plans, vacations, or misreading the exam schedule are not considered legitimate reasons for requesting a deferred exam. The application must be supported by appropriate documentation.

If the intended absence is due to Protected Human Rights, the Chair or Dean and the instructor must be informed in writing of the conflict two weeks prior to the date of the exam.

If a student becomes ill or is notified of an emergency during an examination, they should report at once to the invigilating instructor(s), hand in their unfinished examination paper, and request that the examination paper be canceled. If an illness is a cause, medical documentation must be obtained within 24 hours, so that any subsequent application for a deferred examination may be supported by medical documentation. In the case of an emergency, the student must present appropriate documentation to the instructor within three business days of the exam.

**Should a student write an examination, hand in the paper for marking, and later report extenuating circumstances to support the request for cancellation of the paper or examination, such requests will not be considered.**

Students who have more than two exams scheduled on any calendar day may request and shall be granted a deferral for the third (fourth, fifth, etc.) examinations scheduled on the day. In the event a conflict arises because two or more exams are scheduled at the same time, the Registrar (or designate) will consult with faculty members and assign the deferred examination.

## Loss of Privilege

Students who are eligible, but who do not apply for a deferred examination by the prescribed deadlines, shall automatically lose this privilege. Students who have been granted deferred final examination privileges, but who do not show acceptable cause for not writing at the prescribed time, shall automatically lose the privilege of further deferral.

## Deferred Work

Professors are normally free, subject to any established departmental or faculty procedures, to administer their own policies regarding deferred deadlines for the completion of term papers or assignments; students must be made fully aware of these policies. However, if the time extension goes beyond the deadline for the return of final course grades, the procedures for "I" grades must be followed.

## Correction of Grades

Once a student's final grade has been recorded by the Office of the Registrar, a professor may not request that this final grade be changed unless it was assigned in error. A Change of Grade form must be submitted certifying the reasons why the first grade is in error. The form must be signed by the professor and the department Chair offering the course. Requests for a change of grade must reach the Office of the Registrar no later than 30 days after the start of the next major (13-week) semester.

## Transcripts and the Release of Information

A permanent record of each student's accumulated courses, attempted credits, grades earned and address information is maintained by the Office of the Registrar.

Official transcripts are normally issued to educational institutions, potential employers, and students upon request. The student is responsible for any cost associated with this service. Transcripts issued to the student are unofficial.

MRU provides both digital and standard paper transcripts. All costs for transcripts can be found in the Fees and Deposits section of this calendar.

- Digital transcripts are issued via MyCreds. If you wish to share your transcripts with another post-secondary institution or an employer, there is a charge to share the document, but there is no charge to upload the document.
- Paper transcripts are issued via standard mail.
- Unofficial transcripts are also available via MyMRU or a paper copy, subject to an additional fee.

**Note: unofficial transcripts may not be considered acceptable by the receiving institution.**

For more information regarding ordering a transcript visit our website.

If you have applied to graduate and wish to have your certificate, diploma or degree noted on the issued transcript, indicate that your transcript is to be held until the graduation notation has been recorded.

The personal information that students provide when applying for Mount Royal programs and courses is collected under the *Post-Secondary Learning Act* (s. 65) and the Freedom of Information and Protection of Privacy Act (s. 33 a & c). Personal information is protected by Alberta's Freedom of Information and Protection of Privacy Act and can be reviewed on request.

Only a student's name, whether or not s/he is registered and the credential awarded (i.e., degree, applied degree, diploma, certificate, etc.) are defined as the student's public record. All other information is considered confidential and will be used and disclosed in accordance with privacy legislation. Information pertaining to a minor who is registered at Mount Royal will only be used and disclosed in accordance with privacy legislation. All third-party inquiries should contact the Office of the Registrar to obtain a Release of Information form.

If you have any questions about the collection or use of this information, please contact the Office of the Registrar at 403.440.3435.

## Release of Grades

Only the Office of the Registrar has the authority to issue or release official grade information or other academic records and transcripts. However, Department Chairs or their delegates are authorized to release or post final grades at the end of each semester in accordance with privacy legislation.

The University does not mail out final grade statements. Students are responsible for confirming their final grades and academic status at the end of each semester by accessing their **MyMRU** account. Students may obtain printed copies of their final course grades by accessing **MyMRU**.

## Official Communication

A letter mailed to a student's address as is currently on record in the Office of the Registrar will be considered received. Students are responsible for ensuring their contact information is current. The University is not responsible for incorrect mailings. All email correspondence from the University will go to a student's MyMRU email account. Students are responsible for monitoring their MyMRU email accounts. Any correspondence sent to the student's MyMRU email will be considered as received.

## Name and/or Address Change

Every student is required to provide a mailing address at the time of application. In the case of a change of address, students are required to update their address online through the MyMRU account. No third-party requests will be considered.

Change of name must also be reported to the Office of the Registrar; appropriate documentation confirming the change of name (marriage certificate, divorce decree or relevant court documents) must be provided as well as a government-issued photo ID. Students can update their preferred name through their MyMRU account.

## Counterfeiting and Altering

No person(s) shall reproduce, copy, misuse, tamper with or alter in any way, manner, shape or form whatsoever any official writing, record, document or identification form used or maintained by Mount Royal University. Any student who submits fraudulent documents (e.g., transcripts, parchments, etc.) as part of the admission or registration processes will be reported to Student Community Standards.

## Academic Appeals and Grievances

### A. Introduction

The basic principles governing the hearing of student final grade appeals and grievances are as follows:

- a. Fairness will be applied to all parties in procedures and decisions;
- b. Academic decisions should be made as close as possible to the level at which the academic expertise resides;
- c. Students will have the right to consult with the Students' Association (as applicable) at any stage of the process;
- d. Sound academic decisions will not be set aside based on minor irregularities in procedures;
- e. The onus is on the student to show that a request for a final grade review has merit.
- f. The process for adjudicating a final grade appeal will be conducted in a timely manner.
- g. A final grade appeal is solely based on the academic merits of a student's work.
- h. A student must have one additional opportunity for review of a final grade assignment after consulting with an instructor.
- i. A final grade appeal based on academic merit must reside within the department in which the course is offered.
- j. In the spirit of collegiality and cooperation, students are not permitted representation by legal counsel.

## B. Appeal of Final Grade/Appeal Process (Overview)

There are three levels of a final grade appeal. The first two levels will be adjudicated on the academic merit of a student's work. The third level of the appeal process is based solely on the process by which the academic appeal decision was reached.

Students are advised to discuss their concerns with their instructors first (Level 1). If that is not feasible for whatever reason, students are to discuss their concerns with the Chair. If a student is not satisfied with the decision at Level 1, they can initiate the formal process Level 2 - Final Grade Review. Online forms are available through the Office of the Registrar.

If a student is not satisfied with the decision at Level 2, they can initiate the Final Grade Appeal (Level 3) process by completing the appropriate online form available through the Office of the Registrar. A Level 3 appeal is based on the preceding processes and not on the academic merit of a student's work. **A Level 3 decision is final.**

### Level 1: Consultation with Instructor (informal process)

- a. The final grade was not calculated on all of the work completed and as indicated in the course outline; or
- b. There was an arithmetical miscalculation of the final grade.

### Level 2: Final Grade Review: Chair (formal process)

- a. There was an alleged unfair assessment of academic performance.

### Level 3: Final Grade Appeal: Dean / Final Grade Appeal Committee

- a. There is new evidence that was previously unavailable; or
- b. There was an alleged procedural error in reaching the decision; or
- c. The findings of the previous adjudicator were allegedly not supported by the evidence

## C. Appeal of Final Grade / Appeal Process (Detailed)

### Level 1: Consultation With Instructor

- a. A student who wishes to challenge the final grade awarded in a course should discuss the matter with the instructor before initiating a formal grade review or appeal.
- b. Should the instructor agree to a change in the final grade, they must submit a Change of Grade form to the Office of the Registrar.

### Level 2: Final Grade Review - Chair

- a. A **Final Grade Review form** must be submitted to the Office of the Registrar no later than 20 business days after the end of the final exam period in which the grade was awarded. (The holiday break over Christmas and New Year does not count.)
- b. If the Chair is also the instructor responsible for the course in question, the form shall be conveyed to the Dean of the faculty offering the course.
- c. The Chair (or designate) has the authority to take any action they feel is appropriate in adjudicating the grade appeal. The Chair must ensure that the identity of the student requesting the review remains anonymous to any third party involved in the appeal process.
- d. At the Chair's discretion, the final grade may be increased, decreased, or left unchanged.
- e. The Chair's decision must be recorded on the Final Grade Review form which will be returned to the Office of the Registrar along with additional comments or documentation (as appropriate) in a timely manner but no later than 10 business days after receiving the request for a review.
- f. The Chair is responsible for notifying the student and instructor, in writing, of the decision.

### Level 3: Final Grade Appeal - Dean

- a. A student may file a **Final Grade Appeal Form** to the Office of the Registrar in a timely manner but no later than 10 business days after a decision at Level 2.
- b. If the Dean of the Faculty was involved with a Level 1 or 2 decision, the Registrar will select another Dean to assume the

responsibility for the Chair, Final Grade Appeal Committee.

- c. The final grade appeal will be considered if, and only if, the Chair, Final Grade Appeal Committee is satisfied that there are grounds for a Level 3 appeal.
- d. If the Chair, Final Grade Appeal Committee is not satisfied that the appeal has merit, they may deny it.
- e. If a formal hearing is deemed necessary by the Chair, Final Grade Appeal Committee, it will be convened in a timely manner but no later than 20 working days after receipt of the original notice of appeal of the Chair's decision.
- f. The Final Grade Appeal Committee has the authority to take any action it feels is appropriate in adjudicating the grade appeal.
- g. The Chair, Final Grade Appeal Committee is responsible for notifying the student, Chair, and instructor, in writing, of the decision.

## **D. Composition of the Final Grade Appeal Committee**

**Each Final Grade Appeal Committee will be composed of five voting members as follows:**

- a. The Dean (or alternate) of the Faculty responsible for the instructor/Chair who assigned the final grade will serve as Chair, Final Appeal Committee.
- b. The Students' Association of Mount Royal University will name one student who is unfamiliar with the dispute and does not know the appellant.
- c. Two faculty members will be selected by the Chair, Final Grade Appeal Committee, in consultation with the Registrar. One faculty member will be selected from within the Faculty responsible for the course and one from outside that Faculty. Both faculty members should be unfamiliar with the details of the dispute.
- d. The Registrar.

## **E. Other Information**

1. **Status of Student During An Appeal Process**

During the course of the grade appeal process, a student retains the right to

participate in all classes until a final decision is given.

2. **Access to Graded Course Work**

- a. Students have the right to supervised access to completed final examination papers which have been graded provided that the request is made within 15 business days after the end of the semester in which the grade was awarded.
- b. Reviewing the final examination with the student is at the sole discretion of the instructor.
- c. Graded coursework retained by an instructor may be destroyed one year after the end of the semester in which the work was graded.

3. **Course Outlines**

- a. All students must be given access to a course outline on the first day of classes.
- b. The course outline must include the method of grading and weights assigned to the various components that are to be considered in determining the final grade (term papers, laboratory work, class participation, tests, final examination, etc.). This weighting may not be changed during the semester or at the time of grade reporting.
- c. A final grade appeal cannot be based on a challenge to the weightings assigned to the different components of the course which comprise the final grade.

## **F. Complaints and Appeals With Respect to Matters Not Involving Academic Decisions**

Students or employees of Mount Royal who have a complaint about the operations of Mount Royal will be given an opportunity to be heard. Under normal circumstances, the first step is to discuss your complaint(s) or grievance(s) with the person(s) against whom your complaint is directed. If this is not possible or does not produce satisfactory results, you are encouraged to discuss the matter with the direct supervisor(s). Staff and Faculty are also able to consult with their labour relationship officer through

the MRSA or MRFA. If further support is needed, the Office of Safe Disclosure is available to support you in exploring the different channels available for addressing your concerns. For situations where Mount Royal University students, faculty, staff and administrators feel uncomfortable using any of these regular channels, Mount Royal has engaged the third-party hotline reporting service called ConfidenceLine.

## Student Rights & Responsibilities

Mount Royal is committed to fostering a safe, inclusive and supportive learning, working and living environment for all community members. Students share the responsibility for maintaining a community of mutual respect. By enrolling, students accept and acknowledge their rights and responsibilities found within the Code of Student Community Standards and the Code of Academic Integrity, effective August 25, 2022, and available on the Student Community Standards website.

## Harassment or Discrimination

Harassment and other forms of discrimination are unacceptable at Mount Royal University. In cases of harassment or discrimination or for information about Mount Royal's Human Rights Policy, Workplace Violence and Harassment Prevention Policy and/or Sexual Violence Response Policy, you are advised to contact Human Resources (employees), SAMRU's Student Advocacy Resource Coordinator (students), the Dating, Domestic & Sexual Violence Response and Awareness Coordinator (students and employees), or the Office of Safe Disclosure (students and employees).

## Academic Standing

### Introduction

Mount Royal is committed to maintaining high academic standards, promoting student success, and supporting students who have difficulty meeting academic requirements. In the event that students are

unable to meet academic requirements, Mount Royal will make all reasonable attempts to ensure that they are aware of potential consequences and that information about available support services is provided.

Academic Standing in its various forms applies to all current Mount Royal students and relates to students' eligibility to register in credit courses within a Mount Royal program and their eligibility to graduate from a program. Students should be aware that specific programs may have additional **continuance requirements** that place additional conditions on how a student maintains eligibility to remain in a program of study. Students are solely responsible for being familiar with program-specific continuance requirements and general program requirements in order to be eligible to graduate.

## Academic Standing/Definitions

A student will be in Good Standing when they have accumulated a minimum of nine earned credits overall, and their cumulative Grade Point Average (GPA) is 2.00 or better.

A student will be placed on **Academic Warning (AW)** when they have accumulated a minimum of nine earned credits overall and their cumulative GPA is less than 2.00. A student will be permitted to remain on Academic Warning for a maximum of two semesters unless they can demonstrate significant improvement in their semester GPA.

A student will be placed on **Academic Probation (AP)** when they have been on Academic Warning for two semesters, their cumulative GPA is less than 2.00, and they did not demonstrate Significant Improvement in their last semester of study. A student will be permitted to remain on Academic Probation for a maximum of one semester unless they can demonstrate significant improvement in their semester GPA.

A student is **Required to Withdraw (RTW)** from the institution for a minimum of twelve months when they have been on Academic Probation for one semester, their cumulative GPA is less than 2.00, and they did not demonstrate Significant Improvement in their last semester of study.

**Note: Students who have been required to withdraw are de-registered from all courses in the subsequent semester(s).**

A student is permitted to register for non-credit classes after a requirement to withdraw. For additional information about the application process please refer to the Mount Royal website or contact the Office of the Registrar.

A student demonstrates **significant improvement** when their semester GPA is 2.20 or higher in at least two three-credit courses. A semester GPA is calculated on all grades earned in a given semester.

**Note: There is no appeal process for Academic Warning or Academic Probation.**

## Appealing a Requirement to Withdraw (RTW)

Students can appeal their Requirement to Withdraw by completing the appropriate form available through the Office of the Registrar. The application must include supporting documentation or it will not be processed.

The only permissible grounds for appealing a Requirement to Withdraw are:

- a. Medical reasons verified in writing by a physician. Documentation must establish a clear and substantive link to their academic standing over the period of time the credits were earned; **or**
- b. Severe emotional distress verified in writing by a certified mental health professional. Documentation must establish a clear and substantive link to their academic standing over the period of time the credits were earned.

A student who believes there may be other extenuating circumstances that do not fit the two categories above may submit an appeal.

## Re-Admission to a Program After the Requirement to Withdraw (RTW)

Students who have been required to withdraw from Mount Royal must apply for re-admission in accordance with the application deadlines for new students that are specified in the Academic Schedule published in this calendar.

Students seeking (re)-admission to a program must meet with a Student Success Specialist in Early Support regarding their academic plans. The Student Success Specialist may refer the student to a University counselor if deemed appropriate. Students are required to bring a letter to the meeting with the academic advisor which:

1. offers an explanation for their having been previously unsuccessful,
2. outlines their academic plans, and
3. explains why they are now likely to be successful.

The Student Success Specialist will indicate to the Admissions Office when this consultation process has occurred in order to complete the student's application procedure. Admission is not automatic and will be considered on an individual basis.

## Eligibility to Continue in a Program

A student in Good Standing is eligible to continue in their program of studies. Students on Academic Warning or Academic Probation cannot be removed from a program unless the General Faculties Council has approved the criteria that make that possible. Refer to specific program sections for additional information.

If a student has been removed from a program, they are eligible for re-admission to the same program according to the academic criteria in place at the time of application unless General Faculties Council has approved an exception to that policy. Refer to specific program sections for additional information.

# Academic Status

## Common Grading System

Percentages	Alpha Grade	4.0 Point Scale	Description
95-100	A+	4.0	<b>Excellent</b> - Superior performance, showing a comprehensive understanding of subject matter.
85-94	A	4.0	
80-84	A-	3.7	
77-79	B+	3.3	<b>Good</b> - Clearly above-average performance with knowledge of subject matter generally complete.
73-76	B	3.0	
70-72	B-	2.7	
67-69	C+	2.3	<b>Satisfactory</b> - Basic understanding of subject matter.
63-66	C	2.0	
60-62	C-	1.7	
55-59	D+	1.3	<b>Marginal performance</b> - Generally insufficient preparation for subsequent courses.
50-54	D	1.0	
0-49	F	0.0	<b>Fail</b> - Assigned to students  a) who do not meet the academic requirements of the course, <b>or</b>  b) who cease to continue in the course, but do not withdraw as per MRU policy.

NOTE: All courses are required to follow the percentage to alpha grade conversion table for final marks.

## Symbols (not calculated in Grade Point Average)

**AE** Aegrotat: The granting of credit for a course that has not been completed due to medical, emotional or other exceptional circumstances beyond the control of the student. (See the section below for conditions).

**AU** The AU symbol is given if a course is audited.

**CR** Prior Learning Credit: this refers to credit assigned through the Prior Learning and Recognition (PLAR) assessment process.

**NC** No Prior Learning Credit: this refers to credit not assigned through the Prior Learning and Recognition (PLAR) assessment process. Refer to the *Prior Learning Assessment and Recognition* policy and procedures in the Transfer Credit and Evaluation of Prior Learning section.

**EF** Experiential Fail: indicates unsatisfactory performance in an experiential learning course (practicum, fieldwork, internship, or clinical placement).

**EP** Experiential Pass: indicates successful completion of an experiential learning course (practicum, fieldwork, internship, or clinical placement).

**I** Incomplete: temporarily applied when a student has not completed semester work to the satisfaction of the professor and has been granted an extension to complete that work. (See the section below for conditions).

**Q** Unassigned Grade: an administrative code assigned by the Registrar's Office in extenuating circumstances.

**TR** Transfer course: indicates that a course was taken at another postsecondary institution.

**W** Withdrawal: a student receives a "W" following official withdrawal from a course. (See the section below for conditions).

**WC** Withdrawal with Cause: a student receives a "WC" following official withdrawal from a course due to special circumstances. (See the section below for conditions).

The method by which professors arrive at the final course grades is left to their discretion. In different departments and within departments, different

percentages might be required for a Satisfactory standing. However, the system used must be communicated to the students at the beginning of the semester and should be stated in the course outline for each course. Professors must convert their own methods for determining course standing to the official grading system when assessing final grades. The University will not undertake any official conversion or equation of letter grades with any percentage or other grading systems.

## Conditions for "AE" symbol

The decision as to whether or not a student is eligible to receive an "AE" grade rests with the Dean based on the recommendation from the instructor and/or Chair. All of the following conditions apply:

- The request must be submitted within the 60 days after the end of the semester in which the course was taken;
- The student has not completed the final exam or final assignment in the course;
- The student has completed at least 60% of the course requirements;
- In the opinion of the instructor, the student has met the learning outcomes for the course and would have passed the course if all course work and/or final exam had been completed;
- The student is able to provide documentation to substantiate the grounds for an "AE" grade;
- The student has not been awarded an "AE" grade in any previous semesters;
- There are no other opportunities for the student to complete the missing work or examination; and
- In the case of professionally accredited programs, the awarding of the "AE" grade must not compromise the safety of persons or the integrity of the program.

An "AE" grade will not be calculated into the semester, program and cumulative grade point averages. An "AE" grade will meet any minimum grade requirements for prerequisite, progression and graduation purposes.

## Conditions for "I" symbol

The decision as to whether or not the student will be permitted to enter into a contract for the completion of a course rests with the professor or Chair. The agreement must be arranged prior to the deadline for submission of final grades and a copy of the agreement must be forwarded to the Office of the Registrar by the professor.

Course requirements must be completed within a maximum of 60 calendar days after the end of the semester.

The contract must indicate what the letter grade for the course will be if the student does not complete the coursework specified in the professor-student contract (i.e., the grade earned in the course to that date).

Unless the Office of the Registrar has been notified before, at the end of the 60-day period, the "I" symbol will be changed to a letter grade as determined by the professor, or, if the specified coursework has not been completed, the "I" will be changed to the grade indicated in the professor-student contract.

One extension of the "I" symbol contract for a maximum of 120 days can be made with the approval of the professor or Chair. Any further extensions of an I-grade contract must be approved by the Chair and the Registrar.

## Conditions for "W" symbol

A "W" symbol can be applied up to and including the withdrawal deadline as stated in the Academic Schedule.

Any consideration for withdrawals after this deadline must be supported by appropriate documentation.

## Conditions for "WC" symbol

Students can apply for a "WC", due to extenuating circumstances, at any time during the semester up to and including the last day of scheduled classes.

A "WC" will apply under the following conditions:

- serious illness, verified in writing by a physician, or

- severe distress in response to events outside of the student's control, verified in writing by Registered Health Professional.
- Other documentation may be accepted providing it verifies barriers to the student's ability to complete the semester.

Except under exceptional circumstances, a student who has entered into an "I" contract will not be eligible for a "WC".

See Change of Registration section for further information.

## Removal from Experiential Learning course

At the professor's discretion, a student in an experiential learning course (e.g., practicum, fieldwork, work experience, internship, co-op, or clinical placement) may be removed from the course at any point in the semester and assigned an "EF" grade, if the student's academic performance directly or indirectly threatens the safety of others.

## Dean's Honour Roll

A student who earns 12 or more credit hours in a semester at Mount Royal University with a GPA of 3.50 or higher will be placed on the Dean's Honour Roll for that semester.

## President's Honour Roll

A student who earns 24 or more credit hours in an academic year at Mount Royal University with a GPA of 3.75 or higher will be placed on the President's Honour Roll.

## Repetition of a Course

Students may repeat any course. When a course is repeated, the original grade remains on the student's academic record. Only the higher grade awarded is used to determine the cumulative GPA, eligibility to graduate and continuance as a student in good standing at the University.

# Grade Point Average

The Grade Point Average (GPA) is determined by dividing the total grade points earned by the number of credit hours attempted. The "AE", "AU", "CR", "I", "NC", "EF", "EP", "Q", "W" and "WC" grades are not included in calculating the GPA. Academic upgrading courses (those numbered 0100- 0999) are also not included in calculating the GPA.

Example: Assume a student earns the following grades: Interior Design - A, Chemistry - B, English - C, Geology - D, German - F, Mathematics - I and Psychology - W.

Course	Grade Points			Credits		Points	
CHEM 1201	B	3	x	3	=	9	
GNED 1401	C	2	x	3	=	6	
GEOL 1101	D	1	x	3	=	3	
ACCT 2121	F	0	x	3	=	0	
INDS 2144	A	4	x	3	=	12	
MATH 1224	I	NA	x	3*	=	0	
PSYC 1104	W	NA	x	3*	=	0	
				15		30	
<b>Total Grade Points</b>						<b>30</b>	
<b>Total Credits*</b>						<b>15*</b>	
<b>Grade Point Average</b>						<b>= 2.00</b>	

\* "I" and "W" grades are not counted.

**Cumulative GPA** is calculated on all grades earned at Mount Royal.

**Semester GPA** is calculated on all grades earned in a given semester.

**Program GPA** is calculated on all grades earned for all courses required for graduation in a program of study.

## General Graduation Requirements

Generally, all students who expect to receive a parchment from Mount Royal University must satisfy the graduation requirements for a baccalaureate degree program, a diploma program or a certificate program as shown in this section. Several programs have special graduation requirements, which must also be met before a degree, diploma or certificate can be awarded. The additional requirements are shown in the program description section of the programs concerned (also see Academic Regulations - Graduation). Students are cautioned to note the general statements regarding graduation and the restrictions and interpretations that follow. Consult the Office of the Registrar if you are uncertain about your graduation status.

## Application to Graduate

All students who are candidates for the award of a baccalaureate degree, diploma or certificate are responsible for notifying the Office of the Registrar of their intention to graduate. They must complete and submit an application to graduate prior to the relevant deadline indicated in the Academic Schedule in this calendar. The application form is available online through **MyMRU** or at the Office of the Registrar. Students who miss the deadline will be subject to a late application fee.

Candidates graduate in accordance with the conditions and requirements shown in the calendar of the year in which they first enrolled in the program, provided there has been no break in their attendance at the University. Students who discontinue their studies will be subject to the graduation requirements published in the calendar at the time of their return to the University.

## Eligibility to Graduate

In order to graduate from any Mount Royal University credit program, a student must satisfy all program requirements specified in the curriculum at the time of admission to the program or the current program curriculum and meet the requirements for Good Standing (see Academic Standing) at the time the application to graduate is evaluated.

## Admission to Program

To be eligible to graduate, a student must have been **officially admitted** into the program and must complete **at least 25%** of the graduation requirements as a student within the program, except where written approval has been given by the Dean/Director of the faculty/centre/school.

## Residency

Fifty percent of the academic work completed toward the award of a Mount Royal parchment must be completed at Mount Royal, except where written approval has been given by the Dean/Director of the appropriate faculty/centre/school.

## Program Pattern

A student must successfully complete all requirements as stated in the approved program pattern (see the Academic Program section). This includes earning the number of required credits, successfully completing all courses identified as the program core, meeting the General Education requirements, as well as completing any additional requirements specified in the calendar.

## Cumulative Grade Point Average (GPA)

A student must have a cumulative GPA of at least 2.00 based on all courses required for graduation in the program; this will include all the core courses specified in the published curriculum pattern for that program, as well as all approved options and electives, and General Education courses. Some programs may require a higher GPA for graduation.

## General Education Requirements

General Education is primarily responsible for meeting the liberal education component of a degree. General Education Requirements are mandatory for all students pursuing a baccalaureate degree or diploma program and will vary depending on the program. Students should review mruGradU8 or

Speak with their advisor to ensure that they are meeting program requirements.

## Restrictions

- No course may be presented to fulfill more than one graduation requirement **within one credential**. For example, English 1101 may not be used to satisfy a program core requirement and a General Education requirement.
- No high school or matriculation equivalent course (level 30 or lower) may be used for graduation purposes (see the list of high school/matriculation equivalent courses in the section entitled *High School Matriculation Equivalents*).
- Students may apply a maximum of 75% of the credits obtained under one Mount Royal credential towards the graduation requirements of another credential at Mount Royal. The Dean of the Faculty from which a student wishes to graduate has the authority to grant an exception to the limit on internal transfer.
- Two Directed Reading courses can be used for graduation purposes but they must be in different disciplines.
- ENGL 0212 is a university-level course but unless it is specifically required for a program, it can only be used to satisfy an elective requirement.
- A maximum of 16 junior (1000-level) courses may be used to satisfy the requirements for a baccalaureate degree.
- See the following sections for specific restrictions on using courses to complete a minor or double major.

## Letter of Permission

Students who wish to complete relevant coursework for a baccalaureate, diploma or certificate program at another recognized or accredited post-secondary institution must receive prior approval requesting a Letter of Permission. See Transfer Credit and PLAR for details.

## Time Limitation - Baccalaureate Degree Course Work

All graduation requirements for a baccalaureate degree program must be completed within eight years of initial admission to and enrolment in the baccalaureate degree program. The prior learning of all students entering baccalaureate degree programs will be fully assessed at the point of admission for possible advanced standing or transfer credit. Applicable credit for prior learning which is recognized at the point of entry into the program will remain valid for the same time limit (eight years) as is permitted to complete the program. Any student who is unable to complete a credential within the stated time limits will be removed from the program and will be required to apply for readmission.

## Time Limitation - Diploma or Certificate Course Work

All graduation requirements for a certificate or diploma program must be completed within six years of initial admission to and enrolment in that certificate or diploma program.

The prior learning of all students entering certificate or diploma programs will be fully assessed at the point of admission for possible advanced standing or transfer credit. Applicable credit for prior learning which is recognized at the point of entry into the program will remain valid for the same time limit (6 years) as is permitted to complete the program. Any student who is unable to complete a credential within the stated time limits will be removed from the program and will be required to apply for readmission.

## Program Definitions

### Baccalaureate Degree

Baccalaureate degree programs consist of forty, three-credit courses (typically eight semesters) and consist of courses in three categories: Program Core, General Education, and Electives. Because of accreditation requirements and other professional requirements, the number of courses required to meet

core requirements may vary. Specific requirements are:

- Program core will not be more than twenty-six courses within a forty-course program.
- General Education requirements in a program will consist of ten courses:
  - Four courses will be taken at the foundation level: one from each of the four thematic cluster areas.
  - Three courses will be taken at the second tier: no more than one from each of the thematic clusters. Students must include a selection from the Numeracy and Scientific Literacy cluster at tier 2.
  - Three courses must be taken at the third tier, selected from at least two of the thematic clusters.
  - General Education requirements vary depending on the program. Students should review their General Education requirements in mruGradU8 or speak with **their advisor**.
- Electives constitute a minimum of four courses from the total number of courses that make up the program.

## Major

A major is a prescribed set of no less than fourteen courses or no more than twenty-six courses within a forty-course program. The designation for major will appear on the transcript and the degree parchment.

## Double Majors

- Discipline choices for a double major must be made within a single degree.
- All core requirements for each major must be satisfied in a manner approved by the Dean.
- All General Education requirements for the degree must be satisfied.
- A maximum of four General Education courses (12 credits) can be used to satisfy the requirements for a double major.
- Courses that satisfy an Elective requirement can be used to satisfy the requirements for a double major without restriction.

## Minor/Double Minors

A Minor is a prescribed set of no less than six courses and no more than eight courses. The designation for Minor will appear on the transcript but not on the degree parchment.

- No more than 50% of courses, up to a maximum of four courses, can be used to satisfy both the Minor and the Major and/or Concentration requirements.
- Courses used to satisfy a General Education and/or Elective requirement can also be used to satisfy a requirement for a Minor.
- Students may pursue a maximum of two Minors within a degree program.

## Concentration

A Concentration is comprised of no less than six and no more than ten prescribed courses (including approved options). The designation for Concentration will appear on the transcript but not on the degree parchment.

- Courses used to satisfy Concentration requirements cannot be used to satisfy General Education or Elective requirements.
- Students may pursue a maximum of two Concentrations within a Major, provided the Concentrations do not have any courses in common.

## Diploma

Generally, diploma programs will have a minimum of 60 credits and a maximum of 72 credits and have the following requirements:

- Five General Education requirements: Cluster 4, Foundation; four other courses chosen from each cluster at the foundation or higher level.
- General Education requirements vary depending on the program. Students should review their General Education requirements in mruGradU8 or speak with their advisor.
- Program core courses (no fewer than 36 credits), electives and approved options.

## Credit Certificate

Programs offering this type of credential may include program core courses, electives and approved options (minimum of 18 credits and 6 courses). Generally, programs of this type will be from 6 to 10 courses in length and will focus on professional development, post-diploma or post-baccalaureate education.

## Certificate of Achievement

This type of certificate is given to acknowledge the completion of an approved series of related credit courses (minimum of nine credits and three courses). Generally, programs of this type will be from three to five courses in length and will focus on professional development.

## Credit-Free Certificate

Programs offering this type of credential include at least three required program core courses and in addition, there may be a series of options from which a specified number may be selected. Programs of this type must have a minimum of 60 instructional hours and individual courses within the program will not usually be less than 15 hours in length.

## Cognate Course

A cognate course is a course from outside a defined discipline that complements and enhances the breadth of knowledge and skills found within the area of study.

## Interdisciplinary Program

A program is considered interdisciplinary when it combines and integrates courses primarily within one discipline with cognate courses.

## Community Service Learning Citation

MRU recognizes Community Service Learning (CSL) as a high-impact teaching practice that offers students the opportunity to make a positive impact in local and

global communities through hands-on experience. Professors at MRU have employed CSL as a teaching pedagogy for more than twenty years through community-based projects where students apply academic theories and processes. Community organizations work with professors to develop deep learning experiences that address real-world challenges and opportunities.

In an effort to recognize student engagement MRU has developed a CSL Citation that is recorded as a co-curricular record on the student transcript. The Citation demonstrates that a student has significantly integrated CSL into their post-secondary education by completing three courses for a minimum of nine credits that are designated as employing community engagement. CSL designated courses entail at least twenty hours of community service and are worth at least 15% of each course grade.

The CSL Citation recognizes student contributions towards the sustainability of local, regional, and international organizations and communities. View further information on declaring your intent for a CSL Citation, and view a list of eligible courses.

# Bachelor of Arts

## Anthropology, BA

---

The Bachelor of Arts - Anthropology degree provides students with a broad, integrated knowledge of the subject through its four major fields - cultural anthropology, biological anthropology, linguistic anthropology and archaeology. Anthropological training will uniquely prepare graduates to engage competently and critically with the major issues of globalization, multiculturalism, and cultural heritage in the larger context of the human experience. This program will also foster proficiency in the methods of research, analysis, and scientific reasoning that distinguish anthropology as an interdisciplinary realm within the social sciences.

Anthropology explores all aspects of human life, both ancient and modern, over time and space. By creating a strong balance between humanistic and scientific approaches, this degree offers a holistic comparative understanding of anthropology and therefore provides an excellent foundation for graduate studies as well as careers in anthropology and other areas such as teaching, social work, curatorial work, and international affairs.

Mount Royal's Bachelor of Arts - Anthropology aims to provide students with the following competencies:

- Foundational knowledge in the historical development, philosophical and theoretical trends, methodology, and practice of the discipline of anthropology;
- The ability to utilize and value the holistic and interdisciplinary approaches that are fundamental to anthropology;
- Solid cross-cultural understanding of the nature and diversity of present and past cultures;
- The ability to recognize the biases that societies carry in their understanding of human cultures and how anthropological training can help to overcome these biases;
- An open-minded and culturally sensitive appreciation of different cultures and their relevance in the contemporary world;
- Solid competency in locating, reading, and comprehending primary and secondary sources;
- Strong analytical and critical thinking skills;
- Mastery of multiple methodologies and the scientific method;
- The ability to formulate and communicate cogent arguments;

- Specific skills in managing, evaluating, and interpreting data derived from past and present cultures;
- The ability to work and communicate effectively in collaborative group projects;
- The ability to articulate points of view clearly and persuasively to others;
- The ability to view situations reflectively by seeing oneself as both subject and object;
- The ability to engage in participant-observation and promote cultural curiosity through experiential fieldwork;
- The ability to engage in and evaluate both humanistic and scientific approaches through critical thinking and rigorous logical thought processes;
- The ability to contextualize biological and cultural phenomena in terms of both local and global perspectives.
- Graduation Requirements for the Bachelor of Arts - Anthropology;
- All students must meet the general graduation requirements for the Bachelor of Arts, in addition to the graduation requirements for the Anthropology major.

## General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admission section of this calendar.

## Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the Admission section of this calendar, applicants must also satisfy the following criteria for each Major.

## Academic Course Requirements

The following specific courses (or their equivalencies) with the specified minimum grades are required for admission into the Bachelor of Arts program:

### Majors: Anthropology, English, History and Sociology

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 or a 30-level language

### Major: Psychology

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%

### Major: Policy Studies

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%

Although conditional admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

### Indigenous Student Admission

Each year, 7% of the seats in the Bachelor of Arts program will be reserved for Indigenous applicants through an Indigenous admission target. To be considered for admission under the Indigenous admission target, the applicant must:

- self-identify as an Indigenous applicant on the Application for Admission;
- meet the definition of an Indigenous Applicant; and
- meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program level admission requirements.

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during the early admission period. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

See general admission requirements in the Admission section of this calendar for further information.

### Declaration of Major

Students must declare their major field of study within one year (ten courses) of enrolling in the program. Students who have decided on their major are advised to declare it as soon as possible to facilitate proper course selection and access to core courses.

### Double Majors

Double majors must be chosen within the six majors offered as part of the Bachelor of Arts and include:

- 10 General Education courses, of which four can fulfill the requirements of the double major.
- All core courses specified for each major (a minimum of thirty-two courses), with the following exception: A double major in Psychology and Sociology; 16 core courses in each discipline, including:
  - PSYC 2210 - Statistical Methods for Psychology I or SLGY 3321 - Quantitative Methods

- PSYC 2213 - Research Methods I or SLGY 2232 - Social Research Methods
- PSYC 2211 - Statistical Methods for Psychology II
- SLGY 3323 - Qualitative Research Methods or PSYC 4410 - Qualitative Research Methods for Psychology
- Students who take PSYC 2210 and PSYC 2213 must take an additional two options in Sociology
- Students who take SLGY 3321 and SLGY 3323 must take an additional two options in Psychology

- All core requirements for each major must be satisfied in a manner approved by the Vice Dean, Curriculum, Policy, and Planning
- Courses that satisfy an elective requirement can be used to satisfy the program requirements for a double major.

### Curriculum

#### Program Structure - Anthropology

Total number of three-credit courses (or equivalent)	40 courses minimum
Required courses in Anthropology	10 courses
Additional required Anthropology courses	6-14 courses
Elective courses	6-14 courses
General Education Courses	10 courses
First-year course limit (1000 level)	16 courses maximum
Maximum number of courses outside of the Faculty of Arts, and/or the Faculty of Science and Technology, and/or designated as General Education courses	8 courses
Course limit in a single discipline	24 courses maximum
Grade Point Average (GPA) to graduate	2.00 minimum

#### Required Courses

- ANTH 1101 - Introduction to Primatology and Human Evolution
- ANTH 1103 - Introduction to Cultural Anthropology
- ANTH 1105 - Ancient Peoples and Places

- ANTH 1106 - Introduction to Linguistic Anthropology
- ANTH 2102 - Methods in Biological Anthropology
- ANTH 2104 - Methods in Archaeology
- ANTH 2241 - Ethnography in Anthropology
- ANTH 3305 - History of Anthropology
- ANTH 3307 - Statistics for Anthropology
- ANTH 4401 - Anthropological Theory
- Three additional ANTH courses at the 2000 level or higher.
- One additional ANTH course at the 4000 level or higher.

### Additional Required Courses

Two of the following:

- ANTH 3201 - Lithic Analysis
- ANTH 3302 - Ethnographic Methods
- ANTH 3309 - Ceramic Analysis
- ANTH 3321 - Human Osteology
- ANTH 3323 - Zooarchaeology
- ANTH 3325 - GIS for Anthropology
- ANTH 3342 - Perspectives on Discourse Tactics

### Electives

- 14 Electives

Students are eligible to choose any 3-credit university-level course to complete an elective requirement, including Bachelor of Arts - Anthropology courses that are not already fulfilling a major requirement. Students should be aware that no more than 24 courses within one discipline will be counted towards their degree (e.g., no more than 24 courses with the course prefix ANTH).

### General Education Requirements

Ten courses must be completed to meet the general education requirements to graduate with a Bachelor of Arts - Anthropology.

- Four courses will be taken at the foundational level: one from each of the thematic clusters.
- Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
- Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

### Graduation Requirements

### Eligibility To Graduate

To be eligible to graduate from a Mount Royal program, a student must have been officially admitted into the program and must normally complete at least 25% of the graduation requirements as a student within the program, except where written approval has been given by the dean/director of the faculty/centre/school.

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at the University, except where written approval has been given by the dean/director of the appropriate faculty/centre/school. In addition, the internship component of the Policy Studies BA Major must normally be completed as a student of Mount Royal.

### Application for Honours after receiving a Bachelor of Arts in the same discipline.

A student who has graduated with a Bachelor of Arts may not apply to enter Honours in the same discipline in which he or she has received the Bachelor of Arts degree.

### Time Limitation

All graduation requirements for the BA degree program must be completed within eight years of initial admission to and enrolment in the program. The prior learning of all students entering baccalaureate programs will be fully assessed at the point of admission for possible advanced standing or transfer credit. Applicable credit for prior learning which is recognized at the point of entry into the program will remain valid for the same time limit (eight years) as is permitted to complete the program.

## Anthropology, BA (Honours)

---

### Acceptance Criteria

Students may apply to the appropriate department for acceptance into the Honours stream upon the successful completion of twenty courses in the Bachelor of Arts program. Acceptance into the Honours stream is competitive meaning students with higher GPA's will be considered first. Students must present a minimum Grade Point Average of 3.00 in the last 10 courses completed and identify a research focus that is compatible with the available faculty for mentorship within the department.

Before applying for Honours, students must also have declared a major in the Honours discipline. Students

may apply for entrance into Honours between March 1 and May 1 of the academic year in which they have successfully completed twenty courses.

Departments/disciplines in which Honours streams are housed will meet to decide on who will be accepted into the Honours stream, based on the number of applications received and the qualifications of the students who have applied. A student who has graduated with a Bachelor of Arts may not apply to enter Honours in the same discipline in which they received the Bachelor of Arts degree.

### Program Continuance

Students accepted into the Honours BA must maintain a term GPA of 3.00 in each semester. Subject to review by the Chair, students who fail to maintain a term GPA of 3.00, will lose their place in the Honours stream. Students will normally not be permitted to reapply for Honours, and may do so only with the permission of the Chair of their Honours discipline. Students permitted to reapply must follow the procedures for acceptance into the Honours stream, as mentioned above.

There is no guarantee that a student will be re-admitted into the Honours stream. Students completing the Honours stream who have failed to satisfy all the requirements for an Honours degree but who have satisfied all requirements for a BA major degree shall receive a BA major degree upon graduation.

### Curriculum

All students must meet the general graduation requirements for the Bachelor of Arts (honours), in addition to the graduation requirements for the Anthropology (honours) major.

### Required Courses

- ANTH 1101 - Introduction to Primatology and Human Evolution
- ANTH 1103 - Introduction to Cultural Anthropology
- ANTH 1105 - Ancient Peoples and Places
- ANTH 1106 - Introduction to Linguistic Anthropology
- ANTH 2102 - Methods in Biological Anthropology
- ANTH 2104 - Methods in Archaeology
- ANTH 2241 - Ethnography in Anthropology
- ANTH 3305 - History of Anthropology
- ANTH 3307 - Statistics for Anthropology
- ANTH 4401 - Anthropological Theory
- ANTH 5110 - Honours Research Design
- ANTH 5120 - Honours Thesis

### Options

#### Two of the following:

- ANTH 3201 - Lithic Analysis
- ANTH 3302 - Ethnographic Methods
- ANTH 3309 - Ceramic Analysis
- ANTH 3321 - Human Osteology
- ANTH 3323 - Zooarchaeology
- ANTH 3325 - GIS for Anthropology
- ANTH 3342 - Perspectives on Discourse Tactics

#### All of the following:

- Four additional ANTH courses at the 2000 level or higher.
- Two additional ANTH courses at the 4000 level or higher.

### Electives

#### 10 Electives

Students are eligible to choose any 3-credit university-level course to complete an elective requirement, including ANTH courses that are not already fulfilling a major requirement. Students should be aware that no more than 24 courses within one discipline will be counted towards their degree (e.g., no more than 24 courses with the course prefix ANTH).

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Arts - Anthropology (Honours).

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

### Note

Students may pursue a general background in Anthropology or they may elect to focus on a particular field or fields (Cultural Anthropology, Linguistic Anthropology, Biological Anthropology, and Archaeology). If a focus is desired, then students should consult with the Anthropology Advisor in order to prepare the proper array of courses

## English, BA

---

The Bachelor of Arts - English program is designed to enable students to explore many aspects of English studies. The Department of English, Languages, and Cultures offers courses in composition, creative writing, film, literature, and literary theory. A distinctive feature of this English department is its commitment to improving students' writing skills. Given this focus on writing and on reading different types of texts, students will find these programs useful for a variety of occupations and/or further study.

Graduates will be aware not only of the historical and generic categories of English literature but also of the role language plays in shaping our perceptions of everyday life. Mount Royal English graduates will be broadly literate for having engaged with written, visual and other types of social text. Mount Royal English graduates will be able to articulate the cultural processes that produce literature in a variety of different geographic settings including Canada. In order to achieve this level of understanding, graduates will have taken a variety of courses stressing different kinds of literature, genres, media and approaches to forms of cultural production.

Graduates will be able to communicate effectively in a variety of contexts. Graduates will be in firm possession of other core, transferable skills, such as thinking strategies, ethical reasoning, information retrieval and evaluation capabilities, computer literacy and group effectiveness, thus enabling them to succeed in further studies and career opportunities. Qualified graduates may go on to professional programs like law or develop careers in business, writing, or teaching. Graduates will have experienced different learning environments and developed metacognition (that is, a high level of self-awareness regarding learning and professionalization) around learning styles and preferences, an important outcome for the life-long learner in the education system or the workplace.

The graduate will:

1. demonstrate a writing style that exhibits clarity, eloquence, and precision.
2. consider the audience when selecting rhetorical strategies.
3. articulate positions clearly and persuasively.
4. support arguments with appropriate sources of information.
5. analyze, evaluate and synthesize information from different sources.
6. construct reasonable and informed readings of texts.
7. be aware of genre conventions and literary traditions.
8. recognize various theoretical and critical approaches to texts.

9. address different positions in the course of developing an argument.
10. interrogate the ways in which ethical assumptions are shaped and analyze how one's own ethical framework affects one's readings of texts.
11. document sources in an ethically responsible way.
12. use information technologies effectively.
13. apply group process skills in diverse settings.
14. assess personal effectiveness in learning.

### Admission

#### General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admission section of this calendar.

#### Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the Admission section of this calendar, applicants must also satisfy the following criteria for each Major.

#### Academic Course Requirements

The following specific courses (or their equivalencies) with the specified minimum grades are required for admission into the Bachelor of Arts program:

##### Majors: Anthropology, English, History and Sociology

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 or a 30-level language

##### Major: Psychology

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%

##### Major: Policy Studies

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%

Although conditional admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

#### Indigenous Student Admission

Each year, 7% of the seats in the Bachelor of Arts program will be reserved for Indigenous applicants

through an Indigenous admission target. To be considered for admission under the Indigenous admission target, the applicant must:

- self-identify as an Indigenous applicant on the Application for Admission;
- meet the definition of an Indigenous Applicant; and
- meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program level admission requirements.

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during the early admission period. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

See general admission requirements in the Admission section of this calendar for further information.

## Declaration of Major

Students must declare their major field of study within one year (ten courses) of enrolling in the program. Students who have decided on their major are advised to declare it as soon as possible to facilitate proper course selection and access to core courses.

## Double Majors

Double majors must be chosen within the six majors offered as part of the Bachelor of Arts and include:

- 10 General Education courses, of which four can fulfill the requirements of the double major.
- All core courses specified for each major (a minimum of thirty-two courses), with the following exception: A double major in Psychology and Sociology; 16 core courses in each discipline, including:
  - PSYC 2210 - Statistical Methods for Psychology I or SLGY 3321 - Quantitative Methods
  - PSYC 2213 - Research Methods I or SLGY 2232 - Social Research Methods
  - PSYC 2211 - Statistical Methods for Psychology II
  - SLGY 3323 - Qualitative Research Methods or PSYC 4410 - Qualitative Research Methods for Psychology
  - Students who take PSYC 2210 and PSYC 2213 must take an additional two options in Sociology

- Students who take SLGY 3321 and SLGY 3323 must take an additional two options in Psychology
- All core requirements for each major must be satisfied in a manner approved by the Vice Dean, Curriculum, Policy, and Planning
- Courses that satisfy an elective requirement can be used to satisfy the program requirements for a double major.

## Curriculum

### Program Structure - English

Total number of three-credit courses (or equivalent)	40 courses minimum
Required courses in English	18 courses
Elective courses	12 courses
General Education Courses	10 courses
First-year course limit (1000 level)	16 courses maximum
Maximum number of courses outside of the Faculty of Arts, and/or the Faculty of Science and Technology, and/or designated as General Education courses	8 courses
Course limit in a single discipline	24 courses maximum
Grade Point Average (GPA) to graduate	2.00 minimum

### Required Courses

All students must meet the general graduation requirements for the Bachelor of Arts, in addition to the graduation requirements for the English Major. Students must complete 18 core courses, 10 General Education courses, and 12 elective courses. As part of the 18 core courses, students must complete a minimum of 14 ENGL-prefixed courses.

### Introductory Literature

One course in:

- ENGL 1151 - The Art of Story: An Introduction to Literature
- ENGL 1152 - Identity and Invention: An Introduction to Literature
- ENGL 2141 - Literature for Young Children

## Literary Foundations

All of:

- ENGL 2202 - Theory in English Studies
- ENGL 2210 - English Literature to the Restoration
- ENGL 2211 - English Literature from the Restoration to the Present

## Intermediate Writing

One course in:

- CRWT 2264 - Intermediate Poetry Writing 1: Contemporary Practice
- CRWT 2265 - Intermediate Poetry Writing 2: Precedents
- CRWT 2266 - Intermediate Fiction Writing 1: Contemporary Practice
- CRWT 2267 - Intermediate Fiction Writing 2: Precedents
- CRWT 2268 - Creative Nonfiction and Travel Writing
- ENGL 2205 - Writing about Literature
- ENGL 2207 - Intermediate Writing
- ENGL 2263 - Technical Writing

## Indigenous Arts and Cultures

Any INST or one course in:

- ANTH 2213 - Contemporary Aboriginal Issues in Canada
- ANTH 2214 - Ethnography of the Northwest Coast
- ANTH 2255 - An Ethnographic Survey of Native North America
- ANTH 3319 - Ethnography of the Great Plains
- ENGL 2253 - Indigenous Literatures in Canada
- ENGL 3353 - North American Indigenous Literatures
- FILM 2231 - Indigenous Film
- HIST 2215 - History of the People of the Plains: Treaty 7 Field Course
- HIST 2221 - Indigenous Settler Relations: 1497-1877
- HIST 2234 - The Canadian State and Indigenous Peoples from Treaty 7 to the Truth and Reconciliation Commission
- HIST 3343 - Resistance and Resilience: Indigenous Peoples and Colonialism in Context
- HIST 3345 - Indigenous Histories of Canada: Settler Colonialism and Indigenous Nationhood in Northern North America
- HIST 3346 - Indigenous People in Latin America

- PSYC 3380 - Indigenous Psychology

## North American Literature

Two courses in:

- ENGL 2248 - American Literature from 1865 to 1945
- ENGL 2249 - American Literature from 1945 to the Present
- ENGL 2253 - Indigenous Literatures in Canada
- ENGL 2270 - Literatures in Canada to 1914
- ENGL 2271 - Literatures in Canada from 1914
- ENGL 3246 - Pre-American Literary Environments
- ENGL 3256 - Canadian Drama
- ENGL 3350 - The American Renaissance
- ENGL 3353 - North American Indigenous Literatures
- ENGL 3372 - Western Canadian Literature
- ENGL 4702 - Topics in North American Literature

## Global / Transnational Literature

One course in:

- ENGL 2216 - Women's Writing: Voices and Visionaries
- ENGL 2253 - Indigenous Literatures in Canada
- ENGL 2291 - Postcolonial Literature I
- ENGL 2292 - Postcolonial Literature II
- ENGL 3327 - Studies in Women's Literature
- ENGL 3353 - North American Indigenous Literatures
- ENGL 3390 - African Writing in English
- ENGL 4701 - Topics in Global Literature

## Pre-1900 Literature

Two courses in:

- ENGL 3246 - Pre-American Literary Environments
- ENGL 3306 - History of the English Language
- ENGL 3312 - Shakespeare: The Earlier Plays
- ENGL 3313 - Shakespeare: The Later Plays
- ENGL 3323 - Early Medieval Literature
- ENGL 3324 - Literature in the Age of Chaucer
- ENGL 3330 - Enlightenment Literature: Knowledge and Society

- ENGL 3331 - Late Eighteenth-Century Literary Topographies
- ENGL 3340 - Romanticism and Revolution
- ENGL 3341 - Later Romantic Literature
- ENGL 3342 - Early Seventeenth-Century Literature
- ENGL 3343 - Later Seventeenth-Century Literature
- ENGL 3344 - Nineteenth-Century Realism and Reform
- ENGL 3345 - Nineteenth-Century Art and Nature
- ENGL 3350 - The American Renaissance

### Theory/Writing

One course in:

- CRWT 3362 - Advanced Poetry Writing
- CRWT 3368 - Advanced Fiction Writing
- CRWT 3304 - Advanced Creative Nonfiction: Writing Place
- CRWT 3305 - Advanced Script Writing
- ENGL 3266 - Editing: Theory and Practice
- ENGL 3304 - Advanced Writing: Theory, Pedagogy, Practice
- ENGL 3310 - Critical Theory and Cultural Studies
- ENGL 3382 - Textualities/Sexualities
- FILM 3345 - Film Reviewing, Criticism and Theory

### Additional Courses

- One Language/Linguistic course\*
- One ENGL course at the 3000 level or higher\*\*
- Two ENGL courses at the 4000 level or higher
- Two additional ENGL courses at any level\*\*\*

### Notes

**Note: English majors and honours students will receive credit for only ONE of ENGL 1151 or ENGL 1152.**

\*Any Language/Linguistic course includes all courses with the prefixes CHIN, FREN, GERM, ITAL, JPNS, SPAN, LING, and ENGL 3306, with the exception of CHIN 2217, FREN 2250, JPNS 2209, SPAN 2219, and SPAN 2220.

\*\*FILM 3345 can also be used to complete this requirement, as well as any course at the 3000-level or higher with the prefix CRWT and ENGL.

\*\*\*FILM 2251, FILM 3345, or any course with the prefix CRWT and ENGL can also be used to complete this requirement, with the exception of ENGL 1101/GNED 1401 and ENGL 0212.

### Electives

- 12 Elective Courses

Students are eligible to choose any 3-credit university-level course to complete an elective requirement, including Bachelor of Arts - English courses that are not already fulfilling a major requirement. Students should be aware that no more than 24 courses within one discipline will be counted towards their degree (e.g., no more than 24 courses with the course prefix ENGL).

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Arts - English.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy Cluster
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

### Graduation Requirements

### Eligibility To Graduate

To be eligible to graduate from a Mount Royal program, a student must have been officially admitted into the program and must normally complete at least 25% of the graduation requirements as a student within the program, except where written approval has been given by the dean/director of the faculty/centre/school.

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at the University, except where written approval has been given by the dean/director of the appropriate faculty/centre/school.

**Application for Honours after receiving a Bachelor of Arts in the same discipline.**

A student who has graduated with a Bachelor of Arts may not apply to enter Honours in the same discipline in which he or she has received the Bachelor of Arts degree.

### **Time Limitation**

All graduation requirements for the BA degree program must be completed within eight years of initial admission to and enrolment in the program. The prior learning of all students entering baccalaureate programs will be fully assessed at the point of admission for possible advanced standing or transfer credit. Applicable credit for prior learning which is recognized at the point of entry into the program will remain valid for the same time limit (eight years) as is permitted to complete the program.

## **English, BA (Honours)**

---

### **Acceptance Criteria**

Students may apply to the appropriate department for acceptance into the Honours stream upon successful completion of 20 courses in the Bachelor of Arts program. Acceptance into the Honours stream is competitive, meaning students with a higher GPA will be considered first. Students must present a minimum Grade Point Average of 3.00 in the last 10 courses completed and identify a research focus that is compatible with the available faculty for mentorship within the department.

Before applying for Honours students must also have declared a major in the Honours discipline. Students may apply for entrance into Honours between March 1 and May 1 of the academic year in which they have successfully completed 20 courses.

Departments/disciplines in which Honours streams are housed will meet to decide on who will be accepted into the Honours stream, based on the number of applications received and the qualifications of the students who have applied. A student who has graduated with a Bachelor of Arts may not apply to enter Honours in the same discipline in which they received the Bachelor of Arts degree.

### **Continuance Requirements**

Students accepted into the Honours BA must maintain a term GPA of 3.00 in each semester. Subject to review by the Chair, students who fail to maintain a term GPA of 3.00, will lose their place in the Honours stream. Students will normally not be permitted to reapply for Honours and may do so only with the permission of the Chair of their Honours discipline. Students permitted to reapply must follow the procedures for acceptance into the Honours stream, as mentioned above.

There is no guarantee that a student will be re-admitted into the Honours stream. Students completing the Honours stream who have failed to satisfy all the requirements for an Honours degree but who have satisfied all requirements for a BA major degree shall receive a BA major degree upon graduation.

### **Graduation Requirements - English (Honours)**

All students must meet the general graduation requirements for the Bachelor of Arts (honours), in addition to the graduation requirements for the English (honours) major. Students must complete 22 core courses, 10 General Education courses, and 8 elective courses. As part of the 22 core courses, students must complete a minimum of 18 ENGL-prefixed courses.

### **Introductory Literature**

One course in:

- ENGL 1151 - The Art of Story: An Introduction to Literature
- ENGL 1152 - Identity and Invention: An Introduction to Literature
- ENGL 2141 - Literature for Young Children

### **Literary Foundations**

All of:

- ENGL 2202 - Theory in English Studies
- ENGL 2210 - English Literature to the Restoration
- ENGL 2211 - English Literature from the Restoration to the Present

### **Intermediate Writing**

One course in:

- CRWT 2264 - Intermediate Poetry Writing 1: Contemporary Practice
- CRWT 2265 - Intermediate Poetry Writing 2: Precedents
- CRWT 2266 - Intermediate Fiction Writing 1: Contemporary Practice
- CRWT 2267 - Intermediate Fiction Writing 2: Precedents
- CRWT 2268 - Creative Nonfiction and Travel Writing
- ENGL 2205 - Writing about Literature
- ENGL 2207 - Intermediate Writing
- ENGL 2263 - Technical Writing

## Indigenous Arts and Cultures

Any INST or one course in:

- ANTH 2213 - Contemporary Aboriginal Issues in Canada
- ANTH 2214 - Ethnography of the Northwest Coast
- ANTH 2255 - An Ethnographic Survey of Native North America
- ANTH 3319 - Ethnography of the Great Plains
- ENGL 2253 - Indigenous Literatures in Canada
- ENGL 3353 - North American Indigenous Literatures
- FILM 2231 - Indigenous Film
- HIST 2215 - History of the People of the Plains: Treaty 7 Field Course
- HIST 2221 - Indigenous Settler Relations: 1497-1877
- HIST 2234 - The Canadian State and Indigenous Peoples from Treaty 7 to the Truth and Reconciliation Commission
- HIST 3343 - Resistance and Resilience: Indigenous Peoples and Colonialism in Context
- HIST 3345 - Indigenous Histories of Canada: Settler Colonialism and Indigenous Nationhood in Northern North America
- HIST 3346 - Indigenous People in Latin America
- PSYC 3380 - Indigenous Psychology

## North American Literature

Two courses in:

- ENGL 2248 - American Literature from 1865 to 1945
- ENGL 2249 - American Literature from 1945 to the Present
- ENGL 2253 - Indigenous Literatures in Canada
- ENGL 2270 - Literatures in Canada to 1914
- ENGL 2271 - Literatures in Canada from 1914
- ENGL 3246 - Pre-American Literary Environments
- ENGL 3256 - Canadian Drama
- ENGL 3350 - The American Renaissance
- ENGL 3353 - North American Indigenous Literatures
- ENGL 3372 - Western Canadian Literature
- ENGL 4702 - Topics in North American Literature

## Global/Transnational Literature

Two courses in:

- ENGL 2216 - Women's Writing: Voices and Visionaries
- ENGL 2253 - Indigenous Literatures in Canada
- ENGL 2291 - Postcolonial Literature I
- ENGL 2292 - Postcolonial Literature II
- ENGL 3327 - Studies in Women's Literature
- ENGL 3353 - North American Indigenous Literatures
- ENGL 3390 - African Writing in English
- ENGL 4701 - Topics in Global Literature

## Theory/Writing (Theory and Practice)

One course in:

- ENGL 3266 - Editing: Theory and Practice
- ENGL 3304 - Advanced Writing: Theory, Pedagogy, Practice
- ENGL 3310 - Critical Theory and Cultural Studies
- ENGL 3382 - Textualities/Sexualities
- FILM 3345 - Film Reviewing, Criticism and Theory

## Pre-1900 Literature

Four courses in:

- ENGL 3246 - Pre-American Literary Environments
- ENGL 3306 - History of the English Language
- ENGL 3312 - Shakespeare: The Earlier Plays
- ENGL 3313 - Shakespeare: The Later Plays
- ENGL 3323 - Early Medieval Literature
- ENGL 3324 - Literature in the Age of Chaucer
- ENGL 3330 - Enlightenment Literature: Knowledge and Society
- ENGL 3331 - Late Eighteenth-Century Literary Topographies
- ENGL 3340 - Romanticism and Revolution
- ENGL 3341 - Later Romantic Literature
- ENGL 3342 - Early Seventeenth-Century Literature
- ENGL 3343 - Later Seventeenth-Century Literature
- ENGL 3344 - Nineteenth-Century Realism and Reform
- ENGL 3345 - Nineteenth-Century Art and Nature
- ENGL 3350 - The American Renaissance

## Honours Seminar

Students must achieve a minimum grade of B in ENGL 5110 - Honours Seminar.

- ENGL 5110 - Honours Seminar

## Additional Options

- One Language/Linguistic course\*
- One ENGL course at the 3000 level or higher\*\*
- Three ENGL courses at the 4000 level or higher
- One additional ENGL course at any level\*\*\*

## General Education Requirements

Twelve courses must be completed to meet the General Education requirements to graduate with a Bachelor of Arts - English (Honours).

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters

## Elective Requirements

8 Elective Courses

## Notes

**Note: English majors and honours students will receive credit for only ONE of ENGL 1151 or ENGL 1152.**

\*Any Language/Linguistic course includes all courses with the prefixes CHIN, FREN, GERM, ITAL, JPNS, SPAN, LING, and ENGL 3306, with the exception of CHIN 2217, FREN 2250, JPNS 2209, SPAN 2219, and SPAN 2220.

\*\*FILM 3345 can also be used to complete this requirement, as well as any course at the 3000-level or higher with the prefix CRWT and ENGL.

\*\*\*FILM 2251, ENGL 3345, or any course with the prefix CRWT and ENGL can be used to complete this requirement, with the exception of ENGL 1101/GNED 1401 and ENGL 0212.

## History, BA

---

The History major in the Bachelor of Arts four-year program is designed to provide students with a broad base of knowledge in history. Students will also have the opportunity to study a wide variety of topics such as Film and History, Indigenous History, and Public History. Students will develop an understanding of the methods of historical research and analysis, and historical reasoning that distinguish History as a branch of knowledge in the Humanities and Social Sciences. Beyond the intrinsic value of historical study, a BA in History prepares students for graduate studies in History and/or careers in areas such as teaching, law, archival studies, international affairs, journalism, and public administration.

Mount Royal's BA in History aims to provide students with the following competencies:

1. foundational knowledge in history;
2. the ability to locate, read and understand primary and secondary historical sources;
3. an understanding of historical reasoning and analysis;
4. a critical understanding of the nature and diversity of past political, economic, social and cultural institutions;
5. an awareness of the importance of historical context and its relevance to understanding the contemporary world;
6. the ability to formulate and present, both orally and in writing, cogent interpretations of the past.

## Admission

### General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admission section of this calendar.

### Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the Admission section of this calendar, applicants must also satisfy the following criteria for each Major.

### Academic Course Requirements

The following specific courses (or their equivalencies) with the specified minimum grades are required for admission into the Bachelor of Arts program:

#### Majors: Anthropology, English, History and Sociology

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 or a 30-level language

**Major: Psychology**

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%

**Major: Policy Studies**

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%

Although conditional admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

**Indigenous Student Admission**

Each year, 7% of the seats in the Bachelor of Arts program will be reserved for Indigenous applicants through an Indigenous admission target. To be considered for admission under the Indigenous admission target, the applicant must:

- self-identify as an Indigenous applicant on the Application for Admission;
- meet the definition of an Indigenous Applicant; and
- meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program level admission requirements.

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during the early admission period. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

See general admission requirements in the Admission section of this calendar for further information.

**Declaration of Major**

Students must declare their major field of study within one year (ten courses) of enrolling in the program. Students who have decided on their major are advised to declare it as soon as possible to facilitate proper course selection and access to core courses.

**Double Majors**

Double majors must be chosen within the six majors offered as part of the Bachelor of Arts and include:

- 10 General Education courses, of which four can fulfill the requirements of the double major.

- All core courses specified for each major (a minimum of thirty-two courses), with the following exception: A double major in Psychology and Sociology; 16 core courses in each discipline, including:
  - PSYC 2210 - Statistical Methods for Psychology I or SLGY 3321 - Quantitative Methods
  - PSYC 2213 - Research Methods I or SLGY 2232 - Social Research Methods
  - PSYC 2211 - Statistical Methods for Psychology II
  - SLGY 3323 - Qualitative Research Methods or PSYC 4410 - Qualitative Research Methods for Psychology
  - Students who take PSYC 2210 and PSYC 2213 must take an additional two options in Sociology
  - Students who take SLGY 3321 and SLGY 3323 must take an additional two options in Psychology
- All core requirements for each major must be satisfied in a manner approved by the Vice Dean, Curriculum, Policy, and Planning
- Courses that satisfy an elective requirement can be used to satisfy the program requirements for a double major.

**Curriculum****Program Structure - History**

Total number of three-credit courses (or equivalent)	40 courses minimum
Required courses in History	2 courses
Additional required History courses	16 courses
Elective courses	12 courses
General Education Courses	10 courses
First-year course limit (1000 level)	16 courses maximum
Maximum number of courses outside of the Faculty of Arts, and/or the Faculty of Science and Technology, and/or designated as General Education courses	8 courses
Course limit in a single discipline	24 courses maximum
Grade Point Average (GPA) to graduate	2.00 minimum

## Required Courses

All students must meet the general graduation requirements for the Bachelor of Arts, in addition to the graduation requirements for the History major.

- HIST 1100 - Introduction to History
- Three additional HIST courses at the 1000-level
- HIST 2202 - The Historian's Craft
- Eight additional HIST classes at the 2000 level or higher\*
- Four HIST classes at the 4000 level or higher

*\*CNST 2233, HUMN 2219, and HUM 2221 may also be used to complete this requirement.*

## Indigenization Requirement

Any INST designated course or one of the following courses:

- HIST 2221 - Indigenous Settler Relations: 1497-1877
- HIST 2234 - The Canadian State and Indigenous Peoples from Treaty 7 to the Truth and Reconciliation Commission
- HIST 3343 - Resistance and Resilience: Indigenous Peoples and Colonialism in Context
- HIST 3345 - Indigenous Histories of Canada: Settler Colonialism and Indigenous Nationhood in Northern North America
- HIST 3346 - Indigenous People in Latin America

## Electives

- 12 Electives courses

Students are eligible to choose any 3-credit university-level course to complete an elective requirement, including Bachelor of Arts- History courses that are not already fulfilling a major requirement. Students should be aware that no more than 24 courses within one discipline will be counted towards their degree (e.g., no more than 24 courses with the course prefix HIST).

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Arts - History.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses

must be from the Numeracy and Scientific Literacy cluster.

3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

## Graduation Requirements

### Eligibility To Graduate

To be eligible to graduate from a Mount Royal program, a student must have been officially admitted into the program and must normally complete at least 25% of the graduation requirements as a student within the program, except where written approval has been given by the dean/director of the faculty/centre/school.

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at the University, except where written approval has been given by the dean/director of the appropriate faculty/centre/school.

### Application for Honours after receiving a Bachelor of Arts in the same discipline.

A student who has graduated with a Bachelor of Arts may not apply to enter Honours in the same discipline in which he or she has received the Bachelor of Arts degree.

### Time Limitation

All graduation requirements for the BA degree program must be completed within eight years of initial admission to and enrolment in the program. The prior learning of all students entering baccalaureate programs will be fully assessed at the point of admission for possible advanced standing or transfer credit. Applicable credit for prior learning which is recognized at the point of entry into the program will remain valid for the same time limit (eight years) as is permitted to complete the program.

## History, BA (Honours)

---

### Acceptance Criteria

Students may apply to the appropriate department for acceptance into the Honours stream upon the successful completion of twenty courses in the Bachelor of Arts program. Acceptance into the Honours stream is competitive meaning students with higher GPA's will be considered first. Students must present a minimum Grade Point Average of 3.00 in the last 10 courses completed and identify a research

focus that is compatible with the available faculty for mentorship within the department.

Before applying for Honours, students must also have declared a major in the Honours discipline. Students may apply for entrance into Honours between March 1 and May 1 of the academic year in which they have successfully completed twenty courses.

Departments/disciplines in which Honours streams are housed will meet to decide on who will be accepted into the Honours stream, based on the number of applications received and the qualifications of the students who have applied. A student who has graduated with a Bachelor of Arts may not apply to enter Honours in the same discipline in which they received the Bachelor of Arts degree.

## Program Continuance

Students accepted into the Honours BA must maintain a term GPA of 3.00 in each semester. Subject to review by the Chair, students who fail to maintain a term GPA of 3.00, will lose their place in the Honours stream. Students will normally not be permitted to reapply for Honours and may do so only with the permission of the Chair of their Honours discipline. Students permitted to reapply must follow the procedures for acceptance into the Honours stream, as mentioned above.

There is no guarantee that a student will be re-admitted into the Honours stream. Students completing the Honours stream who have failed to satisfy all the requirements for an Honours degree but who have satisfied all requirements for a BA major degree shall receive a BA major degree upon graduation.

## Curriculum

All students must meet the general graduation requirements for the Bachelor of Arts (honours). In addition, History Honours students must achieve a minimum GPA of 3.0 in the last eight History courses completed in the program and must meet the following graduation requirements.

- HIST 1100 - Introduction to History
- HIST 2202 - The Historian's Craft
- Three additional HIST classes at the 1000-level
- HIST 5110 - Honours Project I
- HIST 5120 - Honours Project II
- Eight additional HIST classes at the 2000-level or higher\*\*
- Four HIST classes at the 4000-level or higher
- 10 General Education courses
- 10 Electives courses\*\*\*

\* Students are strongly advised to select a topic for their Honours Project from subject areas in which they have taken a minimum of four courses, at least one at the 4000-level.

\*\* CNST 2233, HUMN 2219, and HUM 2221 may also be used to complete this requirement.

\*\*\* Students are eligible to choose any 3-credit university-level course to complete an elective requirement, including HIST courses that are not already fulfilling a major requirement. Students should be aware that no more than 24 courses within one discipline will be counted towards their degree (e.g. no more than 24 courses with the course prefix HIST).

## Indigenization Requirement

Any INST designated course or one of the following courses:

- HIST 2221 - Indigenous Settler Relations: 1497-1877
- HIST 2234 - The Canadian State and Indigenous Peoples from Treaty 7 to the Truth and Reconciliation Commission
- HIST 3343 - Resistance and Resilience: Indigenous Peoples and Colonialism in Context
- HIST 3345 - Indigenous Histories of Canada: Settler Colonialism and Indigenous Nationhood in Northern North America
- HIST 3346 - Indigenous People in Latin America

## Electives

- Eight Electives courses

Students are eligible to choose any 3-credit university-level course to complete an elective requirement, including HIST courses that are not already fulfilling a major requirement. Students should be aware that no more than 24 courses within one discipline will be counted towards their degree (e.g. no more than 24 courses with the course prefix HIST).

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Arts - History (Honours).

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses

must be from the Numeracy and Scientific Literacy cluster.

3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

## **Sociology, BA**

---

The Major in Sociology is designed to expand students' sociological imaginations by challenging them to think critically about the ways in which society is created, maintained, and changed. Through courses that explore the historical, philosophical, and theoretical development of the discipline, students will be exposed to the conceptual and methodological tools required to conduct critical and reasoned analyses of all areas of social life from small-scale micro-level social interaction to large-scale macro-level social institutions. Sociology at Mount Royal focuses on the study of social power and inequality, exposing the ways in which interlocking systems of domination shape and define the individual and the collective social condition and on strategies of social resistance to that domination. Apart from the intrinsic value of learning to think critically about the taken-for-granted world, a BA in Sociology helps prepare students for graduate school and/or a wide range of careers in areas such as independent research, social services, community advocacy, and teaching.

Mount Royal's BA in Sociology aims to provide students with the following competencies:

1. Sociological imagination and an intimate familiarity with core Sociology concepts in order to examine critically the taken-for-granted world.
2. The ability to locate, read and critically analyze primary and secondary sociological sources (theoretical and empirical).
3. Knowledge of the use of social theory in Sociology and a familiarity with the central sociological perspectives.
4. An understanding of all of the components of the research process both qualitative and quantitative.
5. An understanding of how social life is structured by inequality and shaped by factors such as social class, gender, race/ethnicity, sexuality, and subcultural membership.
6. An understanding of the interaction between individuals, and historical, cultural, and social forces.

## **Admission**

### **General Admission Requirements**

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admission section of this calendar.

### **Additional Admission Requirements**

In addition to meeting the general admission requirements indicated in the Admission section of this calendar, applicants must also satisfy the following criteria for each Major.

### **Academic Course Requirements**

The following specific courses (or their equivalencies) with the specified minimum grades are required for admission into the Bachelor of Arts program:

#### **Majors: Anthropology, English, History and Sociology**

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 or a 30-level language

#### **Major: Psychology**

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%

#### **Major: Policy Studies**

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%

Although conditional admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

### **Indigenous Student Admission**

Each year, 7% of the seats in the Bachelor of Arts program will be reserved for Indigenous applicants through an Indigenous admission target. To be considered for admission under the Indigenous admission target, the applicant must:

- self-identify as an Indigenous applicant on the Application for Admission;
- meet the definition of an Indigenous Applicant; and
- meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program level admission requirements.

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during the early admission period. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

See general admission requirements in the Admission section of this calendar for further information.

## Declaration of Major

Students must declare their major field of study within one year (ten courses) of enrolling in the program. Students who have decided on their major are advised to declare it as soon as possible to facilitate proper course selection and access to core courses.

## Double Majors

Double majors must be chosen within the six majors offered as part of the Bachelor of Arts and include:

- 10 General Education courses, of which four can fulfill the requirements of the double major.
- All core courses specified for each major (a minimum of thirty-two courses), with the following exception: A double major in Psychology and Sociology; 16 core courses in each discipline, including:
  - PSYC 2210 - Statistical Methods for Psychology I or SLGY 3321 - Quantitative Methods
  - PSYC 2213 - Research Methods I or SLGY 2232 - Social Research Methods
  - PSYC 2211 - Statistical Methods for Psychology II
  - SLGY 3323 - Qualitative Research Methods or PSYC 4410 - Qualitative Research Methods for Psychology
  - Students who take PSYC 2210 and PSYC 2213 must take an additional two options in Sociology
  - Students who take SLGY 3321 and SLGY 3323 must take an additional two options in Psychology
- All core requirements for each major must be satisfied in a manner approved by the Vice Dean, Curriculum, Policy, and Planning
- Courses that satisfy an elective requirement can be used to satisfy the program requirements for a double major.

## Curriculum

### Program Structure - Sociology

Total number of three-credit courses (or equivalent)	40 courses minimum
Required courses in Sociology	6 courses
Additional required Sociology courses	10-14 courses
Elective courses	10-14 courses
General Education Courses	10 courses
First-year course limit (1000 level)	16 courses maximum
Maximum number of courses outside of the Faculty of Arts, and/or the Faculty of Science and Technology, and/or designated as General Education courses	8 courses
Course limit in a single discipline	24 courses maximum
Grade Point Average (GPA) to graduate	2.00 minimum

### Required Courses

All students must meet the general graduation requirements for the Bachelor of Arts, in addition to the graduation requirements for the Sociology major.

- SLGY 1101 - Introduction to Sociology
- SLGY 2131 - Classical Sociological Theory
- SLGY 2232 - Social Research Methods
- SLGY 3321 - Quantitative Methods
- SLGY 3323 - Qualitative Research Methods
- SLGY 3333 - Contemporary Social Theory
- Two SLGY classes at the 2000 level
- Three SLGY classes at the 3000 level or higher
- Two SLGY classes at the 4000 level
- One additional SLGY class at the 2000 level or higher
- One additional SLGY class at any level

### One of

- SLGY 2233 - Sociology of Gender
- SLGY 2265 - Social Stratification and Inequality
- SLGY 2275 - Theories of "Race" and Ethnicity

## Electives

### 14 Elective courses

Students are eligible to choose any 3-credit university-level course to complete an elective requirement, including SLGY courses that are not already fulfilling a major requirement. Students should be aware that no more than 24 courses within one discipline will be counted towards their degree (e.g. no more than 24 courses with the course prefix SLGY).

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Arts - Sociology.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

## Graduation Requirements

### Eligibility To Graduate

To be eligible to graduate from a Mount Royal program, a student must have been officially admitted into the program and must normally complete at least 25% of the graduation requirements as a student within the program, except where written approval has been given by the dean/director of the faculty/centre/school.

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at the University, except where written approval has been given by the dean/director of the appropriate faculty/centre/school.

### Application for Honours after receiving a Bachelor of Arts in the same discipline.

A student who has graduated with a Bachelor of Arts may not apply to enter Honours in the same discipline in which he or she has received the Bachelor of Arts degree.

### Time Limitation

All graduation requirements for the BA degree program must be completed within eight years of initial admission to and enrolment in the program. The prior learning of all students entering baccalaureate programs will be fully assessed at the point of admission for possible advanced standing or transfer credit. Applicable credit for prior learning which is recognized at the point of entry into the program will remain valid for the same time limit (eight years) as is permitted to complete the program.

## Sociology, BA (Honours)

---

### Acceptance Criteria

Students may apply to the appropriate department for acceptance into the Honours stream upon the successful completion of twenty courses in the Bachelor of Arts program. Acceptance into the Honours stream is competitive meaning students with higher GPA's will be considered first. Students must present a minimum Grade Point Average of 3.30 in the last 10 courses completed and identify a research focus that is compatible with the available faculty for mentorship within the department.

Before applying for Honours, students must also have declared a major in the Honours discipline. Students may apply for entrance into Honours between March 1 and May 1 of the academic year in which they have successfully completed twenty courses. Departments/disciplines in which Honours streams are housed will meet to decide on who will be accepted into the Honours stream, based on the number of applications received and the qualifications of the students who have applied. A student who has graduated with a Bachelor of Arts may not apply to enter Honours in the same discipline in which they received the Bachelor of Arts degree.

### Program Continuance

Students accepted into the Honours BA must maintain a term GPA of 3.30 in each semester. Subject to review by the Chair, students who fail to maintain a term GPA of 3.30, will lose their place in the Honours stream. Students will normally not be permitted to reapply for Honours and may do so only with the permission of the Chair of their Honours discipline. Students permitted to reapply must follow the procedures for acceptance into the Honours stream, as mentioned above.

There is no guarantee that a student will be re-admitted into the Honours stream. Students completing the Honours stream who have failed to satisfy all the requirements for an Honours degree but who have satisfied all requirements for a BA major degree shall receive a BA major degree upon graduation.

## Curriculum

All students must meet the general graduation requirements for the Bachelor of Arts (honours), in addition to the graduation requirements for the Sociology (honours) major.

- SLGY 1101 - Introduction to Sociology
- SLGY 2131 - Classical Sociological Theory
- SLGY 2232 - Social Research Methods
- SLGY 3321 - Quantitative Methods
- SLGY 3323 - Qualitative Research Methods
- SLGY 3333 - Contemporary Social Theory
- SLGY 5110 - Honours Research I
- SLGY 5120 - Honours Research II
- Three SLGY classes at the 2000 level
- Three SLGY classes at the 3000 level or higher
- Two SLGY classes at the 4000 level
- Three additional SLGY class at the 2000 level or higher
- One additional SLGY class at any level

## Electives

### 10 Elective courses

Students are eligible to choose any 3-credit university-level course to complete an elective requirement, including SLGY courses that are not already fulfilling a major requirement. Students should be aware that no more than 24 courses within one discipline will be counted towards their degree (e.g. no more than 24 courses with the course prefix SLGY).

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Arts - Sociology (Honours).

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

## Policy Studies, BA

---

The Policy Studies major in the Bachelor of Arts four year program is designed to provide students with a solid academic foundation in policy theory, political

science, and economics, as well as a semester of work experience. With these two key components, this degree will prepare graduates to embark on further study and/or challenging policy careers in the public, private, and non-profit sectors.

With the Bachelor of Arts, Major in Policy Studies, Mount Royal joins a small number of universities in Canada that offer policy studies at the undergraduate level. The Department of Economics, Justice and Policy Studies at Mount Royal encompasses the disciplines of economics and political science in addition to policy studies. Consequently, it was able to build an integrated curriculum with a much better balance between economics and political science than is usually found. Students who graduate from the Bachelor of Arts, Major in Policy Studies program will have the theoretical background and practical skills - quantitative, computer analysis, writing and presentation - to understand the evolving relationships between business, governments, non-governmental organizations and interest groups, (policy communities). Graduates will be able to apply their skills to research, develop and evaluate policy proposals and will be qualified for positions such as management and communications assistants, planning and coordination officers and policy and economic analysts in private, public and not-for-profit sectors.

Students will have the opportunity to put theory into practice with a semester-long paid Internship, which is normally taken during the third year of the degree program. Given the increased demand for policy professionals in Alberta and indeed throughout Canada, Mount Royal's innovative BA in Policy Studies makes an exceptionally relevant fit with today's economic, social and political challenges. Graduates of this degree program not only are keenly aware of the challenges our economy and society face; they also possess the knowledge to help address these challenges.

The six principal Policy Studies degree outcomes are as follows:

1. Comprehending policy contexts,
2. Applying analytical and research skills,
3. Behaving professionally,
4. Utilizing policy expertise,
5. Communicating effectively, and
6. Applying theory.

## Admission

### General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admission section of this calendar.

## Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the Admission section of this calendar, applicants must also satisfy the following criteria for each Major.

## Academic Course Requirements

The following specific courses (or their equivalencies) with the specified minimum grades are required for admission into the Bachelor of Arts program:

### Majors: Anthropology, English, History and Sociology

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 or a 30-level language

### Major: Psychology

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%

### Major: Policy Studies

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%

Although conditional admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

## Indigenous Student Admission

Each year, 7% of the seats in the Bachelor of Arts program will be reserved for Indigenous applicants through an Indigenous admission target. To be considered for admission under the Indigenous admission target, the applicant must:

- self-identify as an Indigenous applicant on the Application for Admission;
- meet the definition of an Indigenous Applicant; and
- meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program level admission requirements.

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during the early admission period. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

See general admission requirements in the Admission section of this calendar for further information.

## Declaration of Major

Students must declare their major field of study within one year (ten courses) of enrolling in the program. Students who have decided on their major are advised to declare it as soon as possible to facilitate proper course selection and access to core courses.

## Double Majors

Double majors must be chosen within the six majors offered as part of the Bachelor of Arts and include:

- 10 General Education courses, of which four can fulfill the requirements of the double major.
- All core courses specified for each major (a minimum of thirty-two courses), with the following exception: A double major in Psychology and Sociology; 16 core courses in each discipline, including:
  - PSYC 2210 - Statistical Methods for Psychology I or SLGY 3321 - Quantitative Methods
  - PSYC 2213 - Research Methods I or SLGY 2232 - Social Research Methods
  - PSYC 2211 - Statistical Methods for Psychology II
  - SLGY 3323 - Qualitative Research Methods or PSYC 4410 - Qualitative Research Methods for Psychology
  - Students who take PSYC 2210 and PSYC 2213 must take an additional two options in Sociology
  - Students who take SLGY 3321 and SLGY 3323 must take an additional two options in Psychology
- All core requirements for each major must be satisfied in a manner approved by the Vice Dean, Curriculum, Policy, and Planning
- Courses that satisfy an elective requirement can be used to satisfy the program requirements for a double major.

## Curriculum

### Program Structure - Policy Studies

Total number of three-credit courses (or equivalent)	40 courses minimum
Required courses in Policy Studies	24 courses
Additional required Policy Studies courses	1 course

Elective courses	5 courses
General Education Courses	10 courses
First-year course limit (1000 level)	16 courses maximum
Maximum number of courses outside of the Faculty of Arts, and/or the Faculty of Science and Technology, and/or designated as General Education courses	8 courses
Course limit in a single discipline	24 courses maximum
Grade Point Average (GPA) to graduate	2.00 minimum

## Curriculum

All students must meet the general graduation requirements for the Bachelor of Arts, in addition to the graduation requirements for the Policy Studies major.

- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- ECON 2213 - Intermediate Economic Theory Macroeconomics I
- ECON 2244 - Managerial Economics **or**
- ECON 2211 - Intermediate Economic Theory - Microeconomics I
- ECON 2255 - Economics of the Public Sector
- PLSC 1101 - Introduction to Government and Politics
- PLSC 2231 - The Canadian State
- PLSC 2259 - Comparative Government and Politics
- PLSC 2287 - Introduction to International Relations
- POST 2201 - Introduction to Public Policy
- POST 2208 - Qualitative Research Methods
- POST 2209 - Methodology and Statistics
- POST 3303 - Federalism
- POST 3305 - Interest Groups and Group Behaviour
- POST 3030 - Internship
- POST 4421 - International Economic Policy
- POST 4431 - Managing and Implementing Public Policy
- POST 4443 - Survey of Public and Private Law Principles
- POST 5010 - Selected Topics in Policy Studies

- POST 5020 - Integrative Professional Practice

## Indigenization Requirement

- HIST 2221 - Indigenous Settler Relations: 1497-1877
- HIST 2234 - The Canadian State and Indigenous Peoples from Treaty 7 to the Truth and Reconciliation Commission
- HIST 3343 - Resistance and Resilience: Indigenous Peoples and Colonialism in Context
- HIST 3345 - Indigenous Histories of Canada: Settler Colonialism and Indigenous Nationhood in Northern North America
- INST 1101 - Introduction to Indigenous Studies: the Canadian Context

## Note

Policy Studies Major students must obtain a minimum grade of C (2.00) in all core courses.

## Electives

- Five elective courses.

Students are eligible to choose any 3-credit university-level course to complete an elective requirement, including Bachelor of Arts - Policy Studies courses that are not already fulfilling a major requirement. Students should be aware that no more than 24 courses within one discipline will be counted towards their degree (e.g., no more than 24 courses with the course prefix POST).

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Arts - Policy Studies.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

## Graduation Requirements

### Eligibility To Graduate

To be eligible to graduate from a Mount Royal program, a student must have been officially admitted into the program and must normally complete at least 25% of the graduation requirements as a student within the program, except where written approval has been given by the dean/director of the faculty/centre/school.

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at the University, except where written approval has been given by the dean/director of the appropriate faculty/centre/school.

In addition, the internship component of the Policy Studies BA Major must normally be completed as a student of Mount Royal.

### Application for Honours after receiving a Bachelor of Arts in the same discipline.

A student who has graduated with a Bachelor of Arts may not apply to enter Honours in the same discipline in which he or she has received the Bachelor of Arts degree.

### Time Limitation

All graduation requirements for the BA degree program must be completed within eight years of initial admission to and enrolment in the program. The prior learning of all students entering baccalaureate programs will be fully assessed at the point of admission for possible advanced standing or transfer credit. Applicable credit for prior learning which is recognized at the point of entry into the program will remain valid for the same time limit (eight years) as is permitted to complete the program.

## Policy Studies, BA (Honours)

### Acceptance Criteria

Students may apply to the appropriate department for acceptance into the Honours stream upon successful completion of twenty courses in the Bachelor of Arts program. **Acceptance into the Honours stream is competitive meaning students with higher GPAs will be considered first.** Students must present a minimum Grade Point Average of 3.00 in the last 10 courses completed and identify a research focus that is compatible with the available faculty for mentorship within the department.

Before applying for Honours, students must also have declared a major in the Honours discipline. Students may apply for entrance into Honours between March 1 and May 1 of the academic year in which they have successfully completed twenty courses.

Departments/disciplines in which Honours streams are housed will meet to decide on who will be accepted into the Honours stream, based on the number of applications received and the qualifications of the students who have applied. A student who has graduated with a Bachelor of Arts may not apply to enter Honours in the same discipline in which they received the Bachelor of Arts degree.

### Continuance Requirements

Students accepted into the Honours BA must maintain a term GPA of 3.00 in each semester. Subject to review by the Chair, students who fail to maintain a term GPA of 3.00, will lose their place in the Honours stream. Students will normally not be permitted to reapply for Honours and may do so only with the permission of the Chair of their Honours discipline. Students permitted to reapply must follow the procedures for acceptance into the Honours stream, as mentioned above.

There is no guarantee that a student will be re-admitted into the Honours stream. Students completing the Honours stream who have failed to satisfy all the requirements for an Honours degree but who have satisfied all requirements for a BA major degree shall receive a BA major degree upon graduation.

### Program Structure - Policy Studies

Total number of three-credit courses (or equivalent)	40 courses minimum
Required courses in Policy Studies	24 courses
Additional required Policy Studies courses	1 course
Elective courses	5 courses
General Education Courses	10 courses
First-year course limit (1000 level)	16 courses maximum
Maximum number of courses outside of the Faculty of Arts, and/or the Faculty of Science and Technology, and/or designated as General Education courses	8 courses
Course limit in a single discipline	24 courses maximum

Grade Point Average (GPA) to graduate	2.00 minimum
---------------------------------------	--------------

## Curriculum

- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- ECON 2213 - Intermediate Economic Theory Macroeconomics I
- ECON 2211 - Intermediate Economic Theory - Microeconomics I **or**
- ECON 2244 - Managerial Economics
- ECON 2255 - Economics of the Public Sector
- PLSC 1101 - Introduction to Government and Politics
- PLSC 2231 - The Canadian State
- PLSC 2259 - Comparative Government and Politics
- PLSC 2287 - Introduction to International Relations
- POST 2201 - Introduction to Public Policy
- POST 2208 - Qualitative Research Methods
- POST 2209 - Methodology and Statistics
- POST 3030 - Internship
- POST 3303 - Federalism
- POST 3305 - Interest Groups and Group Behaviour
- POST 4421 - International Economic Policy
- POST 4431 - Managing and Implementing Public Policy
- POST 4443 - Survey of Public and Private Law Principles
- POST 5010 - Selected Topics in Policy Studies
- POST 5020 - Integrative Professional Practice
- POST 5120 - Honours Thesis

### One of

- HIST 2221 - Indigenous Settler Relations: 1497-1877
- HIST 2234 - The Canadian State and Indigenous Peoples from Treaty 7 to the Truth and Reconciliation Commission
- HIST 3343 - Resistance and Resilience: Indigenous Peoples and Colonialism in Context
- INST 1101 - Introduction to Indigenous Studies: the Canadian Context

## Electives

- Four elective courses.

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Arts - Policy Studies (Honours).

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

Interested students should consult the Policy Studies Department's website for more detailed information about the Policy Studies Honours stream.

## Graduation Requirements - Major in Policy Studies (Honours)

All students must meet the general graduation requirements for the Bachelor of Arts (honours), in addition to the graduation requirements for the Policy Studies (honours) major.

1. A minimum grade of 3.00 (B) is required for all courses in the major with the subject code POST. Students who fail to maintain this minimum will lose their place in the Policy Studies Honours program.
2. Policy Studies Honours students must fulfill all General Education requirements as specified for the Bachelor of Arts - Policy Studies degree.
3. Policy Studies Honours students will complete four electives for graduation, instead of the five required for the Policy Studies Major.
4. Students must produce an Honours thesis, the content of which must be approved by the Policy Studies Honours Advisor and the Chair of the Department of Economics, Justice and Policy Studies.
5. The POST 5120 - Honours Thesis will be completed during the student's last semester in the program. Complete information for the Honours Thesis program is provided by the department in the Policy Studies Honours Information Handbook, available at the General Office of the Department of Economics, Justice and Policy Studies (EA 3039).

## Psychology, BA

---

The Mount Royal BA in Psychology is designed to provide students with a broad base of knowledge in the key areas of the discipline by requiring courses in six core areas. It will also provide an understanding of research processes, the scientific method, and statistical analysis through specific courses in these areas, as well as in senior courses that cover this material as it relates to specific topics. Students will also have the opportunity to choose from courses that will enable them to focus on a particular area within the Psychology discipline. The knowledge, skills, and abilities acquired in the BA program can lead students to a variety of career opportunities or to further study in Psychology and related fields.

It is recommended that students who meet the qualifications and who intend to pursue graduate study consider applying to the Honours BA in Psychology.

Specific targeted outcomes for the graduates of the program include the following:

1. Knowledge of Psychology
  - a. Students will acquire foundational knowledge in the core areas of Psychology and in those areas in which they choose to focus. This outcome will be achieved through courses at the introductory and senior levels that cover the basic concepts, perspectives, and research findings from the main topic areas in Psychology. The core required areas include Developmental Psychology, Cognitive Psychology, Social Psychology, Theories of Personality, Psychopathology, and Biological Psychology.
  - b. Students will develop an understanding of major theoretical perspectives, both historical and current, and will apply their understanding of these perspectives in a variety of content areas.
  - c. Students will acquire the ability to locate, read and understand primary and secondary sources in Psychology and will be able to communicate with others, both orally and in writing, in the language of the discipline.
2. Research Methods in Psychology  
Students will understand and apply basic research methods in psychology, including research design, data analysis, and interpretation. This goal will be achieved

through two required courses in statistics and one in research methods, through optional senior statistics and research methods courses, through participation in research projects, and through assignments in senior content courses. Students will also demonstrate the ability to design appropriate research strategies and will demonstrate proficiency in data analysis in assessing research results. Students in the Honours program will be expected to achieve a higher level of understanding through participation in senior statistics and research methods courses.

3. Thinking Skills in Psychology  
Students will apply critical and creative thinking as well as problem-solving skills to research questions and issues related to behavioural and mental processes. They will develop the ability to recognize and critically examine the assumptions informing Psychology and to assess the credibility and validity of the information. Students will have opportunities to apply psychological principles to personal, social, and other real-life issues.
4. Ethics, Values, and Diversity in Psychology  
Students will learn to tolerate ambiguity in psychological explanations, to understand the necessity for ethical guidelines in Psychology and act accordingly, and to develop appropriate objectivity and open-mindedness. They will appreciate and respect multicultural and interpersonal diversity.

### Admission

#### General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admission section of this calendar.

#### Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the Admission section of this calendar, applicants must also satisfy the following criteria for each Major.

#### Academic Course Requirements

The following specific courses (or their equivalencies) with the specified minimum grades are required for admission into the Bachelor of Arts program:

**Majors: Anthropology, English, History and Sociology**

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 or a 30-level language

**Major: Psychology**

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%

**Major: Policy Studies**

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%

Although conditional admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

### Indigenous Student Admission

Each year, 7% of the seats in the Bachelor of Arts program will be reserved for Indigenous applicants through an Indigenous admission target. To be considered for admission under the Indigenous admission target, the applicant must:

- self-identify as an Indigenous applicant on the Application for Admission;
- meet the definition of an Indigenous Applicant; and
- meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program level admission requirements.

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during the early admission period. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

See general admission requirements in the Admission section of this calendar for further information.

### Declaration of Major

Students must declare their major field of study within one year (ten courses) of enrolling in the program. Students who have decided on their major are advised to declare it as soon as possible to facilitate proper course selection and access to core courses.

### Double Majors

Double majors must be chosen within the six majors offered as part of the Bachelor of Arts and include:

- 10 General Education courses, of which four can fulfill the requirements of the double major.
- All core courses specified for each major (a minimum of thirty-two courses), with the following exception: A double major in Psychology and Sociology; 16 core courses in each discipline, including:
  - PSYC 2210 - Statistical Methods for Psychology I or SLGY 3321 - Quantitative Methods
  - PSYC 2213 - Research Methods I or SLGY 2232 - Social Research Methods
  - PSYC 2211 - Statistical Methods for Psychology II
  - SLGY 3323 - Qualitative Research Methods or PSYC 4410 - Qualitative Research Methods for Psychology
  - Students who take PSYC 2210 and PSYC 2213 must take an additional two options in Sociology
  - Students who take SLGY 3321 and SLGY 3323 must take an additional two options in Psychology
- All core requirements for each major must be satisfied in a manner approved by the Vice Dean, Curriculum, Policy, and Planning
- Courses that satisfy an elective requirement can be used to satisfy the program requirements for a double major.

### Curriculum

#### Program Structure - Psychology

Total number of three-credit courses (or equivalent)	40 courses minimum
Required courses in Psychology	11 courses
Additional required courses	6 courses
Elective courses	13 courses
General Education Courses	10 courses
First-year course limit (1000 level)	16 courses maximum
Maximum number of courses outside of the Faculty of Arts, and/or the Faculty of Science and Technology, and/or designated as General Education courses	8 courses

Course limit in a single discipline	24 courses maximum
Grade Point Average (GPA) to graduate	2.00 minimum

## Curriculum

All students must meet the general graduation requirements for the Bachelor of Arts, in addition to the graduation requirements for the Psychology major.

- PSYC 1104 - Introductory Psychology I
- PSYC 1106 - Introduction to Psychology II: Career Readiness - Work Integrated Learning
- PSYC 2210 - Statistical Methods for Psychology I
- PSYC 2211 - Statistical Methods for Psychology II
- PSYC 2213 - Research Methods I
- PSYC 2235 - Life-Span Development
- PSYC 2245 - Social Psychology
- PSYC 2265 - Cognitive Psychology
- PSYC 2275 - Foundations in Biopsychology
- PSYC 2283 - Personality
- PSYC 2285 - Psychopathology
- Two PSYC classes at the 3000 level or higher
- Two PSYC classes at the 4000 level or higher
- One additional PSYC class at any level

### Additional Course

Choose one additional course from the following list:

- ANTH 2213 - Contemporary Aboriginal Issues in Canada
- ANTH 2214 - Ethnography of the Northwest Coast
- ANTH 2255 - An Ethnographic Survey of Native North America
- ANTH 3319 - Ethnography of the Great Plains
- ENGL 2253 - Indigenous Literatures in Canada
- ENGL 3353 - North American Indigenous Literatures
- FILM 2231 - Indigenous Film
- HIST 2215 - History of the People of the Plains: Treaty 7 Field Course
- HIST 2221 - Indigenous Settler Relations: 1497-1877
- HIST 2234 - The Canadian State and Indigenous Peoples from Treaty 7 to the Truth and Reconciliation Commission

- HIST 3345 - Indigenous Histories of Canada: Settler Colonialism and Indigenous Nationhood in Northern North America
- HIST 3346 - Indigenous People in Latin America
- PSYC 3380 - Indigenous Psychology
- SLGY 2250 - The Sociology of Indigenous Peoples
- Any INST designated course
- Another Indigenous course offered in the Faculty of Arts on Approval by the Department of Psychology

### Note

Psychology Major students must obtain a minimum grade of C (2.00) in all core courses with the prefix PSYC. This does not include general education or elective courses.

### Electives

- 13 elective courses

Students are eligible to choose any 3-credit university-level course to complete an elective requirement, including Bachelor of Arts - Psychology courses that are not already fulfilling a major requirement. Students should be aware that no more than 24 courses within one discipline will be counted towards their degree (e.g., no more than 24 courses with the course prefix PSYC).

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Arts - Psychology.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

### Graduation Requirements

#### Eligibility To Graduate

To be eligible to graduate from a Mount Royal program, a student must have been officially admitted into the program and must normally complete at least 25% of the graduation requirements as a student within the program, except where written approval has

been given by the dean/director of the faculty/centre/school.

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at the University, except where written approval has been given by the dean/director of the appropriate faculty/centre/school.

### **Application for Honours after receiving a Bachelor of Arts in the same discipline.**

A student who has graduated with a Bachelor of Arts may not apply to enter Honours in the same discipline in which he or she has received the Bachelor of Arts degree.

### **Time Limitation**

All graduation requirements for the BA degree program must be completed within eight years of initial admission to and enrolment in the program. The prior learning of all students entering baccalaureate programs will be fully assessed at the point of admission for possible advanced standing or transfer credit. Applicable credit for prior learning which is recognized at the point of entry into the program will remain valid for the same time limit (eight years) as is permitted to complete the program.

## **Psychology, BA (Honours)**

---

### **Acceptance Requirements**

The Psychology Honours stream is highly competitive and is intended to provide advanced preparation in research to exceptional students who are interested in pursuing graduate programs. The core BA in Psychology program requirements are augmented with additional work in specific subject areas such as the history of Psychology, completing advanced courses in statistics and research methods, taking part in Honours seminars and completing an Honours thesis requiring original research.

To apply for admission to the BA Psychology Honours stream, the Department of Psychology requires that students have:

1. Completed PSYC 4412 - Advanced Statistical Methods for Psychology - minimum B grade.
2. Completed PSYC 4413 - Research Methods II - minimum B grade.
3. A minimum average GPA of 3.5 across all 2000, 3000 and 4000-level psychology courses, or permission of the Department of Psychology Honours Committee.

**Note: Meeting the minimum requirements for admission to the Honours in Psychology stream does not guarantee admission to the program. Application to the Honours in Psychology stream is done via the Psychology Department. Interested students should consult the Psychology Department's website for more detailed information about the Psychology Honours stream.**

### **Program Continuance**

Students accepted into the Honours in Psychology stream must maintain a minimum average GPA of 3.5 in their 2000, 3000 and 4000-level Psychology courses. To continue in the Honours in Psychology stream, a student must conduct a major research project under the direction of a qualified psychology supervisor. Qualified supervisors include full-time tenured, tenure-track and senior lecturer faculty members in the Department of Psychology at Mount Royal University.

### **Curriculum**

All students must meet the general graduation requirements for the Bachelor of Arts (honours), in addition to the graduation requirements for the Psychology (honours) major.

- PSYC 1104 - Introductory Psychology I
- PSYC 1106 - Introduction to Psychology II: Career Readiness - Work Integrated Learning
- PSYC 2210 - Statistical Methods for Psychology I
- PSYC 2211 - Statistical Methods for Psychology II
- PSYC 2213 - Research Methods I
- PSYC 2235 - Life-Span Development
- PSYC 2245 - Social Psychology
- PSYC 2265 - Cognitive Psychology
- PSYC 2275 - Foundations in Biopsychology
- PSYC 2283 - Personality
- PSYC 2285 - Psychopathology

#### **One of:**

- PSYC 3305 - History of Psychological Thought
- PSYC 4405 - Psychometrics
- PSYC 4410 - Qualitative Research Methods for Psychology
- PSYC 4412 - Advanced Statistical Methods for Psychology
- PSYC 4413 - Research Methods II
- PSYC 5110 - Honours Seminar I
- PSYC 5120 - Honours Seminar II
- One PSYC class at the 3000-level or higher

- Two PSYC classes at the 4000 -level or higher
- One additional PSYC class at any level

### Additional Course

One additional course from the following list.

- ANTH 2213 - Contemporary Aboriginal Issues in Canada
- ANTH 2214 - Ethnography of the Northwest Coast
- ANTH 2255 - An Ethnographic Survey of Native North America
- ANTH 3319 - Ethnography of the Great Plains
- ENGL 2253 - Indigenous Literatures in Canada
- ENGL 3353 - North American Indigenous Literatures
- FILM 2231 - Indigenous Film
- HIST 2215 - History of the People of the Plains: Treaty 7 Field Course
- HIST 2221 - Indigenous Settler Relations: 1497-1877
- HIST 3343 - Resistance and Resilience: Indigenous Peoples and Colonialism in Context
- HIST 3345 - Indigenous Histories of Canada: Settler Colonialism and Indigenous Nationhood in Northern North America
- HIST 3346 - Indigenous People in Latin America
- PSYC 3380 - Indigenous Psychology
- SLGY 2250 - The Sociology of Indigenous Peoples
- Any INST designated course
- Another Indigenous course offered in the Faculty of Arts on Approval by the Department of Psychology

### Note

Psychology (Honours) Major students must obtain a minimum grade of C ( 2.00) in all core courses with the prefix PSYC. This does not include general education or elective courses. While enrolled in PSYC 5110 and PSYC 5120, students are required to conduct a research project under faculty supervision and to write a thesis. Students must present their research results at a Psychology Department undergraduate conference that is held concurrently with PSYC 5120.

### Electives

- 9 Elective courses

Students are eligible to choose any 3-credit university-level course to complete an elective requirement, including PSYC courses that are not already fulfilling a major requirement. Students should be aware that no more than 24 courses within one discipline will be counted towards their degree (e.g. no more than 24 courses with the course prefix PSYC).

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Arts - Psychology (Honours).

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

Interested students should consult the Psychology Department's website for more detailed information about the Psychology Honours stream.

# Bachelor of Arts-Criminal Justice

## General Information

The Bachelor of Arts - Criminal Justice is a four-year baccalaureate degree program. The curriculum for the degree educates students in six program areas including, Foundations in Justice Studies, Human Relations, Human Justice, Criminological Literacy, Experiential Learning, and General Education. This program provides professional preparation for students wishing to pursue careers such as Law Enforcement, Canadian Border Services, Immigration Canada, Federal, Provincial and Community Corrections and Probation/Parole. As well, the Bachelor of Arts - Criminal Justice will prepare students for a range of justice-related careers outside of law enforcement and corrections. The Honours stream in the Bachelor of Arts - Criminal Justice is unique in Alberta. Students in the Honours stream will develop enhanced knowledge and skills that are particularly suited for preparation to apply for graduate study in criminology/criminal justice and law school.

## Police Information Check

In order to graduate with a Bachelor of Arts - Criminal Justice degree, students may complete a practicum course in a justice-related agency. In some cases, agencies may require students to provide proof of a police information check prior to commencing the course. All costs related to the police information check are the responsibility of the student. Refer to the statement regarding police information and other background checks in this calendar.

## Program Continuance

Students accepted into the Bachelor of Arts - Criminal Justice degree program must comply with all University policies and regulations relating to Bachelor of Arts degrees and continuance.

## Opportunities for Further Study

The Bachelor of Arts - Criminal Justice degree, and the Honours stream, do not guarantee either eligibility for, or admission into, graduate studies or law school. Graduates must meet the individual universities' admission requirements in a competitive process. However, past graduates of Mount Royal's justice-related undergraduate degree have earned admission into several justice-related Master of Arts degrees and law schools across Canada. Students considering graduate school or law school are encouraged to investigate their postgraduate educational plans with

an academic advisor at the institution in which they are seeking to enrol.

## General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admission* section of this calendar.

## Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the *Admission* section of this calendar, applicants must also satisfy the following criteria:

## Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Arts - Criminal Justice program:

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

## Indigenous Student Admission

Each year 10% of the seats in the Bachelor of Arts - Criminal Justice program will be reserved for Indigenous applicants through an Indigenous admission target.

To be considered for admission under the Indigenous admission target, the applicant must:

- a. self-identify as an Indigenous applicant on the Application for Admission
- b. meet the definition of an Indigenous Applicant
- c. meet the minimum admission requirements as indicated in the General Admission requirements for Mount Royal University as well as any program level admission requirements

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during the Early Admission period. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

See general admission requirements in the Admissions section of this calendar for further information.

## Curriculum

The foundation of the Bachelor of Arts - Criminal Justice degree includes 120 credits. These credits usually consist of 20 required core courses, 10 General Education courses, and eight Electives, for a total of 38 courses, over four years. A maximum of 72 credits of CRJS-prefixed courses can be used for graduation.

- CRJS 1001 - Introduction to Criminology
- CRJS 1003 - Introduction to the Justice System
- CRJS 1010 - Introduction to Canadian Law
- CRJS 1013 - Diversity Issues and the Criminal Justice System
- CRJS 2002 - Indigenous People and the Canadian Criminal Justice System
- CRJS 2003 - Young Persons in Conflict with the Law
- CRJS 2005 - Aberrant Behavior
- CRJS 2013 - Forensic Interviewing
- CRJS 2015 - Introduction to Research Methods in Justice Studies
- CRJS 3001 - Quantitative Research Methods and Data Analysis
- CRJS 3005 - Qualitative Research Methods
- CRJS 3007 - Professional Ethics in Criminal Justice
- CRJS 3009 - Trauma Informed Interventions
- CRJS 3011 - Introduction to Criminal Law
- CRJS 4001 - Canadian Charter Rights and Civil Liberties
- CRJS 4003 - Criminological Theory
- CRJS 5025 - Criminal Justice Capstone Practicum

Nine credits from the following

Choose nine credits from the bottom list and/or CRJS-prefixed courses (exceptions require department approval):

- ECON 1170 - Economics of Crime and Criminal Justice
  - PLSC 2243 - Law, Politics and the Judicial Process \*
- \* Students who complete PLSC 2243 (6 credits) as a criminal justice option course are required to complete only 3 credits of other criminal justice option courses.

## Electives

24 credits (usually 8 courses) Electives

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Arts - Criminal Justice.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

## Practica

Students in the Bachelor of Arts - Criminal Justice must complete a 6-credit capstone practicum in order to graduate. There is no practicum requirement in the Honours stream.

A capstone practicum normally occurs in the fourth year of study. Coordinated by the Department's Practicum Coordinator, students are placed with a justice-related agency to gain practical experience and enhance their experiential learning. Traditionally, practica are unpaid work experiences. Practica involve approximately 2.5 days of full-time work within an agency, biweekly academic seminars and required course assignments supervised by a faculty instructor. In total, practica involves 280 hours of placement hours and academic work over the academic term. Students are required to work with the Department's Practicum Coordinator well in advance of going out on a placement and before registering for the practicum course.

## Criminal Justice, BA-CJ (Honours)

---

### General Information

The Bachelor of Arts - Criminal Justice (Honours) is a four-year baccalaureate degree program. The curriculum for the degree educates students in six program areas including, Foundations in Justice Studies, Human Relations, Human Justice, Criminological Literacy, Experiential Learning and General Education. This program provides professional preparation for students wishing to pursue careers such as Law Enforcement, Canadian Border Services, Immigration Canada, Provincial and Federal Corrections Officer, as well as a range of justice-related careers outside of law enforcement and corrections. The Bachelor of Arts - Criminal Justice (Honours) degree is unique in Alberta.

Students in the Honours program will develop enhanced knowledge and skills that are particularly suited for preparation to apply for graduate study in criminology/criminal justice and law school.

### **Opportunities for Further Study**

The Bachelor of Arts - Criminal Justice (Honours) degree does not guarantee either eligibility for, or admission into, graduate studies or law school. Graduates must meet the individual universities' admission requirements in a competitive process. However, past graduates of Mount Royal's justice-related undergraduate degree have earned admission into several justice-related Master of Arts degrees and law schools across Canada. Students considering graduate school or law school are encouraged to investigate their postgraduate educational plans with an academic advisor at the institution in which they are seeking to enrol.

### **Acceptance Requirements - Honours Stream**

Students who are interested in pursuing graduate or law school after graduating from Mount Royal should consider applying for admission into the Honours stream in the Bachelor of Arts - Criminal Justice. Students must complete a Department application for acceptance into the Honours stream as part of acceptance requirements. The application process generally occurs once the student has successfully completed 25 courses in the Bachelor of Arts - Criminal Justice degree.

#### **Students must also meet the following requirements:**

- The entry requirement includes a 3.3 cumulative GPA with a GPA of 3.5 in Justice courses.
- Completion of CRJS 3011 and CRJS 3005
- Written sponsorship of a full-time tenured or tenure-track instructor in the Department of Economics, Justice and Policy Studies indicating a willingness to act as the student's Honours project advisor.

The Honours stream involves a different set of fourth-year courses than those found in the 4th year of study in the Bachelor of Arts - Criminal Justice. In place of completing a 6-credit practicum and one Criminal Justice Option course, students complete an Honours seminar and a 6-credit Honours research project (spread over two semesters).

### **Continuance in the Program**

Students accepted into the Bachelor of Art - Criminal Justice (Honours) degree program must comply with all University policies and regulations relating to

Bachelor of Arts degree and continuance. In addition, students in Criminal Justice (Honours) must maintain a GPA of 3.30 for continuance in each semester in the Honours

Program. Students accepted into the Bachelor of Art - Criminal Justice (Honours) degree program must comply with all University policies and regulations relating to Bachelor of Arts degree and continuance. In addition, students in Criminal Justice (Honours) must maintain a GPA of 3.30 for continuance in each semester in the Honours Program.

### **Graduation Requirements**

Bachelor of Arts - Criminal Justice (Honours) students must obtain a minimum grade of B (3.30) in three 5000-level courses (CRJS 5001, CRJS 5010 and CRJS 5020) for graduation with an Honours degree. While enrolled in these courses, students must complete an honours project and in consultation with the faculty supervisor, should disseminate the findings.

### **Curriculum**

The foundation of the Bachelor of Arts - Criminal Justice (Honours) degree 120 credits. These credits usually consist of 21 required core courses, 10 General Education courses, and eight Electives, for a total of 39 courses, over four years. A maximum of 72 credits of CRJS prefixed courses can be used for graduation.

- CRJS 1001 - Introduction to Criminology
- CRJS 1003 - Introduction to the Justice System
- CRJS 1010 - Introduction to Canadian Law
- CRJS 1013 - Diversity Issues and the Criminal Justice System
- CRJS 2002 - Indigenous People and the Canadian Criminal Justice System
- CRJS 2003 - Young Persons in Conflict with the Law
- CRJS 2005 - Aberrant Behavior
- CRJS 2013 - Forensic Interviewing
- CRJS 2015 - Introduction to Research Methods in Justice Studies
- CRJS 3001 - Quantitative Research Methods and Data Analysis
- CRJS 3005 - Qualitative Research Methods
- CRJS 3007 - Professional Ethics in Criminal Justice
- CRJS 3009 - Trauma Informed Interventions
- CRJS 3011 - Introduction to Criminal Law
- CRJS 4001 - Canadian Charter Rights and Civil Liberties
- CRJS 4003 - Criminological Theory

Six credits from the following

Choose six credits from the bottom list and/or CRJS-prefixed courses (exceptions require department approval):

- ECON 1170 - Economics of Crime and Criminal Justice
- PLSC 2243 - Law, Politics and the Judicial Process \*

\* Students who complete PLSC 2243 (6 credits) as a criminal justice option course are not required to complete any other criminal justice option course.

### Honours Requirements

All of:

- CRJS 5001 - Honours Seminar
- CRJS 5010 - Honours Research Project I
- CRJS 5020 - Honours Research Project II

### Electives

24 credits (usually 8 courses) Electives

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Arts - Criminal Justice.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

# Bachelor of Aviation Management

## Aviation Management, BAM

---

### General Information

The Bachelor of Aviation Management is for students wanting to work in various aviation company operations, airline management or airport management, and offers two different pathways. The concentration in Flight Crew Options offers an optional Commercial Pilot and Multi-Engine Instrument Rating to prepare students for a role as a pilot as well as be ready for management opportunities as their flying career develops. The concentration in Aviation Operations focuses on a greater development of management skills and specific aviation business content.

Graduates will learn about the many complex issues affecting global operations, including economic and environmental sustainability, financial operations, logistics, and best practices for managing people and processes in the aviation industry,

### Program Continuance

In addition to the general graduation requirements, students must achieve the following:

- A minimum grade of C is required in all Air Flight Training (AIRF) courses.
- Students engaged in FLTR courses will receive a pass or fail. Students may repeat FLTR courses only once. Students must achieve a passing grade in FLTR courses in order to register in further FLTR courses.
- Students must follow the policies and procedures as stated in the current version of the Student Handbook and Standard Operating Procedures or they may be subject to removal from the program.

### Special Program Fees

In addition to regular tuition and general fees, flight training fees are approximately \$65,000 for a student completing the Flight Training requirements. A Private Pilot Licence (cost approximately \$18,000 to \$22,000) must be completed prior to registering for any Flight Training (FLTR) coursework. Flight training fees are subject to change depending on operating costs for aircraft and related services.

### Financial Assistance

Due to the cost of this program, students may be eligible for the maximum Canada Student Loan and Government of Alberta Loan. Please refer to the section on Financial Aid for further information.

Advance savings to complement the loan funds are essential. All fees for the program are to be paid to Mount Royal University.

### Operational Procedures

Mount Royal University Aviation's operational procedures are outlined in the Student Handbook, the Standard Operating Procedures and other manuals produced by the department. Students are required to make themselves familiar with these documents and all of the policies and procedures contained therein. In exceptional and legitimate circumstances, extensions or exemptions may be granted by the Chief Flight Instructor (CFI) or Program Chair. Procedures for applying for an exception or exemption are available from either the CFI or the Program Chair.

### General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admission section of this calendar.

### Additional Admission Requirements

In addition to meeting the general admission requirements, indicated in the Admission section of this calendar, applicants must also satisfy the following criteria:

### Academic Course Requirements

The following specific courses (or their equivalencies) with the specified minimum grades are required for admission into the Bachelor of Aviation Management (BAM) program:

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%
- or successful completion of a two-year business diploma, applied degree or four-year business baccalaureate from an accredited post-secondary institution.

Although conditional admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission into the program.

## Indigenous Student Admission

Each year 7% of the admission seats in the Bachelor of Aviation Management (BAM) program will be reserved for Indigenous students through an Indigenous admission target.

To be considered for admission under the Indigenous admission target, the applicant must:

1. Self-identify as an Indigenous applicant on the Application for Admission.
2. Meet the definition of an Indigenous Applicant.
3. Meet the minimum admission requirements as indicated in the General Admission Requirements for Mount Royal University as well as the specific admission requirements for the Bachelor of Aviation Management.

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during the Early Admissions period. Any unfilled designated seats will be released on June 1 to students applying under the General Admission requirements.

See general admission requirements in the Admissions section of this calendar for further information.

## Curriculum

The foundation of the Bachelor of Aviation Management (BAM) includes 20 required core business and aviation courses, six concentration courses, 10 General Education courses, and four electives, for a total of 40 courses over four years.

### Core Courses

The 20 required core business courses in the BAM consist of the following:

- ACCT 2121 - Financial Accounting Concepts
- AIRF 2101 - Aviation History and Air Law
- AIRF 2111 - Aeronautics, Industry and Flight Operations
- AIRF 3206 - CRM-TEM and Two Crew Coordination
- AIRF 3242 - Advanced Aviation Psychology and Preparing for Industry
- AIRF 4201 - Airline Operations and Management
- AIRF 4202 - Airport Management
- AIRF 4203 - Air Cargo Supply Chain Logistics
- AIRF 4204 - Air Transport Economics/Global Aviation Business
- AIRF 4205 - Life Cycle Analysis - Aviation Systems and Programs

- AIRF 4206 - Aviation Environmental Social Governance and Corporate Ethics
- AIRF 5201 - Aviation Strategic Management
- ECON 1101 - Principles of Microeconomics
- HRES 2170 - Introduction to Human Resources
- LSCM 2201 - Introduction to Logistics and Supply Chain Management
- LSCM 3403 - Operations Management
- MGMT 2130 - Management Principles and Practices
- MGMT 2262 - Statistics and Analytics for Business
- MKTG 2150 - Fundamentals of Marketing

#### One of:

- LSCM 3407 - Business Negotiations/Project Management
- MGMT 3269 - Project Management

### Major Specific Courses

All BAM students must complete 6 courses in one of the following concentrations as part of their requirements.

#### Concentration in Aviation Operations

These courses will assist students focused on management areas of the aviation industry. Students will build on their knowledge obtained in the required business courses, preparing them to enter an operational environment in aviation.

The concentration in Aviation Operations consists of six (6) required courses.

- ACCT 3224 - Management Accounting I
- FNCE 3227 - Introduction to Finance
- INBU 2201 - Cross-Cultural Management
- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3230 - Business Law
- MGMT 3276 - Organizational Behaviour

#### Concentration in Flight Crew Operations

These courses prepare a student for the Commercial Pilot and Instrument Rating written exams required by Transport Canada for pilot certification. Students will learn decision making skills and develop all the necessary skills to help them become safe, proficient pilots.

The concentration in Flight Crew Operations consists of 6 required courses.

- AIRF 1101 - Introduction to Aviation Navigation

- AIRF 1109 - Introduction to Aviation Meteorology (Introductory)
- AIRF 1130 - Aircraft Engines and Systems
- AIRF 2209 - Advanced Aviation Meteorology
- AIRF 2210 - Human Factors, Safety and Aviation Technology
- AIRF 3202 - Multi-Engine Instrument Rating

## Electives

Students must complete four elective courses. Students may choose any four courses without restriction (other than meeting course prerequisite requirements), allowing for further study in areas of specific interest.

## General Education Requirements

Ten courses must be completed to meet the General Education Requirements to graduate with a Bachelor of Aviation Management.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters. Students are recommended to take INBU 3301 to fulfill one of their Tier 3 (Cluster 3) General Education requirements.

## Graduation Requirements

- Minimum overall Grade Point Average of 2.00 on all courses included in the program.
- A minimum grade of C is required in all Air Flight Training courses.

## Flight Training

Students in the Flight Crew Operations concentration have the option to participate in training toward a Commercial Pilot Licence and Multi-Engine Instrument Rating. The information below pertains to students planning to participate in flight training.

## Requirements

Students who intend to register in FLTR courses must have a Category 1 Aviation Medical issued by Transport Canada and hold a Class 1 Medical for the entire period of their training. A Canadian Private Pilot Licence is also required.

Students registered in FLTR courses must take each course in the appropriate sequence, only registering in subsequent FLTR courses when given the appropriate registration form. Students who wish to have credit for previous flight training must contact the Chief Flight Instructor to discuss a plan for determining what credit may be received. Flight training, simulator training, or ground briefing may be part of the process to determine the appropriate FLTR placement of the student.

Students should be aware that Transport Canada requires that all of the licensing requirements for the Commercial Licence must be completed within one year of the date of the flight test. As a result, it is the student's responsibility to ensure that the timing of their flight test is planned accordingly, in order to ensure they will not have to retake the flight test.

- FLTR 1100 - Pilot Indoctrination
- FLTR 1101 - VFR Navigation
- FLTR 1102 - Applied Navigation and Instrument
- FLTR 1103 - Night Rating
- FLTR 1105 - Multi-engine Rating
- FLTR 2102 - IFR Navigation and Holds
- FLTR 2103 - Approach Basics
- FLTR 2104 - IFR Operations
- FLTR 2105 - Group 1 Instrument Rating
- FLTR 2106 - Commercial Pilot License Flight Test Preparation

# Bachelor of Business Administration

## Accounting, BBA

---

The Bachelor of Business Administration-Accounting Major is designed to ensure that graduates acquire a comprehensive range of accounting and related business knowledge and skills. The degree prepares students for careers as professional accountants in corporate enterprises and public institutions.

Mount Royal accounting instructors, with their academic and industry experience, provide solid accounting core courses to support and encourage those students interested in pursuing the Chartered Professional Accountant (CPA) designation. Students can also choose a learning path in preparing for the accounting profession with broader exposure.

Students completing the Bachelor of Business Administration-Accounting major are prepared for direct entry to the CPA Professional Education Program (PEP).

The BBA - Accounting program also includes a Co-operative Education option.

Students intending to pursue the PEP post-graduation need to make themselves aware of the CPA student academic achievement requirements for prerequisite learning for entrance into the PEP program. These academic requirements can be found by visiting the CPA Alberta website.

## Curriculum

The foundation of the BBA includes 16 required core business courses, 10 major courses, 10 General Education courses, and four electives, for a total of 40 courses over four years.

### Core Courses

The 16 required core business courses in the BBA consist of the following:

- ACCT 2121 - Financial Accounting Concepts
- ACCT 3224 - Management Accounting I
- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- ENTR 4433 - Business Plan Development
- FNCE 3227 - Introduction to Finance
- HRES 2170 - Introduction to Human Resources
- INBU 3301 - Global Business Environment
- LSCM 3403 - Operations Management

- MGMT 2262 - Statistics and Analytics for Business
- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3230 - Business Law
- MGMT 3276 - Organizational Behaviour
- MGMT 5333 - Strategic Management
- MKTG 2150 - Fundamentals of Marketing

### One of

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

### Major Specific Courses

The major in Accounting consists of 10 courses, six of which are required courses and four of which are chosen from a list of options.

- ACCT 3220 - Financial Accounting Practices
- ACCT 3221 - Intermediate Accounting I
- ACCT 3228 - Management Accounting II
- ACCT 3275 - Accounting Information Systems
- ACCT 4222 - Intermediate Accounting II
- ACCT 4280 - Introduction to Personal and Corporate Income Tax

### Four of the following

All BBA-Accounting major students must complete four of the following option courses (exceptions require departmental approval).

- ACCT 3227 - Oil and Gas Accounting
- ACCT 3730 - Special Topics in Accounting
- ACCT 4225 - Principles of Auditing
- ACCT 4381 - Advanced Financial Accounting
- ACCT 4382 - Advanced Managerial Accounting
- ACCT 4403 - Accounting Theory
- ACCT 5370 - Advanced Topics in Accounting
- FNCE 3228 - Advanced Corporate Finance
- FNCE 3304 - Business and Financial Modeling
- MGMT 2263 - Business Statistics for Decision-Making

### Electives

Students must complete four elective courses.

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Business Administration.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

## Accounting, BBA (Honours)

---

Students who are interested in pursuing graduate school or who wish to explore their selected field in more depth are advised to apply for admission into the Honours stream in the Bachelor of Business Administration. Core BBA program requirements are augmented with a course in research methods and the completion of an Honours Research Project. The Honours BBA provides students with a choice of two streams. The first is a scholarly stream and intended for students interested in pursuing graduate school. The second is an applied stream and intended for students seeking to enhance career skills - with a focus on applying theory to practice.

Please contact Business Student Advisors and obtain the latest Honours BBA Handbook, which contains more detailed information.

### Admission Requirements - Honours

To be considered for admission into the honours program, the student must achieve a 3.5 GPA in their most recent 20 courses (60 credits) prior to June 30 of the year they apply for entrance into the honours program. Admission into the Honours stream is competitive and is not guaranteed.

**Note:** A student who has already graduated with a Bachelor of Business Administration may not apply to enter the Honours stream.

### Application for Admission - Honours

Students may apply for admission into the Honours stream in the fall of their third year, after the completion of a minimum of 20 courses. **Applications will be accepted each year from September 15 to November 15.** The process for application to the Honours stream is included in the BBA Honours Handbook which can be found on the Bissett School

of Business website. It is recommended that the student obtains in advance the agreement of a full-time faculty member of the Bissett School of Business to be that student's Honours Research Project supervisor.

If a student is admitted into the program, s/he will take MGMT 5110 - Research Methods for Business in the winter semester (it is anticipated this course will be offered only once per academic year). Upon successful completion of MGMT 5110, the student will then commence their MGMT 5120 - Honours Research Project in the fall of their final year.

### Program Continuance - Honours

Students admitted into the Honours BBA stream must maintain a minimum cumulative GPA of 3.50. Students who fail to maintain a semester GPA of 3.50 will lose their place in the Honours stream. Students will normally not be permitted to re-apply to the Honours stream and may do so only with the permission of the Chair of their honours discipline. Students permitted to re-apply must follow the procedures for "application into the Honours stream," as mentioned above. There is no guarantee that a student will be re-admitted into the Honours stream.

### Curriculum

The foundation of the BBA includes 16 required core business courses, 10 major courses, two honours courses, 10 General Education courses, and two electives, for a total of 40 courses over four years.

### Core Courses

The 16 required core business courses in the BBA consist of the following:

- ACCT 2121 - Financial Accounting Concepts
- ACCT 3224 - Management Accounting I
- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- ENTR 4433 - Business Plan Development
- FNCE 3227 - Introduction to Finance
- HRES 2170 - Introduction to Human Resources
- INBU 3301 - Global Business Environment
- LSCM 3403 - Operations Management
- MGMT 2262 - Statistics and Analytics for Business
- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3230 - Business Law
- MGMT 3276 - Organizational Behaviour
- MGMT 5333 - Strategic Management
- MKTG 2150 - Fundamentals of Marketing

One of

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

### Major Specific Courses

The major in Accounting consists of 10 courses, six of which are required courses and four of which are chosen from a list of options.

- ACCT 3220 - Financial Accounting Practices
- ACCT 3221 - Intermediate Accounting I
- ACCT 3228 - Management Accounting II
- ACCT 3275 - Accounting Information Systems
- ACCT 4222 - Intermediate Accounting II
- ACCT 4280 - Introduction to Personal and Corporate Income Tax

Four of the following

All BBA-Accounting major students must complete four of the following option courses (exceptions require departmental approval).

- ACCT 3227 - Oil and Gas Accounting
- ACCT 3730 - Special Topics in Accounting
- ACCT 4225 - Principles of Auditing
- ACCT 4381 - Advanced Financial Accounting
- ACCT 4382 - Advanced Managerial Accounting

- ACCT 5370 - Advanced Topics in Accounting
- FNCE 3228 - Advanced Corporate Finance
- FNCE 3304 - Business and Financial Modeling
- MGMT 2263 - Business Statistics for Decision-Making

### Honours Specific Courses

BBA Honours students must take the following two courses.

- MGMT 5110 - Research Methods for Business
- MGMT 5120 - Honours Research Project

### Electives

Students must complete two elective courses.

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Business Administration.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

### Graduation Requirements

To be eligible for graduation, students must satisfactorily complete all degree program requirements and course work. Students must achieve a minimum cumulative GPA of 3.50 to be eligible for graduation within the honours stream. Students must follow the graduation application procedure outlined in the current Mount Royal Calendar. Applications must be submitted by the date published in the Academic Schedule.

## Finance, BBA

---

The BBA - Finance has two concentrations, including Financial Analysis and Financial Services. Introducing a third concentration, Investment Fund Management aims to provide a new avenue for students to learn investment philosophies, policies, and procedures in a real portfolio of securities. Through this concentration, students will get an opportunity to engage in experiential learning within a team-based environment under the guidance of professors and industry practitioners. Students in this new concentration in BBA - Finance will earn recognition for learning a dynamic process of investment analysis and trading process in real asset portfolios. The importance of this concentration is well-supported by faculty and the larger stakeholder community that will broaden the career prospects of our graduates in Finance.

### Curriculum

The foundation of the BBA includes 16 required core business courses, 10 major courses, 10 General Education courses, and four electives, for a total of 40 courses over four years.

## Core Courses

The 16 required core business courses in the BBA consist of the following:

- ACCT 2121 - Financial Accounting Concepts
- ACCT 3224 - Management Accounting I
- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- ENTR 4433 - Business Plan Development
- FNCE 3227 - Introduction to Finance
- HRES 2170 - Introduction to Human Resources
- INBU 3301 - Global Business Environment
- LSCM 3403 - Operations Management
- MGMT 2262 - Statistics and Analytics for Business
- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3230 - Business Law
- MGMT 3276 - Organizational Behaviour
- MGMT 5333 - Strategic Management
- MKTG 2150 - Fundamentals of Marketing

## One of

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

## Major Specific Courses

All BBA - Finance students must complete the 10 major courses in one of the following concentrations as part of their requirements.

### Concentration in Financial Analysis

The concentration in Financial Analysis develops analytically oriented finance professionals who will apply their knowledge of financial theory, domestic and international financial markets, investments and advanced corporate finance, together with analytical tools, such as advanced modeling and financial data management systems, to excel in the fast-paced world of finance. This dynamic concentration prepares students for financial careers in industry, banking, asset management, investment banking, securities trading and other analytically oriented roles.

Students completing this concentration are well prepared to pursue a Chartered Financial Analyst® (CFA) designation upon graduation. The BBA - Finance Major, Financial Analysis concentration also includes a Co-operative Education option.

The concentration in Financial Analysis consists of 10 courses, six of which are required courses and four of which are chosen from a list of options.

### Required Courses

- FNCE 3228 - Advanced Corporate Finance
- FNCE 3302 - International Finance
- FNCE 4407 - Investments and Portfolio Management
- FNCE 4408 - Financial Risk Management
- FNCE 4409 - Securities Analysis and Valuation
- FNCE 5010 - Advanced Topics in Finance

### Four of the following option courses

- ACCT 3220 - Financial Accounting Practices
- ACCT 3221 - Intermediate Accounting I
- ECON 3395 - Introduction to Applied Econometrics
- FNCE 3304 - Business and Financial Modeling
- FNCE 3730 - Special Topics in Finance
- FNCE 3399 - Directed Readings \*
- FNCE 4405 - Entrepreneurial Finance
- FNCE 4406 - Financial Markets, Institutions and Governance
- FNCE 4410 - Advanced Fixed Income Analysis
- FNCE 4499 - Directed Readings \*
- MGMT 2263 - Business Statistics for Decision-Making
- MKTG 3150 - The Science of Persuasion

### Concentration in Financial Services

The concentration in Financial Services is designed to provide graduates with a thorough education in both the principles and practices of financial services supplemented with a broad knowledge of the general principles of investments and the

corporate finance function. This concentration educates financial services professionals who not only have an understanding of all financial functions and markets but are firmly oriented towards practical application, for a career in a variety of financial services roles. This dynamic, diverse and comprehensive concentration can be applied to opportunities in banking, financial planning, investment management or insurance careers.

After completion of all courses, students are prepared to write the examinations leading to the Certified Financial Planner® (CFP) designation. The BBA - Finance Major, Financial Services concentration also includes a Co-operative Education option.

The concentration in Financial Services consists of 10 courses, eight of which are required courses and two of which are chosen from a list of options.

#### Required Courses

- FNCE 3201 - Retirement Planning
- FNCE 3203 - Income Tax Planning
- FNCE 3205 - Strategic Investment Planning
- FNCE 3207 - Risk Management and Estate Planning
- FNCE 3228 - Advanced Corporate Finance
- FNCE 3302 - International Finance
- FNCE 4407 - Investments and Portfolio Management
- FNCE 5010 - Advanced Topics in Finance

#### Two of the following option courses

- FNCE 3304 - Business and Financial Modeling
- FNCE 3730 - Special Topics in Finance
- FNCE 3399 - Directed Readings \*
- FNCE 4405 - Entrepreneurial Finance
- FNCE 4406 - Financial Markets, Institutions and Governance
- FNCE 4408 - Financial Risk Management
- FNCE 4409 - Securities Analysis and Valuation
- FNCE 4410 - Advanced Fixed Income Analysis
- FNCE 4499 - Directed Readings \*
- MKTG 3150 - The Science of Persuasion

#### Concentration in Investment Fund Management

The concentration in Investment Fund Management (IFM) will prepare graduates to develop investment philosophies, policies, and procedures in a real portfolio of securities. Students will work in a team-based environment, under the guidance of a professor, to analyze, select, monitor, and evaluate investments in the fund. The IFM concentration provides an opportunity for students to apply the knowledge of financial theories gained in coursework. The IFM concentration rests on a foundation of experiential learning and rich connections with finance practitioners in Calgary and beyond. Students who successfully complete this concentration will be well-positioned for careers in investment banking, asset management, securities trading, hedge fund management, and other transaction-focused investment careers.

The concentration in Investment Fund Management consists of 10 courses, seven of which are required

courses and three of which are chosen from a list of options.

#### Required Courses

- FNCE 3228 - Advanced Corporate Finance
- FNCE 3302 - International Finance
- FNCE 4407 - Investments and Portfolio Management
- FNCE 4409 - Securities Analysis and Valuation
- FNCE 4501 - Investment Fund Management I
- FNCE 4502 - Investment Fund Management II
- FNCE 5010 - Advanced Topics in Finance

#### Three of the following option courses

- ACCT 3220 - Financial Accounting Practices
- ACCT 3221 - Intermediate Accounting I
- FNCE 3304 - Business and Financial Modeling
- FNCE 3399 - Directed Readings
- FNCE 3730 - Special Topics in Finance
- FNCE 4406 - Financial Markets, Institutions and Governance
- FNCE 4408 - Financial Risk Management
- FNCE 4410 - Advanced Fixed Income Analysis
- FNCE 4499 - Directed Readings
- MGMT 2263 - Business Statistics for Decision-Making

#### Electives

Students must complete four elective courses.

#### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Business Administration.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

## Finance, BBA (Honours)

---

Students who are interested in pursuing graduate school or who wish to explore their selected field in more depth are advised to apply for admission into the Honours stream in the Bachelor of Business Administration. Core BBA program requirements are augmented with a course in research methods and the completion of an Honours Research Project. The Honours BBA provides students with a choice of two streams. The first is a scholarly stream and intended for students interested in pursuing graduate school. The second is an applied stream and intended for students seeking to enhance career skills - with a focus on applying theory to practice.

Please contact Business Student Advisors and obtain the latest Honours BBA Handbook, which contains more detailed information.

### Admission Requirements - Honours

To be considered for admission into the honours program, the student must achieve a 3.5 GPA in their most recent 20 courses (60 credits) prior to June 30 of the year they apply for entrance into the honours program. Admission into the Honours stream is competitive and is not guaranteed.

**Note:** A student who has already graduated with a Bachelor of Business Administration may not apply to enter the Honours stream.

### Application for Admission - Honours

Students may apply for admission into the Honours stream in the fall of their third year, after the completion of a minimum of 20 courses. **Applications will be accepted each year from September 15 to November 15.** The process for application to the Honours stream is included in the BBA Honours Handbook which can be found on the Bissett School of Business website. It is recommended that the student obtains, in advance, the agreement of a full-time faculty member of the Bissett School of Business to be that student's Honours Research Project supervisor.

If a student is admitted into the program, they will take MGMT 5110 - Research Methods for Business in the winter semester (it is anticipated this course will be offered only once per academic year). Upon successful completion of MGMT 5110, the student will then commence their MGMT 5120 - Honours Research Project in the fall of their final year.

### Program Continuance - Honours

Students admitted into the Honours BBA stream must maintain a minimum cumulative GPA of 3.50. Students who fail to maintain a semester GPA of 3.50 will lose their place in the Honours stream. Students will normally not be permitted to re-apply to the Honours stream and may do so only with the permission of the Chair of their honours discipline. Students permitted to re-apply must follow the procedures for "application into the Honours stream," as mentioned above. There is no guarantee that a student will be re-admitted into the Honours stream.

### Curriculum

The foundation of the BBA includes 16 required core business courses, 10 major courses, three honours courses, 10 General Education courses, and one elective, for a total of 40 courses over four years.

### Core Courses

The 16 required core business courses in the BBA consist of the following:

- ACCT 2121 - Financial Accounting Concepts
- ACCT 3224 - Management Accounting I
- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- ENTR 4433 - Business Plan Development
- FNCE 3227 - Introduction to Finance
- HRES 2170 - Introduction to Human Resources
- INBU 3301 - Global Business Environment
- LSCM 3403 - Operations Management
- MGMT 2262 - Statistics and Analytics for Business
- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3230 - Business Law
- MGMT 3276 - Organizational Behaviour
- MGMT 5333 - Strategic Management
- MKTG 2150 - Fundamentals of Marketing

### One of

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

### Major Specific Courses

The BBA - Finance Major offers two concentration choices to students. The concentration in Financial Analysis provides students with a comprehensive education in analytical finance through a combination of theory and applications, whereas the concentration

in Financial Services provides students with an education in both the principles and practices of financial services. The choice of these two concentrations provides students with the opportunity to develop distinct and unique skill sets that allows them to pursue careers based on a targeted area of interest and to maximize their employability at graduation time.

All BBA - Finance students must complete the 10 major courses in one of the following concentrations as part of their requirements.

### Concentration in Financial Analysis

The concentration in Financial Analysis develops analytically oriented finance professionals who will apply their knowledge of financial theory, domestic and international financial markets, investments and advanced corporate finance, together with analytical tools, such as advanced modeling and financial data management systems, to excel in the fast-paced world of finance. This dynamic concentration prepares students for financial careers in industry, banking, asset management, investment banking, securities trading and other analytically oriented roles.

Students completing this concentration are well prepared to pursue a Chartered Financial Analyst® (CFA) designation upon graduation. The Bachelor of Business Administration - General Management Major, Financial Analysis concentration also includes a Co-operative Education option.

The concentration in Financial Analysis consists of 10 courses, six of which are required courses and four of which are chosen from a list of options.

#### Required Courses

- FNCE 3228 - Advanced Corporate Finance
- FNCE 3302 - International Finance
- FNCE 4407 - Investments and Portfolio Management
- FNCE 4408 - Financial Risk Management
- FNCE 4409 - Securities Analysis and Valuation
- FNCE 5010 - Advanced Topics in Finance

#### Four of the following option courses

- ACCT 3220 - Financial Accounting Practices
- ACCT 3221 - Intermediate Accounting I
- ECON 3395 - Introduction to Applied Econometrics
- FNCE 3304 - Business and Financial Modeling
- FNCE 3730 - Special Topics in Finance
- FNCE 3399 - Directed Readings \*

- FNCE 4405 - Entrepreneurial Finance
- FNCE 4406 - Financial Markets, Institutions and Governance
- FNCE 4410 - Advanced Fixed Income Analysis
- FNCE 4499 - Directed Readings \*
- MGMT 2263 - Business Statistics for Decision-Making
- MKTG 3150 - The Science of Persuasion

### Concentration in Financial Services

The concentration in Financial Services is designed to provide graduates with a thorough education in both the principles and practices of financial services supplemented with a broad knowledge of the general principles of investments and the

corporate finance function. This concentration educates financial services professionals who not only have an understanding of all financial functions and markets but are firmly oriented towards practical application, for a career in a variety of financial services roles. This dynamic, diverse and comprehensive concentration can be applied to opportunities in banking, financial planning, investment management or insurance careers.

After completion of all courses, students are prepared to write the examinations leading to the Certified Financial Planner® (CFP) designation. The BBA - Finance Major, Financial Services concentration also includes a Co-operative Education option.

The concentration in Financial Services consists of 10 courses, eight of which are required courses and two of which are chosen from a list of options.

#### Required Courses

- FNCE 3201 - Retirement Planning
- FNCE 3203 - Income Tax Planning
- FNCE 3205 - Strategic Investment Planning
- FNCE 3207 - Risk Management and Estate Planning
- FNCE 3228 - Advanced Corporate Finance
- FNCE 3302 - International Finance
- FNCE 4407 - Investments and Portfolio Management
- FNCE 5010 - Advanced Topics in Finance

#### Two of the following option courses

- FNCE 3304 - Business and Financial Modeling
- FNCE 3730 - Special Topics in Finance
- FNCE 3399 - Directed Readings \*
- FNCE 4405 - Entrepreneurial Finance

- FNCE 4406 - Financial Markets, Institutions and Governance
- FNCE 4408 - Financial Risk Management
- FNCE 4409 - Securities Analysis and Valuation
- FNCE 4410 - Advanced Fixed Income Analysis
- FNCE 4499 - Directed Readings \*
- MKTG 3150 - The Science of Persuasion

### Concentration in Investment Fund Management

The concentration in Investment Fund Management (IFM) will prepare graduates to develop investment philosophies, policies, and procedures in a real portfolio of securities. Students will work in a team-based environment, under the guidance of a professor, to analyze, select, monitor, and evaluate investments in the fund. The IFM concentration provides an opportunity for students to apply the knowledge of financial theories gained in coursework. The IFM concentration rests on a foundation of experiential learning and rich connections with finance practitioners in Calgary and beyond. Students who successfully complete this concentration will be well-positioned for careers in investment banking, asset management, securities trading, hedge fund management, and other transaction-focused investment careers.

The concentration in Investment Fund Management consists of 10 courses, seven of which are required courses and three of which are chosen from a list of options.

### Required Courses

- FNCE 3228 - Advanced Corporate Finance
- FNCE 3302 - International Finance
- FNCE 4407 - Investments and Portfolio Management
- FNCE 4409 - Securities Analysis and Valuation
- FNCE 4501 - Investment Fund Management I
- FNCE 4502 - Investment Fund Management II
- FNCE 5010 - Advanced Topics in Finance

### Three of the following option courses

- ACCT 3220 - Financial Accounting Practices
- ACCT 3221 - Intermediate Accounting I
- FNCE 3304 - Business and Financial Modeling
- FNCE 3399 - Directed Readings
- FNCE 3730 - Special Topics in Finance

- FNCE 4406 - Financial Markets, Institutions and Governance
- FNCE 4408 - Financial Risk Management
- FNCE 4410 - Advanced Fixed Income Analysis
- FNCE 4499 - Directed Readings
- MGMT 2263 - Business Statistics for Decision-Making

### Honours Specific Courses

BBA Honours students must take the following two courses.

- MGMT 5110 - Research Methods for Business
- MGMT 5120 - Honours Research Project

### Electives

Students must complete two elective courses.

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Business Administration.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

### Graduation Requirements

To be eligible for graduation, students must satisfactorily complete all degree program requirements and course work. Students must achieve a minimum cumulative GPA of 3.50 to be eligible for graduation within the honours stream. Students must follow the graduation application procedure outlined in the current Mount Royal Calendar. Applications must be submitted by the date published in the Academic Schedule.

## General Management, BBA

---

The Bachelor of Business Administration - General Management major is designed to offer students flexibility in program design and transferability. Students pursuing a General Management major may choose from a variety of business courses with the intention of obtaining a general business education. In addition to the 16 required core business courses, students must choose 10 General Management approved options from the following subjects: Accounting, Entrepreneurship, Finance, Human Resources, International Business, Marketing, Social Innovation, Supply Chain Management, and Aviation. Students may also choose to declare either a concentration in Innovation and Entrepreneurship or Social Innovation to complete the 10-course major requirement. Students are strongly advised to consult an Advisor before choosing courses in the completion of a General Management major.

### Curriculum

The foundation of the BBA in General Management includes 16 required core business courses, a total of 10 General Management approved option courses, 10 General Education courses, and four elective courses, for a total of 40 courses over four years. Students pursuing a concentration will complete 10 specific courses as defined by the requirements for that concentration instead of the 10 General Management approved option courses.

### Core Courses

The 16 required core business courses in the BBA consist of the following:

- ACCT 2121 - Financial Accounting Concepts
- ACCT 3224 - Management Accounting I
- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- ENTR 4433 - Business Plan Development
- FNCE 3227 - Introduction to Finance
- HRES 2170 - Introduction to Human Resources
- INBU 3301 - Global Business Environment
- LSCM 3403 - Operations Management
- MGMT 2262 - Statistics and Analytics for Business
- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3230 - Business Law
- MGMT 3276 - Organizational Behaviour
- MGMT 5333 - Strategic Management
- MKTG 2150 - Fundamentals of Marketing

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Business Administration.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

### Major Specific Requirements

Students enrolled in the General Management major must choose one of the following options to complete.

1. 10 General Management approved option courses plus four elective courses
2. Concentration in Indigenous Business and Economic Development plus four elective courses
3. Concentration in Innovation and Entrepreneurship plus four elective courses
4. Concentration in Social Innovation plus four elective courses

### General Management Approved Options

Students enrolled in the General Management major who do not intend to pursue a concentration in either Innovation and Entrepreneurship or Social Innovation must select their courses from the following General Management approved option subjects:

- Accounting (ACCT)
- Aviation (AIRF)
- Innovation and Entrepreneurship (ENTR)
- Finance (FNCE)
- Human Resources (HRES)
- International Business (INBU)
- Management (MGMT)
- Marketing (MKTG)
- Social Innovation (SINV)
- Supply Chain Management (LSCM)

One of

**Please note the following restrictions when**

**selecting courses to satisfy the General Management approved options requirement:**

- Minimum of seven courses at the 2000-level or higher
- Maximum of three courses at the 1000-level

**Concentrations**

Students enrolled in the General Management major have the option to complete one of the three concentrations in Indigenous Business and Economic Development, Innovation and Entrepreneurship or Social Innovation.

**Concentration in Indigenous Business and Economic Development**

The concentration in Indigenous Business and Economic Development (IBED) offered in partnership between the Bissett School of Business at Mount Royal University (MRU) and Old Sun Community College (OSCC) is designed to produce strong foundational, culturally relevant, community-engaged skills in developing and supporting Indigenous-run businesses and Indigenous/non-Indigenous economic relations. By combining a carefully integrated sequence of appropriate courses, work-integrated learning and cooperative opportunities, the IBED concentration prepares students to excel in traditional Western business practices, as well as be able to develop, support and lead culturally appropriate on- and off-reserve enterprises and economic development initiatives, thus becoming leaders in Calgary and Canada's economic and reconciliation-related future.

The concentration in Indigenous Business and Economic Development consists of 10 courses, six of which are required and four of which are chosen from a list of options offered by Old Sun Community College and transferred in to MRU. Courses for this concentration are offered in partnership with Old Sun Community College and may require students to attend classes at Old Sun campus.

**Required Six Courses**

- IBED 3730 - Special Topics in Indigenous Social Innovation
- IBED 3731 - Special Topics in Indigenous Leadership
- IBED 3732 - Special Topics in Indigenous Treaty Law
- IBED 3733 - Special Topics in Indigenous Business Management
- IBED 3734 - Special Topics in Indigenous Sustainability
- IBED 3735 - Special Topics in Indigenous Entrepreneurship

**Four of the Following**

- IBED 2140 - Indigenous Knowledge Transfer and Inclusive Workplaces
- IBED 2141 - Change Management Practices from an Indigenous Perspective
- IBED 4101 - Ethics from an Indigenous Lens
- IBED 4102 - Community Relations, Engagement and Negotiation
- IBED 4103 - Community Planning from an Indigenous Perspective
- IBED 4104 - Community Planning and Practice: Economic Drivers

**Concentration in Innovation and Entrepreneurship**

The concentration in Innovation and Entrepreneurship is designed to graduate curious and entrepreneurial minds who are innovative drivers of business development in dynamic, growth-oriented companies that they join or start. This experiential program will go beyond teaching mindset and business models, to executing product and business development strategies for the commercialization of innovative ideas. The Entrepreneurship concentration prepares graduates to either join an organization in a customer-facing role with unlimited potential or start their own business.

In addition to supporting students to start their own ventures following graduation, the Entrepreneurship concentration prepares graduates for careers across small and medium growth-oriented enterprises in a variety of positions including business development, sales, product development, and product management.

The BBA - General Management Major, Innovation and Entrepreneurship concentration also includes a Co-operative Education option.

**Required Seven Courses**

- COMP 1207 - Introduction to Digital Technologies
- ENTR 3302 - Creativity for Entrepreneurial Practice
- ENTR 3305 - The Art of the Pitch
- ENTR 3350 - Spearheading and Navigating Product Launch
- ENTR 3360 - How Technology Enables Innovation
- ENTR 4420 - DNA of Buying, Selling and Business Development
- ENTR 4343 - Growing the Enterprise

Three of the following

- ENTR 3370 - Society, Innovation and Enterprise
- ENTR 3730 - Special Topics in Innovation and Entrepreneurship
- ENTR 4332 - Venture Launch
- ENTR 4344 - Corporate Innovation and Entrepreneurship
- LSCM 3407 - Business Negotiations/Project Management
- SINV 3305 - Agents of Social Change
- SINV 5010 - Social Entrepreneurship - Disrupting the Status Quo
- Any 3000-level MKTG course
- Any 3000-level COMM course

### Concentration in Social Innovation

The concentration in Social Innovation is designed to provide graduates with a clear practice to lead, design, and execute high impact, transformative change in our communities. Empathy, creativity, consent, and courage form the bedrock of the science of social change and can be applied whether graduates envision joining the commercial sector in a values-driven organization, plan to participate in the public or civic sector, develop a new to world social innovation or enterprise that addresses a persistent systemic problem, or engage at the forefront of reconciliation and resurgence in First Nations, Métis and Inuit communities across Canada.

The concentration in Social Innovation consists of 10 courses, eight of which are required courses and two of which is chosen from a list of options.

The BBA - General Management Major, Social Innovation concentration also includes a Co-operative Education option.

### Required Seven Courses

- SINV 2205 - Social Innovation Tools for Changemakers
- SINV 3203 - The Facilitator's Toolbox: Inspiring Innovation, Creativity, & Change
- SINV 3303 - Systems Thinking
- SINV 3305 - Agents of Social Change
- SINV 4401 - Civic Innovation - Igniting Change for Social Impact
- SINV 4402 - The Design Thinking Lab - Using a Human Centered Approach
- SINV 5010 - Social Entrepreneurship - Disrupting the Status Quo **or**
- SINV 5405 - Social Innovation Strategy and Action

Three of the following

- ENTR 3370 - Society, Innovation and Enterprise
- INTS 3331 - International Community Development: Indigenous and Global Perspectives
- MGMT 4403 - Environmental Management & Sustainable Development
- MGMT 4407 - Governance and Ethical Issues in Organizations
- PLSC 1101 - Introduction to Government and Politics
- PLSC 1123 - Canadian Political Issues
- PLSC 2298 - Politics and the Media
- SINV 3730 - Special Topics in Social Innovation
- SLWK 2221 - Social Work Practice with Communities

## **General Management, BBA (Honours)**

The Bachelor of Business Administration - General Management (Honours) major is designed to offer students flexibility in program design and transferability. Students pursuing a General Management (Honours) major may choose from a variety of business courses with the intention of obtaining a general business education. In addition to the 16 required core business courses, students must choose 10 General Management approved options from the following subjects: Accounting, Entrepreneurship, Finance, Human Resources, International Business, Marketing, Social Innovation, Supply Chain Management, and Aviation. Students may also choose to declare either a concentration in Innovation and Entrepreneurship or Social Innovation to complete the 10-course major requirement. Students are strongly advised to consult an Advisor before choosing courses in the completion of a General Management (Honours) major.

Students who are interested in pursuing graduate school or who wish to explore their selected field in more depth are advised to apply for admission into the Honours stream in the Bachelor of Business Administration. Core BBA program requirements are augmented with a course in research methods and the completion of an Honours Research Project. The Honours BBA provides students with a choice of two streams. The first is a scholarly stream and intended for students interested in pursuing graduate school. The second is an applied stream and intended for students seeking to enhance career skills - with a focus on applying theory to practice.

Please contact Business Student Advisors and obtain the latest Honours BBA Handbook, which contains more detailed information.

### Admission Requirements - Honours Stream

To be considered for admission into the honours program, the student must achieve a 3.5 GPA in their most recent 20 courses (60 credits) prior to June 30 of the year they apply for entrance into the honours program. Admission into the Honours stream is competitive and is not guaranteed.

*Note: A student who has already graduated with a Bachelor of Business Administration may not apply to enter the Honours stream.*

### Application for Admission - Honours Stream

Students may apply for admission into the Honours stream in the fall of their third year, after the completion of a minimum of 20 courses. **Applications will be accepted each year from September 15 to November 15.** The process for application to the Honours stream is included in the BBA Honours Handbook which can be found on the Bissett School of Business website. It is recommended that the student obtains, in advance, the agreement of a full-time faculty member of the Bissett School of Business to be that student's Honours Research Project supervisor.

If a student is admitted into the program, they will take MGMT 5110 - Research Methods for Business in the winter semester (it is anticipated this course will be offered only once per academic year). Upon successful completion of MGMT 5110, the student will then commence their MGMT 5120 - Honours Research Project in the fall of their final year.

### Program Continuance - Honours Stream

Students admitted into the Honours BBA stream must maintain a minimum cumulative GPA of 3.50. Students who fail to maintain a semester GPA of 3.50 will lose their place in the Honours stream. Students will normally not be permitted to re-apply to the Honours stream and may do so only with the permission of the Chair of their honours discipline. Students permitted to re-apply must follow the procedures for "application into the Honours stream," as mentioned above. There is no guarantee that a student will be re-admitted into the Honours stream.

### Curriculum

The foundation of the BBA in General Management (Honours) includes 16 required core business courses, 2 Honours specific courses, a total of 10

General Management approved option courses, 10 General Education courses, and two elective courses, for a total of 40 courses over four years. Students pursuing a concentration will complete 10 specific courses as defined by the requirements for that concentration instead of the 10 General Management approved option courses.

### Core Courses

The 16 required core business courses in the BBA consist of the following:

- ACCT 2121 - Financial Accounting Concepts
- ACCT 3224 - Management Accounting I
- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- ENTR 4433 - Business Plan Development
- FNCE 3227 - Introduction to Finance
- HRES 2170 - Introduction to Human Resources
- INBU 3301 - Global Business Environment
- LSCM 3403 - Operations Management
- MGMT 2262 - Statistics and Analytics for Business
- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3230 - Business Law
- MGMT 3276 - Organizational Behaviour
- MGMT 5333 - Strategic Management
- MKTG 2150 - Fundamentals of Marketing

### One of

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

### Honours Specific Courses

BBA Honours students must take the following two courses

- MGMT 5110 - Research Methods for Business
- MGMT 5120 - Honours Research Project

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Business Administration.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.

2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

### Major Specific Requirements

Students enrolled in the General Management major must choose one of the following options to complete.

1. 10 General Management approved option courses plus two elective courses
2. Concentration in Indigenous Business and Economic Development plus two elective courses
3. Concentration in Innovation and Entrepreneurship plus two elective courses
4. Concentration in Social Innovation plus two elective courses

### General Management Approved Options

Students enrolled in the General Management major who do not intend to pursue a concentration in either Innovation and Entrepreneurship or Social Innovation must select their courses from the following General Management approved option subjects:

- Accounting (ACCT)
- Aviation (AIRF)
- Innovation and Entrepreneurship (ENTR)
- Finance (FNCE)
- Human Resources (HRES)
- International Business (INBU)
- Management (MGMT)
- Marketing (MKTG)
- Social Innovation (SINV)
- Supply Chain Management (LSCM)

### Please note the following restrictions when selecting courses to satisfy the General Management approved options requirement:

- Minimum of seven courses at the 2000-level or higher
- Maximum of three courses at the 1000-level

### Concentrations

Students enrolled in the General Management (Honours) major have the option to complete one of the two concentrations in Innovation and Entrepreneurship or Social Innovation.

### Concentration in Indigenous Business and Economic Development

The concentration in Indigenous Business and Economic Development (IBED) offered in partnership between the Bissett School of Business at Mount Royal University (MRU) and Old Sun Community College (OSCC) is designed to produce strong foundational, culturally relevant, community-engaged skills in developing and supporting Indigenous-run businesses and Indigenous/non-Indigenous economic relations. By combining a carefully integrated sequence of appropriate courses, work-integrated learning and cooperative opportunities, the IBED concentration prepares students to excel in traditional Western business practices, as well as be able to develop, support and lead culturally appropriate on- and off-reserve enterprises and economic development initiatives, thus becoming leaders in Calgary and Canada's economic and reconciliation-related future.

The concentration in Indigenous Business and Economic Development consists of 10 courses, six of which are required and four of which are chosen from a list of options. Courses for this concentration are offered in partnership with Old Sun Community College and may require students to attend classes at Old Sun campus.

### Required Six Courses

- IBED 3730 - Special Topics in Indigenous Social Innovation
- IBED 3731 - Special Topics in Indigenous Leadership
- IBED 3732 - Special Topics in Indigenous Treaty Law
- IBED 3733 - Special Topics in Indigenous Business Management
- IBED 3734 - Special Topics in Indigenous Sustainability
- IBED 3735 - Special Topics in Indigenous Entrepreneurship

### Four of the following

- IBED 2140 - Indigenous Knowledge Transfer and Inclusive Workplaces
- IBED 2141 - Change Management Practices from an Indigenous Perspective
- IBED 4101 - Ethics from an Indigenous Lens
- IBED 4102 - Community Relations, Engagement and Negotiation
- IBED 4103 - Community Planning from an Indigenous Perspective
- IBED 4104 - Community Planning and Practice: Economic Drivers

## Concentration in Innovation and Entrepreneurship

The concentration in Innovation and Entrepreneurship is designed to graduate curious and entrepreneurial minds who are innovative drivers of business development in dynamic, growth-oriented companies that they join or start. This experiential program will go beyond teaching mindset and business models, to executing product and business development strategies for the commercialization of innovative ideas. The Entrepreneurship concentration prepares graduates to either join an organization in a customer-facing role with unlimited potential or start their own business.

In addition to supporting students to start their own ventures following graduation, the Entrepreneurship concentration prepares graduates for careers across small and medium growth-oriented enterprises in a variety of positions including business development, sales, product development, and product management.

The BBA - General Management Major, Innovation and Entrepreneurship concentration also includes a Co-operative Education option.

### Required Seven Courses

- COMP 1207 - Introduction to Digital Technologies
- ENTR 3302 - Creativity for Entrepreneurial Practice
- ENTR 3305 - The Art of the Pitch
- ENTR 3350 - Spearheading and Navigating Product Launch
- ENTR 3360 - How Technology Enables Innovation
- ENTR 4343 - Growing the Enterprise
- ENTR 4420 - DNA of Buying, Selling and Business Development

### Three of the following

- ENTR 3370 - Society, Innovation and Enterprise
- ENTR 3730 - Special Topics in Innovation and Entrepreneurship
- ENTR 4332 - Venture Launch
- ENTR 4344 - Corporate Innovation and Entrepreneurship
- LSCM 3407 - Business Negotiations/Project Management
- SINV 3305 - Agents of Social Change
- SINV 5010 - Social Entrepreneurship - Disrupting the Status Quo
- Any 3000-level MKTG course

- Any 3000-level COMM course

## Concentration in Social Innovation

The concentration in Social Innovation is designed to provide graduates with a clear practice to lead, design, and execute high impact, transformative change in our communities. Empathy, creativity, consent, and courage form the bedrock of the science of social change and can be applied whether graduates envision joining the commercial sector in a values-driven organization, plan to participate in the public or civic sector, develop a new to world social innovation or enterprise that addresses a persistent systemic problem, or engage at the forefront of reconciliation and resurgence in First Nations, Métis and Inuit communities across Canada.

The concentration in Social Innovation consists of 10 courses, eight of which are required courses and two of which is chosen from a list of options.

The BBA - General Management Major, Social Innovation concentration also includes a Co-operative Education option.

### Required Seven Courses

- SINV 2205 - Social Innovation Tools for Changemakers
- SINV 3203 - The Facilitator's Toolbox: Inspiring Innovation, Creativity, & Change
- SINV 3303 - Systems Thinking
- SINV 3305 - Agents of Social Change
- SINV 4401 - Civic Innovation - Igniting Change for Social Impact
- SINV 4402 - The Design Thinking Lab - Using a Human Centered Approach
- SINV 5010 - Social Entrepreneurship - Disrupting the Status Quo **or**
- SINV 5405 - Social Innovation Strategy and Action

### Three of the following

- ENTR 3370 - Society, Innovation and Enterprise

- PLSC 1101 - Introduction to Government and Politics
- PLSC 1123 - Canadian Political Issues

- PLSC 2298 - Politics and the Media
- SINV 3730 - Special Topics in Social Innovation
- SLWK 2221 - Social Work Practice with Communities

## Graduation Requirements

To be eligible for graduation, students must satisfactorily complete all degree program requirements and coursework. Students must achieve a minimum cumulative GPA of 3.50 to be eligible for graduation within the honours stream. Students must follow the graduation application procedure outlined in the current Mount Royal Calendar. Applications must be submitted by the date published in the Academic Schedule.

## Human Resources, BBA

The Bachelor of Business Administration - Human Resources major is designed to provide graduates with a solid grounding in the principles and practices of Human Resource Management. Students in this major may elect to pursue a Chartered Professionals in Human Resources upon graduation. This designation is a national standard that is increasingly valued by organizations that employ human resource professionals in various roles.

Students are strongly advised to consult an Advisor before choosing their Human Resource major courses and electives.

### Curriculum

The foundation of the BBA includes 16 required core business courses, 10 major courses, 10 General Education courses, and four electives, for a total of 40 courses over four years.

### Core Courses

The 16 required core business courses in the BBA consist of the following:

- ACCT 2121 - Financial Accounting Concepts
- ACCT 3224 - Management Accounting I
- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- ENTR 4433 - Business Plan Development
- FNCE 3227 - Introduction to Finance
- HRES 2170 - Introduction to Human Resources
- INBU 3301 - Global Business Environment
- LSCM 3403 - Operations Management
- MGMT 2262 - Statistics and Analytics for Business
- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3230 - Business Law
- MGMT 3276 - Organizational Behaviour
- MGMT 5333 - Strategic Management
- MKTG 2150 - Fundamentals of Marketing

### One of

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

### Major Specific Courses

All BBA - Human Resource major students must complete the following eight major courses as part of their major requirements.

- HRES 3274 - Recruitment & Selection
- HRES 3275 - Compensation & Benefits
- HRES 3277 - Organizational Learning and Development
- HRES 3278 - Employee Relations
- HRES 4273 - Labour Relations
- HRES 4275 - Organization Development & Culture Calibration
- HRES 4407 - Transition Management
- HRES 5101 - Strategic Human Resources Management

### Two of the following

All BBA - Human Resource major students must complete two of the following option courses (exceptions require departmental approval).

- ANTH 2213 - Contemporary Aboriginal Issues in Canada
- INBU 2201 - Cross-Cultural Management
- MGMT 3265 - Management Information Systems
- MGMT 4230 - Advanced Business Law
- MGMT 4402 - Corporate Social Responsibility
- MGMT 4407 - Governance and Ethical Issues in Organizations
- MGMT 4431 - Leadership Development
- PHIL 2229 - Business Ethics
- SINV 3305 - Agents of Social Change
- LSCM 3407 - Business Negotiations/Project Management **or**
- MGMT 3269 - Project Management

## Electives

Students must complete four elective courses.

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Business Administration.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

## Human Resources, BBA (Honours)

Students who are interested in pursuing graduate school or who wish to explore their selected field in more depth are advised to apply for admission into the Honours stream in the Bachelor of Business Administration. Core BBA program requirements are augmented with a course in research methods and the completion of an Honours Research Project. The Honours BBA provides students with a choice of two streams. The first is a scholarly stream and intended for students interested in pursuing graduate school. The second is an applied stream and intended for students seeking to enhance career skills - with a focus on applying theory to practice.

Please contact Business Student Advisors and obtain the latest Honours BBA Handbook, which contains more detailed information.

## Admission Requirements - Honours Stream

To be considered for admission into the honours program, the student must achieve a 3.5 GPA in their most recent 20 courses (60 credits) prior to June 30 of the year they apply for entrance into the honours program. Admission into the Honours stream is competitive and is not guaranteed.

*Note: A student who has already graduated with a Bachelor of Business Administration may not apply to enter the Honours stream.*

## Application for Admission - Honours Stream

Students may apply for admission into the Honours stream in the fall of their third year, after the

completion of a minimum 20 courses. **Applications will be accepted each year from September 15 to November 15.** The process for application to the Honours stream is included in the BBA Honours Handbook which can be found on the Bissett School of Business website. It is recommended that the student obtains in advance the agreement of a full-time faculty member of the Bissett School of Business to be that student's Honours Research Project supervisor.

If a student is admitted into the program, s/he will take MGMT 5110 - Research Methods for Business in the winter semester (it is anticipated this course will be offered only once per academic year). Upon successful completion of MGMT 5110, the student will then commence their MGMT 5120 - Honours Research Project in the fall of their final year.

## Program Continuance - Honours Stream

Students admitted into the Honours BBA stream must maintain a minimum cumulative GPA of 3.50. Students who fail to maintain a semester GPA of 3.50 will lose their place in the Honours stream. Students will normally not be permitted to re-apply to the Honours stream and may do so only with the permission of the Chair of their honours discipline. Students permitted to re-apply must follow the procedures for "application into the Honours stream," as mentioned above. There is no guarantee that a student will be re-admitted into the Honours stream.

## Curriculum

The foundation of the BBA includes 16 required core business courses, 10 major courses, two honours courses, 10 General Education courses, and two elective courses, for a total of 40 courses over four years.

## Core Courses

The 16 required core business courses in the BBA consist of the following:

- ACCT 2121 - Financial Accounting Concepts
- ACCT 3224 - Management Accounting I
- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- ENTR 4433 - Business Plan Development
- FNCE 3227 - Introduction to Finance
- HRES 2170 - Introduction to Human Resources
- INBU 3301 - Global Business Environment
- LSCM 3403 - Operations Management
- MGMT 2262 - Statistics and Analytics for Business

- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3230 - Business Law
- MGMT 3276 - Organizational Behaviour
- MGMT 5333 - Strategic Management
- MKTG 2150 - Fundamentals of Marketing

One of

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

### Major Specific Courses

All BBA - Human Resource major students must complete the following eight major courses as part of their major requirements.

- HRES 3274 - Recruitment & Selection
- HRES 3275 - Compensation & Benefits
- HRES 3277 - Organizational Learning and Development
- HRES 3278 - Employee Relations
- HRES 4273 - Labour Relations
- HRES 4275 - Organization Development & Culture Calibration
- HRES 4407 - Transition Management
- HRES 5101 - Strategic Human Resources Management

Two of the following

All BBA - Human Resource major students must complete two of the following option courses (exceptions require departmental approval).

- ANTH 2213 - Contemporary Aboriginal Issues in Canada
- INBU 2201 - Cross-Cultural Management
- MGMT 3265 - Management Information Systems
- MGMT 4230 - Advanced Business Law
- MGMT 4402 - Corporate Social Responsibility
- MGMT 4407 - Governance and Ethical Issues in Organizations
- MGMT 4431 - Leadership Development
- PHIL 2229 - Business Ethics
- SINV 3305 - Agents of Social Change
- LSCM 3407 - Business Negotiations/Project Management **or**
- MGMT 3269 - Project Management

### Honours Specific Courses

BBA Honours students must take the following two courses.

- MGMT 5110 - Research Methods for Business
- MGMT 5120 - Honours Research Project

### Electives

Students must complete two Elective courses.

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Business Administration.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

### Graduation Requirements

To be eligible for graduation, students must satisfactorily complete all degree program requirements and course work. Students must achieve a minimum cumulative GPA of 3.50 to be eligible for graduation within the honours stream. Students must follow the graduation application procedure outlined in the current Mount Royal Calendar. Applications must be submitted by the date published in the Academic Schedule.

### International Business, BBA

The International Business, BBA major is designed to prepare students to operate and compete in the global business environment. Through a combination of theory and application students will develop an in-depth knowledge of global trade, cross cultural management, international supply chain management, methods to enter foreign markets, international management, international marketing, international finance, and international trade management. In addition, students may take advantage of international field schools and exchange opportunities (facilitated by MRU's AIESEC and International Education office). The International Business concentration is comprehensive and highly relevant, as the business world becomes progressively more globalized.

In the completion of these international business courses, students have an opportunity to earn a Forum for International Trade Training (FITT) diploma. The FITT's partnership with Mount Royal University brings students one step closer to receiving a 2- for-1 educational credential and advanced standing toward the Certified International Trade Professional, a globally recognized designation.

The International Business, BBA major also includes a Co-operative Education option.

## Curriculum

The foundation of the BBA includes 16 required core business courses, 10 major courses, 10 General Education courses, and four electives, for a total of 40 courses over four years.

### Core Courses

The 16 required core business courses in the BBA consist of the following:

- ACCT 2121 - Financial Accounting Concepts
- ACCT 3224 - Management Accounting I
- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- ENTR 4433 - Business Plan Development
- FNCE 3227 - Introduction to Finance
- HRES 2170 - Introduction to Human Resources
- INBU 3301 - Global Business Environment
- LSCM 3403 - Operations Management
- MGMT 2262 - Statistics and Analytics for Business
- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3230 - Business Law
- MGMT 3276 - Organizational Behaviour
- MGMT 5333 - Strategic Management
- MKTG 2150 - Fundamentals of Marketing

### One of

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

### Major Specific Courses

All BBA - International Business major students must complete 10 courses, seven of which are required courses and three of which are chosen from a list of

options. The following seven courses must be taken as part of the major requirements:

- FNCE 3302 - International Finance
- INBU 2201 - Cross-Cultural Management
- INBU 3302 - International Marketing
- INBU 3304 - Global Supply Chain Management
- INBU 4408 - International Trade Management
- INBU 4901 - Doing Business in Emerging Markets
- INBU 5305 - International Market Entry Strategies

### Three of the following

- CNST 2233 - Canada in Comparative and International Perspective
- INBU 2299 - Directed Readings \*
- INBU 3306 - International Trade Research
- INBU 3307 - International Trade Law
- INBU 3399 - Directed Readings \*
- INBU 3730 - Special Topics in International Business
- LSCM 3407 - Business Negotiations/Project Management **or**
- MGMT 3269 - Project Management
- Any Language course (up to one language course)

**Note:** \* No more than one Directed Readings course in a single discipline can be used for graduation purposes.

### Electives

Students must complete four electives courses.

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Business Administration.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

## International Business, BBA (Honours)

---

Students who are interested in pursuing graduate school or who wish to explore their selected field in more depth are advised to apply for admission into the Honours stream in the Bachelor of Business Administration. Core BBA program requirements are augmented with a course in research methods and the completion of an Honours Research Project. The Honours BBA provides students with a choice of two streams. The first is a scholarly stream and intended for students interested in pursuing graduate school. The second is an applied stream and intended for students seeking to enhance career skills - with a focus on applying theory to practice.

Please contact Business Student Advisors and obtain the latest Honours BBA Handbook, which contains more detailed information.

### Admission Requirements - Honours Stream

To be considered for admission into the honours program, the student must achieve a 3.5 GPA in their most recent 20 courses (60 credits) prior to June 30 of the year they apply for entrance into the honours program. Admission into the Honours stream is competitive and is not guaranteed.

## Marketing, BBA

---

Professional marketers navigate the dynamic world of brands, evolving consumer attitudes, emerging design trends, innovation, and the global marketplace.

Gain the knowledge needed to become a marketing professional who can effectively blend insight, strategy, and creativity to help bring extraordinary

products, services, experiences and campaigns to the marketplace.

Mount Royal University is educating marketers who use market intelligence, design and implement integrated branding programs, design experiences, create marketing plans that capitalize on opportunities, and apply emerging technologies.

Upon graduation, you may find careers in a variety of areas. You may guide the strategic and creative direction of corporate brands in large organizations, find placement in advertising agencies in Calgary, or help build identities from the ground up for start-ups and social ventures. Mount Royal's marketing program will prepare you to work in a variety of sectors including oil and gas, tourism, healthcare, retail services, manufacturing, nonprofit, agriculture, and government.

### Applying theory through practice

To ensure our graduates are ready to take their place in the profession, marketing students are required to complete verified professional and volunteer experience linked to the learning outcomes of the degree. This experience not only puts newly learned skills to work, but also expands the students' professional network and builds confidence. Marketing students have the flexibility to identify and choose the experiences that align with both their professional and personal goals.

*Note: All professional and volunteer experiences will be subject to verification through a student's professional portfolio.*

For additional information, please review the minimum professional and volunteer experience requirements with the department chair.

## Supply Chain Management, BBA

---

The Supply Chain Management, BBA major is designed to educate students on trends in global supply chains, international trade and the growing need for businesses to develop more effective processes to create and distribute products and services. The Supply Chain Management program includes management of the flow and transportation of goods and services from materials and inputs through to the consumer. The curriculum explores production planning/operations management, logistics and transportation planning, purchasing and category management, inventory and warehouse management, material handling, network optimization and route planning, distribution and location planning, transportation, enterprise resource planning, and global logistics.

To provide industry grade insights to students, the program trains them in critical areas such as contract (& business) law, negotiation skills, and also in data driven decision making. The program offers opportunities for students to work on market intelligence databases and software platforms housed in a state-of-the-art "Supply Chain Data Analytics Lab". The major in Supply Chain Management has a strong analytics focus across all core supply chain courses. The program develops analytically oriented supply chain professionals who have the necessary skills to apply their knowledge and training to support the dynamically evolving supply chains of the future.

Course credits are recognized for credit towards the Supply Chain Management Professional (SCMP) designation. The program also provides advanced standing for candidates who seek entry into the P.Log. professional association. Students in the program will be prepared for careers in professional purchasing, international trade, and demand forecasting as well as management positions in transportation, inventory, and distribution.

The BBA - Supply Chain Management major also includes a Co-operative Education option.

### Curriculum

The foundation of the BBA includes 16 required core business courses, 10 major courses, three honours courses, 10 General Education courses, and one elective, for a total of 40 courses over four years.

### Core Courses

The 16 required core business courses in the BBA consist of the following:

*Note: A student who has already graduated with a Bachelor of Business Administration may not apply to enter the Honours stream.*

### Application for Admission - Honours Stream

Students may apply for admission into the Honours stream in the fall of their third year, after the completion of a minimum 20 courses. **Applications will be accepted each year from September 15 to November 15.** The process for application to the Honours stream is included in the BBA Honours Handbook which can be found on the Bissett School

of Business website. It is recommended that the student obtains, in advance, the agreement of a full-time faculty member of the Bissett School of Business to be that student's Honours Research Project supervisor.

If a student is admitted into the program, they will take MGMT 5110 - Research Methods for Business in the winter semester (it is anticipated this course will be offered only once per academic year). Upon successful completion of MGMT 5110, the student will then commence their MGMT 5120 - Honours Research Project in the fall of their final year.

### Program Continuance - Honours Stream

Students admitted into the Honours BBA stream must maintain a minimum cumulative GPA of 3.50. Students who fail to maintain a semester GPA of 3.50 will lose their place in the Honours stream. Students will normally not be permitted to re-apply to the Honours stream and may do so only with the permission of the Chair of their honours discipline. Students permitted to re-apply must follow the procedures for "application into the Honours stream," as mentioned above. There is no guarantee that a student will be re-admitted into the Honours stream.

### Curriculum

The foundation of the BBA includes 16 required core business courses, 10 major courses, two honours courses, 10 General Education courses, and two elective courses, for a total of 40 courses over four years.

### Core Courses

The 16 required core business courses in the BBA consist of the following:

- ACCT 2121 - Financial Accounting Concepts
- ACCT 3224 - Management Accounting I
- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- ENTR 4433 - Business Plan Development
- FNCE 3227 - Introduction to Finance
- HRES 2170 - Introduction to Human Resources
- LSCM 3403 - Operations Management
- MGMT 2262 - Statistics and Analytics for Business
- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3230 - Business Law
- MGMT 3276 - Organizational Behaviour
- MGMT 5333 - Strategic Management
- MKTG 2150 - Fundamentals of Marketing

One of

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

### Major Specific Courses

The Supply Chain Management, BBA Major is designed to educate students on trends in global supply chains, international trade and the growing need for businesses to develop more effective processes to create and distribute products and services. The Supply Chain Management program includes management of the flow and transportation of goods and services from materials and inputs through to the consumer. The curriculum explores production planning/operations management, logistics and transportation planning, purchasing and category management, inventory and warehouse management, material handling, network optimization and route planning, distribution and location planning, transportation, enterprise resource planning, and global logistics.

To provide industry grade insights to students, the program trains them in critical areas such as contract (& business) law, negotiation skills, and also in data driven decision making. The program offers opportunities for students to work on market intelligence databases and software platforms housed in a state-of-the-art "Supply Chain Data Analytics Lab". The Major in Supply Chain Management has a strong analytics focus across all core supply chain courses. The program develops analytically oriented supply chain professionals who have the necessary skills to apply their knowledge and training to support the dynamically evolving supply chains of the future.

Course credits are recognized for credit towards the Supply Chain Management Professional (SCMP) designation. The program also provides advanced standing for candidates who seek entry into the P.Log. professional association. Students in the program will be prepared for careers in professional purchasing, international trade, and demand forecasting as well as management positions in transportation, inventory, and distribution.

The BBA - Supply Chain Management Major also includes a Co-operative Education option.

All BBA - Supply Chain Management students must complete the following 10 major courses as part of their requirements:

- LSCM 2201 - Introduction to Logistics and Supply Chain Management
- LSCM 2301 - Introduction to Physical Distribution
- LSCM 3203 - Principles of Quality Management
- LSCM 3303 - Fundamentals of Procurement
- LSCM 3305 - Physical Distribution and Logistics
- LSCM 3402 - Inventory and Warehouse Management
- LSCM 3407 - Business Negotiations/Project Management **OR**
- MGMT 3269 - Project Management
- LSCM 4409 - Supply Chain Decision-Making
- LSCM 4411 - Integrated Business Solutions
- MGMT 4230 - Advanced Business Law

### Honours Specific Courses

BBA Honours students must take the following two courses:

- MGMT 5110 - Research Methods for Business
- MGMT 5120 - Honours Research Project

### Electives

- Students must complete two elective courses.

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Business Administration.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

### Graduation Requirements

To be eligible for graduation, students must satisfactorily complete all degree program requirements and course work. Students must achieve a minimum cumulative GPA of 3.50 to be eligible for graduation within the honours stream. Students must follow the graduation application

procedure outlined in the current Mount Royal  
Calendar. Applications must be submitted by the date  
published in the Academic Schedule.

# Bachelor of Child Studies

## Child and Youth Care Counsellor, BCST

---

Help in the healthy development of vulnerable children, youth and families by becoming a positive role model. Working with people in need can be demanding, but you will experience job satisfaction and significant rewards. Employment opportunities include school programs, group homes, treatment centres, and community programs. To become a child and youth care counsellor, you need to be strong, emotionally and ethically. The children, youth and families you will work with may have suffered physical, sexual or emotional abuse, neglect and/or family breakdown. Some may also have behavioural or learning difficulties that require your knowledge, skill, and support.

The learning outcomes for the Bachelor of Child Studies, Child and Youth Care Counsellor reflect the values, knowledge, and skills that Child and Youth Care Counsellor students are expected to acquire and demonstrate upon completing the BCST and are designed to equip them for professional practice. These include

### A. Professional Reflective Practice

Professional practice is the commitment to developing and gaining awareness of attitudes, values, beliefs, and ethics and integrating this into professional behaviour. Reflection is a process of responding to experiences, situations, learning, or new knowledge. Reflective practice occurs in the context of professional practice and is evidence-based (not merely subjective). Critical thinking and reflection are closely linked.

Graduates from the BCST, Child and Youth Care, will be able to:

1. Develop and sustain professional relationships with children, youth and families demonstrating sensitivity, awareness, and respect of cultural and human diversity
2. Describe the impact of historical influence, theoretical foundations, and social policy that inform the context of professional practice.
3. Access, analyze, and apply knowledge and skills to develop an interdisciplinary framework for practice.
4. Demonstrate the professional responsibility of integrating emergent knowledge into their practice.

5. Establish the practice of participating in professional development and self-care.
6. Communicate in persuasive and engaging ways using written, spoken or visual formats.
7. Seek different points of view, assess situations, implement options and evaluate outcomes based on professional experiences and/or research.
8. Practice according to legislation, codes of conduct and agency policies.
9. Advocate on behalf of children, youth, families, the community and themselves as professionals.

### B. Assessment and Intervention

The ability to assess and intervene requires skills that enhance and support decision-making and problem-solving in an ethical and responsible manner.

Assessment and intervention strategies may apply at the individual, group, family or community level.

Graduates from the BCST, Child and Youth Care, will be able to:

1. Describe and apply theoretical frameworks (e.g., developmental, ecological, social justice) to practice with children, youth, family or community.
2. Explore and develop appropriate solutions that recognize the human and interpersonal needs.
3. Identify and make referrals to community services and resources.
4. Apply knowledge of assessment tools to obtain, organize and critically evaluate information appropriately.
5. Develop goals, implement and manage ongoing intervention practices encouraging child/family participation.
6. Identify needs related to a variety of mental health issues and apply effective interventions.

### C. Leadership and Collaboration

Leadership involves the ability to envision, communicate, initiate, reflect, and create opportunities within professional practice. Collaboration involves working as part of a team and understanding how/when to support others to move toward a desired outcome.

Graduates from the BCST, Child and Youth Care, will be able to:

1. Explain and apply leadership principles and teamwork practices.
2. Integrate management, supervision, coaching and leadership skills toward the development of an effective leadership style.

3. Create positive respectful work environments and work effectively in collaborative contexts.
4. Identify and build frameworks to describe and support community experiences.
5. Implement leadership skills and abilities such as leading change effectively, resolving conflict, and motivating others.
6. Apply critical thinking skills to make decisions, solve problems and respond to community needs.
7. Apply resiliency skills to take appropriate risks leading to positive change.
8. Critically evaluate personal performance, seek feedback and be collaborative in supervision.

#### D. Research and Evaluation

Understanding the fundamentals of research and evaluation will be critical to the role of graduates in leadership positions.

Graduates from the BCST, Child and Youth Care, will be able to:

1. Access and use research (e.g., literature reviews, accessing reliable sources) to develop evidence-based practice.
2. Make informed judgments concerning the value of sources.
3. Synthesize acquired information to use in written or verbal presentations.
4. Recognize different approaches to inquiry in different disciplines.
5. Design and implement surveys, needs assessments, interviews, and focus groups using appropriate methods, tools and technology.
6. Design program evaluation to ensure accountability (e.g., to funders and stakeholders) and support quality improvement.

#### E. Counselling Practices

The essence of Child and Youth Care (CYC) practice is a commitment to addressing the needs of vulnerable children, youth, and families within a context of caring. CYC practice is concerned with the totality of development and functioning and is based on direct, day to day work with children, youth and families in their environments.

Graduates from the BCST, Child and Youth Care, will be able to:

1. Demonstrate and evaluate interpersonal communication and counselling skills to promote trusting professional relationships (based on the principles of human relationships).

2. Identify signs of personal and professional fatigue and workplace burnout and apply self-care strategies which promote personal and professional growth.
3. Identify and describe developmental issues related to child abuse and neglect to ensure case plans accurately reflect needs.
4. Understand and apply the Circle of Courage philosophy and relevant counselling theories.
5. Disengage from power struggles by understanding the conflict cycle method of conflict resolution and apply the Life Space Interview in the therapeutic environment.
6. Demonstrate basic group facilitation techniques that consider the phases of group development and the clients' individual developmental needs.
7. Identify needs related to a variety of mental health concerns and apply effective interventions.

#### Curriculum

In the Child and Youth Care Counsellor major, students will learn to advocate for, counsel and nurture vulnerable children, youth and families. The children and youth may have suffered physical, sexual or emotional abuse, neglect, family breakdown and may have behavioural or learning difficulties. The courses will explore the dynamics of abuse and neglect in child and youth care theory and practice, development, intervention and treatment strategies, and counselling theory and skills. Students will be required to have a current CPR and First Aid Certificate prior to entry into the second year practicum placement.

- CYCC 1110 - Fundamental Skills in Interviewing
- CYCC 1130 - Mental Health and Substance Use Issues
- CYCC 1132 - The Profession of Child and Youth Care
- CYCC 1142 - Practicum I
- CYCC 2216 - Group Theory and Process
- CYCC 2221 - Fundamental Skills in Counselling
- CYCC 2226 - Assessment and Intervention
- CYCC 2232 - Working with Vulnerable Children, Youth and Families
- CYCC 2235 - Child and Youth Care Practice with Families
- CYCC 2241 - Practicum II
- CYCC 2242 - Practicum III
- CHST 3101 - Foundations of Interdisciplinary Professional Practice
- CHST 3103 - Child Development and Plasticity
- CHST 3105 - Child and Youth Human Rights
- CHST 3107 - Principles of Program Design

- CHST 3202 - Community Based Research and Evaluation
- CHST 3204 - Leadership and Collaboration
- CHST 3206 - Practicum IV
- CHST 4103 - Mental Health Interventions
- CHST 4105 - Studies in Systems and Social Policy
- CHST 4204 - Contemporary Issues in Child Studies
- CHST 5101 - Capstone I
- CHST 5202 - Capstone II
- INTS 1240 - Fundamentals of Professional Communication
- PSYC 1105 - Introductory Psychology for Non-Majors

## Electives

### Four Electives

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Child Studies - Child and Youth Care Counsellor.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. PSYC 2235 - Life-Span Development
4. PSYC 3351 - Topics in Child Development or PSYC 3355 - Topics in Adolescence
5. One additional course from the third tier in clusters 1, 3, or 4.

Students are encouraged to meet with an advisor before registering for all support courses.

## Graduation Requirements

Eligibility to graduate from a Mount Royal program requires that a student meet all of the following conditions:

- a. has been officially admitted into the program;
- b. has completed at least 25% of the graduation requirements as a student within the program;
- c. has met the residency requirement;
- d. satisfies all program requirements specified in the curriculum at the time of admission to the program or the current program;
- e. meets the requirements for Good Standing at the time the application to graduate is evaluated.

Students should also be aware that there is a limit on the number of 1xxx level (i.e., junior) courses that can be used to satisfy program requirements. Exceptions to any of these conditions must be approved, in writing, by the Dean of the program from which the student is applying to graduate.

Due to regulatory changes in required course content, CYCC 2221 and CYCC 2226 can not be used to satisfy program requirements in the Bachelor of Child Studies degree if completed prior to Fall 2012.

## Early Learning and Child Care, BCST

In the Early Learning and Child Care program, students will discover that play is a powerful force in a child's development. They will learn about the developmental needs of children from infancy to age 12, gaining the ability to design, co-construct and implement play experiences for children and to communicate effectively with parents and professionals. With emphasis on real-world learning situations along with lab simulations, role-playing and discussion groups, students will be prepared to provide care and learning for all children, including those who have special needs.

The learning outcomes for the Bachelor of Child Studies, Early Learning and Child Care reflect the values, knowledge, and skills that Early Learning and Child Care students are expected to acquire and demonstrate upon completing the BCST and are designed to equip them for professional practice. These include

### **A. Professional Reflective Practice**

Professional practice is the commitment to developing and gaining awareness of attitudes, values, beliefs, and ethics and integrating this into professional behaviour. Reflection is a process of responding to experiences, situations, learning, or new knowledge. Reflective practice occurs in the context of professional practice and is evidence-based (not merely subjective). Critical thinking and reflection are closely linked.

Graduates from the BCST, Early Learning and Child Care, will be able to:

1. Develop and sustain professional relationships with children, youth and families demonstrating sensitivity, awareness, and respect of cultural and human diversity
2. Describe the impact of historical influence, theoretical foundations, and social policy that inform the context of professional practice.
3. Access, analyze, and apply knowledge and skills to develop an interdisciplinary framework for practice.

4. Demonstrate the professional responsibility of integrating emergent knowledge into their practice.
5. Establish the practice of participating in professional development and self-care.
6. Communicate in persuasive and engaging ways using written, spoken or visual formats.
7. Seek different points of view, assess situations, implement options and evaluate outcomes based on professional experiences and/or research.
8. Practice according to legislation, codes of conduct and agency policies.
9. Advocate on behalf of children, youth, families, the community and themselves as professionals.

## **B. Assessment and Intervention**

The ability to assess and intervene requires skills that enhance and support decision-making and problem-solving in an ethical and responsible manner. Assessment and intervention strategies may apply at the individual, group, family or community level.

Graduates from the BCST, Early Learning and Child Care, will be able to:

1. Describe and apply theoretical frameworks (e.g., developmental, ecological, social justice) to practice with children, youth, family or community.
2. Explore and develop appropriate solutions that recognize the human and interpersonal needs.
3. Identify and make referrals to community services and resources.
4. Apply knowledge of assessment tools to obtain, organize and critically evaluate information appropriately.
5. Develop goals, implement and manage ongoing intervention practices encouraging child/family participation.
6. Identify needs related to a variety of mental health issues and apply effective interventions.

## **C. Leadership and Collaboration**

Leadership involves the ability to envision, communicate, initiate, reflect, and create opportunities within professional practice. Collaboration involves working as part of a team and understanding how/when to support others to move toward a desired outcome.

Graduates from the BCST, Early Learning and Child Care, will be able to:

1. Explain and apply leadership principles and teamwork practices.

2. Integrate management, supervision, coaching and leadership skills toward the development of an effective leadership style.
3. Create positive respectful work environments and work effectively in collaborative contexts.
4. Identify and build frameworks to describe and support community experiences.
5. Implement leadership skills and abilities such as leading change effectively, resolving conflict, and motivating others.
6. Apply critical thinking skills to make decisions, solve problems and respond to community needs.
7. Apply resiliency skills to take appropriate risks leading to positive change.
8. Critically evaluate personal performance, seek feedback and be collaborative in supervision.

## **D. Research and Evaluation**

Understanding the fundamentals of research and evaluation will be critical to the role of graduates in leadership positions.

Graduates from the BCST, Early Learning and Child Care, will be able to:

1. Access and use research (e.g., literature reviews, accessing reliable sources) to develop evidence-based practice.
2. Make informed judgments concerning the value of sources.
3. Synthesize acquired information to use in written or verbal presentations.
4. Recognize different approaches to inquiry in different disciplines.
5. Design and implement surveys, needs assessments, interviews, and focus groups using appropriate methods, tools and technology.
6. Design program evaluation to ensure accountability (e.g., to funders and stakeholders) and support quality improvement.

## **E. Learning Environments and Relationships**

The essence of early learning and child care practice is to explore and understand the 'image of the child' within the context of building respectful, nurturing and caring relationships with children, families and the community. Intentionality and reflection guide and inform the creation of early childhood environments that foster the co-construction of learning through play.

Graduates from the BCST, Early Learning and Child Care, will be able to:

1. Create a play-based learning environment that engages and supports children, families, and educators.
2. Apply the theoretical foundations of learning through play.
3. Apply the skills of observation and documentation for the purposes of building relationships, self-reflection, and planning and assessment.
4. Access and engage community resources to support children and families.
5. Support the health and wellbeing of children.
6. Support children's social learning through the development of positive relationships.
7. Engage in ongoing professional growth through self-reflection and assessment.

## Electives

- Five Electives

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Child Studies - Early Learning and Child Care.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

Students are encouraged to meet with an advisor before registering for all support courses.

## Graduation Requirements

Eligibility to graduate from a Mount Royal program requires that a student meet all of the following conditions:

- a. has been officially admitted into the program;
- b. has completed at least 25% of the graduation requirements as a student within the program;
- c. has met the residency requirement;
- d. satisfies all program requirements specified in the curriculum at the time of admission to the program or the current program;
- e. meets the requirements for Good Standing at the time the application to graduate is evaluated.

Students should also be aware that there is a limit on the number of 1xxx level (i.e., junior) courses that can be used to satisfy program requirements. Exceptions to any of these conditions must be approved, in writing, by the Dean of the program from which the student is applying to graduate.

Due to regulatory changes in required course content, ELCC 2121 can not be used to satisfy program requirements in the Bachelor of Child Studies degree if completed prior to Fall 2012.

# Bachelor of Communication

## Broadcast Media Studies, BCMM

---

### General Information

The essence of Broadcasting is communicating effectively with images, words and sounds. Whether it is telling a story, providing information about a product or service, delivering entertainment, or covering a live event, media content has to be conveyed in a manner that meets the needs of diverse audiences. Industry professionals have to be able to adapt to rapid changes in trends and technology and be well versed in producing for traditional broadcast media, networks and production houses, as well as for the online demands of corporations, government and non-profits.

The Broadcast Media Studies curriculum includes communication theory, a media focus on ethics and inclusion, incorporating design theory and rhetoric for media content, on-air performance, news, sports and current affairs reporting and presentation, technical operations, audio production and podcasts, multi-camera mobile production, single-camera on-location shooting, lighting, editing and graphics creation. In addition, General Education courses and electives provide the opportunity to study a range of subjects, and to concentrate on a particular discipline and earn a minor.

### Student Conduct

Broadcast Media Studies students must adhere to MRU's Code of Student Conduct as well as the expectations of professional industry organizations such as the Canadian Broadcast Standards Council, the Ads Standards Council's Canadian Code of Advertising, and the Association of Electronic Journalists' Code of Ethics. Any deliberate breaches will result in disciplinary action with transgressions being equated to academic dishonesty, and with consequences as outlined in the Mount Royal Code of Student Conduct.

### Work Experience

Between the third and fourth years of the Broadcast Media Studies program, students are required to complete a non-credit, semester-long supervised work experience (a minimum of 12 weeks of full-time work) in the industry. This is an opportunity to further develop their skills in a media-related environment alongside professionals.

To be eligible, all students must complete a range of prerequisites. Because the work involves professional placements, the program chair can, for a fixed period, deny eligibility for the placement to any student who has acted in an inappropriate and unprofessional manner during the preparation phase or during the work experience placement.

Any student who exhibits professional misconduct before or during the placement may be required to withdraw from the program subject to terms of the Student Code of Conduct.

### General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admission section of this calendar.

### Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the Admission section of this calendar, applicants must also satisfy the following criteria:

### Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Communication - Broadcast Media Studies program:

- English Language Arts 30-1 - 60%
- Social Studies 30-1 or Aboriginal Studies 30 - 50%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

### Indigenous Student Admission

Each year 7% of the seats in the Bachelor of Communication Studies - Broadcast Media Studies will be reserved for Indigenous applicants through an Indigenous admission target. To be considered for admission under the Indigenous Admission target, the applicant must:

1. self-identify as an Indigenous applicant on the Application for Admission

2. meet the definition of an Indigenous Applicant
3. meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program level admission requirements

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during Early Admission. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

## Program Continuance

Students accepted into the Bachelor of Communication program are subject to Mount Royal policies and regulations relating to baccalaureate degrees and continuance.

### Curriculum

## Zero-credit program elements

- BMST 4490 - Broadcast Workplace Preparation Seminar \*
- BMST 4491 - Broadcast Media Work Experience \*

\*All courses are three credits except zero-credit courses BMST 4490 and BMST 4491.

## Electives

- Six Electives

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Communication - Broadcast Media Studies.

1. Four courses will be taken at the foundation level: one from each of the four thematic cluster areas.
2. Three courses will be taken at the second tier: no more than one from a given thematic cluster. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

For details on the nature and structure of General Education visit: [mtroyal.ca/gened/courses](http://mtroyal.ca/gened/courses).

## Graduation Requirements

Degree candidates in the Bachelor of Communication - Broadcast Media Studies must complete all core program courses with a final grade of "C" or better. Successful completion of 120 credits and all courses for graduation listed. Successful completion of one zero-credit work placement and the zero-credit work experience preparation seminar.

## Information Design, BCMM

---

### General Information

Information design is the art and science of preparing or "designing" information so that it can be used by human beings with efficiency and effectiveness. Information design applies traditional and evolving design principles to the process of translating complex, unorganized, or unstructured data into valuable meaningful information. In short, information designers design understanding and there are few, if any, occupations that do not feel the influence and benefits of good information design.

An information designer works in a variety of settings. These include working with strategic digital communications companies to develop Web-based applications, designing and conducting usability tests, or working with multimedia, publishing, and other knowledge management products. Information designers must have skill in writing and understand the central importance of typography in how to produce understandable and attractive documents ranging from operating instructions, brochures, and training manuals to magazines and style guides. In all cases, information designers place their focus on the user and understand the importance of usability research. Finally, the study of ethics is fundamental to information design. Information designers understand how people who read and use information must be treated with dignity and how their work can affect various constituencies - from co-workers to customers to the general public - and even the environment itself. A key strength for Information Design graduates is their ability to conceptualize procedures and compete in the global marketplace.

The interdisciplinary curriculum of the Bachelor of Communication - Information Design degree responds directly to current market trends. The degree combines skills in graphic design, typography, writing, project management, instructional design, human performance technology, and human factors that reach far beyond traditional programs in design, technical communication, or publishing. Information Design is also interdisciplinary and students will work with other communication students in Journalism and Digital Media or Public Relations and will complete work experience in a variety of settings. The intent of the curriculum is to prepare graduates who can not only work formatively and creatively but also understand how to work using scientific and didactical methods as part of the field of communication research. As a result, information retrieval techniques and information assessment are central to the program and provide expertise in areas pertaining to research methods and usability.

### **Student Conduct**

Information Design students are expected to adhere to the Code of Ethics and Professional Practices, to which all students at Mount Royal are expected to practice. Any deliberate breaches will result in disciplinary action with transgressions being equated to academic dishonesty, and with consequences, as outlined in the Mount Royal Code of Student Conduct.

### **Program Continuance**

Students accepted into the Bachelor of Communication program are subject to all Mount Royal policies and regulations relating to baccalaureate degrees and continuance.

### **Residency Requirements**

A minimum of 50 percent of the course requirements for the degree must be completed as a registered student of Mount Royal, not including the required non-credit work experience.

### **Work Experience**

For graduation purposes, Information Design students are required to complete one, non-credit, semester-long supervised work experience (with a 12 full-time workweek minimum) in the communications field during their program. To be eligible, all students must complete a range of prerequisites. Because work experience involves professional placements, the program chair can, for a fixed period, deny eligibility to any student who has acted in an inappropriate and unprofessional manner during the preparation phase. Any student who receives a work experience assessment of Fail for exhibiting professional misconduct may be required to withdraw from the program, subject to terms of the Student Code of Conduct.

### **General Admission Requirements**

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admission section of this calendar.

### **Additional Admission Requirements**

In addition to meeting the general admission requirements indicated in the *Admission* section of this calendar, applicants must also satisfy the following criteria:

### **Academic Course Requirements**

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Communication - Information Design program.

- English Language Arts 30-1 - 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

### **Indigenous Student Admission**

Each year 7% of the seats in the Bachelor of Communication Studies - Information Design program

will be reserved for Indigenous applicants through an Indigenous admission target. To be considered for admission under the Indigenous Admission target, the applicant must:

- self-identify as an Indigenous applicant on the Application for Admission
- meet the definition of an Indigenous Applicant
- meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program-level admission requirements

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during Early Admission. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

## Transfer Credit

Students who have completed, in good standing, a diploma in a related field such as technical design or multimedia from Medicine Hat, Mount Royal, NAIT, SAIT, or other Universities in Alberta or other provinces, may be eligible for transfer credit. Information Design is a distinct discipline and students considering transfer must appreciate the importance of the need for required foundation courses in writing and design theory.

## Curriculum

The foundation of the Information Design degree in Communication Studies is 24 required core Information Design courses, 10 General Education courses and six electives, for a total of 40 courses over four years.

- COMM 2500 - Introduction to Communication Studies
- COMM 2501 - Media History and Contemporary Issues
- COMM 3500 - Media, Culture and Communication Theory
- COMM 4501 - Roles and Practices in Contemporary Communications

## Core Courses

- INFO 1600 - Information Design: Past, Present, and Future
- INFO 1610 - Principles of Design Thinking and Doing
- INFO 1620 - Visual Communication Fundamentals
- INFO 1661 - Technical Communication
- INFO 2663 - Visual and Applied Rhetoric

- INFO 2666 - Thinking with Type
- INFO 2667 - Information Architecture
- INFO 2670 - Tools for Information Designers
- INFO 2673 - Systems and Structures
- INFO 2680 - Intercultural Perspectives and Inclusive Information Design
- INFO 3600 - Usability
- INFO 3605 - Qualitative Research Methods for Information Design
- INFO 3610 - Visualizing Information
- INFO 3620 - Content Development and Design Studio
- INFO 3670 - Project and Content Management
- INFO 4620 - Systems Thinking and Changemaking Studio
- INFO 4650 - Critical Design
- INFO 4665 - Instructional Design
- INFO 4680 - The Practice of Information Design

## One of

- INFO 3611 - Designing for Interactivity
- INFO 3675 - Memetics: Contemporary Rhetorics of Dissent and Disinformation

## Zero-credit program elements

- INFO 4690 - Information Design Work Experience Seminar \*
- INFO 4691 - Information Design Work Experience \*

\*All courses three credits except zero-credit courses INFO 4690 and INFO 4691.

## Progression Requirements

Students are required to complete all core courses with a minimum final grade of "C" and a grade of "Pass" in the non-credit work experience preparation seminar INFO 4690 and work experience INFO 4691.

## Electives

- Six Electives

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Communication - Information Design.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.

2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

For details on the nature and structure of General Education visit: [mtroyal.ca/gened/courses](http://mtroyal.ca/gened/courses).

## Graduation Requirements

Eligibility to graduate from a Mount Royal program requires that a student

1. Has been officially admitted into the program;
2. Has completed at least 25% of the graduation requirements as a student within the program;
3. Has met all residency requirements;
4. Satisfies all program requirements specified in the curriculum at the time of admission to the program or the current program;
5. Meets the requirements for Good Standing at the time the application to graduate is evaluated.

## **Bachelor of Communication - Journalism and Digital Media, BCMM**

### General Information

The world of journalism is varied and challenging and Mount Royal's goal is to ensure that journalism and digital media graduates have a range of skills and understandings that they can draw upon in this ever-changing landscape. The best journalism is accomplished by people with a thorough grasp of the fundamentals of reporting, writing, editing, and illustrating news, the ability to think critically about their work and work environment, and a deep curiosity about how society functions, or often does not function. The Journalism and Digital Media major in the four-year Bachelor of Communication program is based on integrating classroom learning with practical experience, including professional work experiences, and is focused on providing students with a broad-based journalism education in writing, idea and story development, digital newspaper and magazine publishing, broadcasting, photography, Podcasting and visual multi-media. It additionally includes:

- Considerable exposure to written, spoken and mediated communications, and to the effective use of computers.
- The opportunity to develop and practice a range of presentation skills.

- A focus on critical reflection about journalism generally, and the student's own work through instructor feedback, peer critiques, and self-reflection.
- Consideration of the social context for the practice of journalism including media history, law, and ethics.
- Direct workplace exposure in communications through the required professional work experience.
- A strong General Education component that ensures both breadths of study and the potential to achieve a minor in a given discipline, such as political science, history, sociology, or a second language among other possibilities.
- Electives students can use to explore a specific discipline more fully.
- Information retrieval techniques and information assessment are presented in a number of courses, while a course in research design and methodology encourages a more comprehensive understanding of the goals and nature of research.
- A Communication Studies component with specific attention to key theories that explain the interaction inherent in communication processes.
- Strict attention to ethical practice as detailed in a program-wide journalism policy manual.

This blend of elements introduces journalism and digital media students to the expectations and requirements of professional practice in the context of the role journalism plays in society while allowing them to step outside that frame to consider other ideas and forces that shape their world and to acquire depth and breadth of knowledge intended to serve journalism graduates in a variety of ways.

### Student Conduct

Professional work completed in the Journalism and Digital Media program is guided by a Journalism Code of Ethics and Professional Practices, to which all journalism students at Mount Royal are expected to adhere. Any deliberate breaches will result in disciplinary action with transgressions being equated to academic and/or non-academic misconduct, and with consequences as outlined in the Mount Royal Code of Student Conduct.

### Program Continuance

Students accepted into the Bachelor of Communication program are subject to Mount Royal policies and regulations relating to baccalaureate degrees and continuance.

## Work Experience

Journalism and Digital Media students are encouraged to complete two non-credit semester-long work experiences (with a 12 full-time workweek minimum) in the communications field during their program but are required for graduation purposes to complete one such supervised work experience. To be eligible, all students must complete a range of prerequisites. Because work experiences are professional placements the program chair can, for a fixed period, deny work experience eligibility to any student who has acted in an inappropriate and unprofessional manner during the preparation phase, or during work experience. Any student cited for professional misconduct in advance of or during a work experience will be required to withdraw from the work experience process and could be subject to further sanctions under the terms of the Student Code of Conduct.

## Computer Needs

To participate in this program, a student will require access to a computer with sufficient power, capacity, and Internet access. In JOUR 1720 - Introduction to Digital Media students will be using widely available and free-to-use open-source software that generally needs to be downloaded and stored. It is advised that students check with computer suppliers to ensure that their computers will function effectively under these circumstances.

## General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admission* section of this calendar.

## Additional Admission Requirements

In addition to meeting the general admission requirements, indicated in the *Admission* section of this calendar, applicants must also satisfy the following criteria:

## Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Communication - Journalism program.

- English Language Arts 30-1 - 60%
- Social Studies 30-1 or Aboriginal Studies 30 - minimum grade 50%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum

grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

## Indigenous Student Admission

Each year 7% of the seats in the Bachelor of Communication Studies - Journalism and Digital Media program will be reserved for Indigenous applicants through an Indigenous admission target. To be considered for admission under the Indigenous Admission target, the applicant must:

1. self-identify as an Indigenous applicant on the Application for Admission
2. meet the definition of an Indigenous Applicant
3. meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program level admission requirements

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during Early Admission. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

## Curriculum

The foundation of the Journalism and Digital Media degree in Communication Studies is 24 required core Journalism courses, 10 General Education courses and six electives, for a total of 40 courses over four years.

- COMM 2410 - Media Ethics and Law
- COMM 2500 - Introduction to Communication Studies
- COMM 2501 - Media History and Contemporary Issues
- COMM 3500 - Media, Culture and Communication Theory
- COMM 3738 - Research Design and Methodology
- COMM 4403 - Media Entrepreneurship
- COMM 4501 - Roles and Practices in Contemporary Communications
- JOUR 1707 - Journalism Foundations I
- JOUR 1709 - Journalism Foundations II
- JOUR 1727 - Digital Storytelling I
- JOUR 1728 - Digital Storytelling II
- JOUR 2707 - News Reporting I
- JOUR 2709 - News Reporting II
- JOUR 2718 - Community-centred Journalism
- JOUR 2720 - Digital Visualization
- JOUR 2727 - Podcasting Workshop

- JOUR 2740 - Visual Journalism I
- JOUR 3729 - Digital Reporting Techniques
- JOUR 3730 - Investigative Techniques
- JOUR 3747 - Visual Journalism II
- JOUR 3777 - Project and Content Development

One of:

- JOUR 4705 - Digital News Reporting and Publishing
- JOUR 4707 - Magazine Reporting and Publishing

Three of:

- JOUR 4705 - Digital News Reporting and Publishing
- JOUR 4707 - Magazine Reporting and Publishing
- JOUR 4709 - Advanced Reporting: Current Topics
- JOUR 4727 - Advanced Visual Journalism Projects
- JOUR 4729 - Advanced Multimedia Projects
- JOUR 4747 - Advanced Audio Projects

**Up to two courses above may be substituted by one or both of:**

- COMM 3797 - Special Topics in Communications
- COMM 3799 - International Communication Projects

Zero-credit program elements

- JOUR 4790 - Journalism Workplace Issues and Work Experience Preparation Seminar \*
- JOUR 4791 - Journalism Work Experience I \*
- JOUR 4792 - Journalism Work Experience II \*

\*All courses three credits, except for zero-credit courses JOUR 4790, JOUR 4791 and JOUR 4792.

Electives

- Six Electives

General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Communication - Journalism and Digital Media.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

See the General Education section for more details on the nature and structure of general education.

Graduation Requirements

- Degree candidates in the Bachelor of Communications - Journalism and Digital Media must complete all core courses in the program with a final grade of "C" or better.
- Successful completion of 120 credits and all courses for graduation as listed.
- Successful completion of one non-credit internship and the non-credit internship preparation seminar.

## Public Relations, BCMM

---

### General Information

Globalization, technology, new attitudes toward work, workplace turbulence and the speed of change are all affecting organizations' ability to communicate effectively and responsibly. Now, more than ever, the public relations professional must be ready to bring communication solutions to the challenges experienced in organizations large and small and across all sectors in society. The Bachelor of Communication - Public Relations degree at Mount Royal is designed for individuals interested in learning how to assist organizations to manage their communication with a variety of audiences and key stakeholders in ways that build and maintain ethical and mutually beneficial relationships.

The degree blends human and organizational communication theory with an interdisciplinary curriculum that will allow students to learn and work with students in Journalism and Digital Media, Broadcast Media Studies and Information Design. As well, a strong General Education component, common to all Mount Royal degrees, will ensure breadth of study and the ability for students to pursue a discipline outside of communication more fully.

The Public Relations curriculum includes basic and strategic communication planning, research theory and design, international and intercultural communication, media relations, fund development and corporate philanthropy, issues management and crisis communications, and the basics of financial communication through a course in investor relations. Specific skills, critical to a successful public relations professional are learned through several intensive writing courses, computer-mediated communication, the basics of layout and design, and event management.

**Note: The nature and structure of the General Education component are common to all degrees.**

### **Student Conduct**

Public relations students are expected to adhere to the Code of Student Conduct as outlined for all students at Mount Royal. As well, students will learn and be held accountable for knowing and adhering to the Canadian Public Relations Society's Code of Professional Standards. Any deliberate breaches to either Code, such as academic dishonesty, will incur consequences as outlined in the Mount Royal Code of Student Conduct.

### **Program Continuance**

Students accepted into the Bachelor of Communication - Public Relations degree must comply with all Mount Royal policies and regulations relating to baccalaureate degrees and continuance.

### **Work Experience**

To ensure our graduates are ready to take their place in the profession, Public Relations students are required to complete one non-credit, work experience with an option to complete a second work experience involving four months of full time supervised work in a public relations setting. These work experiences not only put newly learned skills to work, but they also expand the students' network, build confidence and create opportunities to travel. Students in the Public Relations program take their first work experience during the summer following their third year, and the optional second in the winter semester of their final (fourth) year. To be eligible, all students must complete a range of prerequisites. Both work experiences involve professional placements and, as such, the program chair can, for a fixed period, deny eligibility to any student who has acted in an inappropriate and unprofessional manner during the preparation phase. Any student who receives a work experience assessment of Fail for exhibiting professional misconduct will be ineligible to continue in core courses until the work experience has been successfully completed or may be required to

withdraw from the program, subject to the terms of the Student Code of Conduct.

### **Certificate of Achievement in International Communication**

Students in any major of the Bachelor of Communication (BCMM), offered through the School of Communication Studies, may obtain a Certificate of Achievement in International Communication following completion of a number of courses: including at least two courses in a second language, three courses with an international focus in a range of disciplines, and an acceptable international volunteer, study abroad, or work experience. Students may satisfy the requirements of the certificate while completing their degree, with completed courses counting towards both. In doing so they will use some of their general education course requirements at level two or three, some of their communication courses, and some or all of the four elective courses in their program of study. Completing the certificate within the framework of the degree requires planning beginning in year one of the degree programs. Interested students may obtain a full description of the requirements and processes from their program chair.

### **General Admission Requirements**

All students must meet the general admission requirements for Mount Royal University programs as indicated in the *Admission* section of this Calendar.

### **Additional Admission Requirements**

In addition to meeting the general admission requirements, indicated in the *Admission* section of this calendar, applicants must also satisfy the following criteria:

### **Academic Course Requirements**

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Communication - Public Relations program.

- English Language Arts 30-1 - 60%
- Social Studies 30-1

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

## Indigenous Student Admission

Each year 7% of the seats in the Bachelor of Communication Studies - Public Relations will be reserved for Indigenous applicants through an Indigenous admission target. To be considered for admission under the Indigenous Admission target, the applicant must:

1. self-identify as an Indigenous applicant on the Application for Admission
2. meet the definition of an Indigenous Applicant
3. meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program level admission requirements

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during Early Admission. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

## Transfer Credit

Students who have completed (in good standing) a diploma in public relations from MacEwan University or Kwantlen Polytechnic University or other Universities in Canada may be eligible for transfer credit. Public Relations is a distinct discipline and students considering transfer must appreciate the importance of the need for required foundation courses in public relations theory and writing.

## Curriculum

The foundation of the Public Relations degree in Communication Studies is 24 required core Public Relations courses, 10 General Education courses and six electives, for a total of 40 courses over four years.

## Pending final approval

- PUBR 4891 - Public Relations Work Experience I \*

\*All courses are three credits except for zero-credit courses PUBR 4890 and PUBR 4891.

## Electives

- Six electives

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Communication - Public Relations.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

For details on the nature and structure of General Education visit: [mtroyal.ca/gened/courses](http://mtroyal.ca/gened/courses).

### Graduation Requirements

For graduation purposes, all degree candidates in the Bachelor of Communication - Public Relations must complete all core courses in the program, with a final grade of C or better.

- Successful completion of the total required credits and courses for graduation as listed
- Successful completion of one non-credit work experience placement and the non-credit work experience preparation seminar.

# Bachelor of Computer Information Systems

## Computer Information Systems, BCIS

### General Information

This program, jointly offered by the Department of Mathematics and Computing and the Bissett School of Business, provides a forward-looking combination of computer and business courses. Throughout eight academic semesters and up to three cooperative work terms, students will develop the expertise required by computing professionals.

The program has been developed by following well-recognized international curriculum standards from the Association for Computing Machinery (ACM) and the IEEE Computer Society (IEEE-CS) as well as through continuous consultation with senior managers from Calgary businesses. The end result is a degree that meets the needs of business as well as the needs of graduates who must adapt to change in the future.

Employers are looking for computer professionals with a wide range of skills and abilities. Besides technical skills, employees also need solid business knowledge, the ability to work effectively in teams, a willingness to think creatively, and to communicate effectively using speech, text and images. This degree prepares students for this environment through courses in computer science, business, communications, and general education.

The program concentrates on the practical application of computer systems in a business environment. Students acquire a solid foundation in programming, systems analysis and design, Internet development, hardware and networking support and in-depth knowledge of standard business practices. Students broaden their learning by extending it to the workplace during a minimum of one, and up to three, cooperative work terms where they will gain hands-on work experience.

With this blend of abilities, graduates are well-suited to work in large or small companies, act as self-employed consultants, or start their own businesses. Graduates may expect to find work as programmers or junior analysts, as a user and technical support specialists, as web developers, as database developers, or in one of many other IT-based jobs.

### Program Continuance

Students accepted into the Bachelor of Computer Information Systems degree program must comply

with all University policies and regulations relating to baccalaureate degrees and continuance.

### Work Experience

The Academic Plan of Mount Royal stresses the importance of experiential education in all academic curricula. The Bachelor of Computer Information Systems degree requires that all students complete at least one non-credit work experience term. Students can then proceed to take an optional work term if they so wish.

**Note: Students must complete the Orientation to Co-operative Education course (COOP 0001) prior to the mandatory work term. To be eligible for a work term students must have completed the prerequisite courses and must obtain a minimum cumulative GPA. For additional information, please contact the Career Services Work Experience Coordinator at 403.440.6542, Room A200.**

### Co-operative Education Option

Students enrolled in the Bachelor of Computer Information Systems program have the opportunity to pursue their degree as a Co-operative Education degree. Students who successfully complete three Co-op work terms will be eligible for a notation on both their transcript and their parchment, in accordance with the guidelines of the Co-operative Education and Work-Integrated Learning Canada (CEWIL).

To be eligible to participate in the BCIS Co-operative Education Option, students must have completed the prerequisite courses required for entrance into their respective Co-op work-term placements and maintain a minimum cumulative GPA. For additional information about Co-operative education, please contact the Career Services department at 403.440.6542, Room A200.

### Co-operative Education Fees

A half course fee is assessed for the Orientation to Co-operative Education course prior to the first work-term. Fees for each Co-operative Education work term are assessed thereafter on a course-by-course basis. These fees must be paid or notice of financial assistance provided by the fee deadline for the semester in which the placement occurs.

### General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admission* section of this calendar.

## Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the *Admission* section, applicants must also satisfy the following criteria:

## Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Computer Information Systems program.

- English Language Arts 30-1 - 60%
- Mathematics 30-1 - 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

## Indigenous Admission Requirements

Each year 7% of the admission seats in the Bachelor of Computer Information Systems program will be reserved for Indigenous students through an Indigenous admission target.

To be considered for admission under the Indigenous admission target, the applicant must:

- a. self-identify as an Indigenous applicant on the Application for Admission.
- b. meet the definition of an Indigenous Applicant.
- c. meet the minimum admission requirements as indicated in the General Admission requirements for Mount Royal University as well as the specific admission requirements for the Bachelor of Computer Information Systems.

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during Early Admission. Any unfilled designated seats will be released on June 15 to students applying under the General Admission requirements.

See general admission requirements in the *Admissions* section of this calendar for further information.

## Curriculum

- ACCT 2121 - Financial Accounting Concepts
- COMP 1502 - Programming II: Object Oriented Programming

- COMP 1701 - Introduction to Problem Solving and Programming
- COMP 2503 - Programming III: Data Structures
- COMP 2511 - Web I: Client Development
- COMP 2521 - Database I: Data Modeling and Query Languages
- COMP 2531 - Computer Architecture and Operating Systems
- COMP 2541 - Systems Analysis
- COMP 3309 - Information Technology and Society
- COMP 3512 - Web II: Web Application Development
- COMP 3532 - System Administration and Maintenance
- COMP 3533 - Network Infrastructure and Security
- COMP 4543 - Project Management and Quality Assurance
- HRES 2170 - Introduction to Human Resources
- MATH 1505 - Puzzling Adventures in Mathematics
- MGMT 3210 - Business Communication Theory and Practice
- MKTG 2150 - Fundamentals of Marketing **or**
- LSCM 2201 - Introduction to Logistics and Supply Chain Management
- MGMT 2130 - Management Principles and Practices **or**
- ENTR 2301 - Innovation and the Entrepreneurial Experience **or**
- SINV 2201 - Changing the World: An Introduction to Social Innovation

## Senior Approved Options

### Computer Science Options

All Computer Information Systems students must complete **four** approved Senior Computer Science Options as part of their requirements:

- COMP 3012 - Robotics
- COMP 3504 - Programming IV: Software Engineering
- COMP 3551 - GUI Development
- COMP 3505 - Software Testing
- COMP 3523 - Applied Machine Learning
- COMP 3553 - Human-Computer Interaction
- COMP 3654 - Usable Privacy and Security
- COMP 4513 - Web III: Advanced Web Development
- COMP 4522 - Database-II: Advanced Databases

- COMP 4535 - Computer Security
- COMP 4545 - Information Systems Organization
- COMP 4555 - Games Development
- COMP 5590 - Senior Project

### **Business Options**

All Computer Information Systems students must complete **two** approved Senior Business Options as part of their requirements. Students may choose any 3000-level or higher course offered by the Bissett School of Business.

### **Computer Science or Business Options**

All Computer Information Systems students must complete **two** additional approved senior options. Students can choose from the list of approved computer science options above or the list of approved senior business options above.

### **Electives**

- Four Electives

### **General Education Requirements**

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Computer Information Systems.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

### **Graduation Requirements**

Students enrolled in the Bachelor of Computer Information Systems degree program must obtain a minimum grade of C- in all COMP prefix courses used to satisfy program major requirements.

# Bachelor of Education

## Education - Elementary, B.Ed.

---

### General Information

The Bachelor of Education - Elementary is a four-year baccalaureate degree program that prepares its graduates for certification from Alberta Education. The program is both course and experience-based, with courses deliberately arranged to generate synergy among them. The curriculum is designed to create a holistic experience for education students in their understanding of teaching, learning and assessment. Our program includes three semesters (Winter term of year 2, Fall term of year 3, and Winter term of year 4) that require students to enrol in co-requisite courses in order to maximize the opportunity for the integration of courses and field experience/practicum components. Students graduate with an evolving teaching philosophy based on opportunities to research, discuss and critically analyze aspects of education and schooling throughout the program. Several courses, both core and elective, require students to participate in relevant classroom experiences in the community. In addition, two practicum experiences are featured in the final years of study. Students must complete a minor from the approved list. Each year, the Bachelor of Education program responds to recurrent calls for an increase in Indigenous teachers by reserving seats in the Bachelor of Education program for Indigenous applicants through an Indigenous admission target.

### Reading Break

All students must be available full-time for the entire four-month semester during practicum term(s) to accommodate varied placement schedules within school districts/divisions/boards. Students registered in EDUC 4030 should be aware that the winter reading week will not likely be the same as the scheduled Mount Royal Reading Week. These students will be informed of when the winter reading week will occur before the beginning of the winter semester. All other students in the program will have reading weeks congruent with the Mount Royal scheduled reading weeks.

### Computer Needs

Bachelor of Education - Elementary students will require access to a portable computer with sufficient power, capacity and internet access during regular classroom activities. Students will be using widely available and free-for-use open-source software that generally needs to be downloaded and stored. It is advised that students check with computer suppliers

to ensure that their computer will function effectively under these circumstances.

### Academic Performance Requirements

In matters of progression and continuance, there are instances when institutional processes do not fully address concerns related to the performance requirements of a degree, preparing students for professional practice.

This applies in the following circumstances:

- a) Violations of professional codes and/or standards of safe and ethical practice as determined by the applicable national and/or provincial professional colleges and associations, such as the Alberta Teachers Association (ATA) and Alberta Education.
- b) Violations of the terms of a student practicum agreement between Mount Royal University and a third-party provider.
- c) Violations of any or all of the above (a, b) will result in the removal from practicum, an Experiential Fail (EF), and in the requirement to complete an extracurricular learning activity directed at addressing the knowledge deficit and/or performance issue, that resulted in removal from the practicum site and the assignment of an EF in the relevant course.
- d) Suspension and/or termination of a practicum placement by an external partner when it is deemed necessary by either the program or the external partner to preserve the health and safety of students and others or for the protection of the partner's property. Students who are denied a practicum placement by an external partner because of an assessed detrimental impact on the client, client group, or community being served and who are unable to meet practicum requirements on this basis will be Required to Withdraw from Program (RTWP).
- e) Failure to achieve the required progression grade in a practicum placement, specifically EDUC 3010 Practicum I or EDUC 4030 Practicum II, after a maximum of two attempts - exclusive of any instances of Withdrawal with Cause (WC) - will result in the student being assigned the academic standing of Required to Withdraw from Program (RTWP).
- f) Students who are RTWP will meet with the department chair or designate prior to the end of their semester to develop an Identification of Support Plan, which will be included in the readmittance documentation should the

student decide to reapply to the program. Students can appeal both the grade for the course that resulted in the RTWP outcome and the RTWP decision. Detailed information about the appeal process is available in the student handbook.

g) A student who has been RTWP may apply for readmission to the program no sooner than twelve months after receiving notification of the RTWP. The application for readmission must be submitted in accordance with the application deadline for new students as specified by the Academic Schedule published in the Academic Calendar. The applicant must meet the program admission criteria in place at the time of readmission, but the applicant will not be required to meet the competitive average. The application for readmission will include an Identification of the Support Plan. Detailed information about the Identification of Support Plan can be found in the student practicum handbook. Readmission is not automatic. Applications for readmission will be considered on an individual basis. Readmission to the program will be granted one time only.

## Program Continuance

A student who remains in Good Standing is eligible to continue in their program of studies.

**Note: See the 'Additional Curriculum Requirements' section for possible restrictions.**

## Student Conduct

The Code of Student Conduct is intended to establish the general obligation to maintain the highest standards of academic honesty and personal conduct according to community standards of respectful and responsible behaviour. Students enrolled in the Bachelor of Education - Elementary program are bound by, and shall comply with, the Alberta Teachers' Association Professional Code of Conduct and the Department of Education Field Experience and Practicum Handbooks. Refer to the Field Experience and Practicum Handbooks for details. Issues of non-compliance will warrant the student being required to withdraw from the program. This would apply to egregious issues such as situations of abuse of professional power or potential breaches of the Criminal Code. Students are responsible for familiarizing themselves with the policies and procedures of Mount Royal University as outlined in the Calendar, Code of Student Conduct and the Student Handbook: Bachelor of Education program. Refer to the Student Handbook for details.

## Police Information Check

All students in the Education program are required to have a current Police Information Check and Vulnerable Sector Check prior to commencing classes, at their own expense. Schools require the presentation of these checks for participation in field experience and practicum. Students may be required to complete more than one Police Information Check during their program. Since completion of course requirements and eventual employment are dependent upon the results of such checks, students who have concerns should discuss the matter with the department chair.

## General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admission* section of this calendar.

## Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the *Admission* section of this calendar, applicants must also satisfy the following criteria:

## Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Education program:

- English Language Arts 30-1 - 65%
- Mathematics 30-1 or 30-2 or a second language 30

## Minimum Overall Average Required for Final Admission

To be eligible for admission on the basis of High School, applicants must present a minimum admission average of 70% on their five appropriate Grade 12 subjects. To be eligible for admission on the basis of Postsecondary standing, the applicant must present a minimum Grade Point Average (GPA) of 2.50 on the eight most recently completed post-secondary courses (minimum 24 credits).

Although conditional admission may be granted before final/official transcripts are available, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received.

## Application Deadline: February 1

The application for admission and all supporting documents (required for admission assessment) must be received by this date.

## Indigenous Student Admission

Each year, up to 10% of the seats in the Bachelor of Education - Elementary program will be reserved for Indigenous applications through an Indigenous admission target. To be considered for admission under the Indigenous admission target, the applicant must:

- a. self-identify as an Indigenous applicant on the Application for Admission
- b. meet the definition of an Indigenous Applicant
- c. meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University, as well as any program-level admission requirements

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during Early Admission. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

See general admission requirements in the *Admission* section of this calendar for further information.

## Curriculum

It is strongly recommended that all students consult with the Education Advisor to ensure that all teacher certification requirements are also satisfied with appropriate course selections throughout this degree.

- EDUC 1231 - Professional Dimensions I
- EDUC 1233 - Professional Dimensions II
- EDUC 2103 - Program of Studies and Curriculum Instruction in Teaching English Language Arts
- EDUC 2321 - Education and Individual Development
- EDUC 2371 - Language Development and Literacy
- EDUC 2375 - Effective Assessment
- EDUC 3010 - Practicum I
- EDUC 3104 - Arts Integration in Elementary Education
- EDUC 3105 - Program of Studies and Curriculum Instruction in Teaching Physical Education
- EDUC 3106 - Program of Studies and Curriculum Instruction in Teaching Science
- EDUC 3108 - Program of Studies and Curriculum Instruction in Teaching Mathematics
- EDUC 3326 - Understanding Current and Emerging Pedagogical Technologies

- EDUC 4030 - Practicum II (semester long practicum)
- EDUC 4107 - Program of Studies and Curriculum Instruction in Teaching Social Studies
- EDUC 4201 - Integrating Ideas, Values and Praxis
- EDUC 4351 - Indigenous Perspectives in Education
- EDUC 4361 - Teaching and Learning in Inclusive Classrooms

## Additional Courses

- Six Subject Minor Non-Education courses
- Five Subject Minor Non-Education courses/Open Electives
- Two Education Electives

## Note

Students must achieve a minimum of 'B' grade in EDUC 1231 and EDUC 1233 courses. Grades below a 'B' grade must be replaced by repeating the course before students may progress to any further education courses.

## Minor Requirements

Students must choose from one of the following approved minors:

- English
- French
- General Science for Elementary Education
- History
- Humanities
- Indigenous Studies
- Linguistics
- Mathematics for Elementary Education
- Physical Literacy for Education
- Social Studies
- Spanish Language and Hispanic Cultures

## General Education Requirements

Eight courses must be completed to meet the General Education requirements to graduate with a Bachelor of Education - Elementary.

1. Four courses will be taken at the foundation level: one from each of the four thematic cluster areas.
2. Four courses will be taken at the second tier: no more than one from a given thematic cluster.
  - A literature course must be included in the General Education Requirement Tier 2, Cluster 2 or 4

- to fulfill the requirements of Alberta Education for teacher certification.
- A Canadian studies course must be included in the General Education Requirement Tier 2, Cluster 3 to fulfill the requirements of Alberta Education for teacher certification.

For details on the nature and structure of General Education visit: [mtroyal.ca/gened/courses](http://mtroyal.ca/gened/courses).

## Graduation Requirements

Eligibility to graduate from a Mount Royal program requires that a student meet all of the following conditions:

1. has been officially admitted into the program;
2. has completed at least 25% of the graduation requirements as a student within the program;
3. has met the residency requirement;
4. satisfies all program requirements specified in the curriculum at the time of admission to the program or the current program;
5. meets the requirements for Good Standing at the time the application to graduate is evaluated.

Exceptions to any of these conditions must be approved, in writing, by the Dean of the program from which the student is applying to graduate.

# Bachelor of Health and Physical Education

## Athletic Therapy, BHPE

---

The Athletic Therapy major will contribute to Alberta's healthcare system by training graduates who are prepared to become Certified Athletic Therapists. Graduates will develop competency in emergency management, injury assessment, therapeutic modalities, rehabilitation techniques, and clinic management and administration. These competencies will allow them to practice in sports medicine clinics, with amateur and professional sports teams, or at high school and post-secondary institutions. Some graduates will open their own private practices and all will have strong skills in the leadership and promotion of good health and wellness.

Graduates will be able to:

1. Develop and demonstrate patient evaluation skills in both clinical and field environments.
2. Plan and implement management and treatment for patients.
3. Prevent sport and activity-related injury.
4. Apply leadership and management principles as they relate to the athletic therapy discipline.
5. Demonstrate skills in patient education and counselling.
6. Knowledge and application of Truth and Reconciliation Commission Calls to Action in relation to the discipline of health and physical education.
7. Knowledge and application of principles of equity, diversity, inclusion and accessibility in relation to the discipline of health and physical education.

### Curriculum

The Bachelor of Health and Physical Education (BHPE) requires students to complete a total of 120 credits (the equivalent of 40 three-credit courses). The 120 credits required will be taken from the following areas: core courses, major-specific courses, General Education\* and electives.

\* Please consult the University Calendar for information concerning the University's General Education requirement.

### Major Specific Courses

All BHPE - Athletic Therapy students must complete the following 38 major courses as part of their requirements:

- ATTH 2050 - Professional Practice in Athletic Therapy
- ATTH 2112 - Clinical Musculoskeletal Anatomy
- ATTH 2505 - Prevention and Care of Athletic Injuries
- ATTH 3110 - Musculoskeletal Assessment - Peripheral
- ATTH 3120 - Therapeutic Modalities
- ATTH 3130 - Rehabilitation Techniques I
- ATTH 3150 - Clinical Practicum I
- ATTH 3152 - Clinical Practicum II
- ATTH 3160 - Field Practicum I
- ATTH 3162 - Field Practicum II
- ATTH 4110 - Musculoskeletal Assessment - Spinal
- ATTH 4130 - Rehabilitation Techniques II
- ATTH 4140 - Practical Clinical Management and Administration
- ATTH 4150 - Clinical and Field Practicum III
- ATTH 4152 - Clinical and Field Practicum IV
- ATTH 5100 - Issues in Athletic Therapy
- HPED 1000 - Introduction to Health and Physical Education
- HPED 1020 - Foundations of Leadership and Communication for Recreation, Health, Sport, Physical Literacy and the Outdoors.
- HPED 1040 - Wellness and the Student: From Personal Health to Community Action
- HPED 2030 - Statistics and Research Methods
- HPED 2507 - Nutrition and Health
- HPED 2830 - Introductory Flexibility and Relaxation
- HPED 2850 - Introductory Strength Training
- HPED 3010 - Sociological Perspectives of Recreation, Health, Sport, Physical Literacy and the Outdoors
- HPED 3030 - Research Methods and Statistics for Health Professionals
- PHYL 1512 - Human Anatomy
- PHYL 2514 - Human Physiology
- PHYL 2520 - Introductory and Intermediate Coaching
- PHYL 2530 - Foundations of Physical Literacy
- PHYL 3320 - Adapted Physical Activity
- PHYL 3510 - Psychology of Exercise
- PHYL 3514 - Exercise Physiology
- PHYL 3516 - Biomechanics
- PHYL 3518 - Physical Growth and Development
- PHYL 4203 - Fitness Assessment and Prescription
- PHYL 4518 - Motor Learning

## General Education Requirements

Five courses must be completed to meet the General Education requirements to graduate with a Bachelor of Health and Physical Education - Athletic Therapy

- Four courses will be taken at the foundational level: one from each of the thematic clusters.
- One course will be taken at the second tier

Students admitted to the Bachelor of Health and Physical Education - Athletic Therapy program requires specific general education courses to meet graduation requirements. These are specified in the program curriculum. For incoming students in the BHPE program, it is important to seek clarification of these requirements and up-to-date registration information through an Academic Advisor in the Department of Health and Physical Education. For details on the nature and structure of General Education see the General Education section of this calendar.

## Continuance Requirements

In order for students to progress into the third year of the Athletic Therapy Major, students must provide proof of completion of a course in:

1. Taping and Prophylactic Support and;
2. Emergency Management in Athletic Therapy. Both courses are typically offered in August each year. Students will be required to make the appropriate arrangements to be available and attend these courses when offered.

## Graduation Requirements

To be eligible for graduation, Bachelor of Health and Physical Education students must achieve a minimum final grade of "C" in each core course and major course. Students must satisfactorily complete all of the Mount Royal General Graduation Requirements as published in this Calendar as well as all the Major specific graduation requirements.

Students must follow the graduation application procedure outlined in the current Academic Calendar. Applications must be submitted by the date published in the Calendar. All BHPE students must successfully complete at least two practicum related courses in order to graduate (see major-specific curriculum for additional information).

## CATA Certification

Once students have graduated from the BHPE - Athletic Therapy program students can pursue certification to become a Certified Athletic Therapist - CAT(C). Details about certification requirements can

be found on the Canadian Athletic Therapists' Association (CATA) website - [athletictherapy.org](http://athletictherapy.org)

**Note: Students will be required to provide proof of a valid First Responder certificate along with all courses in this program to be eligible to take the Canadian Athletic Therapists' Association (CATA) national certification examination.**

## Bachelor of Health and Physical Education - Ecotourism and Outdoor Leadership, BHPE

---

The Ecotourism and Outdoor Leadership major contributes to Alberta's social and economic health. The support of the health and wellness of Albertans occurs by generating competent, knowledgeable, and enthusiastic facilitators of contact with our natural world. Graduates have skills and knowledge in tourism, business, sociocultural heritage, and outdoor leadership that allow them to contribute to the vast tourism sector in Alberta. These graduates are prepared to provide leadership and strong contributions to the growing eco and adventure tourism sectors.

Graduates will be able to:

1. Plan, execute, and evaluate outdoor programs, including sustainable tourism, for diverse audiences.
2. Plan and execute multi-day expeditions
3. Assess, evaluate, and mitigate risk within outdoor programs, expeditions, and travel programs, including competence in developing and implementing emergency action plans.
4. Demonstrate innovation, risk-taking, entrepreneurial spirit, and general business acumen.
5. Demonstrate an appreciation and personal and professional responsibility for the physical, social, cultural, economic, and geopolitical environments.
6. Knowledge and application of Truth and Reconciliation Commission Calls to Action in relation to the discipline of health and physical education.
7. Knowledge and application of principles of equity, diversity, inclusion and accessibility in relation to the discipline of health and physical education.

All students in the Ecotourism and Outdoor Leadership major must complete the following courses in order to complete the Bachelor of Health and Physical Education-Ecotourism and Outdoor Leadership.

## Curriculum

The Bachelor of Health and Physical Education (BHPE) requires students to complete a total of 120 credits (the equivalent of 40 three-credit courses). The 120 credits required will be taken from the following areas: core courses, major-specific courses, General Education\* and electives.

\* Please consult the University Calendar for information concerning the University's General Education requirement.

### Major Specific Courses

All BHPE - Ecotourism and Outdoor Leadership students must complete the following 29 major courses as part of their requirements:

- ECOL 1210 - Ecology
- ENTR 2301 - Innovation and the Entrepreneurial Experience
- ETOL 2230 - Foundations of Sustainable Tourism
- ETOL 2270 - Theory and Practice in Leadership
- ETOL 3230 - Relevant Topics in Sustainable Tourism
- ETOL 3270 - Expedition \*
- ETOL 4270 - Applied Leadership
- ETOL 5200 - Issues in Ecotourism and Outdoor Leadership
- GEOG 1101 - The Physical Environment
- HPED 1000 - Introduction to Health and Physical Education
- HPED 1020 - Foundations of Leadership and Communication for Recreation, Health, Sport, Physical Literacy and the Outdoors.
- HPED 1040 - Wellness and the Student: From Personal Health to Community Action
- HPED 1070 - Foundations of Outdoor Leadership
- HPED 1640 - Program Planning
- HPED 2010 - Historical Foundations of Recreation, Health, Sport, Physical Literacy and the Outdoors
- HPED 2030 - Statistics and Research Methods
- HPED 2050 - Professional Practice
- HPED 2870 - Introductory Backpacking
- HPED 2880 - Introductory Canoeing
- HPED 2884 - Introductory Winter Travel
- HPED 3010 - Sociological Perspectives of Recreation, Health, Sport, Physical Literacy and the Outdoors
- HPED 3050 - Practicum
- HPED 3630 - Recreation and Sport Tourism
- MKTG 2150 - Fundamentals of Marketing

\* ETOL 3270 consists of a 10-day expedition in early May or late August. Students will be responsible for personal subsistence costs associated with ETOL 3270. For more details, consult an Academic Advisor in the Department of Health and Physical Education.

### Pick five of six courses

- HPED 2871 - Technical Mountain Skills
- HPED 2872 - Wilderness Survival
- HPED 2873 - Introductory Rock Climbing
- HPED 2875 - Introductory Mountain Biking
- HPED 2881 - Introductory Kayaking
- HPED 3884 - Winter Back Country Travel

### Electives

- Five Electives

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Health and Physical Education - Ecotourism and Outdoor Leadership.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

Students admitted to the Bachelor of Health and Physical Education should seek clarification of these requirements and up-to-date registration information through an Academic Advisor in the Department of Health and Physical Education. For details on the nature and structure of General Education visit: [mtroyal.ca/gened/courses](http://mtroyal.ca/gened/courses).

### Graduation Requirements

To be eligible for graduation, Bachelor of Health and Physical Education students must achieve a minimum final grade of C in each major course with a prefix of HPED, PHYL and SRMG. Students must satisfactorily complete all of the Mount Royal General Graduation Requirements as published in this Calendar as well as all the Major specific graduation requirements.

Students must follow the graduation application procedure outlined in the current Academic Calendar.

Applications must be submitted by the date published in the Calendar. All BHPE students must successfully complete at least two practicum-related courses in order to graduate (see major-specific curriculum for additional information).

### Major-Specific Graduation Requirements

Students must complete and provide proof of completion of the following graduation requirements:

- A self-directed outdoor expedition, approved by the department;
- Current 40hr Wilderness First Aid;
- An advanced certificate related to the ecotourism and outdoor leadership field, approved by the department.

### Ecotourism and Outdoor Leadership, BHPE (Honours)

---

An Honours degree provides more extensive exposure to the knowledge and practice of the discipline. Students may apply to the department for acceptance into the Honours stream upon successful completion of twenty courses in the Bachelor of Health and Physical Education program. **Acceptance into the Honours stream is competitive meaning students with higher GPAs will be considered first.** Students must present a minimum cumulative Grade Point Average of 3.50. Students may apply for entrance into Honours between March 1 and May 1 of the academic year in which they have successfully completed twenty courses.

Honours students are required to complete:

1. Core courses required to obtain a Health and Physical Education Degree in their respective major;
2. Additional courses in statistics and research methods; and
3. An Honours thesis. The thesis provides an opportunity for the student to engage in research within a specific area of HPED, apply the statistical and research methods skills they have acquired in previous courses, and provides the student with the opportunity to write a formal research report under the direct supervision of their supervisor. Completion of an Honours degree indicates that you have engaged in some form of independent learning, under the guidance of an HPED faculty supervisor, over and above that required by regular degree-related course work.

### Ecotourism and Outdoor Leadership Major Requirements

- ECOL 1210 - Ecology

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- ETOL 2230 - Foundations of Sustainable Tourism
- ETOL 2270 - Theory and Practice in Leadership
- ETOL 3230 - Relevant Topics in Sustainable Tourism
- ETOL 3270 - Expedition \*
- ETOL 4270 - Applied Leadership
- GEOG 1101 - The Physical Environment
- HPED 1000 - Introduction to Health and Physical Education
- HPED 1020 - Foundations of Leadership and Communication for Recreation, Health, Sport, Physical Literacy and the Outdoors.
- HPED 1040 - Wellness and the Student: From Personal Health to Community Action
- HPED 1070 - Foundations of Outdoor Leadership
- HPED 1640 - Program Planning
- HPED 2010 - Historical Foundations of Recreation, Health, Sport, Physical Literacy and the Outdoors
- HPED 2030 - Statistics and Research Methods
- HPED 2050 - Professional Practice
- HPED 2870 - Introductory Backpacking
- HPED 2880 - Introductory Canoeing
- HPED 2884 - Introductory Winter Travel
- HPED 3010 - Sociological Perspectives of Recreation, Health, Sport, Physical Literacy and the Outdoors
- HPED 3050 - Practicum
- HPED 3630 - Recreation and Sport Tourism
- MKTG 2150 - Fundamentals of Marketing
- Three Elective courses
- 10 General Education courses

\*ETOL 3270 consists of a 10-day expedition in early May or late August. Students will be responsible for personal subsistence costs associated with ETOL 3270. For more details, consult an Academic Advisor in the Department of Health and Physical Education.

### Pick five of eight

- HPED 2860 - Introductory Fly Fishing
- HPED 2871 - Technical Mountain Skills
- HPED 2872 - Wilderness Survival
- HPED 2873 - Introductory Rock Climbing
- HPED 2875 - Introductory Mountain Biking
- HPED 2884 - Introductory Winter Travel

- HPED 3820 - Outdoor Adapted Physical Activity
- HPED 3884 - Winter Back Country Travel

### Ecotourism and Outdoor Leadership Honours Requirements

- HPED 5000 - HPED Honours Thesis I
- HPED 5500 - Honours Thesis II

#### One of

- HPED 3030 - Research Methods and Statistics for Health Professionals
- CRJS 3005 - Qualitative Research Methods
- POST 2208 - Qualitative Research Methods
- PSYC 2211 - Statistical Methods for Psychology II
- SLGY 3323 - Qualitative Research Methods \*

\*Additional statistics and research methods courses at the 3000 level or higher may be eligible to meet this requirement. Chair approval is required for any course that is not explicitly listed above.

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Health and Physical Education - Ecotourism and Outdoor Leadership.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

Students admitted to the Bachelor of Health and Physical Education should seek clarification of these requirements and up-to-date registration information through an Academic Advisor in the Department of Health and Physical Education. See details on the nature and structure of General Education here.

### Major-Specific Graduation Requirements

Students must complete and provide proof of completion of the following graduation requirements:

- A self-directed outdoor expedition, approved by the department;

- Current 40hr Wilderness First Aid;
- An advanced certificate related to the ecotourism and outdoor leadership field, approved by the department.

## Physical Literacy, BHPE

The Physical Literacy major provides an opportunity for graduates to contribute to the physical, emotional, and psychological wellness effects of living an active life. Students who complete this major will contribute to the provincial focus on health and physical education. Graduates will have the skills and knowledge to shift the focus to the importance of physical activity and healthy lifestyles through educating, facilitating and promoting healthy and active lifestyles at the community and recreation levels throughout Alberta.

Graduates will be able to:

1. Apply curriculum content and disciplinary concepts related to the development of a physically educated student.
2. Plan and implement a variety of developmentally appropriate instructional strategies that are sensitive to diverse student learning needs.
3. Employ assessment strategies to foster physical, cognitive, social and emotional development.
4. Knowledge and application of Truth and Reconciliation Commission Calls to Action in relation to the discipline of health and physical education.
5. Knowledge and application of principles of equity, diversity, inclusion and accessibility in relation to the discipline of health and physical education.

### Curriculum

The Bachelor of Health and Physical Education (BHPE) requires students to complete a total of 120 credits (the equivalent of 40 three-credit courses). The 120 credits required will be taken from the following areas: core courses, major-specific courses, General Education\* and electives.

\* Please consult the University Calendar for information concerning the University's General Education requirement.

### Major Specific Courses

All BHPE - Physical Literacy students must complete the following major courses as part of their requirements:

- ATTH 2505 - Prevention and Care of Athletic Injuries

- HPED 1000 - Introduction to Health and Physical Education
- HPED 1020 - Foundations of Leadership and Communication for Recreation, Health, Sport, Physical Literacy and the Outdoors.
- HPED 1040 - Wellness and the Student: From Personal Health to Community Action
- HPED 2010 - Historical Foundations of Recreation, Health, Sport, Physical Literacy and the Outdoors
- HPED 2030 - Statistics and Research Methods
- HPED 2050 - Professional Practice
- HPED 2507 - Nutrition and Health
- HPED 2850 - Introductory Strength Training
- HPED 3010 - Sociological Perspectives of Recreation, Health, Sport, Physical Literacy and the Outdoors
- HPED 3050 - Practicum
- HPED 5000 - HPED Honours Thesis I
- PHYL 1512 - Human Anatomy
- PHYL 2514 - Human Physiology
- PHYL 2520 - Introductory and Intermediate Coaching
- PHYL 2530 - Foundations of Physical Literacy
- PHYL 3320 - Adapted Physical Activity
- PHYL 3514 - Exercise Physiology
- PHYL 3516 - Biomechanics
- PHYL 3518 - Physical Growth and Development
- PHYL 4340 - Health Promotion
- PHYL 4518 - Motor Learning
- PHYL 4550 - Social and Emotional Domains of Physical Literacy
- PHYL 5300 - Issues in Physical Literacy and Health

#### **One of**

- HPED 2830 - Introductory Flexibility and Relaxation
- HPED 2851 - Cardiovascular Training

#### **One of**

- PHYL 4700 - Physical Activity and the Older Adult
- PHYL 4203 - Fitness Assessment and Prescription

\*the courses mentioned are the recommended options

### **PHYL Major Activity Elective**

Choose 3 credits from the list below:

- HPED 1070 - Foundations of Outdoor Leadership
- HPED X8XX (3-credit activity course or equivalent)
- PHYL 1310 - Teaching Games for Understanding

### **PHYL Major Elective**

Choose one of:

- HPED 5000 - HPED Honours Thesis I
- PHYL 4203 - Fitness Assessment and Prescription
- PHYL 4700 - Physical Activity and the Older Adult
- PHYL 4720 - Advanced Coaching
- Or any other course at the 3000-level or higher in HPED, ATTH, ETOL, OR SRMG (3-credit or equivalent)\*

### **Electives**

- Four Electives

### **General Education Requirements**

There is one course listed in the Physical Literacy Major Requirements that satisfies both the major requirements and a portion of the General Education requirements. In addition to this one course, students require nine additional General Education courses to meet the General Education requirements to graduate with a Bachelor of Health and Physical Education - Physical Literacy.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Two courses will be taken at the second tier: no more than one from each of the thematic clusters (excluding Cluster 1)
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

Students admitted to the Bachelor of Health and Physical Education - Physical Literacy program requires specific general education courses to meet graduation requirements. These are specified in the program curriculum. For incoming students in the BHPE program, it is important to seek clarification of these requirements and up-to-date registration information through an Academic Advisor in the Department of Health and Physical Education. For details on the nature and structure of General Education visit: [mtroyal.ca/gened/courses](http://mtroyal.ca/gened/courses).

## Certification Opportunity

Students in the Physical Literacy Major have the opportunity to become a Certified Personal Trainer (CPT) through the Canadian Society for Exercise Physiology (CSEP). In order to obtain this certification students need to complete the required courses for the Physical Literacy major and the following course work:

- PHYL 4203 - Fitness Assessment and Prescription
- HPED 2850 - Introductory Strength Training

## Graduation Requirements

To be eligible for graduation, Bachelor of Health and Physical Education students must achieve a minimum final grade of C in each core course and major course. Students must satisfactorily complete all of the Mount Royal General Graduation Requirements as published in this Calendar as well as all the Major specific graduation requirements.

Students must follow the graduation application procedure outlined in the current Academic Calendar. Applications must be submitted by the date published in the Calendar. All BHPE students must successfully complete at least two practicum related courses in order to graduate (see major-specific curriculum for additional information).

## Physical Literacy, BHPE (Honours)

An Honours degree provides more extensive exposure to the knowledge and practice of the discipline. Students may apply to the department for acceptance into the Honours stream upon successful completion of twenty courses in the Bachelor of Health and Physical Education program. **Acceptance into the Honours stream is competitive, meaning students with higher GPAs will be considered first.** Students must present a minimum cumulative Grade Point Average of 3.50. Students may apply for entrance into Honours between March 1 and May 1 of the academic year in which they have successfully completed twenty courses.

1. Honours students are required to complete:
2. Core courses required to obtain a Health and Physical Education Degree in their respective major;
3. Additional courses in statistics and research methods; and

An Honours thesis. The thesis provides an opportunity for the student to engage in research within a specific area of HPED, apply the statistical and research methods skills they have acquired in previous courses, and provide the student with the opportunity to write a formal research report under the direct supervision of their supervisor. Completion of

an Honours degree indicates that you have engaged in some form of independent learning under the guidance of an HPED faculty supervisor, over and above that required by regular degree-related coursework.

## Major Requirements

- ATTH 2505 - Prevention and Care of Athletic Injuries
- HPED 1000 - Introduction to Health and Physical Education
- HPED 1020 - Foundations of Leadership and Communication for Recreation, Health, Sport, Physical Literacy and the Outdoors.
- HPED 1040 - Wellness and the Student: From Personal Health to Community Action
- HPED 2010 - Historical Foundations of Recreation, Health, Sport, Physical Literacy and the Outdoors
- HPED 2030 - Statistics and Research Methods
- HPED 2050 - Professional Practice
- HPED 2507 - Nutrition and Health
- HPED 2850 - Introductory Strength Training
- HPED 3010 - Sociological Perspectives of Recreation, Health, Sport, Physical Literacy and the Outdoors
- HPED 3050 - Practicum
- PHYL 1512 - Human Anatomy (This course fulfils the General Education requirement for Cluster 1, Tier 2)
- PHYL 2514 - Human Physiology
- PHYL 2520 - Introductory and Intermediate Coaching
- PHYL 2530 - Foundations of Physical Literacy
- PHYL 3320 - Adapted Physical Activity
- PHYL 3510 - Psychology of Exercise
- PHYL 3514 - Exercise Physiology
- PHYL 3516 - Biomechanics
- PHYL 3518 - Physical Growth and Development
- PHYL 4340 - Health Promotion
- PHYL 4518 - Motor Learning
- PHYL 4550 - Social and Emotional Domains of Physical Literacy
- Three Electives courses
- Nine General Education courses

## One of

- HPED 2830 - Introductory Flexibility and Relaxation
- HPED 2851 - Cardiovascular Training

## One of

- HPED 1070 - Foundations of Outdoor Leadership
- HPED X8XX (3-credit activity course or equivalent)
- PHYL 1310 - Teaching Games for Understanding

#### One of

- PHYL 4203 - Fitness Assessment and Prescription
- PHYL 4700 - Physical Activity and the Older Adult

#### Honours Requirements

- HPED 5000 - HPED Honours Thesis I
- HPED 5500 - Honours Thesis II

#### One of

- CRJS 3005 - Qualitative Research Methods
- HPED 3030 - Research Methods and Statistics for Health Professionals
- POST 2208 - Qualitative Research Methods
- PSYC 2211 - Statistical Methods for Psychology II
- SLGY 3323 - Qualitative Research Methods

#### Note

Additional statistics and research methods courses at the 3000-level or higher may be eligible to meet this requirement. Chair approval is required for any course that is not explicitly listed above.

#### General Education

There is one course listed in the Physical Literacy Major Requirements that satisfies both the major requirements and a portion of the General Education requirements. In addition to this one course, students require nine additional General Education courses to meet the General Education requirements to graduate with a Bachelor of Health and Physical Education - Physical Literacy.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Two courses will be taken at the second tier: no more than one from each of the thematic clusters (excluding Cluster 1)
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

Students admitted to the Bachelor of Health and Physical Education - Physical Literacy program requires specific general education courses to meet

graduation requirements. These are specified in the program curriculum. For incoming students in the BHPE program, it is important to seek clarification of these requirements and up-to-date registration information through an Academic Advisor in the Department of Health and Physical Education. See details on the nature and structure of General Education here.

## Sport and Recreation Management, BHPE

---

The Sport and Recreation Management major is of value and importance to Alberta's economic and social future. Graduates will be trained and educated to address the challenges associated with increased levels of sedentary behaviour currently being experienced and the increase in health issues connected to this behaviour. Producing leaders that will take active roles in sport and recreation in the province, including recreation centres, community programming, sport and athletic facilities, and other grassroots partners, would, therefore, enable Alberta to tackle these issues by providing lasting legacies locally, and providing leadership nationally.

Graduates will be able to:

1. Develop and demonstrate content and disciplinary concepts related to the field of sport and recreation management.
2. Transform theory into practice.
3. Integrate the merits and values of sport, recreation, and physical activity into program and community development and management.
4. Exhibit management and organizational skills within the field of sport and recreation management.
5. Formulate, design and deliver an experience within the field of sport and recreation management.
6. Knowledge and application of Truth and Reconciliation Commission Calls to Action in relation to the discipline of health and physical education.
7. Knowledge and application of principles of equity, diversity, inclusion and accessibility in relation to the discipline of health and physical education.

#### Curriculum

The Bachelor of Health and Physical Education (BHPE) requires students to complete a total of 120 credits (the equivalent of 40 three-credit courses). The 120 credits required will be taken from the following areas: core courses, major-specific courses, General Education\* and electives.

\* Please consult the University Calendar for information concerning the University's General Education requirement.

### Major Specific Courses

All BHPE - Sport and Recreation Management students must complete the following 18 major courses as part of their requirements:

- ACCT 2121 - Financial Accounting Concepts
- ACCT 3224 - Management Accounting I
- ENTR 3331 - Law for Sport and Recreation Management
- HPED 1000 - Introduction to Health and Physical Education
- HPED 1020 - Foundations of Leadership and Communication for Recreation, Health, Sport, Physical Literacy and the Outdoors.
- HPED 1040 - Wellness and the Student: From Personal Health to Community Action
- HPED 1070 - Foundations of Outdoor Leadership
- HPED 1640 - Program Planning
- HPED 2010 - Historical Foundations of Recreation, Health, Sport, Physical Literacy and the Outdoors
- HPED 2030 - Statistics and Research Methods
- HPED 2050 - Professional Practice
- HPED 3010 - Sociological Perspectives of Recreation, Health, Sport, Physical Literacy and the Outdoors
- HPED 3050 - Practicum
- HPED 3630 - Recreation and Sport Tourism
- HRES 2170 - Introduction to Human Resources
- MKTG 2150 - Fundamentals of Marketing
- MKTG 3258 - Evidence-Based Marketing
- PHYL 3320 - Adapted Physical Activity
- SRMG 1400 - Organization and Administration of Sport
- SRMG 2400 - Commercial Recreation
- SRMG 2440 - Community Development
- SRMG 3400 - Facility and Event Planning
- SRMG 5400 - Issues in Sport and Recreation Management
- HPED, ATTH, ETOL, PHYL, or SRMG XXXX (3-credit or equivalent)

### One of

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

### One of

- HRES 3277 - Organizational Learning and Development
- HRES 3278 - Employee Relations
- INBU 2201 - Cross-Cultural Management
- MGMT 4402 - Corporate Social Responsibility
- MGMT 4407 - Governance and Ethical Issues in Organizations
- PHIL 2229 - Business Ethics
- SINV 3305 - Agents of Social Change

### Electives

- Four Electives

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Health and Physical Education - Sport and Recreation Management.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

Students admitted to the Bachelor of Health and Physical Education should seek clarification of these requirements and up-to-date registration information through an Academic Advisor in the Department of Health and Physical Education. For details on the nature and structure of General Education visit: [mtroyal.ca/gened/courses](http://mtroyal.ca/gened/courses).

### Graduation Requirements

To be eligible for graduation, Bachelor of Health and Physical Education students must achieve a minimum final grade of C in each major course with a prefix of HPED, PHYL and SRMG. Students must satisfactorily complete all of the Mount Royal General Graduation Requirements as published in this Calendar as well as all the Major specific graduation requirements.

Students must follow the graduation application procedure outlined in the current Academic Calendar. Applications must be submitted by the date published in the Calendar. All BHPE students must successfully complete at least two practicum-related courses in

order to graduate (see major-specific curriculum for additional information).

## Sport and Recreation Management, BHPE (Honours)

---

An Honours degree provides more extensive exposure to the knowledge and practice of the discipline. Students may apply to the department for acceptance into the Honours stream upon successful completion of twenty courses in the Bachelor of Health and Physical Education program. **Acceptance into the Honours stream is competitive meaning students with higher GPAs will be considered first.** Students must present a minimum cumulative Grade Point Average of 3.50. Students may apply for entrance into Honours between March 1 and May 1 of the academic year in which they have successfully completed twenty courses.

Honours students are required to complete:

1. Core courses required to obtain a Health and Physical Education Degree in their respective major;
2. Additional courses in statistics and research methods; and
3. An Honours thesis. The thesis provides an opportunity for the student to engage in research within a specific area of HPED, apply the statistical and research methods skills they have acquired in previous courses, and provides the student with the opportunity to write a formal research report under the direct supervision of their supervisor. Completion of an Honours degree indicates that you have engaged in some form of independent learning, under the guidance of an HPED faculty supervisor, over and above that required by regular degree-related course work.

### Major Requirements

- ACCT 2121 - Financial Accounting Concepts
- ACCT 3224 - Management Accounting I
- ENTR 3331 - Law for Sport and Recreation Management
- HPED 1000 - Introduction to Health and Physical Education
- HPED 1020 - Foundations of Leadership and Communication for Recreation, Health, Sport, Physical Literacy and the Outdoors.
- HPED 1040 - Wellness and the Student: From Personal Health to Community Action
- HPED 1070 - Foundations of Outdoor Leadership
- HPED 1640 - Program Planning

- HPED 2010 - Historical Foundations of Recreation, Health, Sport, Physical Literacy and the Outdoors
- HPED 2030 - Statistics and Research Methods
- HPED 2050 - Professional Practice
- HPED 3010 - Sociological Perspectives of Recreation, Health, Sport, Physical Literacy and the Outdoors
- HPED 3050 - Practicum
- HPED 3630 - Recreation and Sport Tourism
- HRES 2170 - Introduction to Human Resources
- MKTG 2150 - Fundamentals of Marketing
- MKTG 3258 - Evidence-Based Marketing
- PHYL 3320 - Adapted Physical Activity
- SRMG 1400 - Organization and Administration of Sport
- SRMG 2400 - Commercial Recreation
- SRMG 2440 - Community Development
- SRMG 3400 - Facility and Event Planning
- Three Electives
- Ten General Education courses

### One of

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

### One of

- HRES 3277 - Organizational Learning and Development
- HRES 3278 - Employee Relations
- INBU 2201 - Cross-Cultural Management
- MGMT 4402 - Corporate Social Responsibility
- MGMT 4407 - Governance and Ethical Issues in Organizations
- PHIL 2229 - Business Ethics
- SINV 3305 - Agents of Social Change

### Honours Requirements

- HPED 5000 - HPED Honours Thesis I
- HPED 5500 - Honours Thesis II

### One of

- CRJS 3005 - Qualitative Research Methods
- HPED 3030 - Research Methods and Statistics for Health Professionals

- POST 2208 - Qualitative Research Methods
- PSYC 2211 - Statistical Methods for Psychology II
- SLGY 3323 - Qualitative Research Methods \*

\*Additional statistics and research methods courses at the 3000 level or higher may be eligible to meet this requirement. Chair approval is required for any course that is not explicitly listed above.

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Health and Physical Education - Sport and Recreation Management.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters. One of these courses must be from the Numeracy and Scientific Literacy cluster.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

Students admitted to the Bachelor of Health and Physical Education should seek clarification of these requirements and up-to-date registration information through an Academic Advisor in the Department of Health and Physical Education. For details on the nature and structure of General Education visit: [mtroyal.ca/gened/courses](http://mtroyal.ca/gened/courses).

# Bachelor of Interior Design

## Interior Design, BID

---

### General Information

The Bachelor of Interior Design (BID) is a full-time, four-year baccalaureate degree. This distinctive integrated program will develop the theoretical and practical foundation for creative and critical design thinking skills necessary for working with clients and stakeholders in the practice of interior design. Program coursework will develop the background knowledge and professional skills required to carry out the duties and responsibilities of an interior designer. The BID degree balances the core required interior design courses with a strong foundation in liberal arts established through ten General Education courses. Program coursework normally extends over eight semesters with a required 450-hour industry Internship at the end of the sixth semester.

The Bachelor of Interior Design program consists of three core areas/streams of study (Design + Precedent, Systems, Design Tools) and a studio. The core areas establish a foundation in design-related: knowledge, theory, research, problem-solving, collaboration, and professional practice as well as necessary manual and technological skills. The studio is where students apply the core area knowledge in the term through interactions with faculty and peers on project work.

#### Design + Precedent

- Establishes the theoretical and practical basis for understanding, researching and designing spaces for people through engaged design thinking and process.

#### Design Tools

- Establishes the oral, manual, technical and professional design knowledge, techniques and skills used to explore, express and communicate project work (e.g. sketching, drawing, construction documentation, graphics, and business).

#### Systems

- Establishes the building systems necessary to construct human environments and includes topics such as: structural principles; fundamental building systems (e.g. structures, light, heat, ventilation); building codes, by-laws and regulations; sustainable design principles; and materials.

#### Studio

- Applies the knowledge and skills from the core areas of study in the semester.
- Integrates design thinking and making.
- Explores studio theme/focus (e.g. space + experience) through a series of projects, students experiment, and practice their understanding of content taught in the core areas of study.

The Bachelor of Interior Design degree is built upon the very successful CIDA accredited Bachelor of Applied Interior Design degree delivered at Mount Royal since 1996. The BID maintains elements of the applied degree such as integrating hand sketching and drawing with technology to develop solid ideation and communication skills. In addition, knowledge and abilities have been expanded to ensure that students develop a broad range of design related theory, knowledge, research and skills required in professional practice as well as preparing students for study at a graduate school level. The BID degree is designed to meet or exceed the 2014 Professional Standards established by the Council for Interior Design Accreditation (CIDA).

Graduates of the BID degree will be eligible to write the National Council for Interior Design Qualification (NCIDQ) Interior Design Fundamentals Exam (IDFX). The second and final exam for professional certification is the NCIDQ Interior Design Professional Exam (IDPX). This exam can be written upon successful completion of the Fundamental exam and specific practice experience and knowledge this normally requires 2-3 years of full-time employment in interior design. Successful completion of these exams normally provides the Interior Designer with the professional NCIDQ certification required to become a Registered Interior Designer through the Interior Designers of Alberta (IDA) or an Intern Licensed Interior Designer through the Alberta Association of Architects (AAA). The NCIDQ certification is required to become Registered Interior Designer in all Provincial Interior Design Associations in Canada.

Graduates of the Bachelor of Interior Design degree will be highly qualified for direct employment in a variety of areas in professional practices (e.g. interior design or architectural firms; home builders or developers; facility management - oil & gas, civic, healthcare, airport authority; project management; theatre/set design; manufacturer's representative; sales, etc.).

Although the Bachelor of Interior Design program is designed primarily for entry into professional practice, graduates will also be qualified to apply to graduate programs for further study. Students of the BID degree who are interested in advanced study upon graduation are encouraged to discuss their post-graduate education plans with an academic advisor at

Mount Royal or the institution in which they are seeking enrolment.

### Internship

The one zero-credit internship is designed to provide an extension of the learning process in a relevant work environment. This internship is offered in the spring/summer term at the end of semester six. The internship consists of 450 hours of paid work experience with an employer in an industry-related area.

Given the fluctuating nature of the Calgary labour market, opportunities for work experience can be located locally, provincially, nationally or internationally. Students should be prepared to relocate and to receive intern or entry-level compensation.

### General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admission section of this calendar.

### Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the Admission section of this calendar, applicants must also satisfy the following criteria:

### Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Interior Design program:

- English Language Arts 30-1 - 65%
- Mathematics 30-1 or 30-2 - 50%

Although *conditional admission* may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

### Additional Criteria

Competitively qualified applicants who meet the academic requirements for admission must complete the department *directed portfolio*. The portfolio includes:

- hand drawing and composition components
- in-person discussion of an identified design topic

The directed portfolio submissions are used in conjunction with the academic requirements to evaluate and determine program admission.

### Admission on the Basis of Transfer from a Recognized School of Interior Design

Admittance into the program is determined based on available seats in the potential transfer year into the Bachelor of Interior Design program.

Applicants seeking admission on this basis must apply through the standard Mount Royal Admissions process and meet the Mount Royal and BID admission requirements. Qualified applicants who have received an Offer of Admission into the interior design program and wish to have previous interior design courses considered for transfer credit should refer to the timelines associated with the evaluation of specific courses for the purpose of transfer equivalency/credit. In addition, a portfolio of student work and course outlines must be provided upon confirmation of admission into the program to determine if there is any equivalency.

Interior Design Technology (IDT) diploma graduates from Alberta IDT programs, are eligible to apply for admission into the BID degree and receive applicable transfer credit in identified core courses with a minimum grade of C+. Admission for IDT graduates is competitive and will be based on the competitive admission average for available seats. IDT students are advised to meet with their institutional Academic Advisor to review the course Transfer Credit agreement.

### Re-admission following an Absence

All interior design students who have exceeded the allowable institutional absence as stated in the section Re-admission Following an Interruption of Program, regardless of the reason for returning to the program after an absence, must follow the standard admission procedures and timelines for re-admission. In addition, returning students must provide a *Letter of Intent to Continue*, identifying the intended semester of return to the program, to the Chair of the Department of Interior Design on or before February 1.

In addition to meeting the institutional requirements for re-admission, decisions regarding readmission to the BID program are also based on the available seats in the course/semester requested.

### Application Deadline: February 1

The application for admission and all supporting documents (required for admission assessment) must be received by this date.

## Program Continuance

All core interior design courses in a term are prerequisites for the core courses in the next term. Students who do not successfully complete one or more core interior design courses in a semester, with a minimum final grade of "C" (2.00), are unable to continue to the next semester. The student will need to retake and successfully complete the course(s) the next year it is available. This grade requirement does not apply to the required general education courses or electives.

## Curriculum

The Bachelor of Interior Design requires students to complete a total of 120 credits (the equivalent of 40-three-credit courses). The program of study is prescriptive, students must successfully complete all core courses in the term with a final grade of C or higher in order to continue to the subsequent term. The program of study includes eight semesters of courses plus one (450 hours) Internship with a design-related industry employer.

### Year One

- DEST 1101 - Design History
- INDS 1141 - Studio 1: Space + Experience
- INDS 1142 - Design + Precedent 1
- INDS 1144 - Design Tools 1
- INDS 1241 - Studio 2: Inhabitation
- INDS 1242 - Design + Precedent 2
- INDS 1243 - Systems 2
- INDS 1244 - Design Tools 2
- General Education requirement, Cluster 1 (recommended), Foundation level
- General Education requirement, Cluster 4, Foundation level, GNED 1401/ENGL 1101, GNED 1403, or GNED 1404

### Year Two

- INDS 2141 - Studio 3: Spatial Connectivity
- INDS 2142 - Design + Precedent 3
- INDS 2143 - Systems 3
- INDS 2144 - Design Tools 3
- INDS 2241 - Studio 4: The Collective
- INDS 2242 - Design + Precedent 4
- INDS 2243 - Systems 4
- INDS 2244 - Design Tools 4
- General Education requirement, Cluster 2 (recommended), Foundation level
- General Education requirement, Cluster 2 (Art History course recommended), Tier 2

### Year Three

- DEST 3201 - Design + Material Culture
- INDS 3141 - Studio 5: Context
- INDS 3142 - Design + Precedent 5
- INDS 3143 - Systems 5
- INDS 3144 - Design Tools 5
- INDS 3241 - Studio 6: Transformations
- INDS 3242 - Design + Precedent 6
- INDS 3244 - Design Tools 6
- INDS 3345 - Internship
- General Education requirement, Cluster 3 (recommended), Foundation level
- General Education requirement, Cluster 2 (Art History course recommended), Tier 3

### Year Four

- INDS 4141 - Studio 7: Investigation
- INDS 4142 - Design + Precedent 7
- INDS 4143 - Systems 7
- INDS 4245 - Professional Practice
- INDS 5241 - Studio 8: Integration
- General Education requirement, Cluster 1, 3 or 4 (recommended), Tier 2
- General Education requirement, Cluster 1, 3 or 4 (recommended), Tier 2
- General Education requirement, Cluster 1, 3 or 4 (recommended), Tier 3
- General Education requirement, Cluster 1, 3 or 4 (recommended), Tier 3
- Elective \*

## Elective

One university-level three-credit course of the student's choosing without restriction.

## General Education Requirements

- Four courses at the Foundation tier, one from each of the four thematic cluster areas in General Education (it is recommended that students take ENGL 1101/GNED 1401, GNED 1403 or GNED 1404 (Cluster 4) in the first semester of the program)
- Six courses at the second and third tiers
  - Two Art History courses (Cluster 2, one Tier 2 and one Tier 3)
  - Two courses from two of the thematic Clusters 1, 3 or 4 in Tier 2
  - Two courses from two of the thematic Clusters 1, 3 or 4 in Tier 3

## Graduation Requirements

Completion of all 29 core interior design program courses (Interior Design - INDS and Design Studies - DEST) with a minimum final grade of C in each core

course and a "Pass" in the non-credit Internship (INDS 3345). Students must also complete 10 General Education courses and one elective. An overall minimum of 40 courses and 120 credits are required for the Bachelor of Interior Design degree.

For Restrictions and Interpretations concerning the program requirements for English, Elective, and General Education courses, refer to the section entitled *General Graduation Requirements*.

# Bachelor of Midwifery

## Midwifery, B.Mid.

---

### General Information

The Bachelor of Midwifery Program is a four-year baccalaureate degree program that prepares graduates for professional careers as Registered Midwives. Students will benefit from a comprehensive, evidence-informed curriculum on midwifery care of pregnant individuals and their families during pregnancy, labour, birth and the postpartum period.

The program is offered over four Fall and Winter academic years with required Spring semesters. Students who complete all degree requirements will be awarded a Bachelor of Midwifery Degree (BMid) from Mount Royal University.

Graduates of the BMid program are caring, competent, accountable, and ethical primary care practitioners. Graduates meet the competencies to practice midwifery autonomously and collaboratively within an interprofessional healthcare team. Graduates have entry-level midwifery knowledge, skills, and attributes that assist in providing safe, individualized care for birthing people and families. They adhere to evidence-based practice and regulatory standards to co-create a midwifery care plan that meets the needs of care recipients. Graduates will have knowledge of and the ability to work within the scope of midwifery practice defined by the College of Midwives of Alberta. Graduates are focused on providing appropriate person-centred care independently or within the multidisciplinary team, leading to optimal antepartum, intrapartum, postpartum, and neonatal outcomes. This requires that each graduate recognizes the depth and limitations within the midwifery scope of practice.

### Requirements for Midwifery Practice Experience

Students will be familiar with the Standards of Conduct set out by the College of Midwives of Alberta under the Alberta Health Professions Act prior to clinical placements.

Students entering field/practicum placements will be required to sign a Confidentiality Agreement requiring them to maintain strict confidentiality regarding any client information or data.

Clinical placements will include scheduled and on-call hours, including days, evenings, nights and weekends. Placements from across the province and potentially from outside the province may be used for practical experience and many sites may be distant

from Calgary. Students will require access to a vehicle and technologies that allow frequent and regular communication with the Midwifery Program. All travel and accommodation costs associated with practice experiences are the student's responsibility.

As delineated in each course outline and syllabus, students must demonstrate satisfactory clinical performance.

The Midwifery Program reserves the right, at any point, to remove a student from a clinical placement or laboratory setting if the student exhibits unsafe clinical practice or behaviour that places clients or others at risk and/or violates the Standards of Conduct of the Health Professions Act. Such removal will result in the student receiving an F grade and may result in dismissal from the Program.

### Academic Performance Requirements

In matters of program continuance, there are instances when institutional processes do not fully address concerns related to student progress or continuance in a program. This applies in the following circumstances:

- a. Violations of a professional code of ethics and/or standards of practice (i.e. College of Midwives of Alberta). A committee established by the program will assess violations of relevant codes and standards and whether the student will be required to withdraw from the program based on the seriousness of the violation.
- b. Students who are unsuccessful after two registrations in the same core course (as defined by the program) will be required to withdraw from the program. This includes but is not limited to the following examples of unsuccessful registration:
  - Students who do not achieve the minimum required grade (as defined by the program) in one or both registrations.
  - Students who earn a grade of "F" or "EF" in one or both registrations.
  - Students who withdraw from the course with a 'W' in one or both registrations.
- c. Students who are denied a practicum placement by an external stakeholder because of an assessed detrimental impact on the client, client group, or community being served. Students who are unable to meet clinical or field course requirements on this basis will be required to withdraw from the program.

To be considered a continuing student of record in the Bachelor of Midwifery Program, the student must achieve a minimum overall C+ average with no

course grade below a C in all required core courses exclusive of GNED courses. An 'EP' (Experiential Pass) grade is required for all MDWF clinical courses. To be eligible for graduation, the student must achieve a minimum cumulative Grade Point Average of 2.3.

A grade below a C in a required core course or an EF (Experiential Failure) in an MDWF clinical course must be cleared by repeating the course before a student may progress to any further courses. Students whose overall average falls below C+ must complete additional courses to achieve the minimum average.

Students are permitted one re-registration in the same core required midwifery program course. That is, students are not allowed more than two grades below the minimum pass or two withdrawals in the same midwifery program course, nor are they permitted one withdrawal and one grade below the minimum pass within the same midwifery program course. Students who are unsuccessful after two registrations in the same midwifery program course will be required to withdraw from the program (RTWP). An appeal process is available. Refer to the student handbook for information related to the appeal process.

A student who has been RTWP may apply for readmission to the University no sooner than twelve months after receiving notification of the RTWP. The application for readmission must be submitted in accordance with the application deadline for new students as specified by the Academic Schedule published in the Academic Calendar. The applicant must meet the program admission criteria that are in place at the time of readmission, but the applicant will not be required to meet the competitive average. The application for readmission will include a reintegration plan. Detailed information about the reintegration plan can be found in the student handbook or may be obtained from the program's academic advisor. Readmission is not automatic. Applications for readmission will be considered on an individual basis. Readmission to the program will be granted one time only.

### **Regulations**

Students are responsible for familiarizing themselves with the policies and procedures of Mount Royal University as outlined in the Calendar, Code of Student Conduct and the Bachelor of Midwifery Student Handbook.

### **Program Duration**

Program requirements for degree completion can be completed in four academic years. Students have eight calendar years from the date of initial registration for the Bachelor of Midwifery Degree to

complete all requirements. Students seeking an extension beyond eight years may be required to complete additional coursework.

### **Program Interruption**

Students who interrupt their program are advised that they will be required to comply with regulatory guidelines that may have come into effect, in the interim, regarding their program and requirements. Students will be required to reapply for admission and notify the Chair of the School of Nursing and Midwifery at Mount Royal University in writing by March 15 of their intention to return for the following Fall Semester.

### **Opportunities for Further Study**

The Bachelor of Midwifery degree credential does not guarantee either eligibility for, or admission into, graduate and professional programs. Graduates must meet the individual universities' admission requirements in a competitive process. Students considering graduate school or professional schools are encouraged to investigate their postgraduate educational plans with an academic advisor at the institution in which they are seeking to enrol.

### **Students with Disabilities**

When warranted, and without compromising academic and professional midwifery practice standards, Mount Royal University will provide reasonable accommodation for students with documented disabilities. Students need to fulfill program requirements to be eligible for graduation.

### **Canadian Midwifery Registration Examination**

Students will be prepared to meet the standards and competencies for midwifery registration and practice to provide care within the Albertan and Canadian healthcare systems.

Students will be eligible to write the Canadian Midwifery Registration Examination upon satisfactory completion of all degree program requirements. Students are responsible for all costs related to the examination.

### **Police Information Check**

Provincial legislation requires that new employees and volunteers in publicly-funded agencies, including hospitals, are subject to a Police Information Check (PIC) that includes a Vulnerable Sector Check. In some cases, agencies may require students to provide proof of a police information check prior to commencing a clinical course. All costs related to the police information check are the responsibility of the

student. If a student is denied a clinical placement, due to concerns resulting from the check, then the student will be unable to meet course requirements and will be required to withdraw from the program. Refer to the statement regarding Police Information and other background checks in this calendar.

### **Immunization**

Proof of up-to-date immunization status is required for all professional practice courses and is the responsibility of the student. All associated costs are the responsibility of the student. Failure to maintain a current immunization status will result in immediate withdrawal from the clinical practice area.

### **Additional Pre-practice Requirements**

Additional pre-practice requirements must be completed in each year of the program. All associated costs are the responsibility of the student. The program will provide students with more information on these requirements.

### **General Admission Requirements**

In addition to meeting the general admission requirements indicated in the *Admission* section of this calendar, applicants must also satisfy the following criteria:

#### **Academic Course Requirements**

Admission is competitive and preference is given to applicants who have the highest average based on the conditional admission criteria for each admission category. In addition to meeting the general admission requirements, the following specific courses (or equivalents) with the specified minimum grades are required for admission into the Bachelor of Midwifery program:

- English Language Arts 30-1 - 65%
- Biology 30 - 65%
- Chemistry 30 - 65%
- Mathematics 30-1 or 30-2 - 65%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

#### **Additional Admission Criteria**

The Bachelor of Midwifery program has limited enrolment and admission to the program is highly competitive. As a result, all applicants are required to complete additional non-academic requirements

offered by Acuity Insights. The results of these non-academic requirements will be used to differentiate between applicants when there are more competitively qualified applicants than seats available in the program.

Applicants should refer to TakeAltus.com to create an account and register to complete the assessments listed for the Mount Royal University Bachelor of Midwifery Program (i.e., Casper). There are specific dates when applicants can complete Casper and these are listed at TakeAltus.com. These are the only dates available, and applicants must select Mount Royal University for distribution before the posted Distribution Deadline. Visit the Acuity Insights website for further information on this process.

No exceptions will be provided for applicants who are unable to complete the additional non-academic admission requirements before the listed deadlines.

### **Minimum Overall Average Required for Admission**

To be eligible for admission on the basis of High School or Mature, applicants must present a minimum admission average of 70% on their five required and appropriate grade 12 subjects for high school standing and four required subjects for mature standing. To be eligible for admission on the basis of Post-secondary standing, applicants must present a minimum Grade Point Average (GPA) of 2.50 on the eight most recently completed post-secondary courses (minimum 24 credits).

### **Application Deadline: February 1**

The application for admission and all supporting documents (required for admission assessment) must be received by this date.

### **Indigenous Student Admission**

Each year 10% of the seats in the Bachelor of Midwifery program will be reserved for Indigenous applicants through an Indigenous admission target. To be considered for admission under the Indigenous admission target, the applicant must:

- a. self-identify as an Indigenous applicant on the Application for Admission
- b. meet the definition of an Indigenous Applicant
- c. meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program level admission requirements

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive

basis. Applicants are encouraged to apply during Early Admission. Any unfilled designated seats will be released on **June 15** to students applying under the general admission requirements.

See general admission requirements in the Admissions section of this calendar for further information.

### Transfer Credit Assessment

Transfer credits towards Mount Royal Midwifery (MDWF) courses will be limited to courses that have been successfully completed within seven years from the date of initial registration in the student's original midwifery program. All Midwifery Core courses will not be eligible for transfer credit if taken more than seven years ago. BIOL 1220 and BIOL 1221 will not be eligible for transfer credit if taken more than seven years ago.

### Curriculum

All BMid students must complete the following courses:

- BIOL 1220 - Anatomy and Physiology I
- BIOL 1221 - Anatomy and Physiology II
- HLTH 2250 - Introduction to Information and Research Literacies
- HPED 2507 - Nutrition and Health
- INTS 1240 - Fundamentals of Professional Communication
- INTS 2250 - Local Indigenous Health and Wellbeing - Soh Ksistoom Sinni - Through Kimma Pi Pitsin
- MATH 2333 - Statistics for Life Sciences
- MDWF 1001 - Survey of Midwifery - Past and present
- MDWF 1003 - Lab Sciences for Midwifery
- MDWF 2001 - Developing Midwifery Skills
- MDWF 2003 - Reproductive Physiology
- MDWF 2005 - Pharmacotherapy and Pathophysiology I
- MDWF 2100 - Midwifery Care: Physiologic Perinatal Period and Neonates - Clinical
- MDWF 2101 - Midwifery Care: Physiologic Perinatal Period and Neonates - Tutorial
- MDWF 3001 - Pharmacotherapy and Pathophysiology II
- MDWF 3100 - Interprofessional Health Placements - Clinical
- MDWF 3101 - Interprofessional Health Placements - Tutorial
- MDWF 3150 - Midwifery Care: Perinatal Complications and Consultation - Clinical
- MDWF 3151 - Midwifery Care: Perinatal Complications and Consultation - Tutorial
- MDWF 3165 - Cultures and Communities

- MDWF 3175 - Midwifery Care: Neonatal and Perinatal Pathology - Clinical
- MDWF 3176 - Midwifery Care: Neonatal and Perinatal Pathology - Tutorial
- MDWF 4100 - Midwifery Clerkship I - Clinical
- MDWF 4101 - Midwifery Clerkship I - Tutorial
- MDWF 4150 - Midwifery Clerkship II - Clinical
- MDWF 4151 - Midwifery Clerkship II - Tutorial
- NURS 1112 - Health Promotion with Individuals I
- NURS 1213 - Health Promotion with Individuals II
- WGST 2221 - Gender, Sexuality and Health

### Note

Courses are not necessarily offered in the sequence shown. Students are responsible to ensure that all prerequisite and corequisite requirements are met prior to registering in a course.

### General Education Requirements

Three courses must be completed to meet the General Education requirements to graduate with a Bachelor of Midwifery.

- Three courses will be taken at the foundation level: one from each of clusters one, two, and four.

### Graduation Requirements

Students in the Bachelor of Midwifery program must complete all core courses in the program with a final grade of "C" or higher in theoretical courses and an experiential pass (EP) in practicum-based courses. To be eligible for graduation, students must satisfactorily complete all program requirements. Students must maintain an overall minimum GPA of 2.30 to be eligible for graduation. Students who have completed their program requirements will be awarded a Bachelor of Midwifery degree from Mount Royal University. Students applying to graduate must do so by the date published in the Academic Calendar.

# Bachelor of Nursing

## Nursing, BN

---

### General Information

The Bachelor of Nursing Program is a four-year degree program. This degree program prepares students for professional careers as Registered Nurses in a variety of settings. Students will benefit from the program's learner-centred approach and strong emphasis on nursing practice preparation and specialization opportunities. The program is offered over four Fall and Winter academic years with required Spring Semesters. Most courses will be offered in both the Fall and the Winter Semesters. Students may be required to complete a Summer semester in order to complete all required courses in four years. Students completing all degree requirements will be awarded a Bachelor of Nursing (BN) degree from Mount Royal University.

### Reading Break

Students registered in courses in the third year of the program (NURS 3102, NURS 3104, NURS 3112, NURS 3114, NURS 3122, NURS 3124, NURS 3132, NURS 3134, NURS 3142, and NURS 3144) should be aware that fall and winter reading weeks will not likely be the same as the scheduled Mount Royal reading weeks. These students will be informed of when fall and winter reading weeks will occur before the beginning of fall and winter semesters. Students in the first, second and fourth years of the program will have reading weeks congruent with the Mount Royal scheduled reading weeks.

### Requirements for Nursing Practice Experience

Participation in scheduled clinical practice experiences (clinical), laboratory experiences, and simulated learning experiences is mandatory. Clinical experiences are hosted predominantly in acute or extended care settings, but may also take place in various community agencies.

Students are responsible for arranging transportation to and from clinical practice sites and, in some cases, for travel that is part of completing clinical responsibilities during a clinical shift anywhere within the Calgary city limits. Attending clinical experiences outside of the Calgary city limits is optional, but students are encouraged to consider rural and remote options when such opportunities are available. All travel and accommodation costs associated with practice experiences are the responsibility of the student.

Students are responsible for planning work and other non-academic events to accommodate a clinical schedule that varies semester to semester or block to block and clinical shifts that may vary between 8 to 12 hours in length.

Students are responsible for the purchase of uniforms and other clinical accessories (e.g. stethoscopes) as outlined in the Bachelor of Nursing (BN) Student Handbook.

Students are required to maintain, throughout the term of any clinical/practicum placement 'fitness to practice' which is defined by the Canadian Nurses Association as "all the qualities and capabilities of an individual relevant to their capacity to practise as a registered nurse [or nursing student], including but not limited to, freedom from any cognitive, physical, psychological or emotional condition and dependence on alcohol or drugs that impairs his or her ability to practise nursing" (Canadian Nurses Association, 2017, p. 22). Should a student, for whatever reason, be unfit for practice, it is the student's responsibility to remove themselves from the placement and report this to the clinical instructor. Students may return to the placement once they again meet the fitness to practice criteria. A note from a healthcare practitioner affirming fitness to practice may be required in some circumstances. Please refer to the BN Student Handbook for more details.

Students may be required to leave a placement (temporarily or permanently) should either the placement host organization or Mount Royal University determine that the student poses a risk to the health and safety of patients/clients or others or to the property of the placement host.

### Academic Performance Requirements

In matters of progression and continuance, there are instances when institutional processes do not fully address concerns related to the performance requirements of a degree preparing students for professional practice..

This applies in the following circumstances:

- a) Violations of a professional code of ethics and/or standards of practice of the regulated health professions
- b) Violations of professional codes and/or standards of safe and ethical practice as determined by the applicable national and/or provincial professional colleges and associations.
- c) Violations of the terms of a student practicum agreement between Mount Royal University and a third-party provider.

Violations of any or all of the above (a, b, c) may result in the requirement to complete an extracurricular learning activity directed at addressing the knowledge deficit and/or performance issue, in removal from the practicum site and the assignment of an Experiential Fail (EF) in the relevant course, or in penalties up to and including expulsion from the program or the university depending on the severity of the violation.

d) Failure to report and or take other appropriate action when unable to meet expected levels of fitness to practice, including the ability to perform all the requisite skills and abilities as defined by provincial nursing regulatory and approval bodies.

In any situation where a student is deemed not fit for practice, the student may not engage in clinical practice experiences until a regulated healthcare professional has "cleared" the student for practice by providing a letter affirming that the fitness issue has been addressed and that the student is fit and safe to return to practice. Failure to report and or take other appropriate action with respect to fitness to practice may result in academic or other penalties.

e) Failure to complete the clinical pre-practice requirements (PPRs) specified by the program and to provide acceptable evidence of completion by published deadlines may result in the student being deregistered from clinical course(s). No student will be allowed to participate in any clinical practicum where a PPR is required.

f) Suspension and/or termination of a practicum placement by an external stakeholder when it is deemed necessary by either the program or the external stakeholder to preserve the health and safety of patients/clients and others or for the protection of the stakeholder's property. Students who are unable to meet clinical course requirements on this basis will be required to withdraw from the program.

g) Failure to achieve the required progression grade as determined by the program prerequisite structure after a maximum of two attempts - exclusive of any instances of Withdrawal with Cause (WC) - in any program course used to meet graduation requirements that are prefixed by either NURS, BIOL or HLTH will result in the student being assigned the academic standing of Required to Withdraw from Program (RTWP)

Students who are RTWP may appeal the RTWP. Please refer to the Student Handbook for details about the appeal process.

Students who are RTWP are eligible to reapply for admission and continuance of the program after a minimum of 12 months from the date when they were notified of their RTWP standing. Please refer to the Student Handbook for details about the reapplication process.

## Regulations

Students are responsible for familiarizing themselves with the policies and procedures of Mount Royal **University** as outlined in the Calendar, Code of Student Conduct and the Student Handbook: Undergraduate Nursing Program. Refer to the *Student Handbook* for details.

## Program Duration

Program requirements for degree completion can be completed in four (4) academic years. Students have seven calendar years from the date of initial registration for the Bachelor of Nursing Degree to complete all requirements. Students seeking an extension beyond seven years may be required to complete additional coursework. Extension requests will be considered See the Chair for details.

## Program Interruption

Students who interrupt their program are advised that they will be required to comply with any regulations that may have come into effect in regard to their program and requirements. Students will be required to re-apply for admission and notify the Chair of the Department of Nursing and Midwifery in writing by March 15 of their intention to return for the following Fall Semester or by October 1 for the following Winter Semester.

## Program of Study

To fulfill Mount Royal University's residency requirements for degree completion, students must complete the 3000 and 4000-level nursing courses, with the exception of the 4000-level senior nursing option, through Mount Royal University. Students are responsible for ensuring they have met the residency requirements.

## Students With Disabilities

When warranted, and without compromising academic and professional nursing practice standards, Mount Royal University will provide reasonable accommodation for students with

documented disabilities. Students need to fulfill program requirements to be eligible for graduation.

### **National Registered Nurse (RN) Examination**

Students will be eligible to write the national Registered Nurse Examination upon satisfactory completion of all degree program requirements. Students are responsible for all costs related to the examination.

### **Cardiopulmonary Resuscitation (C.P.R.) Certification**

Students must provide annual proof of current C.P.R. Certification for Healthcare Providers. Evidence of certification is to be provided to the School of Nursing and Midwifery office, by August 1 each year. All associated costs are the responsibility of the student.

Failure to maintain current CPR certification will result in immediate withdrawal from the clinical practice area.

### **Police Information Check**

Provincial legislation requires that new employees and volunteers in publicly-funded agencies, including hospitals, seniors' lodges, group homes, and nursing homes are subject to a Police Information Check (PIC) that includes a Vulnerable Sector Check. In some cases, agencies may require students to provide proof of a police information check prior to commencing a clinical course. Thus, students may be required to obtain more than one police information check during their program of study. All costs related to the police information check are the responsibility of the student. If a student is denied a clinical placement, due to concerns resulting from the check, then the student will be unable to meet course requirements and will be required to withdraw from the program. Refer to the statement regarding Police Information and other background checks in this calendar.

### **Immunization**

Proof of up-to-date immunization (including rubella) status is required for all professional practice courses and is the responsibility of the student. All associated costs are the responsibility of the student. Failure to maintain a current immunization status will result in immediate withdrawal from the clinical practice area.

### **Mask Fit Testing**

As a prerequisite for acute care clinical practice, all students must be fitted for N95 masks in accordance with Alberta Health Services policy. Mask fit-testing is valid for two years or less if you have weight gain or

loss greater than 4.5 kilograms, or following nasal fracture or facial scarring. Evidence of mask fit testing is to be provided to the School of Nursing and Midwifery office and students must have their mask size with them for practical experiences. All costs associated with this service are the responsibility of the student.

## **General Admission Requirements**

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admission* section of this calendar

### **Additional Admission Requirements**

In addition to meeting the general admission requirements indicated in the *Admission* section of this calendar, applicants must also satisfy the following criteria:

### **Academic Course Requirements**

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Nursing program:

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or 30-2 - 60%
- Biology 30 - 60%
- Chemistry 30 - 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University.

Applicants who do not meet these minimum grade requirements will be denied admission.

### **Minimum Overall Average Required for Admission**

To be eligible for admission on the basis of High School or Mature Standing, applicants must present a minimum admission average of 70% on their five appropriate Grade 12 subjects for high school standing and 4 required subjects for mature standing. To be eligible for admission on the basis of Post-secondary Standing, applicants must present a minimum GPA of 2.5 on the eight most recently completed post-secondary courses (minimum 24 credits).

Although conditional admission may be granted before final/official transcripts are available, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received.

## Additional Admission Criteria

Mount Royal University's Bachelor of Nursing program has limited enrolment and admission to the program is highly competitive. As a result, all applicants are required to complete a component of the Acuity Insights (formerly known as Altus Assessments) assessment tool known as Casper. Applicants can create an account and register to complete this assessment here. The results of this assessment will be used to differentiate between applicants when there are more highly academically qualified applicants than seats available in the program.

The dates available to complete Casper for the current admission cycle are listed here. These are the only testing dates available and you must select Mount Royal University for distribution before the posted Distribution Deadline. Visit the Casper website for further information on this process.

No exceptions will be provided for applicants who are unable to take Casper before the listed deadlines.

## Application Deadline: February 1

The application for admission and all supporting documents (required for admission assessment) must be received by this date.

## Transfer Credit Assessment

Transfer credit towards Mount Royal University nursing (NURS) courses will be limited to courses that have been successfully completed within seven years from the date of initial registration in the student's original nursing program.

## Indigenous Student Admission

Each year up to 10% of the seats in the Bachelor of Nursing program will be reserved for Indigenous applicants through an Indigenous admission target.

- self-identify as an Indigenous applicant on the Application for Admission
- meet the definition of an Indigenous Applicant
- meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program-level admission requirements

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during the Early Admission period. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

See general admission requirements in the *Admission* section of this calendar for further information.

## Curriculum

All BN students must complete the following 31 required courses as part of their program requirements:

- BIOL 1220 - Anatomy and Physiology I
- BIOL 1221 - Anatomy and Physiology II
- HLTH 2250 - Introduction to Information and Research Literacies
- HPED 2507 - Nutrition and Health
- INTS 1240 - Fundamentals of Professional Communication
- MATH 2333 - Statistics for Life Sciences
- NURS 1111 - Theoretical Foundations of Nursing I
- NURS 1112 - Health Promotion with Individuals I
- NURS 1213 - Health Promotion with Individuals II
- NURS 1214 - Professional Practice I
- NURS 2111 - Theoretical Foundations of Nursing II
- NURS 2112 - Alterations in Health: Nursing Knowledge and Therapeutics I
- NURS 2113 - Alterations in Health: Nursing Knowledge and Therapeutics II
- NURS 2114 - Professional Practice II
- NURS 2215 - Health Promotion with Populations, Communities and Families
- NURS 2216 - Professional Practice III
- NURS 3102 - Adult Health
- NURS 3104 - Professional Practice in Adult Health
- NURS 3112 - Family Newborn Health
- NURS 3114 - Professional Practice in Family Newborn Health
- NURS 3122 - Child Health
- NURS 3124 - Professional Practice in Child Health
- NURS 3132 - Mental Health
- NURS 3134 - Professional Practice in Mental Health
- NURS 3142 - Gerontological Nursing
- NURS 3144 - Professional Practice in Gerontological Nursing
- NURS 4111 - Trends and Issues in Nursing Leadership
- NURS 4112 - Integrated Professional Practice
- NURS 5114 - Transition to Independent Practice
- PSYC 2235 - Life-Span Development

## Senior Nursing Options

Students applying to graduate must do so by the date published in the Mount Royal University Calendar.

Choose one:

- ACCN 5531 - Intensive Care Nursing and Emergency Nursing: Assessment
- HLTH 4462 - Integrative Healing Practices in Nursing
- NURS 4420 - Team Approaches to Chronic Disease Management
- NURS 4422 - Family Nursing: A Contextual Practice
- NURS 4425 - A Palliative Approach for Individuals and Families
- NURS 4426 - Diversity in Health
- NURS 4427 - Influencing Health, Equity and Social Action
- NURS 4450 - Awareness, Resilience, Advocacy, and Action
- NURS 4465 - Supportive Environments For Mental Health

## Note

Courses are not necessarily offered in the sequence shown. Students are responsible to ensure that all prerequisite and corequisite requirements are met prior to registering in a course. Courses maybe offered in Spring or Summer semesters to accommodate clinical placement availability.

## General Education Requirements

Students in the Bachelor of Nursing program requires specific general education courses to meet graduation requirements.

- Four courses will be taken at the foundational level: one from each of the thematic clusters.

For incoming students in the Bachelor of Nursing program, it is important to seek clarification of these requirements and up-to-date registration information through the Academic Advisors.

## Graduation Requirements

Students in the Bachelor of Nursing must complete all NURS and HLTH prefix courses in the program with a final grade of "C" or higher. BIOL courses require a grade of a C- or higher. To be eligible for graduation, students must satisfactorily complete all degree program requirements. Students must maintain an overall minimum GPA of 2.00 to be eligible for graduation. Students who have completed all program requirements will be awarded a Bachelor of Nursing degree from Mount Royal University.

# Bachelor of Science

## Biology, B.Sc.

---

Biology is the study of life and living organisms. A Biology Major allows students the flexibility to take a number of courses across various fields of biology including: genetics, cell biology, microbiology, molecular biology, ecology, evolution, anatomy and physiology. These courses provide a solid foundation to understand living organisms, their composition, life cycles, adaptations and environments. In the Biology Major, students will combine their theoretical knowledge with the development of practical skills through various experiential learning opportunities. Students also have the ability to specialize by completing a set of courses leading to concentrations in Cellular and Molecular Biology, Anatomy and Physiology, or Ecology and Evolution.

### Curriculum

Students must complete the following required core courses:

- BIOL 1202 - Introduction to Cell Biology
- BIOL 1204 - The Evolution of Eukaryotes
- BIOL 2101 - Genetics
- BIOL 2105 - Microbiology I
- BIOL 2110 - Comparative Vertebrate Anatomy and Physiology
- BIOL 2202 - Cellular and Molecular Biology
- BIOL 2213 - Principles of Ecology and Evolution
- BIOL 3401 - Big Questions and Big Data in Biology
- BCEM 2201 - General Biochemistry
- CHEM 1201 - General Chemistry - Structure and Bonding
- CHEM 1202 - General Chemistry - Introduction to Quantitative Chemistry
- CHEM 2101 - Organic Chemistry I
- MATH 1200 - Calculus for Scientists I
- MATH 2233 - Statistics for Biological Sciences
- PHYS 1201 - Classical Physics I
- PHYS 1202 - Classical Physics II

### One of

- GEOG 2445 - Environmental Problems and Resource Management
- INST 3740 - Indigenous Research Ethics and Protocols
- PHIL 2223 - Bio Ethics
- PHIL 2229 - Business Ethics

- PHIL 2291 - Philosophy and the Environment

### One of

- BIOL 5203 - Cellular and Molecular Biology Capstone
- BIOL 5208 - Anatomy and Physiology Capstone
- BIOL 5210 - Integrative Biology Capstone
- BIOL 5301 - Evolution and Ecology Capstone

### Biology Approved Options

Students can take 8 courses from the following list of Biology Approved Options to create their own pathway through a biology major based on their interests and future aspirations. **Students can choose between taking 8 Biology Approved Options OR one of the Concentrations below.**

- BIOL 2203 - Human Anatomy
- BIOL 2214 - Invertebrate Zoology
- BIOL 3101 - Molecular Genetics
- BIOL 3102 - Cell Dynamics and Signalling
- BIOL 3104 - Human Physiology I
- BIOL 3105 - Microbiology II
- BIOL 3106 - Evolutionary Biology
- BIOL 3108 - Conservation Biology
- BIOL 3110 - Comparative Vertebrate Biomechanics
- BIOL 3201 - Common Ground: Learning from the Land
- BIOL 3202 - Bioinformatics
- BIOL 3203 - Genomes
- BIOL 3204 - Medical Histology
- BIOL 3205 - Human Physiology II
- BIOL 3299 - Directed Readings
- BIOL 3301 - Animal Behaviour
- BIOL 4101 - Advanced Cellular and Molecular Biology I
- BIOL 4102 - Pathophysiology: Mechanisms of Disease
- BIOL 4202 - Advanced Cellular and Molecular Biology II
- BIOL 4207 - Human Embryology
- BIOL 4209 - Neuroscience
- BIOL 4210 - Sensorimotor Physiology
- BIOL 4211 - Applied Human Physiology
- BIOL 4212 - Human Metabolism
- BIOL 4230 - Special Topics in Cellular and Molecular Biology
- BIOL 4299 - Directed Readings
- BIOL 4310 - Molecular Ecology
- BIOL 4320 - Field Biology Research Techniques

- BIOL 4330 - Special Topics in Ecology and Evolution
- BIOL 4401 - Population and Conservation Genetics
- BIOL 4408 - Special Topics in Anatomy and Physiology
- BIOL 4740 - Scientific Writing & Communication in Biology
- BIOL 5201 - Independent Projects I
- BIOL 5202 - Independent Projects II
- BCEM 3201 - Protein Analytical Biochemistry
- BCEM 3202 - Enzymes and Metabolic Systems
- COMP 2001 - Computer-Based Problem Solving for the Sciences
- GEOG 2553 - Geographic Information Systems
- GEOG 3553 - Spatial Analysis and GIS

#### Note

Please note the following restrictions when selecting courses to satisfy the Biology Approved Options requirement:

- Maximum of two courses at the 2000-level;
- Maximum of two non-BIOL-prefixed courses;
- Minimum of two courses at the 4000-level or higher.

#### Electives

- Four elective courses

#### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Science - Biology.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier:  
no more than one course from a thematic cluster. BSc students will make their Tier 2 selections from clusters other than Numeracy and Scientific Literacy.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

For course information visit the General Education section of this calendar. Students are encouraged to meet with an advisor before registering for a course.

#### Concentration in Anatomy and Physiology

A concentration in Anatomy and Physiology provides students with a solid understanding of human physiology, anatomy, and cellular processes. Students that want to complete a concentration in Anatomy and Physiology need to complete four required courses, two other Anatomy and Physiology courses from the following list, and two other Biology Approved Options from the list above.

##### Required Courses

- BIOL 2203 - Human Anatomy
- BIOL 3104 - Human Physiology I
- BIOL 3204 - Medical Histology
- BIOL 3205 - Human Physiology II
- Two Biology Approved Options

##### Choose two of the following:

- BIOL 3105 - Microbiology II
- BIOL 3110 - Comparative Vertebrate Biomechanics
- BIOL 4102 - Pathophysiology: Mechanisms of Disease
- BIOL 4207 - Human Embryology
- BIOL 4209 - Neuroscience
- BIOL 4210 - Sensorimotor Physiology
- BIOL 4211 - Applied Human Physiology
- BIOL 4212 - Human Metabolism
- BIOL 4408 - Special Topics in Anatomy and Physiology

#### Concentration in Cellular and Molecular Biology

The Cellular and Molecular Biology concentration provides students with knowledge and skills directly related to the study of biological systems from biomolecular, cellular, and systemic perspectives. Students will complete six required courses and two Biology Approved Options to satisfy the requirements for this concentration.

##### Required Courses

- BIOL 3101 - Molecular Genetics
- BIOL 3102 - Cell Dynamics and Signalling
- BIOL 4101 - Advanced Cellular and Molecular Biology I
- BIOL 4202 - Advanced Cellular and Molecular Biology II
- Two Biology Approved Options

##### Choose two of the following:

- BCEM 3201 - Protein Analytical Biochemistry
- BIOL 3105 - Microbiology II
- BIOL 3202 - Bioinformatics
- BIOL 3203 - Genomes

- BIOL 4212 - Human Metabolism
- BIOL 4230 - Special Topics in Cellular and Molecular Biology

### Concentration in Ecology and Evolution

An Ecology and Evolution Concentration explores biodiversity, interactions of organisms with their environment, adaptations, and evolutionary processes. Students completing this concentration need to take eight courses from the following:

- BIOL 3106 - Evolutionary Biology
- BIOL 3108 - Conservation Biology
- BIOL 3301 - Animal Behaviour
- BIOL 4320 - Field Biology Research Techniques
- Two Biology Approved Options

#### Choose two of the following:

- BIOL 4310 - Molecular Ecology
- BIOL 4401 - Population and Conservation Genetics
- BIOL 4330 - Special Topics in Ecology and Evolution

## Biology, B.Sc. (Honours)

The BSc - Biology Honours degree provides students with an intensive year-long research experience and the opportunity to complete a major research project under the guidance of a qualified biology supervisor. The program is competitive and intended to provide advanced preparation in research to students interested in pursuing graduate programs. The core requirements for the BSc in Biology are augmented through the completion of two courses, BIOL 5501 and BIOL 5502 - Honours Research I & II, taken in sequential semesters and focused on the same project. These two additional core courses replace two of the eight Biology approved options in the BSc - Biology major, leaving students with six approved options in their Biology Honours degree. If so desired, students may complete one of the Biology concentrations concurrently with the Biology Honours degree. At the end of the project, students produce a final manuscript to their advisory committee and present their results to the Biology Department. Admission into the program requires a minimum grade of B- in BIOL 3401, a minimum GPA of 3.5 in any six 2000-, 3000-, and 4000-level BIOL-prefixed approved options or core courses and successfully securing an Honours supervisor.

### Required Core Courses

Students must complete the following core courses:

- BIOL 1202 - Introduction to Cell Biology

- BIOL 1204 - The Evolution of Eukaryotes
- BIOL 2101 - Genetics
- BIOL 2105 - Microbiology I
- BIOL 2110 - Comparative Vertebrate Anatomy and Physiology
- BIOL 2202 - Cellular and Molecular Biology
- BIOL 2213 - Principles of Ecology and Evolution
- BIOL 3401 - Big Questions and Big Data in Biology
- BCEM 2201 - General Biochemistry
- CHEM 1201 - General Chemistry - Structure and Bonding
- CHEM 1202 - General Chemistry - Introduction to Quantitative Chemistry
- CHEM 2101 - Organic Chemistry I
- MATH 1200 - Calculus for Scientists I
- MATH 2233 - Statistics for Biological Sciences
- PHYS 1201 - Classical Physics I
- PHYS 1202 - Classical Physics II
- BIOL 5501 - Honours Research I
- BIOL 5502 - Honours Research II

### One of

- GEOG 2445 - Environmental Problems and Resource Management
- INST 3740 - Indigenous Research Ethics and Protocols
- PHIL 2223 - Bio Ethics
- PHIL 2229 - Business Ethics
- PHIL 2291 - Philosophy and the Environment

### One of

- BIOL 5203 - Cellular and Molecular Biology Capstone
- BIOL 5208 - Anatomy and Physiology Capstone
- BIOL 5210 - Integrative Biology Capstone
- BIOL 5301 - Evolution and Ecology Capstone

### Biology Approved Options

Students can take 6 courses from the following list of Biology Approved Options to create their own pathway through a biology major based on their interests and future aspirations.

- BIOL 2203 - Human Anatomy
- BIOL 2214 - Invertebrate Zoology
- BIOL 3101 - Molecular Genetics
- BIOL 3102 - Cell Dynamics and Signalling
- BIOL 3104 - Human Physiology I

- BIOL 3105 - Microbiology II
- BIOL 3106 - Evolutionary Biology
- BIOL 3108 - Conservation Biology
- BIOL 3110 - Comparative Vertebrate Biomechanics
- BIOL 3201 - Common Ground: Learning from the Land
- BIOL 3202 - Bioinformatics
- BIOL 3203 - Genomes
- BIOL 3204 - Medical Histology
- BIOL 3205 - Human Physiology II
- BIOL 3299 - Directed Readings
- BIOL 3301 - Animal Behaviour
- BIOL 4101 - Advanced Cellular and Molecular Biology I
- BIOL 4102 - Pathophysiology: Mechanisms of Disease
- BIOL 4202 - Advanced Cellular and Molecular Biology II
- BIOL 4207 - Human Embryology
- BIOL 4209 - Neuroscience
- BIOL 4210 - Sensorimotor Physiology
- BIOL 4211 - Applied Human Physiology
- BIOL 4299 - Directed Readings
- BIOL 4310 - Molecular Ecology
- BIOL 4320 - Field Biology Research Techniques
- BIOL 4401 - Population and Conservation Genetics
- BIOL 4408 - Special Topics in Anatomy and Physiology
- BCEM 3201 - Protein Analytical Biochemistry
- BCEM 3202 - Enzymes and Metabolic Systems
- COMP 2001 - Computer-Based Problem Solving for the Sciences
- GEOG 2553 - Geographic Information Systems
- GEOG 3553 - Spatial Analysis and GIS

## Note

Please note the following restrictions when selecting courses to satisfy the Biology Approved Options requirement:

- Maximum of two courses at the 2000-level;
- Maximum of two non-BIOL-prefixed courses

## Electives

- Four elective courses

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Science - Biology.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: BSc students will make their Tier 2 selections from clusters other than Numeracy and Scientific Literacy.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

For course information visit the General Education section of this calendar. Students are encouraged to meet with an advisor before registering for a course.

## Concentration in Anatomy and Physiology

A concentration in Anatomy and Physiology provides students with a solid understanding of human physiology, anatomy, and cellular processes. Students that want to complete a concentration in Anatomy and Physiology need to complete six courses from the following list.

- BIOL 2203 - Human Anatomy
- BIOL 3104 - Human Physiology I
- BIOL 3204 - Medical Histology
- BIOL 3205 - Human Physiology II

### Choose Two:

- BIOL 3105 - Microbiology II
- BIOL 3110 - Comparative Vertebrate Biomechanics
- BIOL 4102 - Pathophysiology: Mechanisms of Disease
- BIOL 4207 - Human Embryology
- BIOL 4209 - Neuroscience
- BIOL 4210 - Sensorimotor Physiology
- BIOL 4211 - Applied Human Physiology

## Concentration in Cellular and Molecular Biology

The Cellular and Molecular Biology concentration provides students with knowledge and skills directly related to the study of biological systems from biomolecular, cellular, and systemic perspectives. Students will complete six required courses from the following to satisfy the requirements for this concentration.

- BIOL 3101 - Molecular Genetics
- BIOL 3102 - Cell Dynamics and Signalling
- BIOL 4101 - Advanced Cellular and Molecular Biology I
- BIOL 4202 - Advanced Cellular and Molecular Biology II

**Choose Two:**

- BCEM 3201 - Protein Analytical Biochemistry
- BIOL 3203 - Genomes
- BIOL 3105 - Microbiology II

**Concentration in Ecology and Evolution**

An Ecology and Evolution Concentration explores biodiversity, interactions of organisms with their environment, adaptations, and evolutionary processes. Students completing this concentration need to take six courses from the following:

- BIOL 3106 - Evolutionary Biology
- BIOL 3108 - Conservation Biology
- BIOL 3301 - Animal Behaviour
- BIOL 4310 - Molecular Ecology
- BIOL 4320 - Field Biology Research Techniques
- BIOL 4401 - Population and Conservation Genetics

**Chemistry, B.Sc.**

---

The Chemistry Major is intended to give students exposure to all areas of chemistry, as well as a solid grounding in general education and a community learning focus. The program also encompasses an optional concentration: Analytical Biochemistry with a strong focus on preparing students for future research or careers in biochemistry laboratories. This major has a strong experiential learning component, both in terms of course-based lab experiences and in Community Service Learning (CSL). These CSL-rich courses are one of the defining features of the program. They promote team-based approaches as learners engage with questions pertinent to their communities. The intention is to provide junior students with research experiences early in their academic careers, while senior students apply their subject matter expertise in a more advanced role. This 'real-world' team-based problem solving will help prepare learners for the types of projects they will face in their future careers.

**Curriculum**

All Chemistry students must take the following 16 required core courses.

- BCEM 2201 - General Biochemistry
- CHEM 1201 - General Chemistry - Structure and Bonding
- CHEM 1202 - General Chemistry - Introduction to Quantitative Chemistry
- CHEM 2101 - Organic Chemistry I
- CHEM 2102 - Organic Chemistry II

- CHEM 2301 - Analytical Chemistry I: Quantitative Analysis
- CHEM 2302 - Analytical Chemistry II: Introduction to Instrumental Analysis
- CHEM 2401 - Inorganic Chemistry
- CHEM 2601 - Introduction to Physical Chemistry
- CHEM 3200 - Research Methods in Chemistry
- CHEM 3601 - Thermodynamics
- COMP 2001 - Computer-Based Problem Solving for the Sciences
- MATH 1200 - Calculus for Scientists I
- MATH 2200 - Calculus for Scientists II
- PHYS 1201 - Classical Physics I
- PHYS 1202 - Classical Physics II

**Electives**

- Four elective courses.

**General Education Requirements**

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Science - Chemistry.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one course from a thematic cluster. BSc students will make their Tier 2 selections from clusters other than Numeracy and Scientific Literacy.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

For course information visit the General Education section of this calendar. Students are encouraged to meet with an advisor before registering for a course.

**Concentration in Analytical Biochemistry**

The Analytical Biochemistry concentration in the B.Sc. in Chemistry is a novel program that straddles the disciplines of analytical chemistry and biochemistry. Students will develop valuable analytical chemistry skills in the context of biochemistry and biology. This concentration will take full advantage of the community service learning opportunities integrated into the B.Sc. Chemistry degree. The skills and experiences that students will gain from this concentration will be of great value regardless of students' future plans.

- BCEM 3201 - Protein Analytical Biochemistry

- BCEM 3202 - Enzymes and Metabolic Systems
- BCEM 4201 - Lipids and Lipidomics
- BCEM 4210 - Topics in Structural Biology
- BCEM 5200 - Analytical Biochemistry in a Community Context
- BIOL 1202 - Introduction to Cell Biology
- BIOL 1204 - The Evolution of Eukaryotes
- BIOL 2101 - Genetics
- BIOL 2202 - Cellular and Molecular Biology
- CHEM 4301 - Advanced Analytical Chemistry

### General Chemistry Option

The General Chemistry option in the B.Sc. in Chemistry covers the wide range of topics found in traditional degrees. This breadth of subjects provides students with a broad range of valuable knowledge and skills. Through the use of approved options, students will be able to customize this program to suit their interests. Finally, integrated community service learning gives students valuable experience in applying classroom learning towards answering problems and concerns of external community partners.

- CHEM 3202 - Spectroscopic Methods
- CHEM 3602 - Elementary Quantum Mechanics
- CHEM 4701 - Molecular Modelling
- CHEM 5200 - Community Service Learning Projects
- MATH 1203 - Linear Algebra for Scientists and Engineers
- MATH 3200 - Mathematical Methods
- PHYS 2201 - Acoustics, Optics and Radiation

### Three of

Three of the following fourth-year courses one of which must include a lab:

- BCEM 4212 - Biochemical Pharmacology
- CHEM 4103 - Advanced Organic Chemistry: Synthesis
- CHEM 4213 - Drug Discovery
- CHEM 4301 - Advanced Analytical Chemistry
- CHEM 4411 - Organometallic Chemistry and Catalysis
- CHEM 4602 - Advanced Quantum Mechanics
- CHEM 4603 - Symmetry and Spectroscopy
- CHEM 4801 - Nuclear Chemistry

## Computer Science, B.Sc.

---

### General Information

The Bachelor of Science (B.Sc.) in Computer Science allows students to pursue a concentrated study of computer science, along with another discipline (the "Computing and X" model). Students will study the foundations of computing, including mathematics, programming, computing theory, operating systems and networking. These foundations are complemented by the knowledge accumulated in other disciplines such as biology, geographic information systems, physics, mathematics, or chemistry. The result is a unique degree featuring strength in computing, breadth in general education, and a focus on a particular discipline of interest.

Furthermore, Computer science is the intellectual heart of all the computing disciplines and it intersects with many other disciplines, such as mathematics, logic, linguistics and the natural sciences. For this reason, Computer Science remains the discipline of choice for pursuing postgraduate study. Building on a theoretical foundation in computer science, the curriculum will prepare graduates for a successful career by combining technical and professional requirements with general education. Students will develop skills and competencies in demand by the labour market: they will be communicative, creative, critical, and collaborative. High demand for students with these skills has been created by the technological changes that are rapidly transforming our economy.

The program has been developed by following well-recognized international curriculum standards from the Association for Computing Machinery (ACM) as well as through continuous consultation with senior computer scientists from Calgary businesses. The end result is a niche degree that meets the needs of graduates who must adapt to change in the future.

### Program Continuance

Students accepted into the B.Sc. in Computer Science degree program must comply with all University policies and regulations relating to baccalaureate degrees and continuance.

### Work Term

A co-operative education option is available to the students.

## General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admission* section of this calendar.

## Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the *Admission* section of this calendar, applicants must also satisfy the following criteria.

## Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Science - Computer Science program:

- English Language Arts 30-1 - 60%
- Mathematics 30-1 - 65%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

## Curriculum

The foundation of the B.Sc. Computer Science includes 16 required core courses, 6 approved (senior) option courses, 10 General Education courses, 4 electives, and 4 cognate courses in their selected cognate, for a total of 40 courses over 4 years.

## Required core courses

The 16 required core courses in the BSc Computer Science consist of the following:

- COMP 1633 - Introduction to Computer Science II
- COMP 1701 - Introduction to Problem Solving and Programming
- COMP 2613 - Introduction to Computability
- COMP 2631 - Information Structures I
- COMP 2633 - Foundations of Software Engineering
- COMP 2655 - Computing Machinery I
- COMP 2659 - Computing Machinery II
- COMP 3309 - Information Technology and Society
- COMP 3614 - Algorithms and Complexity
- COMP 3649 - Programming Paradigms
- COMP 3659 - Operating Systems

- MATH 1200 - Calculus for Scientists I
- MATH 1203 - Linear Algebra for Scientists and Engineers
- MATH 1271 - Discrete Mathematics
- MATH 2234 - Concepts of Mathematical Statistics
- PHIL 1179 - Introduction to Symbolic Logic

## Approved options

Students must complete six of the following courses as Approved Options. At least three courses must be numbered 4000 or higher.

- COMP 3533 - Network Infrastructure and Security
- COMP 3553 - Human-Computer Interaction
- COMP 3612 - Web Development for Computer Science
- COMP 3625 - Artificial Intelligence
- COMP 3626 - Evolutionary Computation
- COMP 3654 - Usable Privacy and Security
- COMP 4513 - Web III: Advanced Web Development
- COMP 4555 - Games Development
- COMP 4622 - Advanced Databases
- COMP 4630 - Machine Learning
- COMP 4633 - Advanced Software Engineering
- COMP 4635 - Distributed Systems
- COMP 5690 - Senior Computer Science Project
- DATA 2721 - Data Science I: Introduction to Databases
- MATH 2101 - Abstract Algebra
- MATH 2200 - Calculus for Scientists II
- MATH 3101 - Numerical Analysis
- MATH 4111 - Cryptography

**Note:** Courses used as approved options can not also be used to satisfy the requirements for the cognate.

## Electives

- Four elective courses.

## General Education

Ten courses must be completed to meet the General Education requirements to graduate with a B.Sc. in Computer Science.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the three thematic clusters: Values, Beliefs and

Identity, Community and Society, and Communication.

3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

### Cognate courses

Cognate courses are courses from outside the discipline that complement and enhance the breadth of knowledge and skills found in the area of study. Students are required to choose one cognate section and complete the four required courses. Please note that courses that are used for the cognates can not also be used as approved options.

### Astronomy Cognate

Required Astronomy cognate courses:

- MATH 2200 - Calculus for Scientists II
- PHYS 1201 - Classical Physics I

One of the following:

- ASTR 1301 - Planetary Astronomy
- ASTR 1303 - Stars, Galaxies, and Cosmology

One of the following:

- ASTR 2107 - Celestial Mechanics and Relativity
- ASTR 3107 - Physical Cosmology

### Biology Cognate

Required Biology cognate courses:

- BIOL 1202 - Introduction to Cell Biology
- BIOL 1204 - The Evolution of Eukaryotes
- Any two additional BIOL prefixed courses at the 2000-level or higher.

### Chemistry Cognate

Required Chemistry cognate courses:

- CHEM 1201 - General Chemistry - Structure and Bonding
- CHEM 1202 - General Chemistry - Introduction to Quantitative Chemistry
- Any two additional CHEM prefixed courses at the 2000-level or higher.

### Data Science Cognate

Four of the following courses:

- DATA 2721 - Data Science I: Introduction to Databases
- MATH 2200 - Calculus for Scientists II
- MATH 2303 - Linear Algebra for Data Science

- MATH 2444 - Statistical Data Analysis
- MATH 3454 - Regression and Time Series Analysis
- MATH 4303 - Fourier Analysis for Data Science

### Geographic Information Systems Cognate

Required Geographic Information System courses:

- GEOG 2553 - Geographic Information Systems
- GEOG 3553 - Spatial Analysis and GIS
- Any two additional GEOG prefixed courses. (GEOG 1105 is recommended).

### Geoscience Cognate

Required Geoscience cognate courses:

- GEOL 1101 - The Dynamic Earth
  - GEOL 1103 - Earth Through Time
  - Any two additional GEOL prefixed courses at the 2000-level or higher\*
- Note:** \*GEOL 2151, GEOL 2153, GEOL 2155 or GEOL 2157 may not be used towards the cognate.

### Mathematics Cognate

Four of the following Mathematics cognate courses:

- MATH 2101 - Abstract Algebra
- MATH 2200 - Calculus for Scientists II
- MATH 2311 - Linear Algebra II
- MATH 3101 - Numerical Analysis
- MATH 3200 - Mathematical Methods
- MATH 4111 - Cryptography

### Physics Cognate

Required Physics cognate courses:

- MATH 2200 - Calculus for Scientists II
- PHYS 1201 - Classical Physics I
- PHYS 1202 - Classical Physics II

One of the following:

- PHYS 2201 - Acoustics, Optics and Radiation
- PHYS 2203 - Electromagnetism

### Graduation Requirements

For graduation purposes, all degree candidates in the B.Sc. in Computer Science must complete all core courses in the program, with a final grade of C- or higher. Students are permitted one grade lower than C- in their core.

## Data Science, B.Sc.

---

The BSc Data Science provides students with thorough training in Data Science, focusing on making decisions supported by data. It includes core education in Mathematics and Statistics (to formulate relevant questions and determine the answer based on data) and Computer Science (to manipulate and visualize data efficiently), along with a concentration in a disciplinary cognate (to provide domain knowledge). The program provides a solid theoretical basis as well as practical experience and work-integrated learning opportunities. Data Science graduates have an impact on society by supporting evidence-based decisions based on humanity's ever-growing collection of data.

### Program Continuance

Students accepted into the B.Sc. in Data Science degree program must comply with all University policies and regulations relating to baccalaureate degrees and continuance.

### Work Term

Students must complete a mandatory Work Integrated Learning course. In addition, a co-operative education option is available to the students.

### General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admission* section of this calendar.

### Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the *Admission* section of this calendar, applicants must also satisfy the following criteria.

### Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Science - Data Science program:

- English Language Arts 30-1 - 60%
- Mathematics 30-1 - 65%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

## Curriculum

The B.Sc. in Data Science consists of 20 core courses, a choice of one 6-course concentration, 10 General Education courses, and 4 electives.

### Core Courses

All of the following courses are required.

- COMP 1701 - Introduction to Problem Solving and Programming
- COMP 3309 - Information Technology and Society
- COOP 0001 - Orientation to Co-operative Education
- DATA 2402 - Programming for Data Scientists
- DATA 2721 - Data Science I: Introduction to Databases
- DATA 3453 - Data Visualization
- DATA 3463 - Foundations of Data Acquisition
- DATA 3464 - Foundations of Data Processing
- DATA 3491 - Work Integrated Learning in Data Science
- DATA 4465 - Machine Learning
- MATH 1200 - Calculus for Scientists I
- MATH 1203 - Linear Algebra for Scientists and Engineers
- MATH 2071 - Mathematics for Data Science
- MATH 2234 - Concepts of Mathematical Statistics
- MATH 2303 - Linear Algebra for Data Science
- MATH 2444 - Statistical Data Analysis
- MATH 3454 - Regression and Time Series Analysis
- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3420 - Management Decision Analysis
- SCIE 3030 - Science and Indigenous Knowledge

### One of

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

### Concentration in Finance

Take the following four courses:

- ACCT 2121 - Financial Accounting Concepts
- FNCE 3227 - Introduction to Finance
- FNCE 3228 - Advanced Corporate Finance
- FNCE 3302 - International Finance

**Choose two courses from the following:**

- DATA 5496 - Data Science Capstone
- FNCE 3304 - Business and Financial Modeling
- FNCE 4405 - Entrepreneurial Finance
- FNCE 4408 - Financial Risk Management

### Concentration in Computer Science and Big Data

Take the following course:

- COMP 4422 - Big Data Database Management

**Choose five courses from the following:**

- COMP 1633 - Introduction to Computer Science II
  - COMP 2403 Functional Programming
- COMP 2511 - Web I: Client Development
- COMP 2631 - Information Structures I
- COMP 3533 - Network Infrastructure and Security
- COMP 3625 - Artificial Intelligence
- COMP 4635 - Distributed Systems
- DATA 4466 - Machine Learning Operations
- DATA 4734 - Network Science: Techniques and Applications
- DATA 5496 - Data Science Capstone

### Concentration in Logistics and Supply Chain Management

Take the following three courses:

- LSCM 2201 - Introduction to Logistics and Supply Chain Management
- LSCM 2301 - Introduction to Physical Distribution
- LSCM 3403 - Operations Management

**Choose three courses from the following:**

- LSCM 3203 - Principles of Quality Management
- LSCM 3303 - Fundamentals of Procurement
- LSCM 3305 - Physical Distribution and Logistics
- LSCM 3402 - Inventory and Warehouse Management

- LSCM 3407 - Business Negotiations/Project Management
- DATA 5496 - Data Science Capstone

### Concentration in Mathematics and Statistics

Take the following course:

- MATH 2200 - Calculus for Scientists II

**Choose five courses from the following:**

- DATA 4734 - Network Science: Techniques and Applications
- DATA 5496 - Data Science Capstone
- MATH 3101 - Numerical Analysis
- MATH 3200 - Mathematical Methods
- MATH 3372 - Graph Theory and Optimization
- MATH 3465 - Multivariate Statistical Analysis
- MATH 3552 - Probability
- MATH 4303 - Fourier Analysis for Data Science
- MATH 4553 - Stochastic Processes

### Electives

Complete four elective courses.

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a B.Sc. in Data Science.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the three thematic clusters: Values, Beliefs and Identity, Community and Society, and Communication.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

### Environmental Science, B.Sc.

Environmental science is an interdisciplinary field that uses a scientific understanding of the environment to develop solutions to environmental challenges. Students in the Environmental Science Major are provided the opportunity to gain competency in understanding and addressing environmental issues. The program assists students in becoming proficient in multiple environmental disciplines while also developing the field and laboratory skills needed to work within an interdisciplinary environment. The skills developed by students prepare them for careers related to environmental research, regulatory

monitoring compliance and many other professional careers in environmental science. Students in the program gain invaluable, practical work experience by participating in two full-time, four-month paid work term placements in the environment sector. Graduates develop a wide range of transferable skills that are applicable to the vast and growing environmental sector job market. They are eligible for designation as a Professional Agrologist (Alberta Institute of Agrology) upon graduation. Their environmental science education can be continued by undertaking a graduate degree.

## Curriculum

- CHEM 1202 - General Chemistry - Introduction to Quantitative Chemistry
- CHEM 2157 - Industrial Organic Chemistry
- ECOL 1111 - Terrestrial Ecology
- ECOL 2201 - Plant Survey and Classification
- ECOL 2219 - Aquatic Ecology
- ENVS 1105 - Data Processing and Statistics
- ENVS 1111 - Professional Development, Health and Safety
- ENVS 2020 - Work Experience I
- ENVS 2100 - Introduction to Environmental Science
- ENVS 2203 - Introduction to Soil Science
- ENVS 2215 - Applied Instrumentation
- ENVS 2221 - Water Pollution and Surface Water Analysis
- ENVS 3020 - Work Experience II
- ENVS 3305 - Soil Hydrology
- ENVS 3307 - Air Pollution Monitoring
- ENVS 3323 - Watershed Management
- ENVS 3333 - Ground Water Contamination
- ENVS 3335 - Issues in Environmental Assessment
- ENVS 4201 - Environmental Science Research Methods and Projects
- ENVS 4405 - Air Quality
- ENVS 4406 - Soil Genesis and Land Use
- ENVS 4419 - Regulatory Management
- ENVS 4431 - Waste Management
- ENVS 4441 - Site System Remediation Design
- GEOL 1101 - The Dynamic Earth
- MATH 1185 - Calculus with Applications **or**
- MATH 1200 - Calculus for Scientists I
- MATH 1203 - Linear Algebra for Scientists and Engineers
- MGMT 3269 - Project Management

## Electives

- Four senior elective courses.

## General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Science - Environmental Science.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier:  
no more than one course from a thematic cluster. BSc students will make their Tier 2 selections from clusters other than Numeracy and Scientific Literacy.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

For course information visit the General Education section of this calendar. Students are encouraged to meet with an advisor before registering for a course.

## Graduation Requirements

Students completing degree requirements will be awarded a Bachelor of Science degree in their chosen major from Mount Royal University.

## General Science, B.Sc.

The General Science Major provides a comprehensive undergraduate education in science, exposing students to a wide range of disciplines. Students are free to explore what interests them most, as well as gain greater depth of understanding by declaring concentrations in two of: Biology, Chemistry, Geology, Geography, Mathematics and Physics. A strong foundation in mathematical and computational sciences is core to the program of study, ensuring students are equipped to meet these in-demand skills. In the final year of study, students complete two capstone courses (a senior seminar and an interdisciplinary project) that provide understanding and exposure regarding how science and technology intersects and influences society. These capstone experiences are excellent preparation for further post-secondary studies, for professional programs, or for direct entry into the workforce. Graduates of this program will have acquired both breadth and depth of knowledge across scientific disciplines and will have developed the skills of critical thinking, creative problem solving, effective communication, and collaborative teamwork.

## Curriculum

1. Two six-course concentrations in two distinct disciplines, plus a three-course block in a third distinct discipline.

- The three-course block must contain at least one courses at the 2000-level or higher.
- Each six-course concentration contains at least two courses at the 2000-level or higher, and two courses at the 3000-level or higher. The concentrations are defined for each discipline (below).
- A student will not be given credit for more than one concentration within a fundamental discipline (ie. Biology, Chemistry, Computing, Geography, Geology, Mathematics, Physics).
- A student can not count the same course in two separate concentrations.

2. Three Mathematics courses may be taken as the three-course block or as part of a six-course concentration. Students must take the following two courses:

- MATH 1200 - Calculus for Scientists I
- MATH 2234 - Concepts of Mathematical Statistics

And one course from the following:

- MATH 1203 - Linear Algebra for Scientists and Engineers
- MATH 2200 - Calculus for Scientists II
- MATH 2444 - Statistical Data Analysis

3. Two Computing courses:

- COMP 2001 - Computer-Based Problem Solving for the Sciences
- COMP 2008 - Scientific Computing I: Modeling and Simulation

4. One course on the practice and application of interdisciplinary science

- SCIE 3010 - Understanding and Translating Scientific Research

5. An additional six General Science Options selected from courses offered by the Faculty of Science and Technology that include a General Science Option attribute. Courses are not guaranteed and are subject to availability and restrictions.

- Within the six General Science Options, two courses must be at the 2000-level or higher, and two courses must be at the 3000-level or higher.
- Any one General Science course cannot be used to satisfy more than one requirement within the major.

6. Two General Science Capstone Courses:

- SCIE 5010 - General Science Senior Student Seminar

Plus one of:

- BIOL 5201 - Independent Projects I
- CHEM 5201 - Independent Projects I
- GEOL 5201 - Independent Research Project
- PHYS 5201 - Independent Projects I
- SCIE 5020 - General Science Interdisciplinary Project
- SCIE 5030 - Work Integrated Learning in General Science

7. General Education requirements in a program will normally consist of a minimum of 10 courses.

- Four courses will be taken at the foundation level: one from each of the General Education Program's four thematic cluster areas.
- Three courses will be taken at the second tier: no more than one from a given thematic cluster. BSc students will make their Tier 2 selections from clusters other than Numeracy and Scientific Literacy.
- Three courses must be taken at the third tier, selected from at least two of the four thematic clusters.

8. Four elective courses

### Biology Concentration

- BIOL 1202 - Introduction to Cell Biology
- BIOL 1204 - The Evolution of Eukaryotes
- BIOL 2101 - Genetics

One of:

- BIOL 2202 - Cellular and Molecular Biology
- BIOL 2203 - Human Anatomy
- BIOL 2213 - Principles of Ecology and Evolution

Two of:

- BIOL 3103 - Introduction to Biophysics
- BIOL 3107 - Evolution in Health and Disease
- BIOL 3108 - Conservation Biology
- BIOL 3203 - Genomes
- BIOL 3204 - Medical Histology
- BIOL 3208 - The Molecular and Genomic Revolutions in Biology
- BIOL 3216 - Human Physiology and Adaptation to Environmental Stress
- BIOL 3301 - Animal Behaviour

#### Chemistry Concentration

- CHEM 1201 - General Chemistry - Structure and Bonding
- CHEM 1202 - General Chemistry - Introduction to Quantitative Chemistry
- CHEM 2101 - Organic Chemistry I
- CHEM 2102 - Organic Chemistry II
- CHEM 3201 - Structure Determination

One of:

- BCEM 3201 - Protein Analytical Biochemistry \*
- BCEM 3202 - Enzymes and Metabolic Systems \*
- BCEM 4212 - Biochemical Pharmacology \*
- CHEM 4103 - Advanced Organic Chemistry: Synthesis

\* Requires students to take BCEM 2201 as a General Science Option.

#### Geography Concentration

- GEOG 1101 - The Physical Environment
- GEOG 1103 - The Human Environment **or**
- GEOG 1105 - Introduction to Mapping, GIS and Remote Sensing
- GEOG 2107 - Weather and Climate **or**
- GEOG 2111 - Earth's Changing Surface
- GEOG 2445 - Environmental Problems and Resource Management **or**
- GEOG 2553 - Geographic Information Systems
- GEOG 3107 - Conservation Biogeography **or**
- GEOG 4440 - Sustainable Development Geography
- GEOG 3445 - Global Environmental Issues **or**

- GEOG 3553 - Spatial Analysis and GIS

#### Geology Concentration

- GEOL 1101 - The Dynamic Earth
- GEOL 1103 - Earth Through Time
- GEOL 2107 - Palaeontology
- GEOL 2109 - Stratigraphy and Sedimentation
- GEOL 3107 - Geomorphology
- GEOL 4105 - Hydrogeology

#### Mathematics Concentration

- MATH 1200 - Calculus for Scientists I
- MATH 1203 - Linear Algebra for Scientists and Engineers
- MATH 2200 - Calculus for Scientists II
- MATH 2234 - Concepts of Mathematical Statistics
- MATH 3101 - Numerical Analysis
- MATH 3200 - Mathematical Methods

#### Physics Concentration

- PHYS 1201 - Classical Physics I
- PHYS 1202 - Classical Physics II
- PHYS 2201 - Acoustics, Optics and Radiation
- PHYS 2203 - Electromagnetism
- PHYS 3601 - Thermodynamics
- PHYS 3602 - Elementary Quantum Mechanics

#### Graduation Requirements

Students completing degree requirements will be awarded a Bachelor of Science degree in their chosen major from Mount Royal.

### Geology, B.Sc.

Geology is the science of Earth and its planetary neighbours. It focuses on the fundamental principles and processes that shape our evolving planet. Geology is an interdisciplinary science that encompasses all other sciences within it, but all share a core of knowledge about the composition of Earth materials. Geology explores the character of Earth from its surface environment to its core, including its composition, structure, prehistoric life, internal and surficial processes, and the impact of geology on our everyday lives. The goal is to understand and protect the planet through discovery, education, and outreach. Students study geosciences in the classroom, laboratory and field, and make use of the whole Earth as their field area. The curriculum

provides students with hands-on experience studying earth materials, often in small experiential settings. Research opportunities are available for students to work with faculty studying a broad array of topics in the Geosciences spanning climate and environmental change, tectonics and dynamics of Earth's interior, sustainable extraction of energy and minerals, and extinction events throughout Earth's history. The program provides the academic foundation for a professional degree, graduate education, and a variety of employment opportunities in geosciences and related fields.

### Entry into the Program

Students transferred into the Geology Major must register immediately in the following courses in the Fall semester following their acceptance into the program; failure to do so will affect course availability and progression through the program:

- GEOL 2103 - Minerals and Rocks
- GEOL 2105 - Structural Geology
- GEOL 2300 - Geological Field Methods I

### Field Schools and Field Trips

Field Schools and Field Trips are an integral part of the Geology major program. Students should note that there will be costs, in addition to tuition, to cover transportation, food and accommodation for the following Field Schools:

- GEOL 2300 - Geological Field Methods I
- GEOL 3300 - Geological Field Methods II
- GEOL 4300 - Advanced Geological Field Methods

### Note

These courses will be held for approximately 12-14 days after the end of the Winter semester or before the start of the Fall semester. In addition to Field Schools, individual courses may include Field Trips as part of the curriculum. These trips are typically 1-2 days in length but may be longer.

### Curriculum

- CHEM 1201 - General Chemistry - Structure and Bonding
- CHEM 1202 - General Chemistry - Introduction to Quantitative Chemistry
- COMP 1001 - Introduction to Computer-Based Problem Solving for the Sciences
- GEOL 1101 - The Dynamic Earth
- GEOL 1103 - Earth Through Time
- GEOL 2103 - Minerals and Rocks
- GEOL 2105 - Structural Geology
- GEOL 2107 - Palaeontology

- GEOL 2109 - Stratigraphy and Sedimentation
- GEOL 2111 - Crystallography and Optical Mineralogy
- GEOL 2300 - Geological Field Methods I
- GEOL 3103 - Igneous Petrology
- GEOL 3107 - Geomorphology
- GEOL 3109 - Sedimentary Petrology
- GEOL 3111 - Metamorphic Petrology
- GEOL 3113 - Geochemistry
- GEOL 3115 - Exploration Geophysics
- GEOL 3300 - Geological Field Methods II
- GEOL 4105 - Hydrogeology
- GEOL 4107 - Geological History of Western Canada **or**
- GEOL 4607 - Geology of the Canadian Cordillera
- GEOL 4109 - Petroleum Geology
- GEOL 4111 - Ore Deposits and Economic Geology
- GEOL 4300 - Advanced Geological Field Methods
- MATH 1200 - Calculus for Scientists I
- MATH 1203 - Linear Algebra for Scientists and Engineers
- MATH 2235 - Statistics with Applications in Geology
- PHYS 1201 - Classical Physics I
- PHYS 1202 - Classical Physics II

### Two of

- GEOL 4101 - Advanced Topics in Sedimentary Geology
- GEOL 4103 - Advanced Topics in Igneous and Metamorphic Geology
- GEOL 4515 - Sedimentary Basin Analysis
- GEOL 4601 - Plate Tectonic Regimes

### Electives

- One elective course.

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Science - Geology.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one course from a thematic cluster. BSc students will make their Tier 2

- selections from clusters other than Numeracy and Scientific Literacy.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

For course information visit the General Education section of this calendar. Students are encouraged to meet with an advisor before registering for a course.

## Graduation Requirements

Students completing degree requirements will be awarded a Bachelor of Science degree in their chosen major from Mount Royal University.

## Geology, B.Sc. (Honours)

A B.Sc. Honours in Geology emphasize excellence in knowledge-based learning and experiential research in the geological sciences. As part of this degree, students complete research in impactful and publishable projects and become valued contributors to the research teams of their advisory committee. Students are trained to work in the field and lab as appropriate to their projects and to work with datasets in relevant software. A B.Sc. Honours in Geology requires successful completion of the required program courses, 6 credits in research (GEOL 5501, GEOL 5502), and an overall 3.3 GPA.

### Entry into the Program

Following the completion of 21 credits in GEOL courses with a minimum grade of B- in each GEOL course, students who have achieved an overall 3.3 GPA are eligible to apply to the Honours in Geology BSc-degree program. Students must already be registered in the Faculty of Science and Technology and have been accepted into the Geology BSc. program.

Before applying, students should first consult their prospective primary supervisor(s) to discuss the possible opportunities in research and to determine their preferred research topics and/or techniques.

Applications should be submitted **before April 1** to be considered for enrollment in the Honours program for the following academic year.

To apply, students should submit:

1. An emailed cover letter addressed to the Department of Earth and Environmental Sciences Chair and the Geology Program Coordinator. The prospective supervisors should be cc'd. The cover letter should highlight the following:

- (a) the motivation for applying to the Honours program;
- (b) a statement of intended career goals;
- (c) general research interests and desired potential research topics; and,
- (d) the suggested primary supervisor(s) for the research component of the degree.

2. Unofficial transcripts from Mount Royal University, as well as unofficial transcripts from other institution(s) if the student has transferred to MRU.

Applicants will be notified of the decision by **May 15**.

A successful application to the Honours program will be communicated to the applicant by the Chair of the department or the Geology Program Coordinator as a letter that lists and includes (cc) the primary supervisor(s) who has accepted the student for research in GEOL 5501 - Honours Research I. With the successful completion of GEOL 5501, it is expected that the supervisor will continue to work with the student in GEOL 5502 - Honours Research II on the same project, under normal circumstances.

### Curriculum

- CHEM 1201 - General Chemistry - Structure and Bonding
- CHEM 1202 - General Chemistry - Introduction to Quantitative Chemistry
- COMP 1001 - Introduction to Computer-Based Problem Solving for the Sciences
- GEOL 1101 - The Dynamic Earth
- GEOL 1103 - Earth Through Time
- GEOL 2103 - Minerals and Rocks
- GEOL 2105 - Structural Geology
- GEOL 2107 - Palaeontology
- GEOL 2109 - Stratigraphy and Sedimentation
- GEOL 2111 - Crystallography and Optical Mineralogy
- GEOL 2300 - Geological Field Methods I
- GEOL 3103 - Igneous Petrology
- GEOL 3107 - Geomorphology
- GEOL 3109 - Sedimentary Petrology
- GEOL 3111 - Metamorphic Petrology
- GEOL 3113 - Geochemistry
- GEOL 3115 - Exploration Geophysics
- GEOL 3300 - Geological Field Methods II
- GEOL 4105 - Hydrogeology
- GEOL 4107 - Geological History of Western Canada **or**
- GEOL 4607 - Geology of the Canadian Cordillera
- GEOL 4109 - Petroleum Geology

- GEOL 4111 - Ore Deposits and Economic Geology
- GEOL 4300 - Advanced Geological Field Methods
- GEOL 5501 - Honours Research I
- GEOL 5502 - Honours Research II
- MATH 1200 - Calculus for Scientists I
- MATH 1203 - Linear Algebra for Scientists and Engineers
- MATH 2235 - Statistics with Applications in Geology
- PHYS 1201 - Classical Physics I
- PHYS 1202 - Classical Physics II

credit for the courses undertaken as part of the Honours (and be awarded a BSc. in Geology).

One of

- GEOL 4101 - Advanced Topics in Sedimentary Geology
- GEOL 4103 - Advanced Topics in Igneous and Metamorphic Geology
- GEOL 4515 - Sedimentary Basin Analysis
- GEOL 4601 - Plate Tectonic Regimes

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Science - Geology.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: BSc students will make their Tier 2 selections from clusters other than Numeracy and Scientific Literacy.
3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

For course information visit the General Education section of this calendar. Students are encouraged to meet with an advisor before registering for a course.

### Graduation Requirements

An Honours thesis or similar (i.e., manuscript for submission to a journal/book or professional report) is an expected product of the two research courses; additional requirements (e.g., presentation at a conference) may be included as expected deliverables by the supervisor and advisory committee members.

Students must maintain a 3.3 GPA average at graduation in order to be awarded a BSc. Honours degree in Geology. If students do not meet the 3.3 GPA requirement at graduation they will not be awarded an Honours degree, but they will be given

# Bachelor of Social Work

## Social Work, BSW

---

### General Information

The Bachelor of Social Work is a direct entry, a four-year degree. Courses in social work practice, theory, policy, and research are grounded within contemporary theoretical frameworks, including decolonization, Indigenous ways of knowing, anti-oppressive practice, and strengths perspectives. This course of study prepares students for practice with individuals, children and families, groups, and communities in complex social settings. Advanced study and practice within a child intervention concentration provide specialized training for Social Work students who plan to work in child intervention settings.

The learning outcomes for the Bachelor of Social Work reflect the values, knowledge, and skills that Social Work students are expected to acquire and demonstrate upon completion of the BSW and are designed to equip them for professional practice. These include

### 1. Foundational Social Work Knowledge:

- a. Develop an understanding of the historical, philosophical, ethical, and theoretical perspectives of Social Work practice.
- b. Develop a professional identity as a Social Work practitioner consistent with the values and goals required for professional practice.
- c. Have knowledge of, and demonstrate an ability to, practice within the relevant parameters of the profession, including the Alberta College of Social Work Standards of Practice and the Canadian Association of Social Work Guidelines for Ethical Practice.
- d. Demonstrate the ability to assess the social, economic, cultural, and structural contexts of social issues facing individuals, children and families, groups, and communities, including the impact of oppression and marginalization at a variety of levels as well as those traditionally impacting Indigenous communities in Canada.
- e. Acquire knowledge and skills to apply Social Work theories in support of service provision, professional practice, policy development, and research in local and global contexts.

### 2. Respect for Indigenous Ways of Knowing and Being:

- a. Support Indigenous efforts to restore health to people, families, communities, and nations.
- b. Understand the history of Social Work interventions with Indigenous peoples, including the Residential School era, the Sixties Scoop, and contemporary Canadian contexts.
- c. Recognize the diversity among Indigenous peoples and communities.
- d. Demonstrate awareness of Indigenous ways of knowing and being and their impact on helping practices
- e. Incorporate into their practice the unique and diverse experiences of Indigenous individuals and communities and ensure effective engagement and collaboration with Indigenous children, families, and communities.

### 3. Child Intervention:

- a. Preserve and support families.
- b. Incorporate a strength-based, safety-organized approach to child intervention with children, families and communities.
- c. Develop the knowledge and skills to gather and critically evaluate information using a variety of evidence-informed approaches and tools to aid in conducting child intervention investigations across communities and cultures.
- d. Develop skills to establish, sustain, and foster effective working relationships with children, families, and communities that are focused on achieving child intervention outcomes.
- e. Develop and apply knowledge of the impact of Residential School experiences and the Sixties Scoop on Indigenous children and their caregivers.

### 4. Practice Skills:

- a. Engage with individuals, children and families, groups, and communities through inclusive professional Social Work practice.
- b. Develop knowledge and practice skills in a broad range of areas, including engagement, assessment, intervention, advocacy and evaluation.
- c. Develop knowledge and practice skills to engage in anti-oppressive practice and advocacy with/ on behalf of individuals, children and families, groups, and communities.

- d. Develop knowledge and demonstrate skills in critically evaluating social policies in relation to the wellbeing of children and families, groups and communities, including Indigenous peoples and immigrants in Canadian and global contexts, and contribute to policy advocacy and change.
- e. Acquire knowledge and skills to critique, apply, or participate in Social Work research and evaluation.
- f. Practice collaboratively and contribute to equitable partnerships within the context of teamwork, interprofessional practice, and community engagement.

### 5. Critical Thinking/Analysis:

- a. Understand and articulate the multiple causes and impacts of complex social issues and exercise appropriate professional judgment.
- b. Develop skills in critical thinking and decision-making.
- c. Identify and address structural sources of injustice and inequalities in the Canadian and global contexts, including the impact of colonization on Indigenous and newcomer communities.

### 6. Human Rights, Diversity, and Social Justice:

- a. Understand the causes of discrimination, oppression, poverty, exclusion, exploitation, and marginalization and their impacts on individuals, children and families, groups, and communities.
- b. Develop knowledge and skills to provide respectful, equitable and effective services to diverse populations and communities as informed by their unique history, values, and cultures.
- c. Develop a capacity for self-reflection and a critical understanding of power, privilege and social location, as well as awareness of personal biases as they relate to professional Social Work practice.
- d. Employ professional practices that support and enhance diversity and advance social justice for individuals, children and families, groups, and communities.

## General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admission* section of this calendar.

### Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the *Admission* section of

this calendar, applicants must also satisfy the following criteria:

### Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Social Work:

- English Language Arts 30-1-65%
- Social Studies 30-1 or Aboriginal Studies 30-60%

Although Conditional Admission may be granted in advance of receipt of final and official transcripts, confirmation of the achievement of specified minimum grades will take place after all final and official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

### Bachelor of Social Work Post-Diploma Entrance Option

Students possessing a completed Social Work Diploma from Mount Royal University or from an accredited post-secondary institution within Alberta may apply through the Post-Diploma entrance option and will be considered through a competitive admission process for the Bachelor of Social Work degree.

### Indigenous Student Admission

Each year 15% of the seats in the Bachelor of Social Work will be reserved for Indigenous applicants through an Indigenous admission target. To be considered for admission under the Indigenous admission target, the applicant must:

1. self-identify as an Indigenous applicant on the Application for Admission
2. meet the definition of an Indigenous Applicant
3. meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program level admission requirements

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during Early Admission. Any unfilled designated seats will be released on **July 15** to students applying under the general admission requirements.

### Academic Performance Requirements

In matters of progression and continuance, there are instances when institutional processes do not fully

address concerns related to student continuance in a program. This applies in the following circumstances:

1. Violations of a professional code of ethics and/or standards of practice (i.e. Canadian Association of Social Work Code of Ethics and Guidelines for Ethical Practice, and the Alberta College of Social Work Standards of Practice). A committee established by the program will assess violations of relevant codes and standards and whether the student will be required to withdraw from the program based on the seriousness of the violation.
2. Students who are unsuccessful after two registrations in the same core course (as defined by the program) will be required to withdraw from the program. This includes the following examples of unsuccessful registration:
  - Students who do not achieve the minimum required grade (as defined by the program) in one or both registrations;
  - Students who earn a grade of "F" in one or both registrations; and
  - Students who withdraw from the course with a "W" in one or both registrations.
3. Students who are denied a practicum placement by an external stakeholder because of an assessed detrimental impact on the client, client group, or community being served. Students who are unable to meet clinical or field course requirements on this basis will be required to withdraw from the program. An appeal process is available, see the Bachelor of Social Work Handbook and the Practicum Manual.

### Police Information Check

All students will be selected for a practicum on the basis of academic performance, professional suitability, volunteer community service and availability of practicum sites. At the time of practicum, students will be required, at their own expense, to obtain a Police Information Check. It is each practicum agency's decision to accept or reject a student for placement or observation experience based upon the results of police information or other background checks. Since both completion of course requirements and eventual employment in a field of study may be dependent upon the results of such checks, students who have concerns should discuss

the matter with the department chair or designate prior to applying for admission.

### Field School Opportunities

Qualified students may have an opportunity to complete a field school, normally during the Spring semester.

### Curriculum

- INTS 1240 - Fundamentals of Professional Communication
- INTS 3331 - International Community Development: Indigenous and Global Perspectives
- SLWK 1114 - Introduction to Social Work History, Philosophy and Theory
- SLWK 1187 - Social Welfare Policies and Issues
- SLWK 2215 - Social Work Assessment and Documentation
- SLWK 2216 - Counselling Skills
- SLWK 1296 - Social Work Practice I
- SLWK 2217 - Interprofessional Practice and Leadership in Social Work Organizations
- SLWK 2218 - Social Work Knowledge and Skills for Group Work
- SLWK 2221 - Social Work Practice with Communities
- SLWK 2222 - Social Work Practice with Families
- SLWK 2223 - Social Work Practice in Addictions and Mental Health
- SLWK 3301 - Child and Adolescent Mental Health
- SLWK 3315 - Diversity, Equity and Inclusion as Anti-oppressive Practice in Social Work
- SLWK 3316 - Human Development and Social Contexts
- SLWK 3397 - Social Work Practice II
- SLWK 4416 - Social Justice and Social Work Practice
- SLWK 4417 - Social Work Research in Practice: Empowering Individuals, Families and Communities

### General Education Requirements

Ten courses must be completed to meet the General Education requirements to graduate with a Bachelor of Social Work.

1. Four courses will be taken at the foundational level: one from each of the thematic clusters.
2. Three courses will be taken at the second tier: no more than one from each of the thematic clusters.

3. Three courses must be taken at the third tier, selected from at least two of the thematic clusters.

Students are encouraged to meet with an advisor before registering for all support courses.

### Electives

- Four Electives.

*An elective is any course that does not fulfill a requirement for the Core, Major or General Education.*

### Concentrations

Students enrolled in the Bachelor of Social Work must complete one of the two concentrations.

#### Concentration in Child Intervention

Students must complete all of the following courses for this concentration:

- INST 1101 - Introduction to Indigenous Studies: the Canadian Context
- SLWK 2224 - Indigenous Knowledges and Practices in Social Work
- SLWK 3521 - Social Work Theories and Practice to Support Change in Child Intervention
- SLWK 4415 - Emerging Issues in Social Work Practice
- SLWK 4521 - Advanced Social Work Skills in Child Intervention
- SLWK 4597 - Social Work Practice III - Child Intervention Practice

#### Concentration in Generalist Social Work

Students must complete all of the following courses for this concentration:

- INST 1101 - Introduction to Indigenous Studies: the Canadian Context
- SLWK 2224 - Indigenous Knowledges and Practices in Social Work
- SLWK 3321 - Social Work Theories and Practice to Support Change
- SLWK 4415 - Emerging Issues in Social Work Practice
- SLWK 4421 - Advanced Social Work Intervention Skills
- SLWK 4497 - Social Work Practice III

### Graduation Requirements

Eligibility to graduate from a Mount Royal program requires that a student meet all of the following conditions:

1. has been officially admitted into the program;
2. has completed at least 25% of the graduation requirements as a student within the program;
3. has met the residency requirement;
4. satisfies all program requirements specified in the curriculum at the time of admission to the program or the current program;
5. meets the requirements for Good Standing at the time the application to graduate is evaluated.
6. students should also be aware that a maximum of 16 junior (1000-level) Courses may be used to satisfy requirements for a baccalaureate degree.
7. all graduation requirements for a baccalaureate degree program must be completed within eight years of initial admission to and enrolment in the baccalaureate degree program.

### Program Graduation Requirements

Degree candidates in the Bachelor of Social Work must complete all core courses in the program with a final grade of "C" or better. To be eligible for graduation, students must satisfactorily complete all program requirements. Students must maintain an overall minimum GPA of 2.00 to be eligible for graduation. Students who have completed all program requirements will be awarded a Bachelor of Social Work from Mount Royal University.

# Diploma's

## Aviation

---

### General Information

The Aviation Diploma program is designed to prepare students to succeed in Canada's aviation industry. In addition to providing students the opportunity to complete the training required for a Commercial Pilot's Licence and Multi-Engine Instrument Rating, the program provides students with a strong business background, the aeronautical subjects associated with flight in modern aircraft and an understanding of the expectations of the industry. Students who pursue a degree after completion of an Aviation diploma are encouraged to take appropriate university transfer courses.

Student success rates in Air Flight Training courses are significantly increased for those students who successfully complete Physics 30. Therefore, it is strongly recommended that students planning to complete Flight Training include Physics 30 in their selection of high school courses.

The program is certified by Transport Canada. Mount Royal University is also an active member of Aviation Alberta and the Air Transport Association of Canada's Flight Training Committee. The instructors include Airline Transport-rated Pilots with upper-class instructional classifications or graduates of Mount Royal University's Aviation Program.

In addition to the flight and academic requirements, students in this program will be required to meet the expectations of the aviation profession in terms of dress, deportment and professional conduct at all times.

### Program Continuance

In addition to the general graduation requirements, students must achieve the following:

1. A minimum grade of C is required in all Air Flight Training (AIRF) courses.
2. Students engaged in FLTR courses will receive a pass or fail. Students may repeat FLTR courses only once. Students must achieve a passing grade in FLTR courses to register for further FLTR courses.
3. Students must follow the policies and procedures as stated in the current version of the Student Handbook and Standard Operating Procedures, or they may be subject to removal from the program.

### Special Program Fees

In addition to regular tuition and general fees, flight training fees are approximately \$65,000 for a student in the two-year Aviation Diploma. A Private Pilot Licence (cost approximately \$18,000 to \$22,000) must be completed prior to registering for any Flight Training (FLTR) coursework. Flight training fees are subject to change depending on operating costs for aircraft and related services.

### Financial Assistance

Due to the cost of this program, students may be eligible for the maximum Canada Student Loan and the Government of Alberta Loan. Please refer to the section on Financial Aid for further information.

Advance savings to complement the loan funds are essential. All fees for the program are to be paid to Mount Royal University.

### Operational Procedures

Mount Royal University Aviation's operational procedures are outlined in the Student Handbook, the Standard Operating Procedures and other manuals produced by the department. Students are required to make themselves familiar with these documents and all of the policies and procedures contained therein. In exceptional and legitimate circumstances, extensions or exemptions may be granted by the Chief Flight Instructor (CFI) or Program Chair. Procedures for applying for an exception or exemption are available from either the CFI or the Program Chair.

### General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admission* section of this calendar.

### Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the *Admission* section of this calendar, applicants must also satisfy the following criteria:

### Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Aviation Diploma program:

- English Language Arts 30-1 - 60%
- Mathematics 30-1 or Mathematics 30-2 - 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum

grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

### Indigenous Student Admission

Each year 7% of the admission seats in the Aviation diploma program will be reserved for Indigenous students through an Indigenous admission target.

To be considered for admission under the Indigenous admission target, the applicant must:

- a. self-identify as an Indigenous applicant on the Application for Admission
- b. meet the definition of an Indigenous Applicant
- c. meet the minimum admission requirements as indicated in the General Admission Requirements for Mount Royal University as well as the specific admission requirements for the Aviation diploma

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during the Early Admissions period. Any unfilled designated seats will be released on June 15 to students applying under the General Admission requirements.

See general admission requirements in the Admissions section of this calendar for further information.

### Curriculum

#### Pending final approval

##### Year One

- AIRF 1101 - Introduction to Aviation Navigation
- AIRF 1109 - Introduction to Aviation Meteorology (Introductory)
- AIRF 1130 - Aircraft Engines and Systems
- AIRF 2101 - Aviation History and Air Law
- AIRF 2111 - Aeronautics, Industry and Flight Operations
- AIRF 2209 - Advanced Aviation Meteorology
- AIRF 2210 - Human Factors, Safety and Aviation Technology
- MGMT 2262 - Statistics and Analytics for Business or any MATH course at the 1000 level or above
- General Education Requirement, Cluster 1, Foundation
- General Education Requirement, Cluster 4, Foundation

##### Year Two

- AIRF 3202 - Multi-Engine Instrument Rating
- AIRF 3206 - CRM-TEM and Two Crew Coordination
- AIRF 3242 - Advanced Aviation Psychology and Preparing for Industry
- HRES 2170 - Introduction to Human Resources
- LSCM 3403 - Operations Management
- MGMT 2130 - Management Principles and Practices
- One Approved Option\*
- General Education Requirement, Cluster 2, Foundation
- General Education Requirement, Cluster 3, Foundation
- General Education Requirement, Cluster 4, Foundation

#### \*Approved Option courses

Students may select one of the following approved options:

- ACCT 2121 - Financial Accounting Concepts
- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- ENTR 2301 - Innovation and the Entrepreneurial Experience
- INBU 2201 - Cross-Cultural Management
- INBU 3301 - Global Business Environment
- INBU 3302 - International Marketing
- INBU 3304 - Global Supply Chain Management
- INBU 3306 - International Trade Research
- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3230 - Business Law
- MGMT 3276 - Organizational Behaviour
- MKTG 2150 - Fundamentals of Marketing
- SINV 2201 - Changing the World: An Introduction to Social Innovation

#### Graduation Requirements

- Minimum overall Grade Point Average of 2.00 on all courses included in the program.
- A minimum grade of C is required in all Air Flight Training courses.

Please consult the University Calendar for information concerning the University's General Education requirement.

## Flight Training

Students in the Aviation Diploma have the opportunity to participate in training towards a Commercial Pilot Licence and Multi-Engine Instrument Rating. The information below pertains to students planning to participate in flight training.

### Requirements

Students who intend to register in FLTR courses must have a Category 1 Aviation Medical issued by Transport Canada and hold a Class 1 Medical for the entire period of their training. A Canadian Private Pilot Licence is also required.

Students registered in FLTR courses must take each course in the appropriate sequence, only registering in subsequent FLTR courses when given the appropriate registration form. Students who wish to have credit for previous flight training must contact the Chief Flight Instructor to discuss a plan for determining what credit may be received. Flight training, simulator training, or ground briefing may be part of the process to determine the appropriate FLTR placement of the student.

### Flight Training Requirements

Students should be aware that Transport Canada requires that all of the licensing requirements for the Commercial Licence must be completed within one year of the date of the flight test. As a result, it is the students' responsibility to ensure that the timing of their flight test is planned accordingly, in order to ensure they will not have to retake the flight test.

- FLTR 1100 - Pilot Indoctrination
- FLTR 1101 - VFR Navigation
- FLTR 1102 - Applied Navigation and Instrument
- FLTR 1103 - Night Rating
- FLTR 1105 - Multi-engine Rating
- FLTR 2100 - Currency
- FLTR 2102 - IFR Navigation and Holds
- FLTR 2103 - Approach Basics
- FLTR 2104 - IFR Operations
- FLTR 2105 - Group 1 Instrument Rating
- FLTR 2106 - Commercial Pilot License Flight Test Preparation

## Funeral Service

---

### General Information

Mount Royal's Funeral Programs prepare students for an entry-level position in the funeral service profession. The majority of courses are delivered online, and students learn from expert instructors in an interactive environment. In many cases, the work experience courses can be completed in the community of your choice, however, relocation may be required to find a suitable placement. Students who intend to complete work experience courses outside of Alberta will need to contact their provincial regulatory body for advice on eligibility and if any restrictions may apply.

The Funeral Service diploma is the credential preferred by funeral home employers. Students are prepared to be licensed as a Funeral Director and as an Embalmer.

### Program Duration

Program requirements for diploma completion can be completed in 12 months. Students have six calendar years from the date of initial registration in the Funeral Service diploma to complete all requirements. Students seeking an extension beyond six (6) years may be required to complete additional coursework.

### Residency Requirements

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at the University, except where written approval has been given by the dean/director of the appropriate faculty. In addition, the embalming practicum and work experience components of the Funeral Service programs must normally be completed as a student of Mount Royal.

### Work Experience

The work experience courses are designed to provide an extension of the learning process in a relevant work environment, allowing students to further develop their skills alongside funeral service professionals. The work experience courses are typically offered each semester and may often be completed at the same time as the academic courses.

Students are responsible for securing their own work experience placement. Given the fluctuating nature of the labour market, opportunities may vary, and students should be prepared to relocate. Any student who exhibits professional misconduct before or during the work experience placement may be required to withdraw from the program.

## **Post-Admission Program Requirements**

Post-admission program requirements are non-academic requirements that must be completed after a student is admitted to the program and prior to taking embalming practicum and work experience courses. Post-admission program requirements must remain current for the duration of the program, and all associated costs are the responsibility of the student. The program will provide students with more information on the requirements, including all applicable deadlines. The post-admission program requirements include the following:

### **Mask Fit Testing**

All students participating in the embalming practicum must be fitted for N95 masks. Mask fit-testing is valid for two years unless there has been weight gain or loss greater than 4.5 kilograms, or following nasal fracture or facial scarring, in which case, refitting is required sooner. Mask fit testing is provided to students as part of the embalming practicum course. Students can also provide evidence of a current mask fit test to the program team, and students must have their mask size with them for practical experiences.

### **Personal Protective Equipment**

Students participating in the embalming practicum are required to purchase personal protective equipment at their own expense. Personal protective equipment will be available for purchase at the Cougars Campus Store.

### **Immunization & Blood Serology Testing**

Proof of up-to-date immunization status and blood serology testing to confirm immunity is required for the duration of the program and is the responsibility of the student. All associated costs are the responsibility of the student. Failure to maintain a current immunization and blood serology testing status may result in immediate withdrawal from practical courses.

### **Standard (Intermediate) First Aid and CPR Level C**

Students will be required to provide proof of current Standard (Intermediate) First Aid and CPR Level C. Evidence of certification is to be provided after admission to the program and by the advertised deadline. Certification must be valid for the duration of the program. Failure to maintain the current Standard (Intermediate) First Aid with CPR C certification may result in immediate withdrawal from practical courses. All associated costs are the responsibility of the student.

## **WHMIS**

Students must present evidence of valid WHMIS certification. The certification must be valid for the duration of the program. All associated costs are the responsibility of the student.

## **Additional Work Experience Requirements**

Work experience locations may require additional requirements. All associated costs are the responsibility of the student. Documentation of these additional requirements may be requested by and provided to the work experience location by the student. These may include:

### **Police Information Check**

Students preparing for work experience may be required to provide a current Police Information Check to their work experience location, at their own expense. Each location decides to accept or decline a student for work experience placement based on the results of police information or other background checks. Please refer to the statement regarding police information and other background checks in this calendar.

### **Non-Graduated Class 5 Driver's License**

Students preparing for work experience may be required to provide a non-graduated Class 5 driver's license to their work experience location, at their own expense. Each location decides to accept or decline a student for work experience placement if they do not have a non-graduated Class 5 driver's license. This may also impact the student's ability to complete the program requirements for graduation or to gain employment in the funeral profession.

### **Driver's Abstract**

Students preparing for work experience may be required to provide a driver's abstract to their work experience location, at their own expense. Each location decides to accept or decline a student for work experience placement if they do not have an acceptable driver's abstract. This may also impact the student's ability to complete the program requirements for graduation or to gain employment in the funeral profession.

## **General Admission Requirements**

Applicants are not required to meet the General Admission Requirements for Mount Royal University programs. Applicants must meet the English Language Proficiency Requirement if their first language (learned and understood) is not English.

Applicants are not required to provide transcripts from any high school or post-secondary institutions unless they intend to use them to meet English Language Proficiency.

In addition, applicants must present evidence of funeral-related experience.

## Curriculum

The diploma is specialized in nature and requires students to complete 20 core courses (1847 hours).

**Note:** Occupational Programs are non-credit Continuing Education programs that do not meet General Admission Requirements. Therefore, the courses taken within these programs cannot be used towards an undergraduate degree, diploma or certificate program nor do students have access to undergraduate courses in degree, diploma or certificate programs. There is no limit to the number of non-credit academic upgrading courses you may complete.

- XFDC 25000 - Professional Practice & Decedent Care
- XFDC 25001 - Funeral Directing I
- XFDC 20002 - Embalming Theory 1
- XFDC 20004 - Funeral Directing II
- XFDC 20005 - Embalming Theory II
- XFDC 20007 - Restorative Art I
- XFDC 20008 - Funeral Directing III
- XFDC 20010 - Restorative Art II
- XFDC 20012 - Work Experience I
- XFDC 20013 - Anatomy & Physiology
- XFDC 20014 - Psychology of Death & Dying
- XFDC 20016 - Business Strategies
- XFDC 20017 - Work Experience II
- XFDC 20018 - Chemistry
- XFDC 20019 - Business Communications
- XFDC 20020 - Microbiology
- XFDC 20023 - Embalming Practicum
- XFDC 20025 - Funeral Trends & Regulations
- XFDC 20101 - Intro to Conflict Resolution
- XFDC 20102 - Negotiating with Integrity

## Graduation Requirements

To be eligible for graduation, students must satisfy all program requirements.

Students must follow the graduation application procedure outlined in the current Mount Royal Academic Calendar. Applications must be submitted by the date published in the calendar.

For the purpose of progression and graduation, all students in the Funeral Service diploma must obtain a

minimum grade of C in all courses with the following exceptions:

- XFDC 20012 - Work Experience I with a minimum grade of EP
- XFDC 20017 - Work Experience II with a minimum grade of EP
- XFDC 20023 - Embalming Practicum with a minimum grade of EP

## Professional Licensing

Graduates of the Funeral Service programs may become licensed as a Funeral Director and/or Embalmer in the province of Alberta. Licensing requirements are governed by the Alberta Funeral Services Regulatory Board. Please refer to the Alberta Funeral Services Regulatory Board for all requirements - [afsrb.ab.ca](http://afsrb.ab.ca).

Students or graduates residing outside of Alberta should contact the provincial or national regulatory body governing funeral service in their province.

## Massage Therapy

---

### General Information

Apply therapeutic massage techniques and adapt treatments to promote rehabilitation and pain reduction for diverse populations in a variety of supervised environments. Evaluate the effectiveness of massage therapy on specific client conditions, and contribute to the community of knowledge through the integration of student research and practice. Achieve the highest standard of education and training required to work as a massage therapist nationally.

### Program Duration

Program requirements for diploma completion can be completed in 2 years, and delivered over 8 consecutive semesters. Students have six calendar years from the date of initial registration in the Massage Therapy diploma to complete all requirements. Students seeking an extension beyond six years may be required to complete additional coursework.

### Residency Requirements

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at the University, except where written approval has been given by the dean/director of the appropriate faculty. In addition, the clinical practicum and outreach components of the Massage Therapy certificate and Massage Therapy diploma must normally be completed as a student of Mount Royal.

## Police Information Check

Students preparing for Outreach II & III may be required to provide a current Police Information Check and Vulnerable Sector Check, at their own expense. It is each Outreach agency's decision to accept or reject a student for placement based upon the results of police information or other background checks. Please refer to the statement regarding police information and other background checks in this calendar.

## Standard First Aid and CPR Level C

Students must provide proof of current Certification of "Standard First Aid and CPR Level C", which is also required on an annual basis. Evidence of certification is required prior to enrollment into the experiential learning courses - Practicums I, II, III, IV, Outreach I, II, III, and Case Study Lab. All associated costs are the responsibility of the student.

## General Admission Requirements

Applicants are not required to meet the General Admission Requirements for Mount Royal University programs. Applicants must meet the English Language Proficiency Requirement (if your primary or first language is not English). In addition, official transcripts from all high school and post-secondary institutions attended are required.

## Curriculum

The diploma is specialized in nature and requires students to complete 34 core courses (2200 hours), over eight consecutive semesters.

**Note:** Occupational Programs are non-credit Continuing Education programs that do not meet General Admission Requirements. Therefore, the courses taken within these programs cannot be used towards an undergraduate degree, diploma or certificate program nor do students have access to undergraduate courses in degree, diploma or certificate programs. There is no limit to the number of non-credit academic upgrading courses you may complete.

## Year One

- XPFT 20001 - Human Anatomy
- XPFT 20002 - Human Physiology
- XMAT 20701 - Ethics & Communication I
- XMAT 25001 - Medical Terminology
- XMAT 25002 - Musculoskeletal Anatomy
- XMAT 25003 - Fundamentals of Charting
- XMAT 25004 - Fundamentals of Massage
- XMAT 25006 - Massage Techniques I

- XMAT 25007 - Outreach I
- XMAT 25008 - Pathology I
- XMAT 25009 - Therapeutic Exercise I
- XMAT 25010 - Massage Techniques II
- XMAT 25011 - Orthopedic Assessment I
- XMAT 25012 - Practicum I
- XMAT 25013 - Regional Anatomy
- XMAT 25014 - Regional Anatomy Lab
- XMAT 25015 - Fundamentals of Research
- XMAT 25016 - Treatments I

## Year Two

- XMAT 25018 - Pathology II
- XMAT 25019 - Therapeutic Exercise II
- XMAT 25020 - Neuroanatomy
- XMAT 25021 - Orthopedic Assessment II
- XMAT 25022 - Treatments II
- XMAT 25023 - Practicum III
- XMAT 25024 - Outreach II
- XMAT 25025 - Ethics & Communications II
- XMAT 25026 - Treatments III
- XMAT 25027 - Practicum IV
- XMAT 25028 - Business of Massage Therapy
- XMAT 25029 - Outreach III
- XMAT 25030 - OSCE: Objective Standardized Clinical Examination
- XMAT 25031 - Case Study - Literature Review
- XMAT 25032 - Case Study - Literature Review Lab

## Graduation Requirements

To be eligible for graduation all students in the Massage Therapy diploma must satisfy all program requirements and obtain a minimum grade of B- in all courses with the following exceptions:

- XPFT 20001 - Human Anatomy (minimum grade of C)
- XPFT 20002 - Human Physiology (minimum grade of C)
- XMAT 25007 - Outreach I (minimum grade of EP)
- XMAT 25008 - Pathology I (minimum grade of C)
- XMAT 25012 - Practicum I (minimum grade of EP)
- XMAT 25017 - Practicum II (minimum grade of EP)
- XMAT 25018 - Pathology II (minimum grade of C)
- XMAT 25020 - Neuroanatomy (minimum grade of C)

- XMAT 25023 - Practicum III (minimum grade of EP)
- XMAT 25024 - Outreach II (minimum grade of EP)
- XMAT 25027 - Practicum IV (minimum grade of EP)
- XMAT 25029 - Outreach III (minimum grade of EP)
- XMAT 25032 - Case Study - Literature Review Lab (minimum grade of EP)

## Personal Fitness Trainer

---

### General Information

Mount Royal's Personal Fitness Trainer diploma presents a comprehensive health science education with an emphasis on treating special populations. The outcomes-based curriculum consists of academic and technical courses including practical skill development. Students are prepared for entry into professional practice by possessing the ability to apply basic assessment skills and design, implement and manage a variety of fitness programs.

Graduates achieve the highest standard of training required to work as a Personal Fitness Trainer and are eligible for the Canadian Society for Exercise Physiology-Certified Personal Trainer national certification.

### Program Duration

Program requirements for diploma completion can be completed in two years. Students have six calendar years from the date of initial registration in the Personal Fitness Trainer diploma to complete all requirements. Students seeking an extension beyond six years may be required to complete additional coursework.

### Residency Requirements

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at the University, except where written approval has been given by the dean/director of the appropriate faculty. In addition, the practicum components of the Personal Fitness Trainer diploma must normally be completed as a student of Mount Royal.

### Practicum Requirements

All students will be selected for a practicum on the basis of academic performance, professional suitability and availability of practicum sites.

At the time of the practicum, students will be required, at their own expense, to provide proof of current Standard First Aid with CPR C. Evidence of certification is to be provided prior to the commencement of practicum and must be valid for the duration of the program. Failure to maintain current Standard First Aid with CPR C certification will result in immediate withdrawal from the practicum course(s).

### General Admission Requirements

Applicants are not required to meet the General Admission Requirements for Mount Royal University programs. Applicants must meet the English Language Proficiency Requirement (if your primary or first language is not English). In addition, official transcripts from all high school and post-secondary institutions attended are required.

### Curriculum

The Personal Fitness Trainer diploma is specialized in nature and requires students to complete a total of 22 core courses (1060 hours).

**Note:** Students enrolled in Occupational Programs are not permitted to take credit courses because Occupational Programs are non-credit Continuing Education programs that do not meet General Admission Requirements. There is no limit to the number of non-credit academic upgrading courses you may complete.

### Year One

- XPFT 20001 - Human Anatomy
- XPFT 20002 - Human Physiology
- XPFT 20104 - Effective Communication
- XPFT 20200 - Exercise Physiology
- XPFT 20201 - Applied Movement Mechanics
- XPFT 20401 - Fitness Program Design
- XPFT 21001 - Health & Wellness
- XPFT 21002 - Health Promotion & Training
- XPFT 21003 - Strength Training I
- XPFT 21004 - Introductory Nutrition
- XPFT 21005 - Practicum I

### Year Two

- XPFT 20300 - Principles & Methods of Training
- XPFT 20400 - Fitness Appraisal/Counselling
- XPFT 20402 - Leadership Development
- XPFT 20600 - Business Mgmt & Marketing
- XPFT 22001 - Growth & Motor Development
- XPFT 22002 - Injury Prevention & Care
- XPFT 22003 - Strength Training II

- XPFT 22004 - Special Populations - General
- XPFT 22005 - Special Population - Older Adult
- XPFT 22006 - Practicum II
- XPFT 22007 - Psychology of Exercise

## Graduation Requirements

Students must follow the graduation application procedure outlined in the current Mount Royal Academic Calendar. Applications must be submitted by the date published in the calendar.

For the purpose of progression and graduation, all students in the Personal Fitness Trainer diploma must satisfy all diploma requirements and obtain a minimum grade of "C" in all courses with the following exceptions:

- XPFT 21004 - Introductory Nutrition with a minimum grade of D
- XPFT 21005 - Practicum I with a minimum grade of EP
- XPFT 22006 - Practicum II with a minimum grade of EP

## CSEP-CPT Certification

Upon graduating from the Personal Fitness Trainer diploma program, students can pursue certification to become a Canadian Society for Exercise Physiology - Certified Personal Trainer. Details about certification requirements can be found on the Canadian Society for Exercise Physiology (CSEP) website - [csep.ca](http://csep.ca)

## Social Work

### General Information

The Social Work Diploma is a two-year program combining social work, humanities, and behavioural sciences knowledge and skills. The program prepares students for social work practice with individuals, families, groups and communities. Graduates are employed in a broad range of government (public), non-profit and private agencies. Social Work diploma graduates are eligible to apply to become Registered Social Workers in Alberta.

The learning outcomes for the Social Work Diploma reflect the values, knowledge, and skills required for professional practice. These include:

1. Foundational Knowledge: understand the historical, philosophical, ethical, and theoretical perspectives of social work practice.
2. Practice: skills to engage, assess, advocate, and intervene at the micro, mezzo, and macro levels in an inclusive manner.

3. Critical Thinking/Analysis: understand and articulate the multiple causes and impacts of social issues.
4. Academic Skills: organize written materials and oral presentations to communicate effectively for academic and professional purposes.
5. Personal & Social Responsibility: engage in reflective practice through active involvement with diverse communities and contemporary social issues.

## Academic Performance Requirements

In matters of progression and continuance, there are instances when institutional processes do not fully address concerns related to student continuance in a program.

This applies in the following circumstances:

- a. Violations of a professional code of ethics and/or standards of practice (i.e. Canadian Association of Social Work Code of Ethics and Guidelines for Ethical Practice, and the Alberta College of Social Work Standards of Practice). A committee established by the program will assess violations of relevant codes and standards and whether the student will be required to withdraw from the program based on the seriousness of the violation.
- b. Students who are unsuccessful after two registrations in the same core course (as defined by the program) will be required to withdraw from the program. This includes but is not limited to the following examples of unsuccessful registration:
  - Students who do not achieve the minimum required grade (as defined by the program) in one or both registrations;
  - Students who earn a grade of "F" in one or both registrations; and
  - Students who withdraw from the course with a "W" in one or both registrations.
- c. Students who are denied a practicum placement by an external stakeholder because of an assessed detrimental impact on the client, client group, or community being served. Students who are unable to meet clinical or field course requirements on this basis will be required to withdraw from the program.

An appeal process is available, see Student Handbook

## Practicum Requirements

All students will be selected for a practicum on the basis of academic performance, professional suitability, volunteer community service and availability of practicum sites.

At the time of practicum, students will be required, at their own expense, to obtain a Police Information Check. It is each practicum agency's decision to accept or reject a student for placement or observation experience based upon the results of police information or other background checks. Since both completion of course requirements and eventual employment in a field of study may be dependent upon the results of such checks, students who have concerns should discuss the matter with the department chair or designate prior to applying for admission.

## Field School Opportunities

Qualified students may have an opportunity to complete a field school, normally during the Spring semester.

## General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admission* section of this calendar.

## Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the *Admission* section of this calendar, applicants must also satisfy the following criteria:

## Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Social Work Diploma program:

- English Language Arts 30-1-65%
- Social Studies 30-1 or Aboriginal Studies 30-60%

Although Conditional Admission may be granted in advance of receipt of final and official transcripts, confirmation of the achievement of specified minimum grades will take place after all final and official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

## Indigenous Student Admission

Each year 15% of the seats in the Social Work Diploma program will be reserved for Indigenous applicants through an Indigenous admission target. To be considered for admission under the Indigenous admission target, the applicant must:

- a. self-identify as an Indigenous applicant on the Application for Admission
- b. meet the definition of an Indigenous Applicant
- c. meet the minimum admission requirements as indicated in the general admission requirements for Mount Royal University as well as any program level admission requirements

Designated seats for this special consideration target will be filled by Indigenous applicants on a competitive basis. Applicants are encouraged to apply during Early Admission. Any unfilled designated seats will be released on June 15 to students applying under the general admission requirements.

## Curriculum

### Year One

- INTS 1240 - Fundamentals of Professional Communication
- PSYC 1105 - Introductory Psychology for Non-Majors
- PSYC 2235 - Life-Span Development
- SLWK 1114 - Introduction to Social Work History, Philosophy and Theory
- SLWK 1187 - Social Welfare Policies and Issues
- SLWK 2215 - Social Work Assessment and Documentation
- SLWK 2216 - Counselling Skills
- SLWK 2287 - Social Work Practicum I
- SLWK 2224 - Indigenous Knowledges and Practices in Social Work
- General Education Requirement Cluster 4, Foundation

### Year Two

- SLWK 2217 - Interprofessional Practice and Leadership in Social Work Organizations
- SLWK 2218 - Social Work Knowledge and Skills for Group Work
- SLWK 2222 - Social Work Practice with Families
- SLWK 2297 - Social Work Practicum II
- SLWK 2221 - Social Work Practice with Communities

- SLWK 2223 - Social Work Practice in Addictions and Mental Health
- General Education Requirement
- General Education Requirement
- General Education Requirement
- General Education Requirement

### General Education Requirements

Five courses must be completed to meet the General Education requirements to graduate with a Diploma in Social Work.

1. One course will be taken at the foundational level from Cluster 4 - Communications.
2. The four remaining courses will be taken; one from each thematic cluster at any tier level.

For course information visit the General Education section of this calendar. Students are encouraged to meet with an advisor before registering for a course.

# Certificate's

## Funeral Director

---

### General Information

Mount Royal's Funeral Programs prepare students for an entry-level position in the funeral service profession. The majority of courses are delivered online, and students learn from expert instructors in an interactive environment. In many cases, the work experience courses can be completed in the community of your choice, however, relocation may be required to find a suitable placement. Students who intend to complete work experience courses outside of Alberta will need to contact their provincial regulatory body for advice on eligibility and if any restrictions may apply.

Concentrate on funeral directing. Students are prepared to become licensed as a Funeral Director.

### Program Duration

Program requirements for certificate completion can be completed in 12 months. Students have six calendar years from the date of initial registration in the Funeral Director certificate to complete all requirements. Students seeking an extension beyond six years may be required to complete additional coursework.

### Residency Requirements

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at the University, except where written approval has been given by the dean/director of the appropriate faculty. In addition, the work experience components of the Funeral Service programs must normally be completed as a student of Mount Royal.

### Work Experience

The work experience courses are designed to provide an extension of the learning process in a relevant work environment, giving students an opportunity to further develop their skills alongside funeral service professionals. The work experience courses are typically offered each semester and may often be completed at the same time as the academic courses.

Students are responsible for securing their own work experience placement. Given the fluctuating nature of the labour market, opportunities may vary, and students should be prepared to relocate. Any student who exhibits professional misconduct before or during

the work experience placement may be required to withdraw from the program.

### Post-Admission Program Requirements

Post-admission program requirements must be completed after a student is admitted to the program and prior to taking work experience courses. Post-admission program requirements must remain current for the duration of the program, and all associated costs are the responsibility of the student. The program will provide students with more information on the requirements, including all applicable deadlines. The post-admission program requirements include the following:

#### Immunization & Blood Serology Testing

Proof of up-to-date immunization status and blood serology testing to confirm immunity is required for the duration of the program and is the responsibility of the student. All associated costs are the responsibility of the student. Failure to maintain a current immunization and blood serology testing status may result in immediate withdrawal from practical courses.

#### Standard (Intermediate) First Aid and CPR Level C

Students will be required to provide proof of current Standard (Intermediate) First Aid and CPR Level C. Evidence of certification is to be provided after admission to the program and by the advertised deadline. Certification must be valid for the duration of the program. Failure to maintain the current Standard (Intermediate) First Aid with CPR C certification may result in immediate withdrawal from practical courses. All associated costs are the responsibility of the student.

#### WHMIS

Students must present evidence of valid WHMIS certification. The certification must be valid for the duration of the program. All associated costs are the responsibility of the student.

#### Additional Work Experience Requirements

Work experience locations may require additional requirements. All associated costs are the responsibility of the student. Documentation of these additional requirements may be requested by and provided to the work experience location by the student. These may include:

## Police Information Check

Students preparing for work experience may be required to provide a current Police Information Check to their work experience location, at their own expense. It is each location's decision to accept or decline a student for work experience placement based on the results of police information or other background checks. Please refer to the statement regarding police information and other background checks in this calendar.

## Non-Graduated Class 5 Driver's License

Students preparing for work experience may be required to provide a non-graduated Class 5 driver's license to their work experience location, at their own expense. It is each location's decision to accept or reject a student for work experience placement if they do not have a non-graduated Class 5 driver's license. This may also impact the student's ability to complete the program requirements for graduation or to gain employment in the funeral profession.

## Driver's Abstract

Students preparing for work experience may be required to provide a driver's abstract to their work experience location, at their own expense. It is each location's decision to accept or decline a student for work experience placement if they do not have an acceptable driver's abstract. This may also impact the student's ability to complete the program requirements for graduation or to gain employment in the funeral profession.

## General Admission Requirements

Applicants are not required to meet the General Admission Requirements for Mount Royal University programs. Applicants must meet the English Language Proficiency Requirement if their first language (learned and understood) is not English. Applicants are not required to provide transcripts from any high school or post-secondary institutions unless they intend to use them to meet English Language Proficiency.

In addition, applicants must present evidence of funeral-related experience.

## Curriculum

The certificate is specialized in nature and requires students to complete 12 core courses (1815 hours).

**Note:** Occupational Programs are non-credit Continuing Education programs that do not meet General Admission Requirements. Therefore, the courses taken within these programs cannot be used

towards an undergraduate degree, diploma or certificate program nor do students have access to undergraduate courses in degree, diploma or certificate programs. There is no limit to the number of non-credit academic upgrading courses you may complete.

- XFDC 25000 - Professional Practice & Decedent Care
- XFDC 25001 - Funeral Directing I
- XFDC 20004 - Funeral Directing II
- XFDC 20008 - Funeral Directing III
- XFDC 20012 - Work Experience I
- XFDC 20014 - Psychology of Death & Dying
- XFDC 20016 - Business Strategies
- XFDC 20019 - Business Communications
- XFDC 20024 - Funeral Director Work Experience II
- XFDC 20025 - Funeral Trends & Regulations
- XFDC 20101 - Intro to Conflict Resolution
- XFDC 20102 - Negotiating with Integrity

## Graduation Requirements

To be eligible for graduation, students must satisfy all program requirements.

Students must follow the graduation application procedure outlined in the current Mount Royal Academic Calendar. Applications must be submitted by the date published in the calendar.

For the purpose of progression and graduation, all students in the Funeral Director certificate must obtain a minimum grade of "C" in all courses with the following exceptions:

- XFDC 20012 - Work Experience I
- XFDC 20024 - Funeral Director Work Experience II with a minimum grade of "EP".

## Professional Licensing

Graduates of the Funeral Service programs may become licensed as a Funeral Director and/or Embalmer in the province of Alberta. Licensing requirements are governed by the Alberta Funeral Services Regulatory Board. Please refer to the Alberta Funeral Services Regulatory Board for all requirements - [afsrb.ab.ca](http://afsrb.ab.ca).

Students or graduates residing outside of Alberta should contact the provincial or national regulatory body governing funeral service in their province.

## Embalmer

---

### General Information

Mount Royal's Funeral Programs prepare students for an entry-level position in the funeral service profession. The majority of courses are delivered online, and students learn from expert instructors in an interactive environment. In many cases, the work experience course can be completed in the community of your choice, however, relocation may be required to find a suitable placement. Students who intend to complete work experience courses outside of Alberta will need to contact their provincial regulatory body for advice on eligibility and whether any restrictions may apply.

The embalmer certificate specializes in embalming and restorative arts. Students are prepared to become licensed as an Embalmer.

### Program Duration

Program requirements for certificate completion can be completed in 12 months. Students have six calendar years from the date of initial registration in the Embalmer certificate to complete all requirements. Students seeking an extension beyond six years may be required to complete additional coursework.

### Residency Requirements

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at the University, except where written approval has been given by the dean/director of the appropriate faculty. In addition, the embalming practicum and work experience components of the Funeral Service programs must normally be completed as a student of Mount Royal.

### Work Experience

The work experience courses are designed to provide an extension of the learning process in a relevant work environment, giving students an opportunity to further develop their skills alongside funeral service professionals. The work experience courses are typically offered each semester and may often be completed at the same time as the academic courses.

Students are responsible for securing their own work experience placement. Given the fluctuating nature of the labour market, opportunities may vary, and students should be prepared to relocate. Any student who exhibits professional misconduct before or during the work experience placement may be required to withdraw from the program.

## Post-Admission Program Requirements

Post-admission program requirements must be completed after a student is admitted to the program and prior to taking embalming practicum and work experience courses. Post-admission program requirements must remain current for the duration of the program, and all associated costs are the responsibility of the student. The program will provide students with more information on the requirements, including all applicable deadlines. The post-admission program requirements include the following:

### Mask Fit Testing

All students participating in the embalming practicum must be fitted with N95 masks. Mask fit-testing is valid for two years unless there has been weight gain or loss greater than 4.5 kilograms, or following nasal fracture or facial scarring, in which case, refitting is required sooner. Mask fit testing is provided to students as part of the embalming practicum course. Students can also provide evidence of a current mask fit test to the program team, and students must have their mask size with them for practical experiences.

### Personal Protective Equipment

Students participating in the embalming practicum are required to purchase personal protective equipment at their own expense. Personal protective equipment will be available for purchase at the Cougars Campus Store.

### Immunization & Blood Serology Testing

Proof of up-to-date immunization status and blood serology testing to confirm immunity is required for the duration of the program and is the responsibility of the student. All associated costs are the responsibility of the student. Failure to maintain a current immunization and blood serology testing status may result in immediate withdrawal from practical courses.

### Standard (Intermediate) First Aid and CPR Level C

Students will be required to provide proof of current Standard (Intermediate) First Aid and CPR Level C. Evidence of certification is to be provided after admission to the program and by the advertised deadline. Certification must be valid for the duration of the program. Failure to maintain the current Standard (Intermediate) First Aid with CPR C certification may result in immediate withdrawal from practical courses. All associated costs are the responsibility of the student.

## WHMIS

Students must present evidence of valid WHMIS certification. The certification must be valid for the duration of the program. All associated costs are the responsibility of the student.

## Additional Work Experience Requirements

Work experience locations may require additional requirements. All associated costs are the responsibility of the student. Documentation of these additional requirements may be requested by and provided to the work experience location by the student. These may include:

## Police Information Check

Students preparing for work experience may be required to provide a current Police Information Check to their work experience location, at their own expense. It is each location's decision to accept or decline a student for work experience placement based on the results of police information or other background checks. Please refer to the statement regarding police information and other background checks in this calendar.

## Non-Graduated Class 5 Driver's License

Students preparing for work experience may be required to provide a non-graduated Class 5 driver's license to their work experience location, at their own expense. It is each location's decision to accept or decline a student for work experience placement if they do not have a non-graduated Class 5 driver's license. This may also impact the student's ability to complete the program requirements for graduation or to gain employment in the funeral profession.

## Driver's Abstract

Students preparing for work experience may be required to provide a driver's abstract to their work experience location, at their own expense. It is each location's decision to accept or decline a student for work experience placement if they do not have an acceptable driver's abstract. This may also impact the student's ability to complete the program requirements for graduation or to gain employment in the funeral profession.

## General Admission Requirements

Applicants are not required to meet the General Admission Requirements for Mount Royal University programs. Applicants must meet the English Language Proficiency Requirement if their primary or first language (learned and understood) is not English. Applicants are not required to provide

transcripts from any high school or post-secondary institutions unless they intend to use them to meet English Language Proficiency.

In addition, applicants must present evidence of funeral-related experience.

## Curriculum

The certificate is specialized in nature and requires students to complete 10 core courses (465 hours).

**Note:** Occupational Programs are non-credit Continuing Education programs that do not meet General Admission Requirements. Therefore, the courses taken within these programs cannot be used towards an undergraduate degree, diploma or certificate program nor do students have access to undergraduate courses in degree, diploma or certificate programs. There is no limit to the number of non-credit academic upgrading courses you may complete.

- XFDC 20002 - Embalming Theory 1
- XFDC 20005 - Embalming Theory II
- XFDC 20007 - Restorative Art I
- XFDC 20010 - Restorative Art II
- XFDC 20013 - Anatomy & Physiology
- XFDC 20018 - Chemistry
- XFDC 20020 - Microbiology
- XFDC 20022 - Embalmer Work Experience
- XFDC 20023 - Embalming Practicum
- XFDC 25000 - Professional Practice & Decedent Care

## Graduation Requirements

To be eligible for graduation, students must satisfy all program requirements.

Students must follow the graduation application procedure outlined in the current Mount Royal Academic Calendar. Applications must be submitted by the date published in the calendar.

For the purpose of progression and graduation, all students in the Embalmer certificate must obtain a minimum grade of C in all courses with the following exceptions:

- XFDC 20023 - Embalming Practicum
- XFDC 20022 - Embalmer Work Experience with a minimum grade of EP.

## Professional Licensing

Graduates of the Funeral Service programs may become licensed as a Funeral Director and/or Embalmer in the province of Alberta. Licensing requirements are governed by the Alberta Funeral

Services Regulatory Board. Please refer to the Alberta Funeral Services Regulatory Board for all requirements - **[afsrb.ab.ca](http://afsrb.ab.ca)**.

Students or graduates residing outside of Alberta should contact the provincial or national regulatory body governing funeral service in their province.

# Post Bachelor's Certificate's

## Advanced Accounting

---

### General Information

This certificate is designed for individuals with prior post-secondary education and work experience. It will be of value to individuals contemplating a career change or those who wish to expand their knowledge of the field. Normally, senior-level courses are taken after the completion of introductory-level courses. Students may receive credits from previous higher education courses but should consult the information and timelines posted online for the assessment of transfer credit equivalency. Students can attend the program on a full-time or part-time basis; courses are offered during the day and night time, depending on student demand. The time to complete the program is dependent on the individual student's circumstances.

### Admission Requirements

Post-secondary degree.

**Note:** Students applying for admission into the Advanced Accounting Certificate are required to have successfully completed ACCT 2121 - Financial Accounting Concepts. Because of the sequential (prerequisite) nature of accounting courses, the time required to complete the Advanced Accounting Certificate is typically three to four semesters (18 months to 2 years).

### Curriculum

Students intending to pursue the PEP post-graduation need to make themselves aware of the CPA student academic achievement requirements for pre-requisite learning for entrance into the PEP program. These academic requirements can be found by visiting the CPA Alberta website.

- ACCT 3221 - Intermediate Accounting I
- ACCT 3224 - Management Accounting I
- ACCT 3228 - Management Accounting II
- ACCT 4222 - Intermediate Accounting II
- ACCT 4225 - Principles of Auditing
- ACCT 4280 - Introduction to Personal and Corporate Income Tax
- ACCT 4381 - Advanced Financial Accounting
- ACCT 4382 - Advanced Managerial Accounting

### Graduation Requirements

To graduate, all Business Administration Certificate students must successfully complete all the courses in the curriculum with a minimum overall Grade Point Average of 2.00.

## Athletic Therapy

---

### General Information

This program is designed to provide participants with advanced knowledge, experience and skills in the delivery of athletic therapy services. This program is accredited through the Canadian Athletic Therapists Association. The program includes theoretical, field and clinical practicum experiences that prepare practitioners for the certification exams.

### Admission Requirements

Applicants for the Athletic Therapy program must possess a degree in kinesiology, physical education, human kinetics, exercise science or equivalent. Successful applicants must have completed the following courses (either as part of their degree matriculation or subsequent to the degree):

- Human Anatomy
- Human Physiology
- Exercise Physiology
- Biomechanics
- Prevention and Care of Athletic Injuries
- Introductory Strength Training
- Introductory Flexibility

Once a student is offered conditional admission, they will be informed of the timing and delivery of the following four courses that must be successfully completed to gain final admission into the program.

- ATTH 2112 - Clinical Musculoskeletal Anatomy (3 credits)
- ATTH 2050 - Professional Practice in Athletic Therapy (3 credits)
- First Responder for Athletic Therapy\*
- Taping and Prophylactic Support

\*It should be noted that this is not a traditional First Responder course offered in the community. It is a customized course that bridges the first responder curriculum with the athletic therapy curriculum. It can only be taken through Mount Royal University.

The last three courses are typically offered in August each year. Students will be required to make the appropriate arrangements to be available and attend these courses when offered.

Admission is competitive, meaning students with a higher conditional admission GPA will be considered first and preference will be given to applicants with a minimum Grade Point Average of 3.00 on the

conditional and final admission average. Conditional admission will be based on the four most recently completed courses by Dec. December 31 and final admission will be based on the eight most recently completed courses by June April 30. In addition, applicants are required to present, preference will be given to applicants with a Grade Point Average GPA of 3.00 in Human Anatomy and in Prevention and Care of Athletic Injuries.

## Curriculum

Due to course prerequisites, sequencing and course offering, this program will take approximately two years to complete. Not all semesters will require students to take five courses. Please see the department Academic Advisor for program planning and sequencing suggestions.

- ATTH 2050 - Professional Practice in Athletic Therapy
- ATTH 2112 - Clinical Musculoskeletal Anatomy
- ATTH 3110 - Musculoskeletal Assessment - Peripheral
- ATTH 3120 - Therapeutic Modalities
- ATTH 3130 - Rehabilitation Techniques I
- ATTH 3150 - Clinical Practicum I
- ATTH 3152 - Clinical Practicum II
- ATTH 3160 - Field Practicum I
- ATTH 3162 - Field Practicum II
- ATTH 4110 - Musculoskeletal Assessment - Spinal
- ATTH 4130 - Rehabilitation Techniques II
- ATTH 4140 - Practical Clinical Management and Administration
- ATTH 4150 - Clinical and Field Practicum III
- ATTH 4152 - Clinical and Field Practicum IV
- ATTH 5100 - Issues in Athletic Therapy
- HPED 2030 - Statistics and Research Methods
- HPED 3030 - Research Methods and Statistics for Health Professionals

## Graduation Requirements

To be eligible for graduation, students must satisfy all program requirements and maintain an overall GPA of 2.00. Students enrolled in the Advanced Certificate in Athletic Therapy must provide proof of completion in the following courses prior to graduating:

- Sport Psychology
- Nutrition

Students must follow the graduation application procedure outlined in the current Mount Royal Calendar. See the 'General Graduation Requirements' section of the this calendar for further information.

## Human Resources

---

### General Information

This certificate is designed for individuals with prior post-secondary education and work experience. It will be of value to individuals contemplating a career change or those who wish to expand their knowledge of the field. Normally, senior-level courses are taken after the completion of introductory-level courses. Students may receive credits from previous higher education courses but should consult the information and timelines posted online for the assessment of transfer credit equivalency. Students can attend the program on a full-time or part-time basis; courses are offered during the day and night time, depending on student demand. The time to complete the program is dependent on the individual student's circumstances.

### Admission Requirements

Post-secondary degree.

#### Curriculum

- HRES 2170 - Introduction to Human Resources
- HRES 3278 - Employee Relations
- MGMT 2130 - Management Principles and Practices
- MGMT 3230 - Business Law
- MGMT 3276 - Organizational Behaviour
- Approved Option 1
- Approved Option 2
- Approved Option 3

#### Approved Options

Students must take any three of the following courses.

- HRES 3274 - Recruitment & Selection
- HRES 3275 - Compensation & Benefits
- HRES 3277 - Organizational Learning and Development
- HRES 4407 - Transition Management

#### Graduation Requirements

To graduate, all Business Administration Certificate students must successfully complete all the courses in the curriculum with a minimum overall Grade Point Average of 2.00.

## Marketing

---

### General Information

This certificate is designed for individuals with prior post-secondary education and work experience. It will be of value to individuals contemplating a career change or those who wish to expand their knowledge of the field. Normally, senior-level courses are taken after the completion of introductory-level courses. Students may receive credits from previous higher education courses but should consult the information and timelines posted online for the assessment of transfer credit equivalency. Students can attend the program on a full-time or part-time basis; courses are offered during the day and night time, depending on student demand. The time to complete the program is dependent on the individual student's circumstances.

### Admission Requirements

Post-secondary degree.

#### Curriculum

- MKTG 2150 - Fundamentals of Marketing
- MKTG 3150 - The Science of Persuasion
- MKTG 3258 - Evidence-Based Marketing

#### Approved Options

Students must take any five of the following courses.

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- ENTR 3302 - Creativity for Entrepreneurial Practice
- INBU 3302 - International Marketing
- MKTG 3450 - Designing Impactful Brands
- MKTG 3458 - Managing Marketing Relationships
- MKTG 3550 - The Fundamentals of Branding
- MKTG 3558 - Marketing Analytics and Insights
- MKTG 4850 - Professional Brand Strategy
- MKTG 4858 - Professional Marketing Strategy

#### Note

#### Prerequisites for these courses must be followed.

Students wishing to focus on creative marketing as part of their certificate are advised to take MKTG 3450, MKTG 3550, and MKTG 4850.

Students wishing to focus on strategic marketing as part of their certificate are advised to take MKTG 3458, MKTG 3558, and MKTG 4858.

### Graduation Requirements

To graduate, all Business Administration Certificate students must successfully complete all the courses in the curriculum with a minimum overall Grade Point Average of 2.00.

## Spatial Data Science

---

### General Information

The Spatial Data Science Post-Bachelor's Certificate will provide a solid foundation in managing, understanding, analyzing, applying and visualizing data, including aspects of big data and machine learning. A special emphasis on spatial data science will introduce students to geospatial tools, data, and applications critical to location-based IT solutions. The program draws from disciplines of computing, data science, and geography, and offers hands-on learning opportunities to enhance classroom learning.

This certificate is appropriate for university graduates wanting to build on their education and gain skills valued in environmental and business sectors; seeking work in the environmental, IT or business sector; expanding computer science or geospatial skills; and for those who are a professional trained in another country, looking for a Canadian industry perspective and a valued credential.

To meet the requirements of the Post-baccalaureate certificate, students in the program would be expected to take 10 courses over 2 terms from selected courses in geography and data science.

### Admission Requirements

Bachelor's degree.

Note: One introductory course in each of linear algebra (e.g., MATH 1103) and computer programming (e.g., COMP 1701) are required. An introductory GIS course (e.g., GEOG 1105) is recommended but not required.

### Required Courses

#### Note: This curriculum is pending GFC approval

- DATA 2402 - Programming for Data Scientists
- DATA 2721 - Data Science I: Introduction to Databases
- DATA 3453 - Data Visualization

- DATA 3463 - Foundations of Data Acquisition
- GEOG 2105 - Digital Earth
- GEOG 2553 - Geographic Information Systems
- GEOG 3555 - Remote Sensing
- GEOG 4105 - Geospatial Web Programming
- GEOG 4553 - Advanced Spatial Analysis and GIS
- GEOG 4554 - Spatial Data Science Field Methods

# Post Diploma Certificate

## Advanced Studies in Critical Care Nursing

---

### General Information

The certificate program is designed for post-diploma study for registered nurses seeking to develop knowledge, skills and expertise in the areas of critical care or emergency nursing. The program is designed with theoretical and clinical courses that prepare practitioners to deal effectively with critically ill and emergency patients in rural, regional and tertiary hospitals.

Theory courses are designed for distance learning incorporating a combination of textbooks, internet/web delivery, teleconference, video conference and video recordings.

Each course will require 10 to 12 hours per week of study time. Optional on-campus or virtual seminars/tutorials may be offered for some courses.

Clinical practica are arranged for each student by the program faculty in critical care or emergency departments. This may be supplemented with observation in related settings to meet the student's learning needs, skill development and competence (as assessed by program faculty). Ongoing supervision and guidance are provided jointly through a preceptorship experience in conjunction with program faculty. Clinical agencies must be pre-approved to meet the objectives of the Advanced Critical Care Nursing program.

Prior to commencing clinical, students must have 1-year FTE acute care medical/surgical experience and have completed a police information check.

All of these courses may be reported as nursing practice hours for the renewal of your governing body (e.g. CRNA). Students who meet specific criteria may receive credit by prior learning assessment for the clinical course.

### Academic Performance Requirements

In matters of program continuance, there are instances when institutional processes do not fully address concerns related to student progress or continuance in a program. This applies in the following circumstances:

1. Violations of a professional code of ethics and/or standards of practice (e.g., CRNA,

CNA nursing professional practice documentation). A committee established by the program will assess violations of relevant codes and standards and whether the student will be required to withdraw from the program based on the seriousness of the violation.

2. Students who are unsuccessful after two registrations in the same core course (as defined by the program) will be required to withdraw from the program. This includes, but is not limited to, the following examples of unsuccessful registration:
  - students who do not achieve the minimum required grade (as defined by the program) in one or both registrations
  - students who earn a grade of "F" in one or both registrations
  - students who withdraw from the course with a "W" in one or both registrations
3. Students who are denied a practicum placement by an external stakeholder because of an assessed detrimental impact on the client, client group, or community being served. Students who are unable to meet clinical course requirements on this basis will be required to withdraw from the program.

### Continuation in the program

To be a continuing student of record in the ACCN Certificate Program, a minimum grade of "C" is required in all courses and a minimum of 18 credits for the Critical Care Nursing and Emergency Nursing Streams.

### University Transfer

The Advanced Studies in Critical Care Nursing Certificate is transferable to post-registered nursing baccalaureate programs at most Alberta universities. Students must meet the admission requirements for the university of their choice. Students considering transfer credit are encouraged to investigate their education plans with an academic advisor at the institution and faculty in which they are seeking to enroll, or are enrolled.

### Financial Assistance

Information regarding financial assistance is available from the College of Registered Nurses of Alberta (CRNA), the Students' Finance Board, and the Office of the Registrar - Financial Aid (Mount Royal). Other possible sources of funding may include Health Regions, Alumni Associations, and Specialty Interest

Groups. Scholarship information is available on the Mount Royal website.

## Prior Learning Assessment and Recognition

Before making an application for *Prior Learning Assessment and Recognition*, students should consult with the Course Coordinator. Recognition for prior learning may be given to students who have clinical experience and/or national certification in specialty areas (e.g. Critical Care or Emergency).

## Admission Requirements

- Graduation from a recognized post-secondary educational institution with a diploma or degree and is a Registered Nurse/Graduate Nurse
- Nursing students with senior-level status in a recognized nursing program are permitted to take some theory courses in the program and are strongly encouraged to discuss course enrollment with the academic advisor at their primary institution
- Allied Health Professionals such as LPNs, Paramedics or Respiratory Therapists are permitted to take some theory courses in the program with the approval of the Course Coordinator

### In addition, applicants must submit the following documents:

- Mount Royal Application for Admission form
- Final/Official transcripts from all post-secondary institutions attended
- Proof of current, active nursing registration
- To complete the clinical practicum in Alberta, students must submit a current, active permanent or temporary license with the College of Registered Nurses of Alberta (CRNA).
  - **NOTE:** No conditions that would interfere with the ability to complete the practicum may be on the permit prior to commencing the clinical course.
- To complete the clinical practicum outside Alberta, students must submit a current, active permanent or temporary license with the appropriate nursing regulatory body
  - **NOTE:** No conditions that would interfere with the ability to complete the practicum may be on the permit prior to commencing the clinical course.
- Prior to commencing the clinical practicum, evidence of 1-year FTE acute medical/surgical experience (within the last 3-5 years) is required. If you do not meet this requirement, a letter to support how you meet this requirement may be considered.

- The 1-year FTE requirement allows the student to develop the foundational skills to be successful in the clinical practicum.  
**Note:** This acute care experience is not a requirement to enter the program, it can be accumulated while completing the theory courses.

## Curriculum

Theory courses in the Advanced Studies in Critical Care Nursing Post-Diploma Certificate program are offered on a home-study basis (distance delivery) in the Fall and Winter Semesters. Clinical practice courses are organized in intensive care or emergency units in the Fall, Winter and Spring Semesters. Clinical practice courses may be offered during the Summer Semester when placement sites have availability.

### Critical Care Stream

#### Required courses:

- ACCN 5501 - Intensive Care Nursing: Foundations of Intensive Care Nursing
- ACCN 5505 - Intensive Care Nursing: Pathophysiology
- ACCN 5507 - Intensive Care Nursing: Pharmacology for the Acutely Ill
- ACCN 5531 - Intensive Care Nursing and Emergency Nursing: Assessment
- ACCN 5581 - Intensive Care Nursing: Clinical

### Emergency Stream

#### Required courses:

- ACCN 5531 - Intensive Care Nursing and Emergency Nursing: Assessment
- ACCN 5551 - Emergency Nursing - Pathophysiology
- ACCN 5553 - Emergency Nursing: Care of the Acutely Ill and Injured - Part A
- ACCN 5555 - Emergency Nursing: Care of the Acutely Ill and Injured - Part B
- ACCN 5591 - Emergency Nursing: Clinical

## Graduation Requirements

To be eligible for graduation, students must satisfactorily complete all course requirements in their stream of study (Critical Care or Emergency). Students must maintain an overall minimum GPA of 2.00 with no grade less than "C" in each course.

Students completing the requirements will be awarded an Advanced Studies in Critical Care Nursing Certificate from Mount Royal University.

Students applying to graduate must do so by the date published in the Mount Royal University Calendar.

# Minors

Students planning to complete a minor should check with an Advisor early in their studies so that they can ensure that they meet all requirements before graduation. Most courses at the 3000- and 4000-level have prerequisites, so students should consider those prerequisites when selecting their 1000- and 2000-level courses.

Students must declare their intention to complete a minor. The form is available at the Office of the Registrar or online.

- Accounting
- Ancient and Medieval Studies
- Anthropology
- Art History
- Astronomy
- Biology
- Business
- Business and Society
- Business of Sport and Recreation

# Minor's

## Accounting, Minor

---

The Minor in Accounting provides graduates with the accounting knowledge and skills to complement their major area of interest.

The Accounting Minor focuses on developing an understanding of the accounting process and prepares students for entry-level accounting positions. The Accounting Minor is open to students outside of the Bachelor of Business Administration program and successful completion of the Minor is recorded on the student's transcript.

To complete a Minor in Accounting, students must take six courses from the following course of study:

### Required Courses

- ACCT 2121 - Financial Accounting Concepts
- ACCT 3220 - Financial Accounting Practices
- ACCT 3221 - Intermediate Accounting I
- ACCT 3224 - Management Accounting I

### Two of the following

- ACCT 3227 - Oil and Gas Accounting
- ACCT 3228 - Management Accounting II
- ACCT 4222 - Intermediate Accounting II
- ACCT 4225 - Principles of Auditing
- ACCT 4280 - Introduction to Personal and Corporate Income Tax
- ACCT 4381 - Advanced Financial Accounting
- ACCT 4382 - Advanced Managerial Accounting
- ACCT 4403 - Accounting Theory

### Note

Students intending to pursue the Chartered Professional Accountant (CPA) Professional Education Program (PEP) post-graduation need to make themselves aware of the CPA student academic achievement requirements for prerequisite learning for entrance into the PEP program. These academic requirements can be found by visiting the CPA Alberta website.

## Ancient and Medieval Studies, Minor

---

Ancient and Medieval Studies involves a multi-disciplinary examination of the culture, history, literature, philosophy, art, drama, science, mathematics, politics, and religion during the roughly

6500 year period spanning from around 5000 BCE to 1500 CE. That last date is traditionally thought to close the Medieval period, but in reality, it is an arbitrary point-both the Ancient and the Medieval periods bleed into and exert an important influence on those of the Renaissance and Early-Modern periods. Students will have an opportunity to expand their knowledge in these directions.

Students must complete seven courses from the list described below.

### Required Courses:

#### Interdisciplinary; One of:

- GNED 1201 - Aesthetic Experience and Ideas
- GNED 1202 - Texts and Ideas
- GNED 1203 - Nature and Ideas

#### Literary; One of:

- ENGL 2210 - English Literature to the Restoration
- ENGL 3306 - History of the English Language
- ENGL 3323 - Early Medieval Literature
- ENGL 3324 - Literature in the Age of Chaucer
- ENGL 4410 - Topics in Medieval Literature, 650-1500

#### Historical; One of:

- HIST 1101 - Europe to 1500
- HIST 2204 - The Medieval World
- HIST 2206 - The History of Ancient Rome
- HIST 2238 - Topics in Ancient/Medieval History
- HIST 3201 - Medieval Crime and Punishment
- HIST 4733 - Advanced Topics in European Social and Cultural History \*

\*This course requires one or more pre-requisites outside of the minor.

#### Other Perspectives; One of:

- ANTH 1105 - Ancient Peoples and Places
- ANTH 2225 - Ancient Civilizations
- ANTH 2215 - Archaeology of the Levant
- ANTH 2270 - Archaeology of Egypt and the Nile Valley
- ARTH 1101 - The History of Art: Prehistory to Renaissance

- CLAS 1111 - The Technical Terms of Medicine and the Life Sciences
- GNED 2203 - Mathematics and Human Experience
- HUMN 1109 - Western Culture I: Before the Reformation
- HUMN 2219 - Ancient Greece
- PHIL 2204 - Medieval Philosophy
- PHIL 2211 - The Classical Period
- PLSC 2210 - History of Political Thought I

#### Additional Options:

Three additional courses must be taken from any of those courses listed above or in combination with the list of courses below. No more than one course from the list below can be used to satisfy requirements in the minor.

- ENGL 3312 - Shakespeare: The Earlier Plays
- ENGL 3313 - Shakespeare: The Later Plays
- ENGL 3342 - Early Seventeenth-Century Literature
- ENGL 4420 - Topics in Early Modern Literature, 1450-1700
- HIST 2229 - Europe: The Renaissance to the French Revolution
- HIST 3329 - Witch Trials in Early Modern Societies
- HIST 3333 - The Renaissance
- HIST 3335 - The Reformation
- HUMN 2221 - Science, Magic, and Religion
- PHIL 2215 - The Enlightenment Philosophers
- PLSC 2211 - History of Political Thought II

#### Notes:

Students must complete no more than three courses at the 1000 level and at least one course at the 3000 level or higher.

Students should be aware registration in senior level course options may require successful completion of specific courses at the 1000, 2000, and/or 3000 level.

### **Anthropology, Minor**

---

The field of Anthropology covers all aspects of human life, across time and space. The goal is a holistic understanding of our varied way of life. You will gain knowledge in areas such as cultural anthropology, biological anthropology, linguistic anthropology and archaeology, and the interconnections among them.

Students must complete eight Anthropology courses to achieve a minor in Anthropology:

#### Required Courses

- Three 1000-level Anthropology courses
- Two Anthropology courses at the 3000-level or higher
- Three additional Anthropology courses, of which only one may be at the 1000-level

#### Note

Students should be aware registration in senior level ANTH courses may require successful completion of specific ANTH courses at the 1000, 2000, and/or 3000 level.

### **Art History, Minor**

---

Art History studies art and visual culture through the history of civilization. The role of art history is to answer complex questions about the ever changing political, religious, social and economic situations in which artistic production takes place.

#### Required Courses

- ARTH 1101 - The History of Art: Prehistory to Renaissance
- ARTH 1103 - The History of Western Art: Renaissance to the Present
- ARTH 3315 - Art & Ideas
- Four additional ARTH courses at the 2000 level or higher

### **Astronomy, Minor**

---

Students pursuing a minor in Astronomy are required to take four astronomy courses, two physics courses and two mathematics courses for a total of eight courses. A minimum grade of C+ must be achieved in all Astronomy (ASTR) courses comprising the minor.

#### Required Courses

- ASTR 1301 - Planetary Astronomy
- ASTR 1303 - Stars, Galaxies, and Cosmology
- ASTR 2107 - Celestial Mechanics and Relativity
- ASTR 3107 - Physical Cosmology
- MATH 2200 - Calculus for Scientists II
- MATH 1200 - Calculus for Scientists I
- PHYS 1201 - Classical Physics I
- PHYS 2201 - Acoustics, Optics and Radiation

## Biology, Minor

---

A minor in Biology provides students with the opportunity to learn about the science of life. The Biology minor is composed of two required courses and four options, for a total of six courses. This minor is not available to students enrolled in Biology, Health Science or Cellular and Molecular Biology majors.

### Required Courses:

- BIOL 1202 - Introduction to Cell Biology
- BIOL 1204 - The Evolution of Eukaryotes

### Two of the following:

- BIOL 2101 - Genetics
- BIOL 2102 - How They Do It: Patterns of Reproduction
- BIOL 2202 - Cellular and Molecular Biology
- BIOL 2203 - Human Anatomy
- BIOL 2213 - Principles of Ecology and Evolution
- BIOL 2309 - Plants and People

### Two of the following:

- BIOL 3107 - Evolution in Health and Disease
- BIOL 3108 - Conservation Biology
- BIOL 3201 - Common Ground: Learning from the Land
- BIOL 3204 - Medical Histology
- BIOL 3207 - Human Conception
- BIOL 3208 - The Molecular and Genomic Revolutions in Biology
- BIOL 3216 - Human Physiology and Adaptation to Environmental Stress
- BIOL 4207 - Human Embryology

### Note

A minimum grade of C- is required in the courses comprising the minor.

Students should be aware registration in senior level course options may require successful completion of specific courses at the 1000, 2000, and/or 3000 level.

## Business, Minor

---

The minor in Business provides a general overview of the business environment to students in degree programs outside of the Bissett School of Business. Through exposure to the major functional areas in business, students will be able to supplement their discipline studies as they prepare to launch their

careers following graduation. This minor is not available to students enrolled in the BBA.

### Required Courses

- ACCT 2121 - Financial Accounting Concepts
- HRES 2170 - Introduction to Human Resources
- MGMT 2130 - Management Principles and Practices
- MKTG 2150 - Fundamentals of Marketing
- Plus any three 3000-level or higher course offered by the Bissett School of Business.\*

\* Senior level courses may require completion of one or more prerequisites outside of the minor.

## Business and Society, Minor

---

This minor explores the relationship between business and society at large and how business and society influence one another. Students will examine the different roles that an organization can play relating to all of the various stakeholders in a constantly changing environment.

### Required Courses

- ENTR 3370 - Society, Innovation and Enterprise
- INBU 2201 - Cross-Cultural Management
- MGMT 4402 - Corporate Social Responsibility
- MGMT 4403 - Environmental Management & Sustainable Development
- MGMT 4407 - Governance and Ethical Issues in Organizations
- PHIL 2229 - Business Ethics

## Business of Sport and Recreation, Minor

---

The minor in Business of Sport and Recreation provides a general overview of the organization, management and leadership of the sport and recreation industry. This will include a focus on all elements of the industry including amateur sport, community recreation and professional sport among others. Students will learn about the unique elements of this industry and how they can best prepare themselves to be leaders in it. Students completing a Bachelor of Health and Physical Education - Sport and Recreation Management cannot receive recognition for this minor.

The minor is composed of four required courses and two options, for a total of six courses.

## Required Courses

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- HPED 1640 - Program Planning
- MKTG 2150 - Fundamentals of Marketing
- SRMG 1400 - Organization and Administration of Sport

## One of the following:

- ACCT 2121 - Financial Accounting Concepts
- ENTR 3302 - Creativity for Entrepreneurial Practice
- MGMT 3210 - Business Communication Theory and Practice
- MGMT 3230 - Business Law
- MKTG 3258 - Evidence-Based Marketing

## One of the following:

- HPED 3630 - Recreation and Sport Tourism
- SRMG 2400 - Commercial Recreation
- SRMG 2440 - Community Development
- SRMG 3400 - Facility and Event Planning

## Note

- One course must be taken at a 3000 level or higher.
- Students in the Bachelor of Health and Physical Education- Ecotourism and Outdoor Leadership must complete SRMG 2400, SRMG 2440, SRMG 3400 or SRMG 5400 for their "Approved Recreation Options". HPED 3630 is only available to students outside of Ecotourism and Outdoor Leadership.

## Canadian Studies, Minor

---

Canadian Studies involves an interdisciplinary examination of the history, culture, society, politics, economy and art of Canada. Canadian Studies spans a diverse number of topics and seeks to understand important issues about Canada and Canada's place in the world both past and present. This minor is of relevance to virtually every program at Mount Royal University, particularly so in the areas of business, history, politics, literature, economics and education.

## Required courses

- CNST 1131 - Introduction to Canadian Studies

- CNST 3730 - Canadian Issues in Context
- Six courses from the following list, with at least one course from each of groups 1, 2, and 3. At least four of these courses must be at the 2000 level or higher.

## Group 1: Artistic and Literary, at least one of:

- ARTH 2205 - Hipsters, Tricksters and Adventurers
- ENGL 2270 - Literatures in Canada to 1914 \*
- ENGL 2271 - Literatures in Canada from 1914 \*
- ENGL 3256 - Canadian Drama \*
- ENGL 3372 - Western Canadian Literature
- FILM 3349 - Film in Canada
- LING 2241 - Languages of Canada
- All courses designated FREN\*

## Group 2: Historical and Political, at least one of:

- CNST 2233 - Canada in Comparative and International Perspective
- ECON 2255 - Economics of the Public Sector
- HIST 1131 - Introduction to Canada: Pre-Confederation
- HIST 1133 - Modern Canada, 1867 to Present
- HIST 2108 - Gender History in Canada
- HIST 2210 - Travel Studies in Canadian History
- HIST 2215 - History of the People of the Plains: Treaty 7 Field Course
- HIST 2232 - Home, Work and Play
- HIST 2247 - Canada's Frontier: the History of the West
- HIST 3304 - Children and Youth in Context
- HIST 3356 - Topics in Canadian History
- HIST 4404 - Topics in Canadian Social History \*
- HIST 4455 - Canada in the Era of the Cold War \*
- PLSC 1123 - Canadian Political Issues
- PLSC 2231 - The Canadian State \*
- PLSC 3229 - Alberta and Provincial Politics \*
- POST 3303 - Federalism \* **or**
- PLSC 3303 - Federalism \*
- SINV 2201 - Changing the World: An Introduction to Social Innovation

## Group 3: Cultural and Societal, at least one of:

- CRJS 1003 - Introduction to the Justice System

- CRJS 1013 - Diversity Issues and the Criminal Justice System
- CRJS 2004 - Issues and Trends in Canadian Policing \*
- GEOG 2225 - Regional Geography of Canada
- HIST 3306 - Racism and Immigration in Canada
- HIST 3319 - Conflict and Violence in Canadian History
- HIST 3345 - Indigenous Histories of Canada: Settler Colonialism and Indigenous Nationhood in Northern North America
- HIST 3383 - Sin, Vice, and Religion
- HIST 4406 - Gender, Sexuality and the Body \*
- INST 1101 - Introduction to Indigenous Studies: the Canadian Context
- INST 2730 - Topics in Indigenous Studies
- SLGY 2265 - Social Stratification and Inequality \*
- WGST 2221 - Gender, Sexuality and Health

\*Students should be aware registration in senior-level courses may require successful completion of specific prerequisite courses.

#### Note

A maximum of four courses at the 1000 level may be counted as part of this minor.

### **Chemistry, Minor**

---

Chemistry is the central science and has wide applications throughout society. Many students want to gain a deeper understanding of the molecular processes behind the machinery of life. Other students enjoy the kinesthetic learning and the opportunity to get into the laboratory and see how science is practiced in a practical setting. Some students are interested in the theoretical aspects of chemistry. Specifically, how mathematics and computers can be used to design the newest materials and pharmaceuticals to improve the quality of life for people throughout the world.

Students who choose a minor in Chemistry will receive a mixture of classroom and practical laboratory instruction. Students will take General Chemistry, which contains sections from a number of different subdisciplines. This will be followed by courses in Organic/Inorganic Materials and Nuclear Chemistry. The minor consists of eight Chemistry courses.

#### Required Courses

- CHEM 1201 - General Chemistry - Structure and Bonding
- CHEM 1202 - General Chemistry - Introduction to Quantitative Chemistry
- CHEM 2101 - Organic Chemistry I
- CHEM 2102 - Organic Chemistry II
- CHEM 2401 - Inorganic Chemistry
- CHEM 3201 - Structure Determination
- CHEM 3802 - The Science and Politics of Nuclear Energy
- CHEM 4411 - Organometallic Chemistry and Catalysis

### **Child and Youth Care Counsellor, Minor**

---

The Child and Youth Care Counsellor (CYCC) Minor will provide students with foundational knowledge of working with vulnerable children and youth, 8 to 22 years of age, and their families. Course offerings include an overview of the profession, interviewing and counselling skills, therapeutic approaches to practice, child and youth human rights, mental health interventions, and social policy. This minor can complement other degree programs related to working with children, youth and families.

#### All of:

Students will need all of the following courses, starting with INTS 1240, which is the prerequisite for the others.

- CYCC 1110 - Fundamental Skills in Interviewing
- CYCC 2232 - Working with Vulnerable Children, Youth and Families
- CYCC 2235 - Child and Youth Care Practice with Families
- INTS 1240 - Fundamentals of Professional Communication

#### One of:

Students will need one of the following courses.

- CYCC 2216 - Group Theory and Process
- CYCC 2221 - Fundamental Skills in Counselling

#### One of:

Students will need one of the following courses.

- CHST 3103 - Child Development and Plasticity
- CHST 3105 - Child and Youth Human Rights
- CHST 3204 - Leadership and Collaboration

- CHST 4103 - Mental Health Interventions
- CHST 4105 - Studies in Systems and Social Policy
- CHST 4204 - Contemporary Issues in Child Studies

## **Communication Studies, Minor**

---

The seven required courses for the Communication Studies minor will ground students in the core theoretical components of the discipline and the optional courses will allow students to tailor the minor to suit their interests. Students will be able to supplement their discipline studies with stronger written, analytic, and verbal communication skills, as they prepare to launch their careers following graduation. The skills learned are transferable both personally and professionally. Students will have the opportunity to make better sense of the world around them in regards to how they use technology, communicate with others, and respond to the media and cultural products they are exposed to daily. This minor is not available to students enrolled in the Bachelor of Communication.

### **Required courses**

- COMM 2500 - Introduction to Communication Studies
- COMM 2501 - Media History and Contemporary Issues
- COMM 3500 - Media, Culture and Communication Theory
- COMM 3515 - The Future of the Media

### **Optional courses**

Pick three of the following:

- BMST 3401 - Media and Inclusion
- COMM 3501 - Intercultural Communication
- FILM 1143 - Introduction to the Study of Film
- GNED 2402 - Inside Information: Challenges and Controversies in the Information Age
- INFO 3675 - Memetics: Contemporary Rhetorics of Dissent and Disinformation
- JOUR 1700 - Journalism and Society: The News & You
- JOUR 2503 - War & Media: The Evolution and Impact of News From the Front Lines
- JOUR 3521 - The Documentary
- PUBR 2830 - Public Relations and the Public Good
- SPCH 2001 - Introduction to Public Speaking
- SPCH 2007 - Professional Speaking
- SPCH 3001 - Persuasive Speaking

## **Computer Information Systems, Minor**

---

A Minor in Computer Information Systems provides a powerful option to students who wish to pursue a degree in a non-computer related field of study and be equipped with a significant understanding of information and computer technology as they head out into the workplace. The Minor in Computer Information Systems consists of five core courses and two approved options for a total of seven courses of which at least one must be 3000 level or above.

### **Required Courses**

- COMP 2511 - Web I: Client Development
- COMP 2521 - Database I: Data Modeling and Query Languages
- COMP 2541 - Systems Analysis

### **One of:**

- COMP 1501 - Programming I: Introduction to Problem Solving and Programming
- COMP 1701 - Introduction to Problem Solving and Programming
- COMP 2001 - Computer-Based Problem Solving for the Sciences

### **One of:**

- ENGL 2263 - Technical Writing
- INFO 1661 - Technical Communication
- MGMT 3210 - Business Communication Theory and Practice

### **Two approved options**

- ACCT 2121 - Financial Accounting Concepts
- COMP 1502 - Programming II: Object Oriented Programming
- COMP 2503 - Programming III: Data Structures
- COMP 2531 - Computer Architecture and Operating Systems
- COMP 3309 - Information Technology and Society
- COMP 3532 - System Administration and Maintenance
- COMP 3553 - Human-Computer Interaction
- COMP 4543 - Project Management and Quality Assurance
- COMP 4545 - Information Systems Organization
- HRES 2170 - Introduction to Human Resources

- MGMT 2130 - Management Principles and Practices
- MKTG 2150 - Fundamentals of Marketing

## Creative Industries Management, Minor

---

The Creative Industries Management Minor is structured around an interdisciplinary collaboration with the School of Business and the Faculty of Arts. Students will have the opportunity to select a combination of interconnected but flexible courses calculated to develop their visual literacy, as well as introduce them to the critical and business skills that will help them discover new career opportunities in the growing fields of arts management, film, media and other creative enterprises.

Students must complete a minimum of six courses from the list described below.

### Required Courses

Students must complete the following:

- ARTH 2207 - Studies in Art, Design and Visual Culture

One of

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- MGMT 2130 - Management Principles and Practices
- SINV 2201 - Changing the World: An Introduction to Social Innovation

### Entrepreneurship, Marketing and Social Innovation

At least two of:

- ENTR 3302 - Creativity for Entrepreneurial Practice
- ENTR 3305 - The Art of the Pitch
- MKTG 2150 - Fundamentals of Marketing
- SINV 2201 - Changing the World: An Introduction to Social Innovation
- SINV 4401 - Civic Innovation - Igniting Change for Social Impact \*

### The Arts

At least two of:

- ARTH 1103 - The History of Western Art: Renaissance to the Present
- ARTH 2209 - History of Modern Art from 1850 to 1920

- ARTH 3309 - Modern Architecture
- ARTH 3311 - Art, Revolution and Pop Culture
- ARTH 3317 - Contemporary Art from 1970 to Today
- CRWT 1118 - Introduction to Writing Fiction
- CRWT 2268 - Creative Nonfiction and Travel Writing
- FILM 1143 - Introduction to the Study of Film
- FILM 2270 - American Independent Cinema
- FILM 3701 - Studies in Film

### Notes

- Students must complete no more than three courses at the 1000-level and at least one course at the 3000-level or higher.
- Students should be aware of registration in senior-level course options that may require successful completion of specific courses at the 1000-, 2000-, and/or 3000- level.

*\*This course requires one or more prerequisites outside of the minor.*

## Creative Writing, Minor

---

The Minor in Creative Writing offers the opportunity to develop expertise in writing fiction, poetry, stage plays, screenplays, nonfiction and other forms of imaginative literature. This cross-disciplinary minor involves a total of eight courses including at least two at the 3000-level or higher.

### Required Courses

- One Introduction to Creative Writing course from the list below.
- One Writing Foundation course from the list below.
- One Approved Option from the list below.
- One course at the 1000-level or higher with a CRWT prefix.
- Two courses at the 2000-level or higher with a CRWT prefix.
- One course at the 3000-level or higher with a CRWT prefix.
- One course at the 3000-level or higher with a CRWT prefix or from approved options with an ENGL prefix.

### One Introduction to Creative Writing:

- CRWT 1117 - Introduction to Writing Poetry
- CRWT 1118 - Introduction to Writing Fiction

### One Writing Foundation:

- ENGL 1101 - Writing for Academic Success
- GNED 1401 - Writing for Academic Success
- GNED 1403 - Writing in a Digital Context: Language, Media, Culture
- GNED 1404 - Writing about Images

### One Approved Option:

- ENGL 2205 - Writing about Literature \*
- ENGL 2207 - Intermediate Writing
- ENGL 2263 - Technical Writing
- ENGL 3304 - Advanced Writing: Theory, Pedagogy, Practice
- ENGL 3266 - Editing: Theory and Practice
- INFO 3675 - Memetics: Contemporary Rhetorics of Dissent and Disinformation
- ENGL 4801 - Topics in Writing \*\*
- PUBR 1849 - Applied Writing I for Public Relations

\*This course requires one or more prerequisites outside of the minor.

\*\*ENGL 4801 may also be used as a CRWT-prefixed course.

### Notes:

- Students should be aware that registration in senior CRWT and ENGL courses may require successful completion of specific courses at the 1000-, 2000-, and/or 3000-level.
- No more than one Directed Readings course in a single discipline can be used for graduation purposes.

## Data Analytics, Minor

---

Analytics involves the translation of data into meaningful and actionable insights. The Minor in Data Analytics provides graduates with knowledge and skills in this growing field to complement their degrees and majors. Through the six required courses, students will learn about data management, data analysis, the identification of problems and opportunities that can be understood through data, and how to translate the results into meaningful insights.

### Required Courses

- MGMT 2262 - Statistics and Analytics for Business
- MGMT 3501 - Data Management and Business Analytics

- MGMT 4501 - Advanced Analytics in Business
- MGMT 4511 - Business Intelligence
- MGMT 5501 - Applied Analytics - Strategy and Professional Practice

### One of:

- INFO 2650 - Visualizing Information for Presentation
- SINV 3303 - Systems Thinking

## Data Science, Minor

---

The Data Science Minor provides a strong foundation in the Mathematics, Statistics, and Computing necessary to work with, and extract meaning from, large data sets. This minor will complement a range of different Majors and allow students to add a Data Science credential to their degree.

The minor consists of eight courses:

- two Mathematics
- two Computing
- three Statistics
- one Data Science Option.

There is some flexibility in the Computing, Statistics, and Options classes in order to allow the minor to work with a range of different degrees.

### Required Courses

Take all 4 of the following courses.

- MATH 1203 - Linear Algebra for Scientists and Engineers
- MATH 2303 - Linear Algebra for Data Science
- MATH 2444 - Statistical Data Analysis
- MATH 3454 - Regression and Time Series Analysis

### Data Science Options

Take one of the following courses:

- BIOL 3401 - Big Questions and Big Data in Biology
- COMP 1502 - Programming II: Object Oriented Programming
- DATA 2XXX Data Science II: Programming for Data Science
- MATH 1185 - Calculus with Applications
- MATH 1200 - Calculus for Scientists I
- MATH 2XXX Mathematics for Data Science
- MATH 3XXX Multivariate Statistical Analysis
- MATH 4303 - Fourier Analysis for Data Science

## Introduction to Programming

Take one of the following courses:

- COMP 1501 - Programming I: Introduction to Problem Solving and Programming
- COMP 1631 - Introduction to Computer Science I
- COMP 1701 - Introduction to Problem Solving and Programming
- COMP 2001 - Computer-Based Problem Solving for the Sciences

## Introduction to Statistics

Take one of the following courses:

- ENVS 1105 - Data Processing and Statistics
- MATH 2233 - Statistics for Biological Sciences
- MATH 2234 - Concepts of Mathematical Statistics
- MATH 2235 - Statistics with Applications in Geology
- MATH 2333 - Statistics for Life Sciences
- MGMT 2262 - Statistics and Analytics for Business

## Introduction to Databases

Take one of the following courses:

- COMP 2521 - Database I: Data Modeling and Query Languages
- DATA 2721 - Data Science I: Introduction to Databases

## Note

Some courses may require a prerequisite from outside of the minor.

## Digital Media, Minor

---

Everyone has a story to tell. This minor will equip graduates to tell their stories - or those of their organizations or businesses - through various digital media formats including social media, promotional videos, news stories, photography and podcasts. The Minor in Digital Media allows students to choose the types of digital media practice that most interest them while gaining transferable, practice-based journalism and broadcast media skills that can enhance success in almost any field of work. The Minor in Digital Media requires students to complete 6 courses. No more than 50% can be at the 1000-level. At least one must be 3000-level. Careful planning is encouraged, as some of the courses in the minor have prerequisites outside the minor.

**This minor is not available to students enrolled in the Broadcast Media Studies or Journalism and Digital Media Studies majors.**

For assistance with navigating the minor, please refer to the Digital Media Minor Advising Guide.

Choose one:

- BMST 1402 - Writing for Audio and Video I
- JOUR 1707 - Journalism Foundations I

Choose two:

(If not already taken)

- BMST 1401 - Audio and Video Production I
- BMST 1402 - Writing for Audio and Video I
- BMST 1404 - Audio and Video Production II
- BMST 1405 - Writing for Audio and Video II
- JOUR 1707 - Journalism Foundations I
- JOUR 1709 - Journalism Foundations II
- JOUR 1727 - Digital Storytelling I
- JOUR 1728 - Digital Storytelling II

Choose two:

- BMST 2402 - Media Marketing and Advertising
- BMST 2405 - Broadcast Presentation
- CRWT 2268 - Creative Nonfiction and Travel Writing
- JOUR 2707 - News Reporting I
- JOUR 2709 - News Reporting II
- JOUR 2718 - Community-centred Journalism
- JOUR 2720 - Digital Visualization
- JOUR 2727 - Podcasting Workshop
- JOUR 2740 - Visual Journalism I

Choose one:

(If not already taken)

- CRWT 3304 - Advanced Creative Nonfiction: Writing Place
- JOUR 3747 - Visual Journalism II

## Early Learning and Child Care, Minor

---

The Early Learning and Child Care Minor will provide students with the foundational knowledge of early childhood education and care from birth to 12 years old. Course offerings include an overview of the profession, differing abilities, child development, learning through play, child and youth human rights, mental health interventions and social policy. This minor can complete other degree programs related to work with children, youth and families.

All of:

Students are required to take all of these courses.

- ELCC 1104 - The Profession of Early Learning and Child Care
- ELCC 2213 - Health, Safety, and Nutrition of Young Children
- ELCC 2215 - Differing Abilities and Inclusion

One of

Students must take one of these courses. Students can choose either Learning Through Play or Principles of Development stream of interest.

- ELCC 1109 - Child Development I
- ELCC 1110 - Learning Through Play I

One of:

Students can continue with their chosen stream of Learning Through Play, Principles of Development, or they can choose Child, Family, and Community.

- ELCC 2110 - Learning Through Play II
- ELCC 2209 - Child Development II
- ELCC 2211 - Child, Family and Community

One of:

Students can choose one of these courses.

- CHST 3103 - Child Development and Plasticity
- CHST 3105 - Child and Youth Human Rights
- CHST 3204 - Leadership and Collaboration
- CHST 4103 - Mental Health Interventions
- CHST 4105 - Studies in Systems and Social Policy
- CHST 4204 - Contemporary Issues in Child Studies

## **Economics, Minor**

---

The Economics Minor equips graduates with analytical skills to evaluate complex economic problems and policies and enhances overall productivity in an increasingly dynamic workplace. Graduates are exposed to ideas, models and quantitative methods essential for research and analysis in economics, finance, and public policy. The Economics Minor is administered through the Department of Economics, Justice, and Policy Studies.

### **Required Courses**

- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics

- ECON 2213 - Intermediate Economic Theory Macroeconomics I
- ECON 3395 - Introduction to Applied Econometrics
- ECON 2211 - Intermediate Economic Theory - Microeconomics I **or**
- ECON 2244 - Managerial Economics
- Two additional ECON courses at 2000 level or higher

One of the following:

- MATH 1224 - Introduction to Statistics \*
- MGMT 2262 - Statistics and Analytics for Business
- POST 2209 - Methodology and Statistics \*

\*This course may require one or more prerequisites outside of the minor.

## **Elementary School Health and Physical Education, Minor**

---

Physical Literacy incorporates elements of physical activity, and mental and social well-being while fostering the motivation, and confidence to lead a healthy and active life. It is much more than participating in sports and physical activity, it's about leading others, and ourselves, to live an active and healthy lifestyle. This health and physical education minor will provide Bachelor of Education students with experiential knowledge and learning to incorporate physical literacy into the education curriculum.

### **Required Courses**

- HPED 1040 - Wellness and the Student: From Personal Health to Community Action
- PHYL 1310 - Teaching Games for Understanding
- PHYL 3518 - Physical Growth and Development

### **Optional Courses**

Choose at least six credits from the following:

- HPED 2507 - Nutrition and Health
- HPED 2810 - Invasion Games
- HPED 2830 - Introductory Flexibility and Relaxation \*
- HPED 2832 - Functional Gymnastics
- HPED 2852 - Net and Implement Games
- HPED 2870 - Introductory Backpacking
- HPED 2871 - Technical Mountain Skills
- HPED 2872 - Wilderness Survival

- HPED 2873 - Introductory Rock Climbing
- HPED 2875 - Introductory Mountain Biking
- HPED 2880 - Introductory Canoeing
- HPED 2881 - Introductory Kayaking
- HPED 2883 - Recreational Aquatic Games
- HPED 2884 - Introductory Winter Travel
- HPED 3740 - Wellness and the Student: From Community Health to Global Action
- HPED 3711 - Field School-B
- HPED 3884 - Winter Back Country Travel
- PHYL 2520 - Introductory and Intermediate Coaching
- PHYL 3320 - Adapted Physical Activity
- ETOL - specific courses, which can be used to fulfill an activity requirement

\*This course requires one or more prerequisites outside of the minor.

## English, Minor

---

The discipline of English has expanded beyond the traditional study of literature to include creative writing, film studies, technical writing and cultural studies. The Minor in English lets you explore the craft and meaning behind a range of literary and popular texts, analyze how words can shape our ethical, cultural and critical sensibilities, and practice the art of communicating with elegance and clarity. The minor involves a total of eight courses.

### Required courses

- One Composition course from the list provided below
- One Literature course from the list provided below
- One 1000-level or higher CRWT or ENGL or FILM
- Three 2000-level or higher ENGL
- Two 3000-level or higher ENGL

### Composition

- ENGL 1101 - Writing for Academic Success
- GNED 1401 - Writing for Academic Success
- GNED 1403 - Writing in a Digital Context: Language, Media, Culture
- GNED 1404 - Writing about Images

### Literature

- ENGL 1151 - The Art of Story: An Introduction to Literature
- ENGL 1152 - Identity and Invention: An Introduction to Literature
- ENGL 2141 - Literature for Young Children

- ENGL 2216 - Women's Writing: Voices and Visionaries
- ENGL 2273 - Animals in Popular Fiction and Film
- ENGL 2293 - Science Fiction
- ENGL 2294 - Analyzing Comics
- ENGL 2295 - Fantasy
- ENGL 2298 - Children's Literature: Folklore, Fairy Tale, Fantasy
- ENGL 2299 - Children's Literature: Representations of the Real
- ENGL 2301 - Crime and Conspiracy Literature

### Notes:

ENGL 2210 - English Literature to the Restoration and ENGL 2211 - English Literature from the Restoration to the Present are highly recommended since they are foundational to advanced studies in literature.

In addition to these courses, prospective teachers are strongly advised to take:

- One course in Canadian Literature (ENGL 2253, ENGL 2270, ENGL 2271, ENGL 3256, ENGL 3372)
- One course in Indigenous Literatures (ENGL 2253, ENGL 3353)
- One course in Children's Literature (ENGL 2141, ENGL 2298, ENGL 2299, ENGL 3397)
- One course in Pre-1900 Literature and Language (ENGL 3246, ENGL 3306, ENGL 3312, ENGL 3313, ENGL 3323, ENGL 3324, ENGL 3330, ENGL 3331, ENGL 3340, ENGL 3341, ENGL 3342, ENGL 3343, ENGL 3344, ENGL 3345, ENGL 3350)

Students should be aware that registration in senior offerings requires successful completion of specific courses at the 1000-, 2000-, and/or 3000-level.

## Environmental Humanities, Minor

---

The Minor in Environmental Humanities examines the sociopolitical and cultural implications of key findings in environmental science. Its transdisciplinary framework draws from such disciplines as bioethics, environmental history, ecocriticism, and cultural geography. The Environmental Humanities provides a forum for critical and creative explorations of ecological, social, and technological transformation. The minor involves a total of seven courses, including a maximum of three 1000-level courses and a minimum of one 3000-level or higher course.

### Writing Foundations

One course in the following:

- GNED 1401 - Writing for Academic Success
- GNED 1403 - Writing in a Digital Context: Language, Media, Culture
- GNED 1404 - Writing about Images

### Eco-Themes & Disciplinary Range

Two of the following:

- ENGL 4402 - Topics in the Environment, Sustainability, and Resilience
- FILM 3370 - Ecocinema
- GEOG 2445 - Environmental Problems and Resource Management
- GEOG 3445 - Global Environmental Issues
- GEOL 2151 - Environmental Geology and Earth Resources
- HIST 3358 - Environmental History
- NTSC 1112 - An Introduction to Current Environmental Issues
- NTSC 2201 - Environmentally Sustainable and Healthy Societies
- NTSC 3301 - Environmental Health
- PHIL 2291 - Philosophy and the Environment
- PSYC 3344 - Environmental Psychology
- SLGY 2255 - Environmental Sociology

### Earth & Natural Sciences

One course from the following:

- BIOL 3216 - Human Physiology and Adaptation to Environmental Stress
- ENV5 2100 - Introduction to Environmental Science
- ENV5 3336 - Indigenous & Stakeholder Consultation in Environmental Management
- GEOG 1101 - The Physical Environment
- GEOG 1102 - World Regional Geography
- GEOG 1103 - The Human Environment
- GEOG 2107 - Weather and Climate
- GEOG 2235 - Regional Geography of Asia
- GEOG 2337 - Political Geography
- GEOG 2437 - Biogeography
- GEOG 2443 - Tourism and Recreation Geography
- GEOG 2445 - Environmental Problems and Resource Management
- GEOG 3107 - Conservation Biogeography
- GEOG 3445 - Global Environmental Issues
- GEOG 3447 - Parks and Protected Areas
- GEOG 4440 - Sustainable Development Geography
- GEOL 1101 - The Dynamic Earth
- GEOL 1109 - Introduction to Geology

- GEOL 1151 - Introduction to the Petroleum Industry: Social, Political, Economic, and Environmental Issues
- GEOL 2151 - Environmental Geology and Earth Resources
- GEOL 2155 - Geological History of Life
- GEOL 2157 - Water: Geologic and Geographic Issues
- NTSC 1112 - An Introduction to Current Environmental Issues
- NTSC 2201 - Environmentally Sustainable and Healthy Societies
- NTSC 3301 - Environmental Health
- NTSC 3321 - Environmental and Developmental Legacy of Alberta's Oil and Gas Industry

### Humanities & Social Sciences

One course from the following:

- ANTH 1101 - Introduction to Primatology and Human Evolution
- ANTH 1103 - Introduction to Cultural Anthropology
- ANTH 1105 - Ancient Peoples and Places
- ANTH 2111 - Biological Anthropology of South Asia
- ANTH 2214 - Ethnography of the Northwest Coast
- ANTH 2225 - Ancient Civilizations
- ANTH 2270 - Archaeology of Egypt and the Nile Valley
- ANTH 3322 - Human Adaptation
- ANTH 3379 - Urban Anthropology
- ETOL 2230 - Foundations of Sustainable Tourism
- HIST 2205 - Health, Disease and Medicine
- HIST 3358 - Environmental History
- HPED 1070 - Foundations of Outdoor Leadership
- INST 3710 - Place- and Land-based Learning: Decolonizing and Indigenous Perspectives
- MGMT 4403 - Environmental Management & Sustainable Development
- PHIL 2223 - Bio Ethics
- PHIL 2267 - Philosophy of Science
- PHIL 2291 - Philosophy and the Environment
- PSYC 3344 - Environmental Psychology
- SLGY 2253 - Urban Sociology
- SLGY 2255 - Environmental Sociology
- SLGY 4203 - Sociology of Food
- SLGY 4411 - Sociology of Disaster

### Visual & Verbal Arts

Two courses, one must be a 3000-level or higher course from the following:

- ARTH 2205 - Hipsters, Tricksters and Adventurers
- ARTH 3309 - Modern Architecture
- ARTH 3313 - Impressionism: Art, Leisure & Society
- ARTH 4411 - Poetic Intentions in Architecture
- CRWT 3304 - Advanced Creative Nonfiction: Writing Place
- ENGL 2270 - Literatures in Canada to 1914
- ENGL 2271 - Literatures in Canada from 1914
- ENGL 2273 - Animals in Popular Fiction and Film
- ENGL 2293 - Science Fiction
- ENGL 2295 - Fantasy
- ENGL 3330 - Enlightenment Literature: Knowledge and Society
- ENGL 3331 - Late Eighteenth-Century Literary Topographies
- ENGL 3246 - Pre-American Literary Environments
- ENGL 3344 - Nineteenth-Century Realism and Reform
- ENGL 3345 - Nineteenth-Century Art and Nature
- ENGL 3350 - The American Renaissance
- ENGL 3353 - North American Indigenous Literatures
- ENGL 3372 - Western Canadian Literature
- ENGL 4402 - Topics in the Environment, Sustainability, and Resilience
- FILM 2231 - Indigenous Film
- FILM 3349 - Film in Canada
- FILM 3370 - Ecocinema

## Film Studies, Minor

---

The Minor in Film Studies encourages students to select a combination of courses dedicated to film as well as to related disciplines that inform the making and appreciation of cinema. The history, art and politics of film - as well as the dynamics of critical reception from fans to philosophers - are all part of the experience. This interdisciplinary minor involves a total of eight courses, including four to seven FILM courses.

### Required courses

- One of GNED 1401, GNED 1403 or GNED 1404
- FILM 1143 - Introduction to the Study of Film
- One 2000-level or higher FILM course

- Two 3000-level or higher FILM courses
- Two additional 2000-level or higher courses, either:
  - two FILM courses **or**
  - one FILM course and one from the list below

### One of the following

- ANTH 2243 - Anthropology Through Film \*
- ARTH 2207 - Studies in Art, Design and Visual Culture
- CRWT 3305 - Advanced Script Writing \*
- ENGL 2273 - Animals in Popular Fiction and Film
- HIST 2291 - Film and History
- JOUR 3521 - The Documentary
- SPAN 2220 - Ibero-American Cinema
- SPAN 3312 - Hispanic Cinema \*
- WGST 2239 - Gender, Sexuality and Popular Culture

\* Students should be aware registration in senior-level courses may require successful completion of specific prerequisite courses.

## Finance, Minor

---

The Finance Minor provides graduates with the finance knowledge and skills to complement their major area of interest. The Finance Minor focuses on developing an understanding and appreciation of basic financial accounting, corporate finance, and financial markets. Students may be awarded the Minor in Finance or the Minor in Finance and Economics, but not both.

### Required Courses

- ACCT 2121 - Financial Accounting Concepts
- FNCE 3227 - Introduction to Finance

### Four of the following

- FNCE 2132 - Introduction to the Stock Market
- FNCE 3228 - Advanced Corporate Finance
- FNCE 3302 - International Finance
- FNCE 3304 - Business and Financial Modeling
- FNCE 4407 - Investments and Portfolio Management

## **Finance and Economics, Minor**

---

A joint offering of the Bissett School of Business and the Faculty of Arts, this minor will appeal to the student who recognizes the synergies between these two disciplines. A combination of theory and applied knowledge, this minor can be pursued by any degree student in the university. Students may be awarded the Minor in Finance or the Minor in Finance and Economics, but not both.

### **Required courses**

- ACCT 2121 - Financial Accounting Concepts
- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- FNCE 3227 - Introduction to Finance

### **Four of the following**

At least one must be chosen from this group.

- ECON 2211 - Intermediate Economic Theory - Microeconomics I
- ECON 2213 - Intermediate Economic Theory Macroeconomics I
- ECON 2221 - International Trade
- ECON 2229 - International Money and Finance
- ECON 2241 - Money and Banking
- ECON 2255 - Economics of the Public Sector

At least one must be chosen from this group

- FNCE 2132 - Introduction to the Stock Market
- FNCE 3228 - Advanced Corporate Finance
- FNCE 3302 - International Finance
- FNCE 3304 - Business and Financial Modeling
- FNCE 4407 - Investments and Portfolio Management

## **Financial Services, Minor**

---

The Minor in Financial Services will provide graduates with financial services knowledge and skills to complement their major area of interest. This series of courses provides an overview of the principles and practices of financial services that can be applied to opportunities in banking, investment, or insurance careers. After completion of all courses, students are prepared to write the examinations leading to the CFP® (Certified Financial Planner) designation.

### **Required Courses**

- FNCE 2132 - Introduction to the Stock Market
- FNCE 3201 - Retirement Planning
- FNCE 3203 - Income Tax Planning
- FNCE 3205 - Strategic Investment Planning
- FNCE 3207 - Risk Management and Estate Planning
- MKTG 2150 - Fundamentals of Marketing

## **French Language and Francophone Studies, Minor**

---

French is a global language, and the second official language of many countries. It is spoken by approximately 265 million people worldwide. In Canada, French is an official language of government and business. In this context, a minor in French opens tremendous possibilities nationally and internationally. A minor in French complements a number of majors: Business, Communication Studies, Education, English, Humanities, Policy Studies, etc. Students planning on completing a minor in French should be advised that not all French courses are offered every year. Students should check with the Coordinator to ensure that they are able to meet all requirements before graduation.

### **Required Courses**

For students who **have** completed French 30:

- FREN 2235 - Second-Year University French I
- FREN 2237 - Second-Year University French II
- Three additional FREN courses at the 3000 or 4000 level
- Any three additional FREN courses

### **Required Courses**

For students who **have not** completed French 30:

- FREN 1109 - Beginners' French I
- FREN 1111 - Beginners' French II
- FREN 2216 - Intermediate French I
- FREN 2218 - Intermediate French II
- FREN 2235 - Second-Year University French I
- FREN 2237 - Second-Year University French II
- FREN 2250 - Contemporary French Culture and Civilization
- One additional course at the 3000 level or higher

## Note

Students taking courses in French are subject to placement testing, and courses required for the minor vary depending on placement test results. Students who are unsure of their level should contact the department to take a short placement test and/or take the online placement test available on the French web page. For more information, students should contact the Department of English, Languages, and Cultures.

This minor is designed for students who have successfully completed French Language Arts 30. Students pursuing this minor without French Language Arts 30 may have to take an additional 1000- and/or 2000-level FREN courses.

Students should be aware registration in senior-level FREN courses may require successful completion of specific FREN courses at the 1000-, 2000-, and/or 3000-level.

## General Science for Elementary Education, Minor

---

The Minor in General Science for Elementary Education will provide students with classroom and practical laboratory instruction that will help them feel more comfortable teaching science in the elementary classroom. NTSC 3000 is a required course where each week students will perform labs based on the Alberta Learning elementary science curriculum, and they will have practice designing and testing their own lab experiences. Within the minor, students will take courses from a variety of scientific disciplines, reflecting the interdisciplinary design of the elementary science curriculum.

Students planning to complete a minor in General Science should check with an Advisor early in their studies so that they can ensure that they meet all requirements before graduation. Some of the courses in the minor have prerequisites, so students should consider these prerequisites when selecting their courses.

Students **MUST** be enrolled in the Bachelor of Education - Elementary degree program and complete seven required courses.

### Required Courses

- NTSC 3000 - Experimental Science for Elementary and Junior High Education
- One course from each of List A, List B and List C
- Three additional courses from List D

### List A Courses: Natural Sciences

- BIOL 1202 - Introduction to Cell Biology
- BIOL 1205 - The Organization and Diversity of Life
- NTSC 1112 - An Introduction to Current Environmental Issues

### List B Courses: Physical Sciences

- ASTR 1103 - The Universe at Large **or**
- ASTR 1303 - Stars, Galaxies, and Cosmology
- CHEM 1201 - General Chemistry - Structure and Bonding
- CHEM 1202 - General Chemistry - Introduction to Quantitative Chemistry
- CHEM 2111 - The Organic Chemistry of Life
- PHYS 1201 - Classical Physics I

### List C Courses: Earth Sciences

- ASTR 1101 - The Solar System **or**
- ASTR 1301 - Planetary Astronomy
- GEOG 1101 - The Physical Environment
- GEOG 1105 - Introduction to Mapping, GIS and Remote Sensing
- GEOL 1101 - The Dynamic Earth **or**
- GEOL 1109 - Introduction to Geology

### List D Courses: Elementary Science Options

- BIOL 2102 - How They Do It: Patterns of Reproduction
- BIOL 2309 - Plants and People
- BIOL 3207 - Human Conception
- CHEM 2211 - The Chemistry Between Us
- COMP 1103 - Introduction to Computers
- COMP 1615 - Introduction to Programming
- GEOG 2107 - Weather and Climate
- GEOG 2111 - Earth's Changing Surface
- GEOG 2437 - Biogeography
- GEOG 2445 - Environmental Problems and Resource Management
- GEOG 3107 - Conservation Biogeography
- GEOG 3445 - Global Environmental Issues
- GEOL 2107 - Palaeontology
- GEOL 2151 - Environmental Geology and Earth Resources
- GEOL 2153 - Natural Hazards and Disasters
- GEOL 2155 - Geological History of Life
- GEOL 2157 - Water: Geologic and Geographic Issues
- MATH 1103 - Introduction to Statistical Reasoning

- NTSC 2201 - Environmentally Sustainable and Healthy Societies
- NTSC 3301 - Environmental Health
- PHYS 2103 - Radiation Medicine and Imaging

#### Note

Students can take a maximum of three courses at the 1000-level. If a student takes a 2000-level course as their List B course, they can substitute additional courses from List A, B or C in place of List D courses.

This minor is restricted solely to students enrolled in the Bachelor of Education - Elementary Education program. For current information on declaring a minor please see your **Academic Advisor**.

### Geography, Minor

---

The Geography Minor requires a minimum of seven geography courses.

#### Required Courses

- GEOG 1101 - The Physical Environment
- GEOG 1103 - The Human Environment
- GEOG 1105 - Introduction to Mapping, GIS and Remote Sensing

#### One of the following

- GEOG 2107 - Weather and Climate
- GEOG 2109 - Ecological Land Classification and Soils
- GEOG 2111 - Earth's Changing Surface
- GEOG 2553 - Geographic Information Systems
- GEOG 3555 - Remote Sensing

#### One of the following

- GEOG 2225 - Regional Geography of Canada
- GEOG 2230 - Regional Geography of Europe
- GEOG 2235 - Regional Geography of Asia
- GEOG 2333 - Geography of the World Economy
- GEOG 2335 - Cities in the Modern World
- GEOG 2337 - Political Geography
- GEOG 2443 - Tourism and Recreation Geography
- GEOG 2445 - Environmental Problems and Resource Management

#### One of the following

- GEOG 3107 - Conservation Biogeography
- GEOG 3109 - Field Study in Physical Geography
- GEOG 3309 - Field Study in Human Geography
- GEOG 3445 - Global Environmental Issues
- GEOG 3447 - Parks and Protected Areas
- GEOG 3553 - Spatial Analysis and GIS
- GEOG 4440 - Sustainable Development Geography

One other geography course from the list above or one of the following

- GEOG 1102 - World Regional Geography
- GEOG 2437 - Biogeography
- GEOG 4129 - Advanced Field Study in Physical Geography
- GEOG 4329 - Advanced Field Study in Human Geography

### Geoscience, Minor

---

The Geoscience minor draws on a foundation of the classical sciences of chemistry, physics, and biology, and applies their principles to a diverse range of processes on Earth and other planets - from landform evolution to plate tectonics to the origin and evolution of life and the interaction of humans with the environment. The Geoscience minor allows students flexibility for selecting courses that complement their learning goals and is composed of six courses of which at least one course must be at the 3000- or 4000-level. The minor is not available to students enrolled in the Geology major. Registration in senior-level course options may require successful completion of courses at the 1000-, 2000-, and/or 3000-level.

#### Required Courses

The Geoscience minor is composed of 6 courses (18 credits).

- GEOL 1101 - The Dynamic Earth
- GEOL 1103 - Earth Through Time

#### One of the following

- GEOL 2151 - Environmental Geology and Earth Resources
- GEOL 2153 - Natural Hazards and Disasters
- GEOL 2155 - Geological History of Life
- GEOL 2157 - Water: Geologic and Geographic Issues

#### Three of the following

At least one course needs to be at the 3000-level or above.

- GEOL 2103 - Minerals and Rocks
- GEOL 2105 - Structural Geology
- GEOL 2107 - Palaeontology
- GEOL 2109 - Stratigraphy and Sedimentation
- GEOL 3107 - Geomorphology
- GEOL 3109 - Sedimentary Petrology
- GEOL 3115 - Exploration Geophysics
- GEOL 4105 - Hydrogeology
- GEOL 4107 - Geological History of Western Canada
- GEOL 4109 - Petroleum Geology

## History, Minor

---

The minor in History allows students to explore a wide array of topics that range from the ancient past to the present and which span a number of countries and themes. The minor allows students to choose from a variety of courses in which they can take part in activities such as performing archival research, volunteering, traveling, and participating in hands-on fieldwork. The minor exposes students to a broad range of historical knowledge and understanding and teaches students to think critically and how to collect, interpret and present evidence. These skills and knowledge are useful in a wide variety of professions such as law, education, politics, business and economics.

### Required Courses

One 1000 level HIST course from at least two of the following areas (maximum four 1000 level courses):

- Canadian History
- European History
- American History

Four to six additional HIST courses at the 2000 level or above, of which at least two must be at the 3000 or 4000 level. (For a total of eight HIST courses in the minor)

### Note

Students should be aware registration in senior level HIST courses may require successful completion of specific HIST courses at the 1000, 2000, and/or 3000 level.

## Human Resources, Minor

---

The minor in Human Resources provides a general overview of the human resource discipline for students in degrees outside of the Bissett School of Business. This minor exposes students to introductory

and advanced topics in the field of human resources. Students enrolled in the BBA - General management major may also choose to complete a minor in Human Resources.

### Required Courses

- HRES 2170 - Introduction to Human Resources
- HRES 3278 - Employee Relations
- Plus any other four 3000-level or higher HRES course.\*

\*Senior level courses may require completion of one or more prerequisites outside of the minor.

## Humanities, Minor

---

The Humanities consist of the disciplines that study culture, history and the history of ideas from a multidisciplinary and analytical perspective. This minor provides the opportunity for students to enrol in courses from a variety of subject areas including Philosophy, History, Religious Studies, Humanities, Art History, Canadian Studies, Women's & Gender Studies, Mediterranean Cultures, Music, English and Indigenous Studies.

### Required Courses

#### One of

- RELS 1101 - World Religions: Western
- RELS 1103 - World Religions: Eastern
- RELS 1105 - Why Religion Matters

#### One of

- PHIL 1101 - Philosophy: Knowledge and Existence
- PHIL 1130 - Philosophy: Sex and Love
- PHIL 1149 - Philosophy: Values and Ethics

#### One of

- ENGL 1151 - The Art of Story: An Introduction to Literature
- ENGL 1152 - Identity and Invention: An Introduction to Literature

#### One of

- HIST 1101 - Europe to 1500
- HIST 1103 - Europe Since 1500

- HIST 1111 - South Asia and the Indian Ocean: Ancient to Modern
- HIST 1117 - America to 1865
- HIST 1119 - The United States, 1865 to the Present
- HIST 1131 - Introduction to Canada: Pre-Confederation
- HIST 1133 - Modern Canada, 1867 to Present

#### Four senior courses

Two of which must be at the 3000 level or above from courses in Philosophy, History, Religious Studies, Humanities, Art History, Canadian Studies, Women's & Gender Studies, Indigenous Studies, Mediterranean Cultures, Music and English (for a total of eight courses in the minor)

#### Note

A maximum of four courses at the 1000 level may be counted as part of this minor.

### Indigenous Studies, Minor

---

Indigenous Studies seeks to understand Indigenous people and communities by exploring Indigenous experiences, cultures, and histories in Canada and internationally. As a new and evolving discipline, it covers a broad range of topics through Indigenous perspectives in the past and present. The Indigenous Studies minor provides students from diverse programs with a critical lens to view and challenge mainstream ideas and assumptions.

#### Two 1000-level INST Courses

- INST 1101 - Introduction to Indigenous Studies: the Canadian Context
- INST 1111 - Introduction to Indigenous Studies: International Perspectives

#### Three additional INST courses 2000 level or higher

- INST 2270 - Virtual Exploration of the Treaty 7 context
- INST 2710 - Indigenous Arts of North America
- INST 2720 - Travel Studies in Indigenous Studies
- INST 2730 - Topics in Indigenous Studies
- INST 2750 - Introduction to Indigenous Oral Systems
- INST 3710 - Place- and Land-based Learning: Decolonizing and Indigenous Perspectives

- INST 3730 - Racism and Indigenous Perspectives in Canada
- INST 3740 - Indigenous Research Ethics and Protocols

#### One additional INST course 3000 level or higher

- INST 3710 - Place- and Land-based Learning: Decolonizing and Indigenous Perspectives
- INST 3730 - Racism and Indigenous Perspectives in Canada
- INST 3740 - Indigenous Research Ethics and Protocols

#### Two other INST courses or courses from the following:

- ANTH 2213 - Contemporary Aboriginal Issues in Canada
- ANTH 2214 - Ethnography of the Northwest Coast
- ANTH 3319 - Ethnography of the Great Plains
- BIOL 3201 - Common Ground: Learning from the Land
- CRJS 2002 - Indigenous People and the Canadian Criminal Justice System
- EDUC 4351 - Indigenous Perspectives in Education
- ENGL 3353 - North American Indigenous Literatures
- ENGL 3390 - African Writing in English
- ENVS 3336 - Indigenous & Stakeholder Consultation in Environmental Management
- FILM 2231 - Indigenous Film
- HIST 2215 - History of the People of the Plains: Treaty 7 Field Course
- HIST 2221 - Indigenous Settler Relations: 1497-1877
- HIST 2234 - The Canadian State and Indigenous Peoples from Treaty 7 to the Truth and Reconciliation Commission
- HIST 2247 - Canada's Frontier: the History of the West
- HIST 3306 - Racism and Immigration in Canada
- HIST 3343 - Resistance and Resilience: Indigenous Peoples and Colonialism in Context
- HIST 3345 - Indigenous Histories of Canada: Settler Colonialism and Indigenous Nationhood in Northern North America
- HIST 3346 - Indigenous People in Latin America
- INST 2270 - Virtual Exploration of the Treaty 7 context

- INST 2710 - Indigenous Arts of North America
- INST 2720 - Travel Studies in Indigenous Studies
- INST 2730 - Topics in Indigenous Studies
- INST 2750 - Introduction to Indigenous Oral Systems
- INST 3710 - Place- and Land-based Learning: Decolonizing and Indigenous Perspectives
- INST 3730 - Racism and Indigenous Perspectives in Canada
- INST 3740 - Indigenous Research Ethics and Protocols
- INTS 2250 - Local Indigenous Health and Wellbeing - Soh Ksistoom Sinni - Through Kimma Pi Pitsin
- INTS 3331 - International Community Development: Indigenous and Global Perspectives
- LAST 1101 - Introduction to Contemporary Latin American Cultures
- LAST 2201 - Cultures of South America
- LAST 2202 - Cultures of Mexico, Central America and the Caribbean
- PSYC 3380 - Indigenous Psychology
- SLWK 2224 - Indigenous Knowledges and Practices in Social Work

## **Information Design, Minor**

---

Information design uses traditional and evolving design principles to translate complex, unorganized or unstructured data into valuable -and meaningful - information. Information designers design for understanding. An Information Design minor will help students develop skills in visual design, typography, social media analysis, information architecture, instructional design, user experience design and problem-solving through design thinking methods.

Students have the option to focus on visual design, human factors, and technical and persuasive communication.

### **Required courses**

- INFO 1600 - Information Design: Past, Present, and Future
- INFO 1610 - Principles of Design Thinking and Doing
- INFO 1620 - Visual Communication Fundamentals
- INFO 2663 - Visual and Applied Rhetoric
- INFO 3605 - Qualitative Research Methods for Information Design

One of the following

- INFO 2680 - Intercultural Perspectives and Inclusive Information Design
- INFO 3600 - Usability

## **Innovation and Entrepreneurship, Minor**

---

Whether you're applying for a dream job, changing the world, or launching a venture, mastering innovation and having an entrepreneurial mindset will help you get there.

Consider a minor in Innovation and Entrepreneurship if:

- You want to compliment your current program of study with a set of skills and a vibrant community of peers who want to build, create and innovate
- You want to add value to any organization you join
- You might want to start your own venture now, or in the future
- You want to tackle complex problems and have an impact on others
- You want to explore your passions and see where it leads you

Rekindle your creativity, discover your passion, develop entrepreneurial skills, and connect with others in ways that will serve you long after you graduate.

### **Required Courses**

- ENTR 2301 - Innovation and the Entrepreneurial Experience
- ENTR 3302 - Creativity for Entrepreneurial Practice

Four of the following

- COMP 1207 - Introduction to Digital Technologies
- ENTR 3305 - The Art of the Pitch
- ENTR 3350 - Spearheading and Navigating Product Launch
- ENTR 3360 - How Technology Enables Innovation
- ENTR 3370 - Society, Innovation and Enterprise
- ENTR 3730 - Special Topics in Innovation and Entrepreneurship
- ENTR 4332 - Venture Launch
- ENTR 4343 - Growing the Enterprise

- ENTR 4344 - Corporate Innovation and Entrepreneurship
- ENTR 4420 - DNA of Buying, Selling and Business Development
- ENTR 4433 - Business Plan Development \*
- SINV 3305 - Agents of Social Change
- Any other 3000 or 4000 level ENTR course\*\*

\* This course requires one or more prerequisites outside of the minor.  
 \*\* Students can only choose one additional ENTR 3000 or 4000 level course to complete this requirement.

#### Note

Students wishing to focus their minor in a particular area should consult with an advisor prior to selecting their option courses.

### **International Business, Minor**

---

A series of international business courses have been designed for students who want to participate in the global economy, international trade, marketing goods and services internationally, increasing the competitiveness of an organization through co-operation with foreign partners or suppliers or even establishing a business venture beyond Canadian borders. In the completion of these international business courses, students have an opportunity to earn a Forum for International Trade Training Diploma.

#### Required Courses

- INBU 2201 - Cross-Cultural Management
- INBU 3301 - Global Business Environment
- INBU 3302 - International Marketing
- INBU 3304 - Global Supply Chain Management
- INBU 5305 - International Market Entry Strategies

Plus any one of the following

- FNCE 3302 - International Finance \*\*
- INBU 2299 - Directed Readings \*
- INBU 3399 - Directed Readings \*
- INBU 3306 - International Trade Research
- INBU 3307 - International Trade Law \*\*
- INBU 3730 - Special Topics in International Business
- INBU 4408 - International Trade Management

\* No more than one Directed Readings course in a single discipline can be used for graduation purposes.

\*\* This course requires one or more prerequisites outside of the minor.

### **International Business and Economics, Minor**

---

This is an interdisciplinary minor that will give the students a theoretical and practical perspective on an area that can only grow in importance in an increasingly globalized world market. Students will benefit from the opportunity to study the interrelated fields of International Business and Economics.

#### Required Courses

- ECON 1101 - Principles of Microeconomics
- ECON 1103 - Principles of Macroeconomics
- INBU 3301 - Global Business Environment

Five of the following (at least one must be chosen from this group)

- ECON 2221 - International Trade
- ECON 2229 - International Money and Finance

One of

- ECON 2261 - Development Economics
- ECON 2263 - Development Economics - Field School Program

At least one must be chosen from this group

- FNCE 3302 - International Finance \*
- INBU 3302 - International Marketing
- INBU 3306 - International Trade Research
- INBU 3307 - International Trade Law \*
- INBU 3730 - Special Topics in International Business
- INBU 4408 - International Trade Management

\*This course requires one or more prerequisites outside of the minor.

## Law and Governance, Minor

---

The Law and Governance Minor is an interdisciplinary program that draws primarily from the fields of criminal justice and political science to examine the regulatory environments in which our knowledge economy and our communities thrive. Students will critically explore political and legal institutions, at multiple levels, in order to understand and analyze them, work within them, and improve them. This minor will include a total of 8 courses, no more than 4 of them at the 1000 level, with at least one course at the 3000 level or higher.

The Law and Governance Minor is structured to be as accessible to students as possible, with many pathways available to completion. Foundational courses in both government and politics and the Canadian State as well as introductory courses in criminology and criminal justice are required, and from there, students can tailor their remaining courses toward their specific interests. Because we have selected courses with few or no prerequisites, in most cases these foundational courses serve as the gateway to the remaining courses available in the minor.

### Required Courses

- CRJS 1001 - Introduction to Criminology
- CRJS 1003 - Introduction to the Justice System
- PLSC 1101 - Introduction to Government and Politics
- PLSC 2231 - The Canadian State

### Criminal Justice Courses

Choose two of the following courses:

- CRJS 2003 - Young Persons in Conflict with the Law
- CRJS 2004 - Issues and Trends in Canadian Policing
- CRJS 2006 - Corrections
- CRJS 2008 - Environmental Criminology: Theories, Methods, and Strategies
- CRJS 2009 - Selected Issues in Human Justice
- CRJS 2017 - Corporate and White Collar Crime
- CRJS 2019 - Restorative Justice
- CRJS 2021 - Women and the Canadian Criminal Justice System
- CRJS 2222 - Canadian Criminal Justice Field School Part A
- CRJS 3011 - Introduction to Criminal Law
- CRJS 4013 - Evidence and Procedures

- ECON 1170 - Economics of Crime and Criminal Justice \*

*\*This ECON course can be counted as a CRJS option to satisfy the minor requirement.*

### Political Science Courses

Choose two of the following:

- PLSC 1123 - Canadian Political Issues
- PLSC 2227 - Women and Politics
- PLSC 2243 - Law, Politics and the Judicial Process (6 credit hours, can count as two PLSC options to satisfy the minor requirement)
- PLSC 2259 - Comparative Government and Politics
- PLSC 2287 - Introduction to International Relations
- PLSC 3229 - Alberta and Provincial Politics
- PLSC 3303 - Federalism
- PLSC 3351 - American Government and Politics
- PLSC 3382 - International Organizations

### Note

Students must complete no more than four courses at the 1000 level and at least one course at the 3000 level or higher.

## Linguistics, Minor

---

Linguistics is a discipline dedicated to understanding all aspects of language. Students pursuing a minor in Linguistics learn about the structure of language including its words, sounds, and sentences. Students can also learn about how children and adults acquire language; how languages change over time; how languages differ from one another; and how the brain represents and processes languages. A minor in Linguistics may be advantageous to students studying Anthropology, Computer Science, Education, English, Philosophy, Psychology, or Psychology. It may also be beneficial to anyone interested in languages more generally. Students planning on completing a minor in Linguistics should be advised that not all Linguistics courses are offered every year. Students should check with the coordinator to ensure that they are able to meet all requirements before graduation.

### Required Course

- LING 1111 - The Nature of Language I

One of the following

- LING 2201 - Syntax I
- LING 2215 - Phonology I

Four Additional Courses

- ANTH 1106 - Introduction to Linguistic Anthropology
- ENGL 3306 - History of the English Language
- LING 1113 - The Nature of Language II
- LING 2201 - Syntax I
- LING 2203 - Phonetics
- LING 2207 - Second Language Acquisition
- LING 2215 - Phonology I
- LING 2221 - Modern English Grammar
- LING 2231 - First Language Acquisition
- LING 2241 - Languages of Canada
- LING 3315 - Language Typology
- LING 3371 - Introduction to Psycholinguistics
- PSYC 3341 - The Psychology of Language
- Students must complete at least one course at the 3000-level or higher.
- Students should be aware registration in senior-level course options may require successful completion of specific courses at 1000, 2000, and/or 3000 levels.
- LING 2201 and LING 2215 can be used as an option if it was not taken as a required course for this minor.

## **Marketing, Minor**

---

The minor in Marketing provides a general overview of the marketing discipline for students in degree programs at Mount Royal University.

This minor exposes students to introductory and advanced topics in the field of marketing. Students have the option to focus on marketing creative or strategic marketing.

Required Courses

- MKTG 2150 - Fundamentals of Marketing
- MKTG 3150 - The Science of Persuasion
- MKTG 3258 - Evidence-Based Marketing

Three of the following

- INBU 3302 - International Marketing
- MKTG 3350 - Consumer Behaviour
- MKTG 3450 - Designing Impactful Brands
- MKTG 3458 - Managing Marketing Relationships
- MKTG 3550 - The Fundamentals of Branding
- MKTG 3558 - Marketing Analytics and Insights
- MKTG 3730 - Special Topics in Marketing
- MKTG 4850 - Professional Brand Strategy
- MKTG 4858 - Professional Marketing Strategy

Note

Students wishing to focus on marketing creative as part of their minor are advised to take MKTG 3450, MKTG 3550, and MKTG 4850. Students wishing to focus on strategic marketing as part of their minor are advised to take MKTG 3458, MKTG 3558, and MKTG 4858.

## **Mathematics, Minor**

---

Students are required to take seven courses to complete a minor in Mathematics. These seven courses must include three core courses and four courses from the list of approved options. At least two courses must be at the 3000 level or higher.

Required Courses

All of the following:

- MATH 1200 - Calculus for Scientists I
- MATH 1203 - Linear Algebra for Scientists and Engineers
- MATH 2200 - Calculus for Scientists II

Approved Options

Four of the following (at least two at the 3000 level or higher):

- MATH 1224 - Introduction to Statistics
- MATH 1271 - Discrete Mathematics
- MATH 1505 - Puzzling Adventures in Mathematics
- MATH 2101 - Abstract Algebra
- MATH 2233 - Statistics for Biological Sciences
- MATH 2234 - Concepts of Mathematical Statistics
- MATH 2235 - Statistics with Applications in Geology
- MATH 2303 - Linear Algebra for Data Science
- MATH 2307 - Differential Equations I
- MATH 2311 - Linear Algebra II

- MATH 2321 - Mathematical Probability
- MATH 2323 - Introduction to Mathematical Statistics
- MATH 2444 - Statistical Data Analysis
- MATH 3101 - Numerical Analysis
- *MATH 3102 - Mathematical Modeling*
- MATH 3200 - Mathematical Methods
- MATH 4101 - Abstract Algebra II
- MATH 4102 - Analysis I
- MATH 4103 - Complex Analysis
- MATH 4104 - Introduction to Partial Differential Equations
- *MATH 4105 - Applied Linear Models*

#### Notes

- Courses in *Italics* are under development.
- No more than three courses at the 1000 level can be used towards this minor.
- No more than two of MATH 1224, MATH 2233, MATH 2234, MATH 2235, MATH 2321, MATH 2323, MATH 2444 and MATH 4105 can be used towards this minor.

### Mathematics for Elementary Education, Minor

---

The student is required to take the three core courses and then choose three courses with at least one course must be 3000 level or above from the approved Mathematics options in order to attain a total of six courses of which at least two courses must be 3000 level or above.

#### Required Courses

- MATH 1150 - Mathematical Reasoning
- MATH 2150 - Higher Arithmetic
- MATH 4201 - Seminar

#### Approved Options

- MATH 1102 - Introduction to Geometry
- MATH 1103 - Introduction to Statistical Reasoning
- MATH 1205 - The Beauty of Mathematics
- MATH 1505 - Puzzling Adventures in Mathematics
- MATH 3201 - Visual Art and Mathematics: an integrated understanding

- MATH 3202 - Mathematics Through the Ages

### Medicinal Chemistry, Minor

---

A minor in Medicinal Chemistry provides students with the opportunity to study the design of pharmaceuticals and their interactions with the human body. The Medicinal Chemistry minor is composed of five required courses and three options, for a total of eight courses. Course offerings provide opportunities to develop theoretical and practical skills related to the synthesis and evaluation of medications. This minor is not available to students enrolled in the Chemistry major.

#### Required Courses

- BCEM 2201 - General Biochemistry
- CHEM 1201 - General Chemistry - Structure and Bonding
- CHEM 1202 - General Chemistry - Introduction to Quantitative Chemistry
- CHEM 2101 - Organic Chemistry I
- CHEM 2102 - Organic Chemistry II

#### One of

Students must complete both courses in either list A or list B.

#### List A

- CHEM 3201 - Structure Determination
- CHEM 4103 - Advanced Organic Chemistry: Synthesis

#### List B

- BCEM 4212 - Biochemical Pharmacology
- CHEM 4213 - Drug Discovery

#### One of

- BCEM 3201 - Protein Analytical Biochemistry
- BCEM 3202 - Enzymes and Metabolic Systems
- BCEM 4212 - Biochemical Pharmacology
- CHEM 3201 - Structure Determination

## Outdoor Leadership, Minor

---

The Outdoor Leadership Minor will provide students from across a range of programs with the option to learn about the philosophies, knowledge, and skills associated with outdoor leadership. This minor will offer students the foundations of planning and facilitating outdoor educational experiences, outdoor risk management plans, and safe and effective implementation of outdoor activities across various contexts.

### Required Courses

- HPED 1070 - Foundations of Outdoor Leadership
- HPED 2870 - Introductory Backpacking
- HPED 2884 - Introductory Winter Travel

### Minor Options

Choose 12 credits from the following courses:

- ETOL 3270 - Expedition
- HPED 2875 - Introductory Mountain Biking
- HPED 2880 - Introductory Canoeing
- HPED 2871 - Technical Mountain Skills
- HPED 2872 - Wilderness Survival
- HPED 2873 - Introductory Rock Climbing
- HPED 2881 - Introductory Kayaking
- HPED 3711 - Field School-B
- HPED 3884 - Winter Back Country Travel
- PHYL 3320 - Adapted Physical Activity
- At least one course must be completed at the 3000 level or higher

## Peace and Justice Studies, Minor

---

Peace and Justice Studies examine the challenges and opportunities for advancing peacebuilding practices that are grounded in justice. It studies inter/intra-state warfare, settler colonial violence, imperial wars, and genocide, among others, as types of structural violence that continuously cause harm over long periods of time. The emphasis is on opposing and transforming these types of structural violence. Topics include Indigenous resistance/resurgence as peacebuilding, the need to foreground gender dynamics and gender justice in peacebuilding practices, and the successes and limitations of grassroots initiatives for peace and justice, among others. Focusing on local, national, regional, and global contexts, Peace and Justice Studies critically examine the political, social, economic, and cultural structures and forces underpinning war and violence, foregrounding

structural violence and investigating paths towards establishing and building a just peace. Peace and Justice Studies courses are often interdisciplinary, intersectional, and global, reflecting the rich interdisciplinary frameworks of decolonialism, feminism, international political sociology, history, and international relations.

To complete the Minor, students can take a maximum of three 1000-level courses, and are required to take a minimum of one 3000-level course.

**Please note there are some courses in the Minor that may have one or more prerequisites required outside the Minor, and these courses are noted by an asterisk.**

### Required Courses

- PJST 1101 - Introduction to Peace and Justice Studies
- PJST 2110 - Implementing Peace and Justice

### Four additional courses

- ANTH 2213 - Contemporary Aboriginal Issues in Canada
- ENGL 2291 - Postcolonial Literature I \*
- ENGL 2292 - Postcolonial Literature II \*
- ENGL 3390 - African Writing in English \*
- GNED 1301 - Citizenship Without Borders
- GNED 1303 - Conflict and the Social Context
- GNED 2403 - Social Media and Social Movements \*
- GNED 3030 - Global Communities and Societies \*
- HIST 2250 - The Modern Middle East: 1800-Present \*
- HIST 2263 - Conflict and Society in the Twentieth-Century
- HIST 3319 - Conflict and Violence in Canadian History \*
- HIST 3343 - Resistance and Resilience: Indigenous Peoples and Colonialism in Context
- HIST 3345 - Indigenous Histories of Canada: Settler Colonialism and Indigenous Nationhood in Northern North America
- HIST 3361 - The Holocaust
- HIST 3365 - World War II
- HIST 3373 - World War I
- HIST 4401 - Special Topics in War and Society \*
- HIST 4461 - Limits of Representation: Holocaust and Memory \*

- INST 1101 - Introduction to Indigenous Studies: the Canadian Context
- INST 1111 - Introduction to Indigenous Studies: International Perspectives
- INST 3710 - Place- and Land-based Learning: Decolonizing and Indigenous Perspectives
- PHIL 3350 - Power, Violence, Evil \*
- PLSC 2287 - Introduction to International Relations \*
- PLSC 3382 - International Organizations \*
- PLSC 3489 - Foreign Policies of the Major Powers \*
- SLGY 2250 - The Sociology of Indigenous Peoples \*
- SLGY 3304 - Social Movements \*
- SLGY 3372 - Sociology of Violence \*
- WGST 2205 - Transnational Feminisms
- WGST 3310 - Decolonizing Feminisms \*

\*This course requires one or more prerequisites outside of the minor.

Note:

Students must complete no more than three courses at the 1000-level and at least one course at the 3000-level or higher.

## Philosophy, Minor

---

Philosophy investigates the basic foundations and assumptions of every subject matter to determine what these foundations are and whether they are justified. It therefore asks fundamental questions about existence, knowledge, and morality.

### Required Courses

A total of eight courses are required to complete this minor:

- One course from each section below.
- Five additional PHIL courses.
- Two of the eight courses must be at the 3000 level or higher.
- No more than three of the eight courses may be at the 1000 level.

### One course in Logic and Argumentation

- PHIL 1175 - Critical Thinking
- PHIL 1179 - Introduction to Symbolic Logic

### One course in Value Theory

- PHIL 1130 - Philosophy: Sex and Love
- PHIL 1149 - Philosophy: Values and Ethics
- PHIL 2216 - Nineteenth Century Philosophy
- PHIL 2219 - Philosophy of Law
- PHIL 2223 - Bio Ethics
- PHIL 2229 - Business Ethics
- PHIL 2237 - Feminist Philosophy
- PHIL 2241 - Existentialism
- PHIL 2253 - Social and Political Philosophy
- PHIL 2291 - Philosophy and the Environment
- PHIL 3333 - Art, Beauty, Expression
- PHIL 3345 - Is, Ought, Why
- PHIL 3368 - Philosophy of History
- PHIL 4730 - Advanced Philosophical Topics

### One course in Epistemology/Metaphysics

- PHIL 1101 - Philosophy: Knowledge and Existence
- PHIL 2204 - Medieval Philosophy
- PHIL 2211 - The Classical Period
- PHIL 2215 - The Enlightenment Philosophers
- PHIL 2221 - Metaphysics
- PHIL 2263 - Theory of Knowledge
- PHIL 2267 - Philosophy of Science
- PHIL 2281 - Philosophy of Mind
- PHIL 2282 - Philosophy and Pop Culture
- PHIL 3307 - Language, Truth, and Adventures in Abstraction
- PHIL 3350 - Power, Violence, Evil

## Physical Literacy for Education, Minor

---

Physical Literacy incorporates elements of physical activity, mental and social well-being while fostering the motivation, confidence to lead a healthy and active life. It is much more than participating in sports and physical activity, it's about leading others, and ourselves, to live an active and healthy lifestyle. This health and physical education minor will provide Bachelor of Education students with experiential knowledge and learning to incorporate physical literacy in the education curriculum.

## Required Courses

- HPED 1040 - Wellness and the Student: From Personal Health to Community Action
- PHYL 2530 - Foundations of Physical Literacy
- PHYL 3320 - Adapted Physical Activity
- PHYL 3518 - Physical Growth and Development

### One of:

- EDUC 1231 - Professional Dimensions I
- EDUC 1233 - Professional Dimensions II
- HPED 1000 - Introduction to Health and Physical Education

Optional Courses (at least six credits from the following)

- HPED 2507 - Nutrition and Health
- HPED 2810 - Invasion Games
- HPED 2830 - Introductory Flexibility and Relaxation \*
- HPED 2832 - Functional Gymnastics
- HPED 2852 - Net and Implement Games
- HPED 2870 - Introductory Backpacking
- HPED 2871 - Technical Mountain Skills
- HPED 2872 - Wilderness Survival
- HPED 2873 - Introductory Rock Climbing
- HPED 2875 - Introductory Mountain Biking
- HPED 2880 - Introductory Canoeing
- HPED 2881 - Introductory Kayaking
- HPED 2883 - Recreational Aquatic Games
- HPED 2884 - Introductory Winter Travel
- HPED 3711 - Field School-B
- HPED 3740 - Wellness and the Student: From Community Health to Global Action
- HPED 3884 - Winter Back Country Travel
- PHYL 1310 - Teaching Games for Understanding
- PHYL 2520 - Introductory and Intermediate Coaching
- ETOL - specific courses, which can be used to fulfill an activity requirement

\*This course requires one or more prerequisites outside of the minor.

## Physics, Minor

---

The student is required to take five physics courses and three mathematics courses. A minimum grade of C+ must be achieved in all physics courses comprising the minor.

### Required Courses

- MATH 1200 - Calculus for Scientists I
- MATH 1203 - Linear Algebra for Scientists and Engineers
- MATH 2200 - Calculus for Scientists II
- PHYS 1201 - Classical Physics I
- PHYS 1202 - Classical Physics II
- PHYS 2201 - Acoustics, Optics and Radiation
- PHYS 2203 - Electromagnetism
- PHYS 3602 - Elementary Quantum Mechanics

## Political Science, Minor

---

Political Science, administered through the Department of Economics, Justice and Policy Studies, explores such concepts as right-centre-left, freedom, rights, justice, equality, democracy and the good life. Modern political science involves the systematic study of governmental power and authority and how these shape individuals, communities and nations.

### Required Courses

- PLSC 1101 - Introduction to Government and Politics
- Seven additional PLSC courses, of which at least two must be at the 3000 or 4000 level and only three can be at the 1000 level.

### Note

Students should be aware registration in senior level PLSC courses may require successful completion of specific PLSC courses at the 1000, 2000, and/or 3000 level.

## Psychology, Minor

---

The minor in Psychology is designed for students who want to gain knowledge that will enhance their understanding of human behaviour. Topics such as lifespan development, theories of personality, abnormal behaviour, cognition, and social and biological psychology can be explored. Students will develop critical thinking skills, an understanding of ethics in research and an appreciation for the ambiguity of psychological explanations in

understanding human behaviour. For those interested in a career in social services, human resources, marketing, teaching, medical services or administrative positions in a variety of fields, a minor in Psychology is an excellent addition to their program.

### Required Courses

- PSYC 1105 - Introductory Psychology for Non-Majors
- At least two PSYC courses at the 3000 level or higher
- A total of eight PSYC courses, excluding PSYC 1121

### Note

Students who have completed PSYC 1103 and PSYC 1104 or PSYC 1104 and PSYC 1106 are not required to take PSYC 1105. PSYC 1103 and PSYC 1104 or PSYC 1104 and PSYC 1106 will count as two of the eight requirements toward the minor. Students may count at most two of PSYC 1103, PSYC 1104, PSYC 1105 and PSYC 1106 for credit towards a minor in Psychology.

Students should be aware that registration in senior-level PSYC courses may require successful completion of specific PSYC courses at the 1000-, 2000-, and/or 3000-level.

## Public Relations, Minor

---

The Minor in Public Relations is designed to educate students in the role that public relations plays in today's complex society. Public Relations is a growing field in Canada and globally, with the Canadian employment market forecast projecting consistent growth over the next decade.

Students who earn a Public Relations Minor will gain a broad understanding of the role of public relations within governments, corporations, non-profit organizations, and society, as well as knowledge and experience in developing public relations messaging and materials.

Note: Students should be aware that registration in senior PUBR level courses may require successful completion of specific PUBR courses at the 1000-, 2000-, and/or 3000-level.

### Required courses

One of:

- PUBR 1841 - Introduction to Public Relations
- PUBR 2830 - Public Relations and the Public Good

One of:

- PUBR 1845 - Interpersonal Communications
- PUBR 1849 - Applied Writing I for Public Relations

One of:

- COMM 2500 - Introduction to Communication Studies
- COMM 2501 - Media History and Contemporary Issues
- COMM 3500 - Media, Culture and Communication Theory

Three of:

- COMM 3501 - Intercultural Communication
- COMM 3515 - The Future of the Media
- PUBR 3841 - Media Relations
- PUBR 3843 - Internal Public Relations and Member Engagement
- PUBR 3851 - Computer Mediated Communication \*
- PUBR 3860 - Government Public Relations
- PUBR 3867 - The Canadian Energy Industry, CSR and Sustainability PR
- PUBR 3890 - Special Topics in Public Relations
- PUBR 4847 - International and Intercultural Public Relations
- PUBR 4849 - Fund Development and Corporate Philanthropy

*\*This course requires one or more prerequisites outside of the minor.*

## Religious Studies, Minor

---

Religious Studies takes historical, contemporary and comparative approaches to describing, analyzing and interpreting the beliefs, practices, art, architecture, literature, organizational forms, and music of the world's religions (Christianity, Buddhism, Hinduism, Islam, Judaism, Sikhism and many others). Religions are treated as part of human culture and as relevant to our world today, in private and public life, informing attitudes, ethics, media, geo-politics, etc. No previous knowledge or experience of any religion is required.

A total of eight Religious Studies courses are required.

## Required Courses

- A maximum of three Religious Studies courses at the 1000 level
- A minimum of two Religious Studies courses at the 3000 level or higher

## Alternative Religious Studies courses

- ANTH 3233 - The Anthropology of Religion
- HIST 3383 - Sin, Vice, and Religion
- HUMN 2297 - Issues in Science and Religion
- SLGY 2277 - Sociology of Religion

## Social Innovation, Minor

---

The minor in Social Innovation is designed to provide graduates with a clear practice to lead, design, and execute high impact, transformative change in our communities. Empathy, creativity, consent, and courage form the bedrock of the science of social change and can be applied whether graduates envision joining the commercial sector in a values-driven organization, plan to participate in the public or civic sector, develop a new to world social innovation or enterprise that addresses a persistent systemic problem, or engage at the forefront of reconciliation and resurgence in First Nations, Métis and Inuit communities across Canada.

The minor in Social Innovation consists of six courses, three of which are required courses and three of which are chosen from a list of options.

## Required Courses

- SINV 2201 - Changing the World: An Introduction to Social Innovation
- SINV 3203 - The Facilitator's Toolbox: Inspiring Innovation, Creativity, & Change
- SINV 5010 - Social Entrepreneurship - Disrupting the Status Quo **or**
- SINV 5405 - Social Innovation Strategy and Action

## Three of the following

- SINV 2205 - Social Innovation Tools for Changemakers
- SINV 3303 - Systems Thinking
- SINV 3305 - Agents of Social Change
- SINV 3730 - Special Topics in Social Innovation

- SINV 4401 - Civic Innovation - Igniting Change for Social Impact
- SINV 4402 - The Design Thinking Lab - Using a Human Centered Approach

## Social Studies, Minor

---

Social Studies is a broad discipline including Geography, Political Science, Economics, History, Indigenous Studies and others. Through a selection of courses in these varied disciplines, students develop a strong sense of their role as citizens in a democratic society.

## Required Courses

One course from each:

- Group 1
- Group 2
- Group 3
- Group 4

Four additional courses are required from the following list at 2000 level or higher. At least one course must be at the 3000 level or higher. There may not be more than two from any discipline:

- Canadian Studies\*
- Economics\*
- Geography\*
- History\*
- Indigenous Studies\*
- Political Science\*
- Sociology\*
- Women's & Gender Studies\*

\*Senior level courses may require completion of one or more prerequisites outside of the minor.

## Group 1: The Land

- GEOG 1101 - The Physical Environment
- GEOG 1102 - World Regional Geography
- GEOG 1103 - The Human Environment

## Group 2: Politics and Economics

- ECON 1143 - The Economics of Contemporary Issues
- PLSC 1101 - Introduction to Government and Politics

## Group 3: History and Global Connections

- HIST 1131 - Introduction to Canada: Pre-Confederation

- HIST 1133 - Modern Canada, 1867 to Present

#### Group 4: Culture and Community

- INST 1101 - Introduction to Indigenous Studies: the Canadian Context

### **Sociology, Minor**

---

Sociology encourages students to engage their "sociological imaginations" through a critical examination of society. It is a wide-ranging discipline, from the macro study of large social systems and institutions to the micro-scrutiny of social interaction. Through a sociological lens, students explore the ways in which societies are created, maintained, and transformed with a focus on issues of power, social inequality, and social resistance.

#### Required Courses

- SLGY 1101 - Introduction to Sociology
- Seven additional SLGY courses, including at least two at the 3000 or 4000 level

#### Note

Students should be aware registration in senior level SLGY courses may require successful completion of specific SLGY courses at the 1000, 2000, and/or 3000 level.

### **Spanish Language and Hispanic Cultures, Minor**

---

Spanish is the official language in 21 countries and estimates indicate the USA will be the country with the most Spanish speakers in the world by 2050. A minor in Spanish Language and Hispanic Cultures develops students' Spanish language proficiency at an intermediate level and a foundational understanding of Hispanic cultures. Many students pursuing disciplines in International Relations, Business, Communication, Sociology and even Science will find that this minor will be useful for career paths in international contexts. The minor in Spanish Language and Hispanic Cultures consists of 8 courses.

#### Required Courses

Four of the following courses

- SPAN 1101 - Beginners' Spanish I
- SPAN 1103 - Beginners' Spanish II
- SPAN 2211 - Intermediate Spanish I

- SPAN 2213 - Intermediate Spanish II
- SPAN 2223 - Oral Expression and Composition
- SPAN 3305 - High Intermediate Spanish
- SPAN 3308 - Spanish through Creative Writing
- SPAN 3331 - Business Spanish I

Two of the following courses

- LAST 1101 - Introduction to Contemporary Latin American Cultures
- LAST 2201 - Cultures of South America
- SPAN 2219 - Contemporary Spanish Culture and Society
- SPAN 2220 - Ibero-American Cinema

Two additional courses from the following

- ANTH 3205 - Anthropological Imaginings of Latin America
- ANTH 3225 - Maya Civilization
- HIST 2271 - Latin America Before Independence
- HIST 2273 - Latin America After Independence
- HIST 3346 - Indigenous People in Latin America
- LAST 1101 - Introduction to Contemporary Latin American Cultures
- LAST 2201 - Cultures of South America
- MECU 1101 - Topics in Romance Mediterranean Cultures
- RELS 3322 - Religion in the Americas
- SPAN 2219 - Contemporary Spanish Culture and Society
- SPAN 2220 - Ibero-American Cinema
- SPAN 2223 - Oral Expression and Composition
- SPAN 3305 - High Intermediate Spanish
- SPAN 3308 - Spanish through Creative Writing
- SPAN 3331 - Business Spanish I

#### Notes

At least one course must be taken at the 3000 level or higher.

Students with prior knowledge of Spanish must take a placement test. For more information, students should contact the Spanish coordinator or academic advisor.

## **Speech, Minor**

---

A minor in Speech is an interdisciplinary program which focuses on the study of spoken communication and how we present ourselves in a variety of settings, from interpersonal communications, leadership and small group participation and interviews, to speaking to large audiences. The skills learned are transferable both personally and professionally. A Minor in Speech is advantageous and beneficial to any career path that requires communication, including but not limited to Education, Business, Languages and Communications. Material covered includes Speech Writing, Public Speaking, Interpersonal Communications, Linguistics, Delivery Techniques, Persuasion, Intercultural Communication and Professional Speaking.

### **Required Courses**

- LING 1111 - The Nature of Language I
- SPCH 2001 - Introduction to Public Speaking
- SPCH 2003 - Delivery Techniques for Presentation
- SPCH 2007 - Professional Speaking
- SPCH 3001 - Persuasive Speaking
- SPCH 3009 - Great Speakers, Great Speeches

### **One of the following**

- LING 1113 - The Nature of Language II
- SPCH 2005 - Oral Tradition, Narration, and Story-Telling

## **Supply Chain Management, Minor**

---

Supply Chain Management includes management of the flow and transportation of goods from raw materials through to the consumer. Areas of study include production planning, logistics management, purchasing, inventory management, material handling, transportation, enterprise resource planning, and global logistics. Course credits may be transferable to professional programs such as the Certified Professional Purchaser (CPP), Certified Professional Logistician (CPL) and the Canadian Institute of Traffic and Transportation (CITT). Students with an interest in supply chain can be prepared for careers in professional purchasing, international trade, and demand forecasting as well as management positions in transportation, inventory, and distribution.

### **Required Courses**

- LSCM 2201 - Introduction to Logistics and Supply Chain Management

- LSCM 2301 - Introduction to Physical Distribution
- LSCM 3403 - Operations Management

### **Three of the following**

- LSCM 3203 - Principles of Quality Management
- LSCM 3303 - Fundamentals of Procurement
- LSCM 3305 - Physical Distribution and Logistics
- LSCM 3402 - Inventory and Warehouse Management

- LSCM 3407 - Business Negotiations/Project Management **or**
- MGMT 3269 - Project Management

## **Women's & Gender Studies, Minor**

---

Women's & Gender Studies asks questions about power and privilege that focus not only on the experiences and perspectives of women but also on the construction and mobilization of racialized, heteronormative gender formations. Not exclusively about or for women, Women's & Gender Studies courses are explicitly interdisciplinary, intersectional, and transnational, reflecting the rich interdisciplinary frameworks of feminist, gender and queer theories.

### **Required Courses**

- WGST 1172 - Introduction to Women's & Gender Studies
- WGST 2205 - Transnational Feminisms
- Two additional WGST courses at the 2000 level or higher
- One additional WGST course at the 3000 level or higher

### **Three additional courses from the following list**

- ECON 2223 - Gender Economics \*
- ENGL 2216 - Women's Writing: Voices and Visionaries \*
- ENGL 3382 - Textualities/Sexualities
- HIST 2108 - Gender History in Canada
- HIST 2207 - Histories of Sexualities
- PHIL 2237 - Feminist Philosophy
- PLSC 2227 - Women and Politics
- RELS 2281 - Women and Religion
- SLGY 2233 - Sociology of Gender \*
- Any other WGST course

\* This course requires one or more prerequisites outside of the minor.

# Open Studies

## General Information

Open Studies provides a highly flexible opportunity for students to explore their educational options at Mount Royal. It is designed for students who would like to combine different types of study and/or for students who may be undecided about their post-secondary goals. Students may choose to combine post-secondary credit classes with non-credit academic upgrading courses. Open Studies provides full- or part-time learning opportunities for students who:

- wish to participate in post-secondary education but do not wish to enter a specific program of study at this time;
- would like to sample courses in order to determine what program of study to pursue;
- wish to take courses for professional development or personal interest;
- need to pick up a course(s) to meet the admission requirements for their intended program of interest;
- wish to improve high school grades to become competitive for admission;
- may have missed an admission deadline for a specific program; or
- are returning to school and wish to refresh skills after an absence.

**NOTE: Students can complete a maximum of 30 credits (normally ten courses) as an Open Studies and/or University Entrance student. Any awarded grade (including F) will count towards the limitation but withdrawals do not. Academic upgrading courses do not carry any credit value and, as such, do not count towards the 30 credit limit. Students who reach this limit and who have not been admitted into a Mount Royal program will not be permitted to register in additional credit courses. There is no appeal process to extend this limit. Students are strongly encouraged to consult with an advisor before they reach the limit.**

## Admission Requirements

Open Studies applicants are not required to meet the General Admission Requirements for Mount Royal programs. Open Studies does not have specific course-based admission criteria, thereby providing students with an opportunity to upgrade and prepare for further post-secondary studies.

Applicants are required to provide the appropriate official documentation to meet the English Language Proficiency Requirement if their mother tongue (first language spoken as a child) is not English (see English Language Proficiency Requirement). In

addition, official transcripts from all high school and post-secondary institutions attended are required for admission.

## Curriculum

Open Studies students:

- may take upgrading courses alone or in combination with university-level courses,
- are allowed to earn a maximum of 30 credits (typically 10-three credit courses) in Open Studies and/or the University Entrance Option (Any awarded grade (including F) will count towards the limitation but withdrawals do not.),
- are not eligible to receive a Letter of Permission to take a course or courses from other institutions,
- do not have access to restricted courses (i.e., those reserved for program students).

Students who wish to upgrade their high school courses may enroll in various credit-free high school equivalency courses offered at Mount Royal. While these courses are not eligible for Alberta Education graduation credits or transcript purposes, they are accepted as alternative entrance requirements for undergraduate programs offered by Mount Royal and other Alberta universities.

Open Studies students often will take courses that lead towards program requirements for a Mount Royal University program. Please consult the appropriate section in this calendar for course requirements for Mount Royal programs, and/or Academic Advising Services.

## Graduation Requirements

Academic Upgrading and Open Studies are access routes to undergraduate studies. As such, there are no graduation requirements.

# Academic Upgrading

## General Information

Academic Upgrading courses are high school-level courses that can be:

- presented for admission purposes to Mount Royal University and many other post-secondary institutions in Alberta. It is important to check with the institution directly to confirm the use of any of these courses within the admission process.
- used to improve high school grades or complete high school courses you may have missed.
- taken on their own or in conjunction with university-level courses.

Students who wish to upgrade their high school courses may enroll in various credit-free high school equivalency courses offered at Mount Royal. While these courses are not eligible for Alberta Education graduation credits or transcript purposes, they are accepted as alternative entrance requirements for programs offered by Mount Royal and some other Alberta post-secondary institutions.

Academic upgrading courses can be taken by students in the Academic Upgrading category which allows students to take high school level upgrading courses only.

Students in the Open Studies and University Entrance Option programs may also take academic upgrading courses. Please consult the appropriate section in this calendar for course requirements for Mount Royal programs, and/or Academic Advising Services: [mtroyal.ca/beadvised](http://mtroyal.ca/beadvised).

## Admission Requirements

Applicants are not required to meet the General Admission Requirements for Mount Royal University programs, however, they must complete the following requirements to be considered for admission.

## Transcripts

Official transcripts from all high school and post-secondary institution(s) you have attended are required. Final/ official transcripts are transcripts which are sent directly to Mount Royal University from the issuing institution. If you attended high school and

certain post-secondary institutions in Alberta, Mount Royal will request these transcripts on your behalf. You will need to request other transcripts if applicable.

All transcripts become the property of Mount Royal University and will not be returned nor photocopied for the student.

## English Language Proficiency requirement

All applicants must demonstrate English Language Proficiency for the purpose of admission if their primary or first language (meaning main language learned and used as a child) is not English. Please see the English Language Proficiency Requirement.

## Curriculum

There is no prescribed curriculum for Academic Upgrading as appropriate course selection depends on each student's intended program destination.

- BIOL 0115 - Introduction to Biology
- BIOL 0130 - Fundamentals of Biology
- CHEM 0115 - Basic Chemistry I
- CHEM 0130 - Basic Chemistry II
- ENGL 0115 - Writing and Communication Skills
- ENGL 0130 - Literature and Composition
- MATH 0115 - Foundations of Mathematics I
- MATH 0130 - Pre-Calculus
- MATH 0131 - Introduction to Calculus
- MATH 0132 - Foundations of Mathematics II
- NTST 0130 - Introduction to Native Studies
- PHYS 0130 - Introductory Physics
- SCIE 0130 - Science of the Environment
- SOSC 0130 - Ideology and the Canadian Historical Perspective

## Graduation Requirements

Academic Upgrading is an access route to undergraduate studies. As such, there are no graduation requirements. MRU academic upgrading students are not required to write provincial diploma exams.

# Bridge to Canadian Nursing, BCN

## General Information

The Bridge to Canadian Nursing (BCN) program is an individualized course of study. This "bridging" program is designed to prepare Internationally Educated Nurses (IENs), previously Registered Nurses (RNs) outside Canada, for the roles and expectations of RNs in the province of Alberta. Domestically trained nurses wishing to return to practice as registered nurses can complete the Bridge to Canadian Nursing program as a refresher program.

Successful completion of bridging courses helps to prepare IENs to write the national Nursing Exam and transition to registered nurse employment in Canada. This program is also designed for domestically trained nurses who have been out of practice and require a refresher program for license renewal. The BCN program of study addresses concepts such as professional communication skills for nurses, professional nursing, health alterations and therapeutics, health assessment, professional nursing skills, clinical reasoning skills, nursing theory, and nursing clinical practice in a medical/surgical environment. This program helps to prepare nurses who have been educated outside Canada or who are returning to practice for safe, competent nursing practice in Canadian health care settings. Coursework is also offered to help IENs address knowledge and practice differences in three specific areas of nursing practice: professional nursing in mental health, child health and family newborn health.

Candidates may take one or more courses depending on their learning needs.

## Academic Performance Requirements

In matters of progression and continuance, there are instances when institutional processes do not fully address concerns related to student continuance in a program.

- Violations of a professional code of ethics and/or standards of practice (i.e. CRNA and CNA nursing professional practice documentation). A committee established by the program will assess violations of relevant codes and standards and whether the student will be required to withdraw from the program based on the seriousness of the violation.
- Students who are unsuccessful after two registrations in the same core course (as

defined by the program) will be required to withdraw from the program. This includes, but is not limited to, the following examples of unsuccessful registration:

- Students who do not achieve the minimum required grade (as defined by the program) in one or both registrations;
- Students who earn a grade of "F" in one or both registrations; and
- Students who withdraw from the course with a "W" in one or both registrations.
- Students who are denied a practicum placement by an external stakeholder because of an assessed detrimental impact on the client, client group, or community being served. Students who are unable to meet clinical or field course requirements on this basis will be required to withdraw from the program.
- In order to be considered a student of record in the Bridge to Canadian Nursing program at Mount Royal, the student must achieve a minimum "C" grade (or minimum prerequisite grade) or "EP" (Experiential Pass) in all BCN courses. Grades below a 'C' in a BCN theory course or an unsatisfactory ("EF": Experiential Fail) in a BCN clinical practice course must be cleared by repeating the course before students may progress to any further nursing courses that require the failed course as a prerequisite. Students with two failures in the same BCN course will be withdrawn from the program and will not be eligible for re-admission unless approval is received from the Chair of the School of Nursing and Midwifery.

Students are permitted one re-registration in the same BCN course. That is, students are not allowed more than two (2) grades below the minimum pass or two (2) withdrawals in the same nursing program course, nor are they permitted **one** withdrawal and **one** grade below the minimum pass within the same nursing program course. Students who are unsuccessful after two registrations in the same BCN course will be required to withdraw from the program and will not be eligible for re-admission to the program. An appeal process is available, see the Student Handbook.

## Program Duration

Program requirements for the Bridge to Canadian Nursing program must be completed in two academic years.

## **Students With Disabilities**

When warranted, and without compromising academic and professional nursing practice standards, Mount Royal will provide reasonable accommodation for students with documented disabilities.

## **Nursing Practice Experience Policies**

Students must demonstrate satisfactory clinical performance as outlined in the course syllabus. Students' nursing practice experience may be scheduled at varied hours, including days, evenings, nights and weekends. Students may be required to complete practice experiences at sites distant from their place of residence. An out-of-town practice experience may be scheduled. All travel and accommodation costs associated with practice experiences are the responsibility of the student.

Participation in the classroom, clinical practice, tutorial and laboratory sessions is mandatory. A student who is unable to attend these experiences due to exceptional circumstances, and, therefore, is unable to meet course objectives may apply for a deferral of course work. Students are cautioned that even if a deferral is granted, required practice and/or tutorial experiences may not be immediately available, and student progress through the program may be delayed as a result.

A student may be prohibited from attending or completing a clinical practice experience if there is evidence to suggest that the student's physical and/or psychological health may be detrimental to patients or patient care. Approval of the Chair of the School of Nursing and Midwifery is required for entry into the clinical course.

## **Interruption of Program**

Students who interrupt their program of studies by not taking courses for one or more semesters are advised to refer to the relevant institutional policies.

## **Program Completion Requirements**

To be eligible for the Bridge to Canadian Nursing program, students must complete the program and achieve a cumulative grade point average of 2.00 with no grade less than "C" in each of their courses.

## **Cardiopulmonary Resuscitation (C.P.R.) Certification**

Students must provide proof of current C.P.R. Certification at the Basic Life Support for Healthcare Provider Level C on an annual basis. Evidence of certification is to be shown to the clinical instructor

prior to the beginning of all clinical experiences. All associated costs are the responsibility of the student.

## **Mask Fit Testing**

As a prerequisite for acute care clinical practice, all students must be fitted for N95 masks in accordance with Alberta Health Services policy. Mask fit-testing is valid for two years unless there has been weight gain or loss greater than 4.5 kilograms or following nasal fracture or facial scarring, in which case, refitting is required sooner. Evidence of mask fit testing is to be provided to the BCN Academic Advisor, and students must have their mask size with them for practice experiences. All costs associated with this service are the responsibility of the student.

## **Police Information Check**

Provincial legislation requires that new employees and volunteers in publicly funded agencies, including hospitals, seniors' lodges, group homes and nursing homes, are subject to a police information check and vulnerable sector check. In some cases, agencies may require students to provide proof of a police information check prior to commencing a clinical course. Thus, students may be required to obtain more than one police information check during their program of studies. All costs related to the police information check are the responsibility of the student.

If a student is denied a clinical placement due to concerns on the police check, then the student will be unable to meet course requirements and will be required to withdraw from the program. Refer to the statement regarding Police Information and Other Background Checks in the University Calendar.

## **Immunization**

Proof of up-to-date immunization (including rubella) status is required for all professional practice courses and is the responsibility of the student. All associated costs are the responsibility of the student. Failure to maintain a current immunization status will result in immediate withdrawal from the clinical practice area.

## **General Admission Requirements**

Prospective students apply for the Bridge to Canadian Nursing program using the standard Mount Royal Application for Admission form. For some applicants, the College of Registered Nurses of Alberta (CRNA) determines which courses are required. Internationally Educated Nurses (IENS) who are registered nurses in Canada can also self-select to take any Bridge to Canadian Nursing (BCN) courses. Domestically trained nurses wishing to return to practice as a Registered Nurse can also complete

the Bridge to Canadian Nursing program to refresh their skills before applying to CRNA for licensure.

To be eligible for admission to the program, applicants must meet the English Language Proficiency (Institutional) requirement for Mount Royal University and one of the following:

- Provide proof of current or previous registration as a Registered Nurse in Canada.
- Provide a letter from the College of Registered Nurses of Alberta (CRNA) identifying bridging or refresh requirements.
- Provide evidence of a recognized credential that meets the College of Registered Nurses of Alberta (CRNA) requirements for participating in the program.

Applicants will be required to meet the English Language Proficiency requirement by the following dates if they are given a (conditional) offer of admission.

- **Fall semester - August 1**
- **Winter semester - December 1**

### **Transfer Credit Assessment**

This program will not offer transfer credit for coursework completed at other institutions.

### **Curriculum**

The Bridge to Canadian Nursing (BCN) program is an individualized program of study which provides the following listed courses. Please note that attendance at Student Advising sessions (individualized or group) is strongly recommended to facilitate a smooth progression through the program.

#### **Required Courses (for full program):**

- HLTH 3101 - Professional Communication Skills for Nurses
- HLTH 3103 - Professional Nursing In Canada
- HLTH 3105 - Health Alterations and Therapeutics I
- HLTH 3107 - Professional Nursing Health Assessment
- HLTH 3211 - Health Alterations and Therapeutics II
- HLTH 3313 - Professional Nursing Skills
- HLTH 3415 - Professional Clinical Practice

#### **Additional Courses (not required for full program, subject to availability)**

- HLTH 3217 - Professional Nursing in Family Newborn

- HLTH 3219 - Professional Nursing in Child Health
- HLTH 3221 - Professional Nursing in Mental Health

# General Education

General Education at Mount Royal is a consciously structured pursuit of the aims of what has traditionally been known as *liberal education*. It ensures students achieve both breadth and depth in the skills and knowledge that are relevant to the world in which they will live. Thus, General Education provides students with the opportunity to build their ability to think critically, develop their communication and mathematical skills, stimulate their capacities for creative, innovative thinking, and enrich their knowledge of the wider social, cultural, and natural worlds in which they will live and work.

General Education at Mount Royal recognizes that undergraduate education should also strive to enrich the individual's life and benefit society apart from the requirements of employment. It should, in particular, foster knowledge and a strong reflective capacity with respect to the social, cultural, and scientific matters of importance to both the individual and the communities in which they live.

General Education courses are organized into four thematic clusters:

- Cluster 1 - Numeracy & Scientific Literacy
- Cluster 2 - Values, Beliefs & Identity
- Cluster 3 - Community & Society
- Cluster 4 - Communication

Each thematic cluster has three different tiers: foundation tier, tier two, and tier three. General Education requirements are mandatory for all students pursuing a baccalaureate degree or diploma program and will vary depending on the program. Students should review mruGradU8 or speak with their advisor to ensure that they are meeting program requirements.

## Cluster 1 - Numeracy and Scientific Literacy

### Foundation

- GNED 1101 - Scientific and Mathematical Literacy for the Modern World
- GNED 1102 - Controversies in Science
- GNED 1103 - Innovation

### Tier 2

- ANTH 1101 - Introduction to Primatology and Human Evolution
- ANTH 2102 - Methods in Biological Anthropology
- ANTH 2104 - Methods in Archaeology
- ASTR 1101 - The Solar System
- ASTR 1103 - The Universe at Large
- ASTR 1301 - Planetary Astronomy
- ASTR 1303 - Stars, Galaxies, and Cosmology
- BIOL 1205 - The Organization and Diversity of Life
- BIOL 1216 - Human Physiology
- BIOL 2203 - Human Anatomy
- CHEM 2111 - The Organic Chemistry of Life
- CHEM 2211 - The Chemistry Between Us
- CHEM 2221 - Food Chemistry
- COMP 1001 - Introduction to Computer-Based Problem Solving for the Sciences
- COMP 1103 - Introduction to Computers

- COMP 1104 - Computing and Digital Citizenry
- COMP 1615 - Introduction to Programming
- COMP 2002 - Creative Problem Solving and Programming
- ENVS 2100 - Introduction to Environmental Science
- GEOG 1101 - The Physical Environment
- GEOG 1105 - Introduction to Mapping, GIS and Remote Sensing
- GEOG 2437 - Biogeography
- GEOL 1101 - The Dynamic Earth
- GEOL 1103 - Earth Through Time
- GEOL 1109 - Introduction to Geology
- GEOL 1151 - Introduction to the Petroleum Industry: Social, Political, Economic, and Environmental Issues
- HPED 2507 - Nutrition and Health
- MATH 1102 - Introduction to Geometry
- MATH 1103 - Introduction to Statistical Reasoning
- MATH 1200 - Calculus for Scientists I
- MATH 1203 - Linear Algebra for Scientists and Engineers
- MATH 1205 - The Beauty of Mathematics
- MATH 1211 - Concepts of Mathematical Statistics
- MATH 1224 - Introduction to Statistics
- MATH 1271 - Discrete Mathematics
- MATH 2101 - Abstract Algebra
- MATH 2251 - Calculus I
- NTSC 1112 - An Introduction to Current Environmental Issues
- NTSC 1115 - An Introduction to Forensic Science
- NTSC 2201 - Environmentally Sustainable and Healthy Societies
- PHIL 1179 - Introduction to Symbolic Logic
- PHYL 1512 - Human Anatomy
- PHYS 1104 - Everyday Physics - A Conceptual Introduction
- PHYS 1201 - Classical Physics I
- PHYS 1202 - Classical Physics II
- PHYS 2101 - Energy and Climate
- PHYS 2221 - Universe-shaking Ideas
- POST 2209 - Methodology and Statistics

### **Tier 3**

- ANTH 2111 - Biological Anthropology of South Asia
- ANTH 3703 - Forensic Anthropology
- ANTH 3705 - Ancient Foodways
- ASTR 2105 - Astrobiology
- BIOL 2102 - How They Do It: Patterns of Reproduction
- BIOL 2309 - Plants and People
- BIOL 3207 - Human Conception
- CHEM 3802 - The Science and Politics of Nuclear Energy
- COMP 2511 - Web I: Client Development
- GEOG 2107 - Weather and Climate
- GEOG 2553 - Geographic Information Systems
- GEOL 2107 - Palaeontology
- GEOL 2151 - Environmental Geology and Earth Resources
- GEOL 2153 - Natural Hazards and Disasters
- GEOL 2155 - Geological History of Life

- GEOL 2157 - Water: Geologic and Geographic Issues
- GEOL 3503 - Climate Change Through Time
- GNED 3010 - Science in a Global Context
- GNED 3101 - Experiencing Science
- INST 2300 - Introduction to Indigenous Science
- MATH 1202 - Calculus for Scientists II
- MATH 2200 - Calculus for Scientists II
- MATH 2303 - Linear Algebra for Data Science
- MATH 3200 - Mathematical Methods
- NTSC 3301 - Environmental Health
- PHIL 2267 - Philosophy of Science
- PHYS 2103 - Radiation Medicine and Imaging
- SCIE 3030 - Science and Indigenous Knowledge

## **Cluster 2 - Values, Beliefs and Identity**

### **Foundation**

- GNED 1201 - Aesthetic Experience and Ideas
- GNED 1202 - Texts and Ideas
- GNED 1203 - Nature and Ideas

### **Tier 2**

- ARTH 1101 - The History of Art: Prehistory to Renaissance
- ARTH 1103 - The History of Western Art: Renaissance to the Present
- ARTH 2205 - Hipsters, Tricksters and Adventurers

## **Transfer Credit**

Transfer credit is available for students with prior university-transferable post-secondary coursework.

## Cross listed courses

Cross-listed courses refer to courses that are the same between more than one discipline. The course content could fall under either discipline. There may be graduation or accreditation requirements for students to have a certain number of courses in a single discipline. By having the course appear under two different subject codes, students have the option to register in the subject that best fits their academic needs. Because the courses are the **same**, just under different subject codes, only one iteration of a cross-listed course will be used for credit, GPA calculation, and graduation.

# Community Service Learning

## Community Service Learning

MRU recognizes CSL as a high-impact teaching and learning practice in which students apply academic theories and processes in service to community organizations through structured partnerships. Community partners and professors work together to develop deep academic learning experiences that address real-world challenges. To recognize student achievements in CSL, MRU developed the CSL Citation in 2013 (recorded as a co-curricular record in student transcripts).

The CSL Citation recognizes students' academic learning and community engagement successes. It is awarded to those who complete three CSL designated courses (a minimum of nine academic credits) throughout their program of study. CSL designated courses entail at least twenty hours of community service and are worth at least 15% of each course grade. Some courses entail CSL projects worth 100% of the course grade and over 100 hours of project work.

MRU maintains its position as a national leader in Community Service Learning (CSL), with 18 programs across the institution integrating CSL as a core practice in the 2023/2024 academic year. Over 1,300 students participated in CSL courses, contributing nearly 125,000 hours of community service learning and collaborating with almost 500 community partners. These courses, supported by the Academic Development Centre, foster innovative curriculum design and pedagogy, making a significant impact through these diverse partnerships.

CSL courses, partnership development, and faculty support are coordinated through the Academic Development Centre (ADC). Learn more by visiting the Students, Faculty, and Community Partner pages or contact us through the Contact page.

Three courses for a minimum of nine credits are required for the citation.

# Indigenous University Bridging Program

- Admission
- Curriculum

## General Information

The Indigenous University Bridging Program at Mount Royal offers advanced upgrading for students of Indigenous ancestry who wish to pursue a university education.

The program offers three levels of study, designed to ensure each student achieves the requirements for future educational goals, focusing on English and math. The core subjects are supplemented with study skills, computer, language, and Indigenous Studies courses. The program is supported by the Iniskim Centre programs including Indigenous Housing Program, Elders/Medicine Trail (Naato'ohsokoy) Program and academic advising.

The inclusion of Indigenous cultural content and support services is an integral part of the Indigenous University Bridging Program.

## Program Continuance

For program completion, students must satisfactorily complete all program requirements and coursework. Students must achieve a minimum overall GPA of 2.00 to be eligible for completion. If you are a continuing student you must meet complete a performance review once an academic year.

## Financial Assistance

You are responsible for seeking out and maintaining funding. However, after your funding is secured the Indigenous University Bridging Program works closely with your funding agent. Other resource information regarding funding and scholarships is also available from Student Awards on campus. The following is a list of possible funding sources for students:

- Individual First Nations communities
- Government agencies
- Various urban agencies

## General Admission Requirements

Admission into the program is based on attendance at an information session, the completion of the IUBP application and on the number of seats available for new students. All students must:

- Be of Indigenous ancestry
- Be a minimum age of twenty or possess the equivalent of an Alberta High School Diploma
- Have successfully completed grade 10 or better
- Submit an MRU application form indicating the Indigenous University Bridging Program with a letter of intent (an interview may also be required)
- Successfully complete a placement test
- Submit all transcripts from upgrading and/or secondary institutions

All criteria must be met for an application to be considered. Please note that enrolment in this program is limited and final admission is based on the criteria as well as available seats.

## Academic Course Requirements

- Complete one semester of placement level in English and math.
- Students must have met academic requirements to continue on in their program of choice.
- Students who are admitted into the Indigenous University Bridging Program are placed in one of the three levels according to their performance on the placement test, as well as the information contained on their transcripts. Specific attention will be placed on the subject areas related to English and math. Once a student has been placed into one of the three levels, the student will be registered in the courses specified by the program curriculum.

# Curriculum

## Level 1

- ENGL 0115 - Writing and Communication Skills
- MATH 0115 - Foundations of Mathematics I (A) - (equivalent to Math 10) **or**
- NTST 0130 - Introduction to Native Studies

# University Entrance Option

## General Information

The University Entrance option is designed for students who have applied to, or intend to apply to, one of Mount Royal's baccalaureate degree programs but may lack specific admission requirements or do not meet the competitive admission average for the program. Students in the University Entrance option will register primarily in post-secondary courses but are permitted to enroll in high-school equivalency courses in order to meet admission requirements of their intended degree program. Admission to the University Entrance option does not guarantee subsequent admission to a Mount Royal degree program.

The University Entrance option provides learning opportunities for students who wish to:

- participate in post-secondary education, and plan to pursue a university degree but may lack the specific admission requirements
- enhance their admissibility for a Mount Royal degree program through completion of post-secondary coursework and/or high-school equivalency courses
- take courses that are required for the completion of a Mount Royal degree while improving their admissibility for degree-level study

Students can complete a maximum of 30 credits (normally ten courses) as a University Entrance student. (This 30 credit limit includes any courses which the student may take as an Open Studies student.) Any awarded grade (including 'F') will count towards the limitation but withdrawals do not. Students are strongly encouraged to consult with an academic advisor before they reach this credit limit to ensure they are taking the appropriate courses. Students who reach this limit and who have not been admitted into a Mount Royal program will not be permitted to register in additional courses and may not apply to Open Studies. There is no appeal process to extend this limit.

University Entrance students who wish to upgrade their high school courses may enroll in various credit-free high school equivalency courses offered at Mount

Royal. While these courses are not eligible for Alberta Education graduation credits or high school transcript purposes, they are accepted as alternative entrance requirements for undergraduate programs offered by Mount Royal and other Alberta universities.

## General Admission Requirements

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admission* section of this Calendar except where the information contained in this section differs.

## Additional Admission Requirements

In addition to meeting the general admission requirements indicated in the *Admission* section of this calendar, applicants must also satisfy the following criteria:

## Academic Course Requirements

Admission to the University Entrance option is competitive. The grade 12 subjects which may be presented for evaluation for admissibility include the following courses from Group A, B, and C. To allow applicants who are missing a specific course requirement or require a higher grade in a specific course an opportunity to upgrade their course(s), specific subjects such as English, mathematics, etc. are not required for admission.

### High School Standing

- Group A course
- Group A course
- Group A course
- Group A or B course
- Group A, B, or C course

### Mature Standing

- Group A course
- Group A course

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of the course requirements above will take place after all final/official transcripts have been received by the

University. Applicants who do not meet these requirements will be denied admission.

### **Post-secondary Standing**

Applicants who have completed four (or more) post-secondary courses by December 31 for the Fall Semester or August 31 for the Winter Semester are not eligible for the University Entrance option. Therefore, there is no post-secondary admission route available. All applicants will be considered on the basis of high school or mature standing above.

### **Admission to a Mount Royal degree program following study in the University Entrance Option**

Admission to the University Entrance option does not guarantee subsequent admission to a Mount Royal degree program. However, University Entrance students who meet the competitive admission average/GPA of the previous year for their intended program, and who meet all other general and program-specific requirements of the program, will be offered admission to the program. Such students must apply for admission to their intended program during the early admission period.

## **Curriculum**

The four required courses consist of the following:

- General Education Requirement Cluster 1, Foundation
- General Education Requirement Cluster 2, Foundation
- General Education Requirement Cluster 3, Foundation
- General Education Requirement Cluster 4, Foundation

### **Strongly recommended**

- UGST 1001 - Effective Learning in the Undergraduate Context

## **Additional Courses**

Five courses are of the student's choosing.

Please consult the appropriate section of this calendar for course requirements of various Mount Royal degree programs, and/or Academic Advising Services.

## **Learn English for Academic Purposes (LEAP)**

Learn English for Academic Purposes (LEAP) program offers modularized delivery of instruction focusing on specific language skills and systems of English as it is used in academic studies. Courses will be both face to face and online and taught by multiple instructors. Students will also be assigned some homework to be completed outside of class.

### **LEAP Courses**

Learn English for Academic Purposes (LEAP) program has four levels beginning with a Low Intermediate level of language and progressing through to an Advanced level. Each level includes the following courses over a 13-week term with entry intake dates in September, January, and April.

### **Academic Inquiry (9 hours, lecture)**

This course focuses on reading and listening skills with an emphasis on applying strategies in academic contexts. Students will also expand their vocabulary knowledge.

- Academic Inquiry 1
- Academic Inquiry 2
- Academic Inquiry 3
- Academic Inquiry 4

### **Academic Expression (9 hours, lecture)**

This course focuses on effective communication through written and spoken expression. The use of a range of grammatical structures and pronunciation features are supported.

- Academic Expression 1
- Academic Expression 2
- Academic Expression 3
- Academic Expression 4

## **Grammar Application (4.5 hours, lecture)**

This course focuses on both the accuracy and use of level-appropriate grammatical structures.

- Grammar Application 1
- Grammar Application 2
- Grammar Application 3
- Grammar Application 4

## **Academic Connection (2 hours, Online)**

This course supports the development of students' independent academic skills in a series of 25 online modules. This also includes a face-to-face component in LEAP 4 inviting members of the MRU community to present and prepare students for entry into credit studies.

- Academic Connections 1
- Academic Connections 2
- Academic Connections 3
- Academic Connections 4

### **Additional Information**

For more information on the cost breakdown for each course and to view a sample schedule please visit the website.

## Community Service Learning

Each year Mount Royal University (MRU) undergraduates contribute knowledge and skills toward developing sustainable solutions for community organizations. They apply their education to complex issues through Community Service Learning (CSL) projects. This approach to learning deepens students' awareness of pressing issues, giving them the opportunity to earn academic credit while benefiting a community partner.

CSL is different from traditional volunteer work in that its focus is not only on providing a service but also on learning. The focus of CSL is different from co-ops, internships or practica, with an emphasis on providing concrete service to community agencies while developing student skills, self-awareness, professional capabilities, and sense of commitment to society.

MRU recognizes CSL as a high impact teaching practice that offer students the opportunity to make a positive impact in local and global communities through course based hands-on experience. Professors at MRU have employed CSL as a teaching pedagogy for more than twenty years through community based projects where students apply academic theories and processes. Community organizations work with professors to develop deep learning experiences that address real-world challenges and opportunities. In an effort to recognize student engagement MRU developed a CSL Citation in 2013 that is recorded as a co-curricular record in student transcripts.

The Citation demonstrates that a student has significantly integrated CSL into their postsecondary education by completing three courses for a minimum of nine credits that employ community engagement. CSL designated courses entail at least twenty hours of community service, and are worth at least 15% of each course grade. Some courses entail CSL projects worth 100% of the course grade and over 100 hours of project work.

CSL courses are offered across the disciplines, and are available in every faculty, including every graduate in the Nursing, Public Relations, Information Design, and Child Studies programs. CSL is supported by the Academic Development Centre regarding curriculum design, research, and development of CSL designated courses.

Note: CSL courses are based on section so check the schedule of classes to determine which section is offered as a CSL course, using the course attribute function:

Community Service Learning

# Glossary

## Academic Schedule

- A calendar of important University dates such as the first and last day of classes, deadlines for payment of fees and the last day to withdraw from a course. Students are responsible for meeting all crucial deadlines in the Academic Schedule.

## Academic Standing

- Academic Standing in its various forms applies to all current Mount Royal students and relates to students' eligibility to register in credit courses within a Mount Royal program and their eligibility to graduate from a program. The stages of Academic Standing are, in order, Good Standing, Academic Warning, Academic Probation and Required to Withdraw.

## Academic Probation

- A student is placed on Academic Probation when they have been on Academic Warning for two semesters and have a cumulative Grade Point Average (GPA) less than 2.00. A student will be permitted to remain on Academic Probation for one semester within a twelve-month period.

## Academic Warning

- A student is placed on Academic Warning when they have accumulated a minimum of nine earned credits and have a cumulative Grade Point Average (GPA) of less than 2.00. A student will be permitted to remain on Academic Warning for a maximum of two semesters within a twelve-month period.

## Admission

- Acceptance of an individual who has formally applied for admission to the University and has submitted all required official

transcript(s) and supporting documentation. Applications are evaluated according to admission policy and individuals may be admitted if they meet the admission requirements and the competitive admission standard for their intended program of study.

## Admission Requirements

- A set of specific (minimum) criteria that an applicant is required to meet to be eligible for admission.

## Advanced Placement (AP)

- The Advanced Placement (AP) Program offers college-level courses and exams that individuals can take in designated high schools through the CollegeBoard.
- Courses may be used for admission and/or transfer credit purposes.

## Advisor

- Faculty member or staff who helps students select their program of study and the specific courses that will satisfy graduation requirements for their program. Advisors have been assigned to each program the University offers. Students should keep their original advisor as long as they stay in the same program.

## Alumni

Alumni are individuals:

- who have received degrees, diplomas, credit certificates, or high school diplomas from the University;
- who have received designated credit-free certificates in the following programs: Funeral Director Extension Certificate, Herbal Therapy Extension Certificate, Massage Therapy Extension Certificate, Personal Fitness Trainer Extension Certificate, TVP Employment Preparation Extension Certificate;
- who have successfully completed one full scholastic year (30 academic credits) of

study at the university and one full year has passed since their last date of attendance; or

- who are 18 years of age or older and previously attended the Mount Royal University Conservatory for a minimum of 6 years.

## Appeal

- A request that a grade on a particular piece of work or a final standing in a course or program is changed on grounds related to the accuracy or fairness of the mark assigned.

## Approved Option

- A course relating to a student's field of study must be chosen in consultation with and approved by the appropriate academic advisor.

## Auditor

- Often referred to as an auditing student.
- A student who pays to attend a credit class. An auditor does not receive credit for attending the course and is not allowed to participate in assignments or exams. To audit a course, students must have the permission of the instructor.

## Awards

- Are monetary and/or non-monetary awards that recognize a student's achievement in a course or program that is not solely based on a GPA calculation or financial need.

## Bursaries

- Monetary awards granted to students on the basis of demonstrated financial need. Emergency bursaries are given to students as a result of urgent, unforeseen circumstances that result in immediate financial need.

## Cognate course

- A cognate course is a course from outside a defined discipline that complements and enhances the breadth of knowledge and skills found within the area of study. For example, the core requirements in the Bachelor of Science (Geology) include CHEM and COMP courses as well as GEOL courses. The CHEM and COMP courses are considered 'cognate' courses.

## Community Service Learning Citation

- Community Service Learning (CSL) citation demonstrates that a student has significantly integrated CSL into their post-secondary education by completing three designated courses (minimum of nine credits). The citation is noted on the transcript.

## Continuing Student

- A student who was enrolled in one or more courses at Mount Royal University during the immediately preceding major semester (i.e., Fall or Winter). Students who attend the Winter Semester, miss the Spring Semester, and then return for the Fall Semester are also considered to be continuing students.

## Continuance

- Continuance refers to a student's eligibility to continue in a program of studies. Unless otherwise approved by General Faculties Council, a student in Good Standing is eligible to remain in their program.

## Convocation

- The ceremony to celebrate with those students who successfully completed their program and satisfied the University's graduation requirements. The convocation ceremonies are held in early November and early June.

## Co-operative Education

- Integrated academic study and alternating paid work terms available in a number of specialized disciplines.

## Corequisite

- Course(s) students must take at the same time they are taking other particular courses.

## Course Load

- The number of courses a student takes in a semester.

## Credit

- Credit weight reflects student workload rather than classroom contact hours. Normally, students are expected to devote nine to twelve (9 - 12) hours of academic time and effort per week for a three-credit course. Academic time and effort include class time (e.g., lectures, labs, studios, tutorials, etc.) as well as any experiential or blended components. In addition, all independent study (e.g., assignments, readings, preparation, study, etc.) is included. Courses are normally valued as three credits or multiples of three credits.

## Deferred Final Examination

- A student who is unable to write a final examination at the scheduled time may apply for a deferred examination. The authority to grant or deny a deferred final examination is vested with the Chair or Dean of the academic unit in which the course is offered. *Refer to the Examination Policy and Deferred Examination sections under Academic Regulations.*

## Directed Field Studies

- Integrate academic learning with paid work experience or self-employed businesses and

may be included in the curriculum for applied baccalaureate degree programs.

## Directed Readings

- Special arrangement whereby students may pursue and receive credit in areas of study on an independent basis. See *Directed Readings* under the *Course Description* section for procedures and restrictions.

## Disqualified Student

- A student who is no longer permitted to attend Mount Royal University for a specified period of time. Students will be disqualified if they do not do well in their courses. The University transcript will carry a notation *Required to Withdraw*.

## Drop/Add

- Frequently referred to as registration adjustment or change of registration.
- Students may drop or add courses following initial registration. Courses that have been dropped do not show on a student's record.

## EAL/LEAP

- English as an Additional Language/ Learn English for Academic Purposes. Special English courses are offered to students who do not speak, read, or write English well enough to be successful in MRU credit courses. EAL/LEAP courses are offered through the Languages Institute. For further information call 403.440.5100.

## Elective

- A course that is not specified for a program but counts towards an applied degree, diploma, or certificate. While academic advisors may recommend certain courses to fulfill elective requirements, students may freely choose their electives.

## Fees

- The cost of specific goods or services that are required for the student to complete an approved program.

## Fees - Mandatory Non-instructional

- All students must pay for specific goods or services that typically enhance the student experience. They are not related to instruction in a specific program and are not optional. Examples: insurance, recreation and athletics, student services, etc.

## Formerly

- A course that has had changes to the course number and/or prefix.

## Full-time Status

- For admission, registration and advising purposes, a full-time student is one who is admitted to a designated program and who enrolls in three or more courses (normally a minimum of nine credits) in a semester.
- For financial assistance, under The Province of Alberta Students Finance Act, and for fee assessment purposes, a full-time student is considered to be one taking at least three courses and a minimum of nine credits per semester for the Fall or Winter Semesters or at least two courses and a minimum of six credits for the Spring Semester. For Income Tax purposes, a full-time student must be enrolled in a minimum of nine credits (excluding Audit courses and courses for which credit was granted by the prior learning assessment and recognition process) per semester.
- For participation on a Mount Royal University Athletic Team, a full-time student must be enrolled in at least three courses and a minimum of nine credits.

## Good Standing

- A student who has accumulated a minimum of nine earned credits, and has a cumulative Grade Point Average (GPA) of 2.00 or better is considered to be in Good Standing.

## Grade Point Average (GPA)

- The average of a student's marks. The University does not use percentage grades for final marks; thus, each letter grade is assigned a number of points (i.e., A = 4 points, D = 1 point) so that the marks can be added together and averaged. For more information, see the *Academic Status* section.

## Grievance

- A claim or complaint by a student that a University unit has reached a decision that is not in keeping with University policy or taken an erroneous action that adversely affects the student.

## Instructor

- Sometimes called a faculty member or teacher.
- A qualified individual who teaches at the University.

## Interdisciplinary Program

- An interdisciplinary program is one based on a combination and integration of courses and is comprised primarily of courses with the same discipline prefix but also includes cognate courses.

## International Baccalaureate (IB)

- The International Baccalaureate (IB) Program offers advanced courses that individuals can take in designated high schools developed by the International Baccalaureate Office, Geneva.

- Courses may be used for admission and/or transfer credit purposes.

## Internship

- An internship is a paid work opportunity that allows students to put their academic education into practice.

## Limited Enrolment Program

- A program that only accepts a fixed number of entering students. Most programs at MRU have limited enrolment.

## Option

- A course selected by the student from the list of courses available in the calendar. It counts toward an applied degree, diploma or certificate.

## Parchment

- The award received for successful completion of the University's graduation requirements for a baccalaureate degree, applied degree, diploma or certificate.

## Part-Time Status

- A student who is admitted to a designated program and who enrolls in one or two credit courses (normally fewer than 9 credits) in a semester.

## Petition

- A request that a regulation be waived on compassionate grounds or because of extenuating circumstances (i.e., petition for readmission or against disqualification).

## Practicum

- A course of study involving supervised practical work.

## Prerequisite

- Course(s) that students must successfully complete prior to taking a higher-level course. Students who register in a course for which they do not have a prerequisite may be deregistered from that course.

## Program

- An approved group of related courses leading to a baccalaureate degree, applied degree, diploma or certificate.

## Progression

- Progression refers to a student's eligibility to register in a course. Eligibility is determined by, but not limited to, prerequisite/corequisites. A student 'progresses' through a program by successfully completing all requirements.

## Re-Admitted Student

- An individual who has previously attended the University and applies for re-admission following an interruption of their studies beyond the allowable absence period.

## Registration

- The process of enrolling in a course(s) for the purpose of completing an academic credential. Students must be admitted and/or adhere to academic standing guidelines to register.

## Required Courses

- Often called compulsory courses. Specific courses in a program that relates to the field a student is studying. Students may not substitute any other course for a required course without the written permission of the program chair. To graduate, students must complete all the required courses outlined in their program pattern.

## Required to Withdraw

- A student is Required to Withdraw from the institution for a minimum of twelve months when they have been on Academic Probation for one semester and have a cumulative Grade Point Average (GPA) less than 2.00. The University transcript will carry a notation Required to Withdraw.

## Scholarships

- Monetary awards granted to students on the basis of academic achievement and, in some cases, extracurricular activities.

## Semester

- Each academic year at the University is divided into periods of time called semesters. At Mount Royal, the Fall and Winter Semesters each last 13 weeks and are referred to as major semesters. Additionally, Mount Royal has compressed, 6.5-week Spring and Summer Semesters. Some courses may deviate from this standard. Students who attend the Spring and Summer Semesters receive the same number of hours of instruction for each course taken as in the Fall or Winter Semesters.

## Student Loan

- A government loan to help students pay for books, tuition and living expenses while attending a college, university or technical school. Students must start paying back their loans once they have been out of school for six months. See the Financial Aid section for more information.

## Transcript

- Sometimes called an academic record or student record.
- A permanent record of all of a student's courses, credits and grades. Transcripts are maintained by the Office of the Registrar and

are only released upon written request by the student.

## Transfer Credit

- Courses completed at a recognized accredited post-secondary institution may be recognized as transfer credit if the courses are considered by the University to be comparable to credit courses offered at the university and if the courses satisfy graduation requirements for a Mount Royal University credential program. Transfer equivalencies (see definition) become Transfer Credit if the course satisfies a graduation requirement for the student's program of study.

## Transfer Equivalency

- Courses completed at a recognized accredited post-secondary institution with a minimum passing grade will be evaluated for transfer equivalency. Although the course may not apply to the student's current program of study, it may be used to determine eligibility to register in a particular course (prerequisite checking) and/or admission requirements. In addition, course equivalencies may be used in a degree audit to determine transfer credit for a student's current program or used to perform hypothetical scenarios.

## Tuition

- The cost of instruction for courses that are part of approved programs.

## Withdrawal

- Students receive a "W" grade following official withdrawal from a course(s). Students who do not withdraw from courses using the proper procedures can be given an "F" grade in the course(s) even if they haven't attended class.

## Withdrawal with Cause

- A student receives a "WC" notation on their transcript following official withdrawal from a course(s) due to special circumstances. A student must apply for a WC and provide supporting documentation.

## **Work Experience**

- Integrated academic learning with paid work experience included in the curriculum and required for a number of baccalaureate degree programs.
